Also Agents for the sale of Guano and the Fertilizers generally. Apples by the barrel and Dried Fruits always on hand. Retailers of country produce and Fruit will find it to their advantage to give us a call, or send us their orders. [jun 9

NEWS ITEMS.

A circular about to be issued from the Treasury Department, over the Secretary's signature, informs Collectors of Customs that no subordinate officer of customs can be appointed or removed without the previous sanction of the Secretary of the Treasury. Where the urgency of the case requires the employment of an officer to be discontinued before the Secretary's sanction can be obtained, he may be suspended, and the case must be reported at once to the Secretary. When additional officers are required the necessity will be reported and rate of compensation to be allowed. If approved by the Secretary they will be nominated for the positions, and the above course pursued. A provision is inserted to cover appointments in cases of absolute necessity, where the Secretary cannot be consulted in time. Appointments will in that case be made, and the facts reported to the Secretary at once. Appointees will take the oath of office before entering on duty, and in no case will services be held to have commenced before the date of the oath.

Several days ago some suspicious characters offered to sell a Wall street operator $125,000 of bonds stolen some time ago from Mr. Bennehoff, of Pittsfield, Pa., for $106,000 in greenbacks. The police were informed of the fact, and on Friday detectives were sent to Hudson City, New Jersey, to conclude the negotiations. The parties met at Rush's Hotel, and John Laidlow, Gabriel Corbyne and Arnold Brown passed over to the detectives a package said to contain the stolen bonds, receiving in return a package containing $106,000 in counterfeit greenbacks. Soon after the transaction was completed Laidlow and his partners were arrested on the charge of robbing Mr. Bennehoff, but upon examination their package was found to contain one genuine $1,000 bond and about three pounds of old paper.

During the war there were lost on our Southern coast, and in the inland rivers of the insurrectionary States, a great number of vessels.—Off the blockaded ports numerous would-be blockade-runners were stranded, and their hulls and engines left on the beach until the end of hostilities. Snags and torpedos buried many a goodly steam craft beneath the surface of harbors and rivers. The steam machinery thus submerged was probably worth millions of dollars in the summer of 1865. All this sunken wealth was the undisputed property of the government, but, strange to say, no efforts were made to recover any portion of it. After a delay of five years, the War and Navy Departments have transferred to the Treasury Bureau the power to contract for the recovery of this wrecked armada. Mr. Boutwell, being busy with the reduction of the debt, has transferred his authority in this too-long deferred matter to the Division of Captured and Abandoned Property—a sub-department in the Treasury Office.

Senator Warner, of Alabama, who arrived in Washington on Monday represents affairs in his State in a flourishing condition. The crops are in an excellent condition, and the yield of cotton, wheat and corn will be greater than in any season since before the war. The recent election for members of Congress passed off quietly throughout the State, excepting at Mobile. The Republican party in the State has a splendid organization, not being hampered with the troubles of the Republicans in Virginia, Tennessee and Mississippi. At the election week before last, the Republicans elected four out of six members of Congress, and have a majority of twelve thousand on the popular vote of the State. There is no disfranchisement in Alabama.

Washington despatches say that the President has informed Texas politicians that the administration would not give its influence to aid their people to full restoration before Congress meets unless they elect persons to office who can take the test oath, choose a Legislature that will promptly ratify the Fourteenth and Fifteenth Amendments to the Constitution, and make laws securing most complete equality and protection to all classes of citizens. The President has not, so far as is known, expressed preference for either Davis or Hamilton as Governor.

At an early hour on Saturday morning a northern bound passenger train on the Northern Central Railroad, met with a serious accident while passing over the track of the Schuylkill and Susquehanna Rail road, nine miles west of Harrisburg. A huge rock had fallen on the track and the engine striking it at a rapid speed, the whole was the result. The only persons killed were the engineer, Wesley Stewart, a resident of Baltimore, and the fireman, Samuel Crisman, a resident of Reading. Several of the passengers were slightly bruised. A Coroner's jury exempted the Northern Central Railroad Company from any blame.

