Retailers of country produce and Fruit will find it to their advantage to give us a call, or send us their orders. [jan 9

Hon. Jno. A. J. Creswell.—We believe every Republican journal in Maryland, except one, is not only in favor of Hon. John A. J. Creswell having a place in Gen. Grant's Cabinet, but are urging it with considerable warmth. We cannot for the life of us see why a single paper in the Republican party should object in the least, for it cannot be denied that he is the leading Republican in Maryland and one of her very brightest stars in point of oratory.—Since the death of Henry Winter Davis, the great and talented leader of Republicanism in Maryland, none have so well followed in his footsteps as Jno. Creswell. It is true Colonel Creswell has opponents in some parts of the State—even in the Republican party—but when the political lives of such men are thoroughly examined, it will be found that their opposition to him at first grew out of his bold and fearless advocacy of emancipation—speedy and effectual emancipation—while they opposed it or were too timid to stand by his side in the great conflict. The opposition of such persons to one of Maryland's most talented sons, can be entertained from no other cause than from the fact that he has kept in advance of the people, but he had the nerve to sustain him and the talent even to make him admitted by his political opponents. When Col. Creswell was first brought out for Congress we gave him our support and we hope his great labors and usefulness while representing his State, will be rewarded by a position in the cabinet of Gen. Grant.

Scuttled.—On Tuesday night last, a white man by the name of Wm. Bell and a colored man named Kelly, sailors on board of a sail vessel, lying at anchor in Shipton creek, went to bed in the cabin of the boat, apparently in good health. On Wednesday morning about nine o'clock they were found dead—Bell dead and Henry speechless. It appears that when they retired for the night they fastened up the cabin very closely and left a coal of fire, without a chimney, burning, which is supposed to have been the cause of suffocation. The colored man died on Thursday morning.

☞ In another column will be found a card over the signature of Capt. E. L. Hardcastle, in reference to a circular put in circulation, without date and said to contain most extravagant and ridiculous statements about the progress and the profits now being derived from the rail road. The statements referred to are made over the name of Capt. Hardcastle, as President of the company, when he knows nothing of its origin nor by whom it is put into circulation

CIRCUIT COURT.—The February Term of the Circuit Court for Talbot county, commenced on Tuesday last—Judge Stump presiding.

Thomas Brady, a native of Ireland, appeared and declared his intention to become a citizen of the United States.

There was very little of other business done except to draw Jurors for the May Term, the names of which we refrain from publishing at present.

☞ On Wednesday, March 10th, the Maryland Annual Conference of the Methodist Protestant church will be held at Congress Street church, Georgetown. The delegates from Easton, Trappe, and Oxford, are Joseph Graham, and Robert Butler. Alternates—N. Leonard and W. H. Councell.

Congressional.—During the past week, the suffrage amendment to the constitution has principally occupied the attention of both houses of Congress. There have been other subjects considered, but none of any great moment to the people generally. On Saturday the House passed the proposed amendment and it now goes to the Senate for the action of that body. What will be its fate in that body is pretty generally conceded, and the entire subject will soon be submitted to the State Legislatures for their ratification or rejection. The amendment is as follows;

ARTICLE—

Sec. 1.—The right of any citizen of the United States to vote shall not be denied or abridged by the United States, or any State, by race, color, or previous condition of slavery of any citizen or class of citizens of the United States.

Sec. 2.—The Congress shall have power to enforce, by appropriate legislation, the provisions of this article.

It is thought that this amendment will fail to receive the approval and the requisite number of State Legislatures at present, but that it will eventually become a part of the constitution there seems to be no doubt.

☞ The Annual Meeting for Merion, agent of the Adams Express Company at Easton, amounted to, on Tuesday last, nothing with over a thousand dollars. Of this amount, thirty odd dollars belonged to the railroad company and the balance was made up of packages which have to be forwarded to different places in Baltimore and elsewhere. The parties however, should the receipt of the company, in this town, and will, of course, be no loss therefore. Four hundred and thirty eight dollars of the amount was left with him by Mr. G. Blackston, of this town, to be expressed to Baltimore, and Mr. Jas. K. Salisbury has also expressed near eighty dollars. Dr. Goldsborough, the Superintendent of the Railroad, telegraph in this direction as soon as it was ascertained that Morton had departed, and expert detectives are on the search for him. Our latest advices state that he is still at large, yet we have no doubt but that he will eventually be captured. We learn that an agent of the Express Company is at Ridgely endeavoring to ascertain the amount of money missing in order to make future shipments.—*Denton Union.*

