PUBLIC SCHOOLS.—Examinations were held in the various schools of the county on Friday of last week, and it gives us pleasure to say that, from what we can learn they all gave an abundant evidence of prosperity and remarkable progress in the various studies. On these occasions there has always been a great lack of interest shown on the part of parents but very few ever attend. This ought not to be the case, as the presence of the parent gives the child spirit and confidence in itself. But when they absent themselves the children are apt to think their parents indifferent to their welfare and the future to them is a perfect blank. It is to be hoped that by the time the next examination season rolls around every parent in the county will compel their children to be punctual, prompt and to studious application and do everything in their power to aid the Board of Commissioners, the Superintendent of Schools and Teachers to bring the schools up to the highest standard.

In the public schools of Easton, Thursday and Friday, were devoted to the examination—one day not being sufficient. The pupils of the preparatory department of the High School, under the management of Mr. Wm. Nelson, were the first examined and their examination proved very satisfactory to all present, and showed them to be in good standing for the higher department.

The pupils of the High School, under the superintendence of Prof. J. G. Mill were afterwards examined and the county ought to feel proud that we have such an institution in our midst.—They were principally examined in Natural Philosophy, Algebra, Geometry, Latin, Greek and French, and their proficiency in these branches show good training and close application to books.

The female school, conducted by Mrs. and Miss Roberts, numbers upwards of fifty scholars; but on examination day a large number were absent. This, of course, was the fault of the parents, which does incalculable injury to the child. Child should be taught, from the first, to be honest in everything, face the most trying circumstances, and thereby discharge their whole duty. By being permitted to shrink or skulk, (the mildest term such a course deserves) from an examination this season, it will make them indifferent through the whole year and their minds will be made up long before the end of the next term rolls around to meet themselves again. And again, it is customary for teachers, and especially in the female department, to bid an affectionate farewell to their scholars.—Such leaves a good impression upon their tender minds, and at the beginning of another scholastic term they meet with lighter hearts and the faces of both teacher and pupil, when they join as one family for instruction, will be radiant with smiles, because they are conscious of having discharged their duty. But how will it be with those who absented themselves on the most flimsy pretext? They cannot feel that buoyancy of spirit to go with a bound to take their lesson by the hand, as those who have discharged their duty at the last hour.—To prevent a similar occurrence, let all, both male and female, make a new resolve, during vacation, to be more punctual and prepare for the next vacation, that they come out bright and shining stars.

The pupils at the male department, under the tuition of Mr. Jos. N. Wyatt and Mr. Fanny Harper, acquitted themselves very handsomely. The examination was in spelling, reading, Geography, Etymology, Mental Arithmetic, &c.

On Friday night an exhibition was given at the Court House, by the High School Literary Society, consisting of declamations, Dialogues and an original Dialogue between a number of the pupils—which was done in a superior manner for boys of their age. Master Sami. Townsend closed the exhibition, with an original address on "Mental Culture." This address showed deep research, cultivation and mature thought. This closed the exercises of these seasons of the term.

THE INHABITANTS OF EASTON.—From the census just taken, the following is the condition and number of inhabitants of Easton, which shows an increase over the previous census of about six hundred:

White males,	609
" Females,	582
Colored males,	396
" Females,	513
Number of inhabitants,	2100

☞ Below we give the particulars of an accident on the Md. & Del., Railroad, at Tuckahoe Creek, over the signature of Rev. Mr. Phoebus; who was on board at the time:

ACCIDENT ON THE MD. & DEL., R. R.—After the down train of last Thursday night left Hillsborough Station, the engine and tender ran over a cow, belonging to Mrs. Bell, which had fallen upon the trestle-work of Tuckahoe Bridge. The train was in slow motion, not having left the station but a few rods before the engineer discovered that cows and horses were browsing near the track. He used every means to drive the animals off, and perceiving that the cow that was killed ran directly forward, sounded "down breaks," but the entangled animal could go no farther. The Locomotive struck her, and as the fire-box passed over the cow's body it was perceptibly lifted, and the animal was turned; this threw the two rear wheels of the forward truck off the track, which was followed by a severe jolting of the passengers, and a slashing of the water out of the cooler over the floor of the car. After we had gone a few yards the train was stopped on the bridge about midway the chasm, and the frightful danger to which we were exposed revealed itself as we looked down upon the water below us, from a height of fifty feet. The lady passengers were greatly alarmed—but were in a measure quieted by the prompt and assuring demeanor of the Conductor. Mr. Powell, the Conductor, in an instant comprehended the condition of affairs, and laid plans for our relief. It affords me pleasure to declare to the traveling public that no one on the train is censurable for this accident, and that its having occurred, every one, Conductor, Engineer and breaksman, did his duty calmly and obligingly, and speedily relieved us from our dangerous position. We arrived at the depot in Easton at 12½ o'clock

G. A. PHOEBUS.

☞ MR. JOHN OUTRAM was awarded one dollar by commissioners appointed for that purpose for damages which he is to sustain by the rail road passing through his farm and crossing his lawn, but he took an appeal from their decision, when Sheriff Bennett summoned a jury of twelve men, and on Thursday they assembled on the premises to assess damages. The jury was composed of Messrs. W S. Denny, Jas. S. Bartlett, Silas Kirby, Chambers Harden, Robt. H. Willson, Ed. R. Arringdale, Jesse E Shannahan, Alex. Bowdle, Chas. Sherwood B. C. Town, Saml. E. Shannahan, J. C Bartlett.