The idea of constructing a ship canal across the Isthmus of Darien and thus uniting the Atlantic and Pacific oceans, has received a new impetus in the fact that Rear Admiral Charles H. Davis recently returned to the United States in the steamship Guerriere from the command of the South Alantic fleet, has been ordered to make arrangements for a survey of the Isthmus in order to ascertain the practicability of cutting the canal. Likely enough this will be the next great work to which the constructive genius and enterprise of American engineers will be applied.

Prominent Republicans say that if Johnson is elected to the Senate from Tennessee, they will vigorously advocate the election of Butler to the Senate from Massachusetts to succeed Wilson. It is certain that if Johnson gets into the Senate there will be a very strong movement among the extreme Radicals to transfer Butler from the House to the Senate, in the expectation that he will be a match for Johnson.

A letter from South Carolina says that a Chinese immigration agent has been in that State for some weeks past, and has made contracts with a number of planters there to furnish them with Chinese laborers by the first of the new year. One rice planter has contracted for two hundred and fifty Chinamen to substitute for his negroes.

Gen. John A. Dix, late Minister to France, was arrested in New York on Tuesday at the instance of John Mitchell, "the Irish Patriot," who charges him with illegal imprisonment.—Mitchell, it will be remembered, was arrested in that city and imprisoned at Fortress Monroe by Gen. Dix in the summer of 1862, and upon this fact he brings suit for $25,000 damages.—Gen. Dix gave security in the amount of $20,000 to answer the charge.

☞ In looking over the columns of the Journal on Thursday last, we noticed an article copied from the Cambridge Herald and Democrat, denouncing such papers as have charged upon their own party (the Democratic) the formation of "rings," corruption in office, &c., and closes by warning the people against such papers and their friends as disorganizers, prompted by Republicans, with the hope that the offices of the State may again be restored to the Republican party. The Journal prefaces the article by saying that "the arguments and statements are so applicable to the state of affairs here, that we cannot help giving it a place in our columns." In this statement we beg to differ with the Journal. How it can apply to the Republicans of this county we cannot imagine. Whatever trouble the Democracy has in its ranks, originated with themselves and is being carried on according to their own notions, without Republican interference, and it is preposterous to talk of a mere handful of Republicans influencing three or four times their numbers of the opposite party. The Republicans are mere spectators in the scene and feel very much gratified at the many *compliments* that are being paid their party on account of the able and economical manner in which they conducted the affairs of the county and of saving to tax-payers during their administration.

LOCALS.

☞ We publish below a list of the Income payers of this Division (Talbot and 1st, 2nd and 3rd election Districts of Caroline counties,) as taken from the Assistant Assessors Books. We have no doubt a great many will be astonished to see so little income and so few wealthy men. Indeed it is wonderful how some men can do so little:

☞ We are frequently asked in reference to the running of the cars on the Md. & Del. Rail Road, the hours of starting, arriving, &c. We would say for the information of those interested that, going North, the cars leave Hillsborough at 6:10, and arrive at Clayton at 8:10, Wilmington at 10:15, and Philadelphia at 11:45 A.M., Baltimore at 1:15, and New York at 4 P.M. Going South, the train leaves New York at 12:30, Baltimore, 7:25, Philadelphia, 8:30, Wilmington, 10:10, A. M., and arrive at Hillsborough at 1:55 P. M. Persons wishing to go by Wright's stage to the cars must be ready by 2 or 21 o'clock, A. M.

☞ We understand that it is the intention of the Company to open the road for passenger travel at the earliest moment that the track can be put in proper order, for which purpose the entire force will be occupied. In view, however of the necessities of peach growers and other freighters, it is proposed to start a freight train early in the week, probably on Tuesday. The peach cars will run through to New York, where peaches are now selling from $1.50 to $2.50 per box. The freight, we understand, will be about 65 cents and boxes returned or replaced by the Commission Merchant to whom the cars belong. The train will arrive at Easton about 8 o'clock, P. M., and leave about 8 A. M., of which notice will be given by the company.

