Consumption

FOR eight years I have made the treatment of Consumption (Lung and Bronchial) a specialty, and believe that I can cure a much more formidable disease (however far it may have advanced) in much less time than any other Physician. I do not propose to supply new lungs, nor any large amount of new lung tissue to a patient; but I do propose to prevent farther progress of the disease, to leave the lungs in healthy condition, and so improve the general health that Robust Health may be regained. Free Consultation at the office of Consumption which it was my good fortune to successfully treat while in Philadelphia in 1861. In the years 1862 and 3 I had unprecedented success in treating cases of Consumption in Newark, New Jersey, and Health Officers of the city of Newark, New Jersey, and Physicians of the highest standing, prescribed for their patients my treatment for this disease, and testified to the good results. In 1864 I was called to Milwaukee, Wisconsin, to superintend the treatment of twenty or more cases which I had administered to with entire success. The results have attracted much attention, and I have had a large practice in this disease ever since, and have never failed in a case where the patient could be benefited by my treatment. I have a good stock of Harnesses on hand, and when you want an extra set of Harnesses give me a call, and I will satisfy you that I can make it to your interest to buy of me. Easily applied, and any one can put it up and keep it in repair. After thorough trial it is acknowledged to be the BEST AND CHEAPEST.