The result of their deliberations, as we learn them, are as follows—

For six acres of land,	$600
" Fencing,	500
" other damages to property,	400
	$1500

We believe this is the first jury that has been held in the county, on any of the rail road cases that have been under consideration. In the case of Mr. J. W. Jump's land, the jury assembled for the purpose of assessing damages, but before the work was commenced Mr. Jump disposed of his property to the Company.

In the other cases in which injunctions have been laid and yet remain unsettled, the damages claimed by the parties are as follows:

Wm. T. Kemp, for 6 acres of land,	$900.00
For new fencing;	900.00
" to keep up fencing,	450.00
" removal of property,	1000.00
Jas. Dixon, for 3 acres of land,	$225.00
For new fencing,	450.00
" to keep up fencing	225.00
" moving farm fences,	100.00
J. B. Bennett, four acres of land,	$900.00
H. C. Morgan, seven acres of land,	$1500.00

These matters are given for the information of our readers, as the rail road question is now becoming one of the most important topics in our county.

☞ THE most formedable vessel in the French Navy, was built in this country for the use of our Government. We allude to the immense iron-plated ram *Rochambeau*, more familiar to our readers as the *Dunderberg*. This marine monster is three hundred and seventy eight feet long, seventy-three feet beam and thirty feet deep, carrying an armament of eight fifteen inch guns. As a "ram" the *Rochambeau* will prove fearfully destructive, it being calculated by experts that when colliding at a speed of ten knots an hour she would deliver a blow equal to a cannon ball of one thousand pounds' weight hurled with a propulsive force of sixteen hundred feet a second. This mighty craft crossed the Atlantic from New York to Cherbourg in fourteen days, frequently steaming at the rate of fifteen knots an hour.

ACCIDENT.—A young man by the name of John Powell, an employee on the Md. & Del. Railroad, met with an accident on the road, on Monday last, which came very near being the cause of the loss of both feet. It appears that at one of the stations, he was performing some duty in front of the locomotive while it was in very slow motion, and neglecting to move along ahead of it in time, the cow catcher struck him about the ankles—causing a very painful wound. There was a bone broken in one of the ankles, but we learn he is doing very well.

COLORED EXCURSION.—There will be an excursion of the members of the A. M. E. Church, of Baltimore, to-morrow (Sunday) on the steamer Metamora. The steamer will arrive at the point at 12 o'clock, M., and leave at 5 o'clock, P. M. When the boat arrives the excursionists will proceed to the church.

Q. WHITLOCK.—We invite the attention of peach growers, as well as growers of produce of all kinds, to the advertisement of the above named gentleman in another column. He or his clerk will be found on the spot all the time to receive fruit, with cash in hand.

DIED.

GADD.—On the 16th inst., at his residence near Hillsboro,' of consumption, Wm. Frank Gadd, aged 25 years 7 months 17 days.

LEAVERTON.—In Easton, on the 22d inst., Mrs. Mary Leaverton, upwards of 70 years of age.

Coughs, Sore Throat, Etc

No medicine or treatment can excel the powerful curative power of

DR. SIMMS'

White Pulmonic Balsam:

It cures with a rapidity unequalled by any other remedy offered for Throat and Lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the county. Mr. Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this most lasting results from the fact that it never fails to cure all who use it. There is no case of COUGHS, COLDS, SORE THROAT, ASTHMA, BRONCHITIS, CROUP, BLOOD-SPITTING, HOARSENESS, and even PULMONARY CONSUMPTION, where the system is not broken down with the wear of the disease, or pretended medicine, or inexperienced advice, that this Balsam will not cure if carefully used, according to directions. We guarantee it all we represent it to be, and invite a trial from the afflicted everywhere. Price, 50 cents, medium size, and $1 for large size bottles. Prepared only by

Indians! Indians!

THE Press of the entire country seemed excited over the fact, that Red Cloud, the great War Chief of the North West, JOHN RESHAW; the Half Breed SPOTTED TAIL SWIFT BEAR, and other Sioux Chieftains, and some Dacotashs, are on their way to Washington, The people when they look at these blood-stained warriors will take a yet deeper interest in the story of

LITTLE BUCKSHOT.

Commenced in No. 33 of the *New York Weekly*, because NED BUNTLINE there describes these fiends in human shape as he has known and seen them on the Plains.

Manhood: HOW LOST, HOW RESTORED.

Just published a new edition of DR. CULVERWELL'S CELEBRATED ESSAY on the radical cure, (without medicine,) of Spermatorrhœa, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc., also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cent

The celebrated author in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands every youth and every man in the land. Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of 6 cents, or two post stamps.

Also, Dr. Culverwell's Marriage Guide, price 25 cents. Address the Publishers,