POST OFFICE CHANGE.—E. T. Benson, Esq., has been appointed postmaster at Royal Oak, in place of Mrs. M. A. Speakers, removed. Mr. Benson held this office for several years previous to the appointment of Mrs. Speakers, and filled it satisfactorily, but under the Johnson administration he was removed on account of political prejudices.

☞ The track on the Md. & Del. Rail Road is now laid on a line with the town of Easton and within a few hundred yards of the town, to which point the locomotive runs several times a day. When the passenger train will commence, we have not understood.

FINE PEACHES.—We have received from Mr. Edward Woodall, a basket of the finest peaches—both in size and flavor—that we have seen this season. For this favor, he will please accept our sincere thanks.

THE CAMP.—The Camp meeting of the M. E. Church, South, commenced at Chilcoat's Springs yesterday.

(Communicated.)

COLUMBIA, PA., Aug. 15th, 1869.

DEAR FRIEND:—I promised to write to you and give you some account of my travels in Southern Pennsylvania. I left Easton on the 10th inst., and notwithstanding my desire to avoid ostentation and display, yet all along the route I was received with numerous marks of attention which indeed were highly gratifying considering they were entirely unanticipated. I arrived at this place on Friday last and have passed the time most pleasantly among my friends who are highly gratified at my arrival. Columbia is a thriving town, population about 10,000. It is the terminus of the Philadelphia and Columbia Railroad, and is the centre of a large limeston business. The citizens here who call to see me speak in glowing terms of the prosperity and enterprise of the surrounding country, and I, accordingly, not to be outdone, gave them a vivid description of the Eastern Shore of Maryland and of Talbot county in particular, which I assured them was rapidly becoming the most important section of the country. I spoke of the advantages of our position, the beauty and fertility of our lands and the enterprise of our people, not forgetting to tell them that our Railroad was completed and that by special request of the officers, I had travelled over the whole line for the purpose of giving it my endorsement, which I now cheerfully do.—I also enlightened them on many other points of interest, such as our resources in marl, calcined shells and the fossil remains of animals, among which were those of the elephant which have attracted the attention of many eminent naturalists, and given such an impetus to the scientific world. I also informed them that there were other towns on the Eastern Shore, such as Cambridge, Denton and other places, which, although of secondary importance compared with Easton, were nevertheless thriving towns. I did not omit to tell them we had a base ball club which had won deserved laurels and of which the Red Stockings were afraid, as the latter club in its travels through the country studiously avoided the Eastern Shore of Maryland. In short, I daily impressed our citizens of Columbia with the great advantage to the purchaser of our section of the country, and how easy the means of communication, and requested them to return. I think many of them will come down for the purpose of improving their condition, and may perhaps return through Baltimore, but as I am traveling for the benefit of my health, and wish to avoid public demonstrations, I do not wish my arrival announced, but prefer traveling quietly among my friends at Easton.

Very truly, yours,

J. T.

The memory of the oldest inhabitant cannot recall the time when the river Schuylkill, from Fairmount dam, as far up as Morrisville, and probably further, presented such a dearth of water as it does at the present time. Not only are the waters all run over the dam at Fairmount, but so low is it that the small breakwater of stones and earth that supports the dam on the north side, is all plainly visible, and a broad strip of grass stretching the entire length of the dam, from shore to shore, can be seen. This would be enough of itself to tell the story about the low water, but when it is known the reservoir at Fairmount displays the unusual sight of nearly all the receptacles for water being almost entirely empty.