The First Herring.—The first herring of the season was caught on Friday last by Mr. Michael Pinkins, on the Hopkins shore a little above town. The recent warm weather has had the effect of driving them up the rivers, and we have been told that several were taken out of Tuckahoe creek last week.—*Ib.*

Md. & Del. Railroad.—The indications at present are that this road will be completed to Easton within the time specified in the contract—within ninety days from the first of January. A very large force of men are at work upon the road, and should no inclement weather stop the operations it is believed the work can be completed at the stipulated time.—*Ib.*

Omnibus.—One of the most healthy signs that our community is improving in morals is contained in the fact that the hitherto large number of *La Crosse Democrats* taken here has dwindled down to a *single copy.* It was first introduced by a man who represented it as a better newspaper than the New York Ledger. One year's trial has convinced the people of the truthfulness of the assertion.—*Ib.*

Attempt to Rob and Murder.—On Thursday night last, Hon. Algernon S. Piper, living in the immediate vicinity of Vienna, was awakened by the noise of some one coming in the upper part of his house through a back window. He immediately started for his gun, but recollecting that it was not loaded, he armed himself with an old sword, with which he proceeded to meet the intruder. The latter first tried to break open a door leading to a room occupied by a female servant, but finding his efforts unavailing, he then proceeded to the room of Mr. Piper. That gentleman, sword in hand, met him in the passage and discovered that it was a German whom he has had in his employ for some time. The would be murderer and robber fell on his knees, and begged for mercy, which was granted. He was confined in a room until morning, and in response to his earnest prayers to be let off, stating that he would at once leave the neighborhood, Mr. Piper actually sent him to Seaford, Del., in his carriage. Once there, the German gave the party who drove him to understand that he would yet return, and do some serious damage to Mr. Piper. The latter, hearing this, sent word to Cambridge, to have the villain arrested, but thus far no arrest has been made. There can be no doubt of the desperado's intent as he had that day suspiciously watched Mr. Piper as he was paying away some money.—*Cambridge Herald.*

Death of a Female Lecturer.—Our readers will remember a couple of lectures delivered at different times at Hayward Hall, in Cambridge, by Miss Augusta M. St. Clair. We are pained to announce that the fair deliverer of these excellent readings is no more. She died on last Thursday, at Salt Lake City, Utah.

We spent a portion of an evening in the company of this talented young female, and we do not recollect of ever having met before or since, a more perfect lady in her deportment.—She was highly educated, and extensive travel in various countries had served to store her mind with a large amount of valuable information. She was one of the finest formed females our eyes ever beheld—in shape a perfect model for a sculptor. But the formation of her body was her only beauty. Her intellect was lofty and well-poised, clear and epigrammatic. Instead of conversing upon trivial subjects as most ladies do when in the company of men this fair lecturer gave utterance to political, scientific and financial views that would have done credit to a statesman, a sage or a financier. At our suggestion, she prepared a Lecture on the South, which she afterwards delivered with great pecuniary success. The gentleman who accompanied her was her father, and we deeply sympathize with him in his irreparable loss.—*Ib.*

☞ We clip the following from the leading columns of the "Leader," Cleveland, Ohio, one of the most influential papers in the West:

"HOOFLAND'S GERMAN BITTERS.

In calling the attention of our readers to this valuable preparation, we do so with a full conviction that it is a highly scientific remedy for Dyspepsia, and all diseases arising from a disordered state of the Liver or Stomach. In making this assertion, we are sustained by the testimony of many of the eminent professional men of the country. Lawyers, physicians, and clergymen, all bear witness to its great usefulness. It contains no alcoholic stimulant, but is purely medicinal, being compounded from the prescription of one of the most celebrated physicians of his day, and is well known and used by the faculty at the present time. It has been before the public in its present shape for over twenty years, and during that time has become known all over the world. To those in need of a remedy of this character, we would say procure it at once, and do not waste your time and money on the worthless compounds that now flood the market; and those who are not in immediate want of it, we would advise to be prepared to battle with disease by keeping it always in the house.

HOOFLAND'S GERMAN TONIC

Combines all the ingredients of the Bitters with pure Santa Cruz Rum, orange, anise, &c. It is used for the same diseases as the Bitters, in cases where Alcoholic Stimulant may be necessary. It is a preparation of rare value, and most agreeable to the palate. Principal Office, 631 Arch St., Philadelphia. Sold everywhere. [dec 26-1m

ERRORS OF YOUTH.

A Gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effect of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the recipe and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence, JOHN B. OGDEN, [jan 9-1y 42 Cedar St., New York

TO PHYSICIANS.

New York, August 15th, 1867.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, Lobelia Inflata, CUBEBS JUNIPER BERRIES.

Mode of Preparation—Buchu, in vacuo, Juniper Berries by distillation, to form a fine gin. Cubebs extracted by displacement by liquor obtained from Juniper Berries; containing very little sugar, a small proportion of spirit, and more palatable than any now in use. The active properties are by the mode extracted.

Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance the action of a flame destroys this (its active principle,) leaving a dark and glutinous decoction.—Mine is the color of its ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup, and therefore can be used in cases where fever or inflamation exists. In this, you have the knowledge of the ingredients and the mode of preparation.

Having thus put you well over it with a trial, and that upon inspection it will meet with your approbation. With a feeling of confidence,

I am, very respectfully,

H. T. HELMBOLD,

Chemist and Druggist of 18 Years' Experience in Philadelphia, and now located at his Drug and Chemical Warehouse, 594 Broadway, New York.

[From the largest Manufacturing Chemists in the World.]

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence and was successful in conducting the business when I first had my attention equally before him. I had been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,

Firm of Powers & Weightman, Manufacturing Chemists, North 2d and Brown Streets, Philadelphia.

Helmbold's Fluid Extract Buchu, for weakness arising from indiscretion. The exhausted powers of nature which are accompanied by so many alarming symptoms, among which will be found, indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil, in fact Universal Lassitude, Prostration and inability to enter into the enjoyment of society.

The Constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no stimulant is submitted to, Consumption or Insanity ensues.

Helmbold's Fluid Extract Buchu, in affections peculiar to Females, is unequaled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus, and all complaints incident to the sex, whether arising from habits of dissipation, imprudence in, or the decline or change of life.

Helmbold's Extract Buchu and Improved Rose Water will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change of diet, no inconvenience or exposure; completely superseding those nauseous and dangerous remedies, Copaiva and Mercury, in all those diseases.

Use Helmbold's Fluid Extract Buchu in all disease of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. Helmbold's Extract Buchu is the great Diuretic. Sold by Druggists and Dealers everywhere. Price—$1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications. Address H. T. HELMBOLD Drug and Chemical Warehouse, 594 Broadway, N. Y.

☞ NONE genuine unless done up in steel-engraved wrapper, with fac-simile of Chemycism Warehouse, and signed

H. T. HELMBOLD.

UNION PACIFIC RAILROAD CO. AND CENTRAL PACIFIC R. R. CO. FIRST MORTGAGE BONDS.

This great interprise is approaching completion with a rapidity that astonishes the world. Over fifteen (1500) hundred miles have been built by two (2) powerful companies: the Union Pacific Railroad, beginning at Omaha, building west, and the Central Pacific Railroad, beginning at Sacramento, and building east, until the two roads meet. Now that the hundred and fifty miles remain to be built, The greater part of the interval is now graded, and it is reasonably expected that the through connection between San Francisco and New York will be completed by July 1.

As the amount of Government aid given to each is dependent upon the length of road each shall built, both companies are prompted to great efforts in pushing the construction and control of what, when completed, will be one and the only grand Railroad Line connecting the Atlantic and Pacific coasts.

One Hundred and Ten Million Dollars in money have already been expended by the two powerful companies engaged in this great enterprise, and they will speedily complete the portion yet to be built. When the United States Government found it necessary to secure the construction of the Pacific Railroad, to develop and protect its own lands, it gave the companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The Government aid may be briefly summed up as follows:

1st. The right of way and all necessary timber, and stone from public lands.

2d. It makes a donation of 12,800 acres of land to the mile, which, when the road is completed, will amount to twenty-three million acres, and all of it within twenty miles of the railroad.

3d. It loans the companies fifty million dollars, for which it takes a second lien.

The Government has already loaned the Union Pacific Railroad twenty-four million and fifty eight thousand dollars, and to the Central Pacific Railroad seventeen million six hundred and forty-eight thousand dollars, amounting in all to forty-one million seven hundred and six thousand dollars.

The companies are permitted to issue their own First Mortgage Bonds to the same amount as they receive from the United States, and no more. The companies have sold to permanent investors about forty million dollars of their First Mortgage Bonds. The companies have already paid in (including net earnings not divided, grants from State of California, and Sacramento city and San Francisco,) upwards of twenty-five million dollars of capital stock.

