POLICEMAN DILLON ON THE ALERT.—For some time past the citizens of Cambridge, Dorchester county, have been very much annoyed by housebreaking and burglaries of all sorts, until at length three colored men have been settled upon as the guilty parties, and one of them, by the name of John Johnson, formerly a slave in Miles River Neck, and stammers very badly, is supposed to be one of the gang. It is said that he lived somewhere in the neighborhood of Cloria's Point, in this county, and crossed over after night in a boat, whenever he felt like exercising his wits, and we learn by his rascality a colored woman has been arrested and is now in the Cambridge jail. He stole a lot of chickens and induced her to sell them for him, pointing out the very families from whom he had stolen them as being a likely place to get sale for them. The woman in all probability will be sent to the Penitentiary for receiving stolen goods. Johnson finding that Cambridge was getting rather too hot for his comfort, himself and wife made tracks for the Easton Depot on Wednesday morning to take the cars for an up-country trip. Johnson, however, being rather afraid to trust himself, he started up the track on foot, and left his wife to take the cars. Policeman Dillen arrived at the Depot just in time to see Johnson about half a mile in the distance. But not in the least daunted at this, he took the train for Wooddland station. When the train reached there Johnson attempted to get on but his wife gave him the alarm and he took across the field at full speed, the police in hot pursuit until they reached a branch thickly set with bushes. Here the officer lost sight of Johnson, but pretty soon he saw his track in the mud and he dashed, frequently to hiknees in mud. At length he reached dry ground again, but the light-footed as well as light-fingered Johnson, had left him in the distance, but the officer having good limbs and clear wind he kept up the chase by the track of his feet, until he reached the rail road track, Johnson then being about a mile ahead of him. Some of the employees put a hand car upon the track—the officer secreted him self in the bottom of the car and in a short time Johnson was overtaken. As soon as he saw that the car party were his pursuers he again took to the branch. One of the party had a gun and fired at him, a few shot taking effect in his back. Being pretty well exhausted from travel, he was then soon captured and brought on to Easton and lodged in jail—both he and officer Dillen looking as though they had crawled through a mud puddle. On Thursday morning Johnson was carried to Cambridge.

ST, MICHAELS SCRAP-BAG.

The following brief dialogue took place in our Town a few days ago, between a gentleman and a bright intelligent looking six year old boy:

Gent—What would you consider useless in St. Michaels?

Boy—A telegraph.

Gent—What the most useful?

Boy—Tobacco. Please give me a chew, won't you?

The little fellow was, of course, gratified, and placing the 'quid' in his mouth he commenced chewing in a manner that plainly said he was not an unexperienced hand, but understood the business perfectly.

What lovers, in St. Michaels, cut do. Tell you who is the prettiest, best disposed and best girl in the county.

Prophecies—Last Fall, our prophets predicted (aided by goose bones, etc.,) a long and very severe winter, and now a sickly spring and summer. These predictions relative to the past winter, no doubt, have proved true, if the mild and excellent weather we had is not brought into consideration. We hope their predictions for the spring and summer months will prove as true as the first named.—Health then, will be the prevailing disease.

Fencing—Our farmers have been busy repairing fences. The past weather being favorable for it. We do not recollect of ever seeing so much of it done, and it adds much to the beauty of the farm.

For the Oxford Trade—Out Sloop in Broad Creek Neck by Geo S. Seymour. Three in Bay Hundred, by Thos. Jones, Saml. Harrison and Wrightson Jones. These vessels are being built for the purpose of running oysters, grain and produce of all kinds to Oxford. This will be convenient to the farmers of this and the lower districts, who wish to send their produce to the Northern cities.

Fish are being caught in large quantities by the St. Michaels fishermen.

THE BUILDING ASSOCIATION.—We learn that on Wednesday night, the Workingmen's Building and Loan Association of Talbot County, completed their organization by the election of the following named gentlemen as officers for the ensuing year:

President—M. M. Dawson,
Vice President—P. T. Kennard,
Treasurer—R. B. Dixon,
Secretary—Hy. Holliday,
Solicitor—A. A. Townsend.