The western section of the reservoir, known as the Spring Garden and Girard, is the first portion of the basin or succession of basins to receive the water from the Fairmount works, contains a small quantity of water, but it is so low that the pipes leading into the other sections are high and dry, and what, perhaps, has never before happened, are plainly visible. The other sections are so devoid of water that the muddy bottoms can be seen in some of them.

Above Fairmount dam, the shores that should be under water, stretch out in some places a distance of perhaps a hundred feet from ordinary low water mark, if, that term may be applied to the river above the dam.

Below Manayunk, rocks and sand bars in the middle of the river that have not been exposed to view for years, are plainly visible above water.

Chief Engineer Graff spent nearly the entire day at Fairmount and vicinity, on Saturday, endeavoring to overcome the difficulty of obtaining a supply of water. He had a consultation at Fairmount locks with some of the officers of the Schuylkill Navigation Company, and the result of it was that the reservoir at Fairmount will be supplied with enough water to last one day more, and probably for two days, with careful usage.

Chief Graff succeeded in getting an active co-operation of the Schuylkill Navigation Company in the present emergency, and that corporation not only waived, for the time being, the priority of right peremptorily granted them by their charter to the use of the Schuylkill water, but permitted the Chief Engineer to telegraph to the keepers of overseers of the dams at Norristown and further up the river, to throw open the gates of those dams and permit all the water confined there to find its way to Fairmount dam.

SPECIAL NOTICES.

QUANTITY vs. Quality. Helmbold's Extract Sarsaparilla. The doses small. Those who desire a large quantity and large cost of medicine ask.

PATENT OFFICE.

Inventors who wish to take out letters Patent are advised to counsel with MUNN & CO., Editors of SCIENTIFIC AMERICAN, who have prosecuted claims before the Patent Office for more than Twenty Years. Their American and European Patent Agency is the most extensive in the world. Charges less than any other reliable agency.

A Pamphlet, containing full instructions to inventors, is sent gratis. Address MUNN & CO., 37 Park Row, New York.

MANHOOD.

IN THE YOUNG AND RISING generation, the vegetative powers of life are strong, but in a few years how often the pallid hue the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inward upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation and visiting the cheek with the blood of health. Alas! instead, appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain; the parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S EXTRACT BUCHU, for Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions of the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society, Nothing is more desirable to such patients than Solitude, and nothing they more dread, for Fear of Themselves; no Repose of Manner, no Harmonious Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably removes—soon follow Loss of Power, Fatuity, and Epileptic Fits, in one of which the patient may expire.

NOT A FEW of the worst disorders that afflict mankind arise from corruption of the blood. HELMBOLD'S EXTRACT SARSAPARILLA is a remedy of the first merit.

NEEDHAM'S

CHURCH, School and Parlor Organs and Melodeons of every description, at reduced prices. Send for a copy of the last edition of the

"Silver Tongue,"

TO OWNERS OF HORSES AND CATTLE.

TODIAS' Derby Condition Powders are warranted superior to any others. We do not pretend to cure Distemper, Worms, Bots, Obstinate Hide Bound, Colds Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and innocent, no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs, also increase the milk of cows. To them a cow will give milk when not with calf. To them a horse is celebrated for giving a fine coat. To them Hiram Woodruff, celebrated trotting horse, I used for years. Col. Philo. P. Bush, of the Jerome Race Course, Fordham, New York, would not use them on all the horses he had, if he knew what they are composed, as only number horses it contains; and for the benefit of the horse fancyers he has given the receipt for them. Make inquiry of your druggist for them. Price 25 cents per pkt. Sent by mail for 30 cents in stamps. Depot, 10 Park Place, New York.

Sold by Druggists and Storekeepers everywhere. Price 25 cents per pkt., or six packets for $1.00. Delivered to any address. Describe symptoms in all communications.

Address H. T. HELMBOLD,
Drug and Chemical Warehouse,
594 Broadway, New York.