WHAT IS THERE YET TO BE DONE?

In considering this question it must be remembered that all the remaining iron to finish the road is contracted for, and the largest portion paid for and now delivered on the line of the Union Pacific Railroad and the Central Pacific Railroad, and that the grading is almost finished.

WHAT RESOURCES HAVE THE COMPANIES TO FINISH THE ROAD?

1st. They will receive from the Government as the road progresses about $9,000,000 additional.

2d. They can issue their own First Mortgage Bonds for about $9,000,000 additional.

3d. The companies now hold almost all the land they have up to this time received from the Government; upon the completion of the road they will have received in all 23,000,000 acres, which at $1.50 per acre would be worth $34,500,000.

In addition to the above the net earnings of the roads and additional capital, if necessary, could be called in to finish the road.

WAY BUSINESS—ACTUAL EARNINGS.

No one has ever expressed a doubt that as soon as the road is completed its through business will be abundantly profitable.

Gross earnings of the Union Pacific Railroad Company for six months, ending January 1st, 1869, were upwards of $4,000,000

The earnings of the Central Pacific Railroad, for six months, ending Jan. 1st, 1869, were, $1,750,000 gold

| | |
|---|---|
| Expenses, | $550,000 gold, |
| Interest, | 450,000 " |
| | $1,000,000 " |
| Net profit of Central Pacific Railroad, after paying all interest and expenses for six months, | $750,000 gold, |

The present gross earnings of the Union and Central Pacific Railroads are $1,200,000 monthly.

HOW LARGE A BUSINESS IS IT SAFE TO PREDICT FOR THE GREAT PACIFIC RAILROAD?

We would give the following facts derived from Shipping Lists, Insurance Companies, Railroads, and general information:

| | |
|---|---|
| Ships going from the Atlantic around Cape Horn, 100, | 80,000 tons, |
| Steamships connecting at Panama with California and China, 55, | 120,000 " |
| Overland Trains, Stages, Horses, etc., | 30,000 " |

Here we have two hundred and thirty thousand tons carried westward, and experience has shown that in the last few years the return passengers from California have been nearly as numerous as those going.

HOW MANY PASSENGERS ARE THERE?

We make the following estimates:

| | | |
|---|---|---|
| 110 Steamships (both ways) | 70,000 | (actual for '68.) |
| 200 Vessels " " | 4,000 | estimated " |
| Overland, " " | 100,000 | " " |
| Number per annum, | 174,000 | |

Present price (averaging half the cost of the steamships,) for both passengers and tonnage, gives the following result:

| | |
|---|---|
| 174,000 passengers at $100, | $17,400,000 |
| 400,000 tons, rated at $1 per cubic foot, | 15,640,000 |
| | $33,040,000 |

Basing calculations upon the above figures, without allowing for the large increase of business, which can safely be looked for, then estimate the running expenses at one half and we have a net income of $16,520,000, which, after paying the interest on the First Mortgage Bonds and the advances made by the Government, would leave a net annual income of $9,000,000 over and above all expenses and interest.

The First Mortgage Bonds of the Union Pacific Railroad Company and the First Mortgage Bonds of the Central Pacific Railroad Co., are both, principal and interest, payable in gold coin, and run for thirty years, and they cannot be paid before that time without the consent of the holder.

First Mortgage Gold Bonds of the Union Pacific Railroad for sale at par and accrued interest, and the First Mortgage Gold Bonds of Central Pacific Railroad at 108 and accrued interest.

A CARD.

MY attention has been called to a printed Pamphlet of 20 pages, without date, with the following title, viz:

"The Md. & Del. R. R. Company."

"CAPITAL STOCK $300,000."

"FIRST MORTGAGE BONDS $850,000."

Next to the title page, at the head of the list of officers, appears my name as President, which implies—if it was not designed to convey this sanction and authority for the publication.—While I feel a deep interest in the welfare of the Road, I deem it proper in vindication of myself to announce, that I am in no wise responsible for the statements made in said Pamphlet; and that its publication was never authorized by the Board of Directors during my administration of the Company's affairs. I have no knowledge of the author, and never saw a copy of the pamphlet before last night.

EDM'D L. F. HARDCASTLE,

Late President Md. & Del. R. R. Co.

Easton, Md., Feb. 3, 1869.

In the Pamphlet above referred to our names being given as Directors in the Company, we desire to disclaim any responsibility for or knowledge of its publication.