Directors—Dr. J. C. Earle, P. T. Kennard, Edw. Leonard, M. M. Dawson, Jos. Graham, A. W. Fountain, R. B. Dixon, Dr. J. E. M. Chamberlaine, J.C. Ford, W. H. Thompson.

The subscription books are now open and all interested in the success of the enterprise and the improvement of our town are invited to take stock. We understand that 400 shares of stock have already been taken and the prospects are that a much larger number will be taken before the second of April, at which time the weekly payments commence.—We feel very much gratified at the progress the Association is making and we think our people should enter into it with a will and put it upon a firm working basis. And especially the mechanics of the county and all who have not the means to erect themselves comfortable residences, should enquire into its workings and make use of its benefits.—The gentlemen appointed to fill the offices are unexceptionable and have the entire confidence of the community.

A FIRE TERRIFIER.—On Thursday evening last some sensation was created on Washington street by the appearance of a small wagon drawn by two large Newfoundland dogs—driven by Master Robert Fountain, son of A. W. Fountain, Esq., Carriage maker. The wagon was of the Express style, capable of carrying two boys and was built by Master Robert's own hands. The dogs were harnessed with a full set of double harness and every part as nicely adjusted as though they were horses. By the side of young Fountain sat a neatly dressed little child. The dogs were under good command—being occasionally touched up with the whip, and all presented a handsome appearance.

TRAPPE ITEMS.—Mrs. L. Bradly has sold out her stock of Millinery and fixtures to Mrs. J. B. Rathell, who will hereafter conduct the business.

Shad were selling in Trappe last Saturday at 75 cents a pair.

One night last week the store of J. Bryan was broken into and robbed of goods amounting to about $200. The thief or theives are unknown.

Capt. James Saunders died suddenly on Monday night last, at Clora's Point, on the farm of Mr. John W. Martin, where he resided. He was about 65 years of age.

WHO CAN EXPLAIN?—A few days ago while Mr. Wm. H. Salisbury was digging a well in the yard of Mr. T. H. Trippe, at the depth of eleven feet, he found a pen knife in the hard earth. The handle is bone and in a perfect state of preservation, but the iron is very much eaten by rust. Mr. Salisbury states that the ground was perfectly solid and that there was no mark of ever having been a well or cellar there before.

A HORSE OF EXTRAORDINARY AGE.—A few nights ago, Mr. Jas. S. Bartlett lost a horse aged between 32 and 35 years. He was said to be an animal of extraordinary spirit up to the time of his death and would at any time have been taken for a colt, to judge from his appearance. Here is an evidence that when great care is taken, horses will live to a good old age.

DEATH OF DR. NUTZ.—Dr. E. D. Nutz, died at his residence, on West Street, in Easton, on Friday morning about 2 o'clock. He was in the 54th year of his age and has been severely afflicted for about twelve months. Dr. Nutz while enjoying good health possessed fine social qualities, was kind and generous and was considered one of the best Veterinary Surgeons in the State. He will be interred to-morrow, (Sunday.)

(Communicated.)

To the "Farmer."

Mr. Editor:—We noticed in the last issue of the 'Gazette' your 'hint to young people,' advising them when visiting young ladies to leave by ten o'clock, if they wished to be welcomed in the future. We think, (do you undoubtedly do,) that any 'young gem' can say all he has to say by that hour. But the blame should not altogether be bestowed upon them. Pa pur and mamma instill in the minds of their lovely daughters a desire to appear fascinating and lovely, and they do appear so lovely and bewitching that a young man, deeply in love, cannot muster courage to leave at the specified hour. If "Father" had trained up his daughters to dismiss her admirers at ten by some gentle, inoffensive hint, he would not now be under the necessity of sitting up until eleven.

If that Father in his younger days did not keep "the old gentleman" up till a late hour than "ten," we have nothing more to say. If otherwise, please do not blame us poor mortals.