NONE ARE GENUINE unless done up in a steel-engraved wrapper, fac-simile of my Chemical Warehouse, and signed

IN THE SPRING MONTHS, the system, naturally undergoes a change, and HELMBOLD'S SIMPLE CONCENTRATED EXTRACT OF SARSAPARILLA is an assistant of the greatest value.

PECULIAR ADAPTABILITY.

Brandreth's Pills

Their peculiar adaptability to all constitutions as a cleanser of the bowels and the blood has established a self-great merit. They restore the liver, the spleen and open the heart to healthy action, when other remedies have been used without producing any benefit. They do not expose those who use them to any danger. What is life to sufferers.

Extract from letter to Dr. Brandreth, from C. J. Fay, Esq., P. M., Hammontown, N. J.

"In 1838 I was in poor health, and my friends had well-nigh supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 121 pounds to 150 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars worth of these invaluable pills and quite sure that I have thereby been instrumental in saving thousand of lives.

"Yours truly, C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters on the government stamp.

B. BRANDRETH.

PHILADELPHIA, March 28th, 1867.

Mr. BRANDRETH, Dear Sir: I have used your Bitters, and seen them used by others with good effect, and in no case without producing good results. In one case a fellow workman was taken with vomiting and purging, and was so reduced that he was scarcely able to walk. I got your Bitters and gave him three doses in an hour, which entirely cured him.

YOUNG LADIES BEWARE!

OF THE INJURIOUS EFFECTS of Face Powders and Washes. All such remedies close up the pores of the skin, and, in a short time destroy the complexion. If you would have a fresh, healthy and youthful appearance, use HELMBOLD'S EXTRACT SARSAPARILLA.

Those who desire brilliancy of Complexion must purify and enrich the blood, which Helmbold's Concentrated Extract of Sarsaparilla invariably does.—Ask for *Helmbold's.* Take no other.

HELMBOLD'S EXTRACT SARSAPARILLA cleanses and renovates the blood, imparts the vigor of health into the system, and purges out the humors that make disease.

TO CONSUMPTIVES.

The Advertiser, having been restored to health a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection and that dread disease, Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure Cure for Consumption, Asthma, Bronchitis, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, will please address,

REV. EDWARD A. WILSON,
aug 7-1 Williamsburg, Kings County, N. Y.

From the "Argus," Albany, N. Y.

HOOFLAND'S GERMAN BITTERS

We are not in the habit of noticing so-called Patent Medicines, but we have no hesitation in commending this valuable Bitters to the public. It is composed of none but the purest and best ingredients, and the testimonials of testimonials to its efficacy, leave no doubt that it is the most valuable specific known for the cure of Diseases of the Liver, general Debility, Fevers, and complaints arising from a Disordered Stomach.

This Bitters is entirely free from all intoxicating properties.

HOOFLAND'S GERMAN TONIC

Combines all the ingredients of the Bitters with pure Santa Cruz Rum, orange, anise, &c. It is used for the same diseases as the Bitters, in case where some Alcoholic Stimulant is necessary, and makes a preparation delightfully pleasant and agreeable to take.

Principal Office, 631 Arch St., Philadelphia, Pa. Sold everywhere. [may 15

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and oth died of epilepsy. They were of both sexes, and about twenty years of age.

I now say that these excesses are not frequently and by those disease Insanity and consumption. The records of the Insane Asylums, overdue inebriety, deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute neither Mirth or grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With wonted mirth we trod, Despair."

Low sullen sounds their grief begetts."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences. HELMBOLD'S HIGHLY CONCENTRATED FLUID EXTRACT OF BUCHU. There is none like it. It is an anchor of hope to the surgeon and patient, and this is the testimony of all who have used or prescribed it.

Sold by Druggist and Dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

Address H. T. HELMBOLD,
Drug and Chemical Warehouse,
594 Broadway, New York.

NONE ARE GENUINE unless done up in a steel-engraved wrapper, fac-simile of my Chemical Warehouse, and signed

H. T. HELMBOLD.
