LOCALS.

The Highland Light.—This beautiful and commodious steamer, commanded by Capt. E. T. Leonard, will resume her night route on this (Saturday) night, and run through to Denton. During the winter, nearly the whole of her interior has been remodeled and arranged in such a manner that will be more convenient to passengers and freighters, but in the whole arrangement none is more commodable than the new entrance to the main saloon. Now passengers enter the saloon almost immediately from the gang way, without being interfered with by freight, &c. The dining saloon is aft on the upper deck, and is supplied from the kitchen by a dumb waiter, while the saloon that was formerly used as a dining room has been fitted up with births, as a lady's cabin. The Company has also made provision for colored passengers—a convenience that has long been needed. Those paying first-class fare, have a saloon appropriated entirely to their own use, while steerage colored passengers occupy the forward cabin. We very much regret being unable to accept an invitation to cross the bay on this beautiful steamer next week, for we presume there is no finer steamer runs from Baltimore than the Highland Light, and none more ably and acceptably commanded.

Beautifying and Improving.—Taking a little stroll around the depot premises on Thursday morning, at an hour when hundreds of our fellow-townsmen, though much more industrious than our self, were taking their morning nap, we were struck with the improvements that are going on in that section. Notwithstanding the early hour, we found friend Caldwell, the efficient and accommodating superintendent of the Md. & Del. R. R., at his post and superintending things generally. His beautiful residence being sufficiently completed for his family to move in, he is now busily engaged in building and laying off his yard. He has also commenced to erect a building which will contain stabling, carriage house, corn house, wood and coal house, and all the outbuildings necessary for the convenience of a dwelling, under one roof. Under this building is a cellar the whole size the base of the house, where all the refuse matter of the premises will be thrown—by which means the premises can be kept entirely free from everything calculated to produce noxious vapors. This building will be covered with a French roof and the walk leading from the dwelling to it, will be enclosed by lattice work. When finished, it will be one of the most compact and handsome residences in the town.

The street leading to the depot is also being much improved and on either side a walk has been laid off and rows of trees planted and soon the whole premises will be enclosed. Mr. Caldwell is a stirring, enterprising man and whatever he undertakes soon shows the touch of his hand.

Nearly a Jail Delivery.—On Thursday night last, six colored prisoners confined in one room in the Easton Jail came very near making their escape. The cells in the jail are sheathed with two inch white oak, running up and down, but just under the window in the room, where these prisoners were confined, one of these heavy boards ran lengthwise, and had become loose. On the night above named, while Sheriff Bennett was at church, they took advantage of his absence, removed the loose plank and had succeeded in picking the wall, to the outside course, when their operations were heard by Washington Rogers, a colored man in Mr. Bennett's employ: He went into the yard and called out to them to desist or he would go for the Sheriff. This foiled their plans, and when Sheriff Bennett arrived, on examination, it was ascertained that they would have escaped in a very short time had they not been detected. Their names are Reese Kennard, J. C. Jenkins, Henry Tughman, Rowins Newnam, Jacob Davis and Robt. Skinner—all committed on the charge of larceny.

First of the Season.—Shad were brought to our market on Thursday last. The first pair brought the moderate sum of $150—purchased for Mrs. Jas. Travers, at Royal Oak. Herring have also made their appearance. White Perch and other varieties of fish are quite plenty now.

The Wilmington Conference met at Dover, Del., last Wednesday.

How he was paid for being Dishonest.—A man residing in Queen Anne's county, by the name of James Mullikin, an aged man too, we learn, a short time ago, received one of the swindling circulars, which the sharpers of New York city are flooding the country with, stating that $1000 in counterfeit money, so well executed that even experts could not detect it, would be sent by express, C. O. D. Mullikin ordered a $1000 package and directed it to be sent to Ridgely Station, when it appears he paid down his money and took his box, but on opening it, found it to contain nothing but saw dust and the circular which we give below. A few more such lessons will probably teach this aspirant to wealth that honesty is the best policy:

Do not get discouraged. This is only a blind, and we always use this precaution for fear of detection, if the authorities should happen to get wind of our operations and possibly think to watch any C. O. D. we may send out, and seize the money as you were taking it from the Express office. Now to shield you from any possible danger, we have sent this empty box, which you have a perfect right to buy and carry home. But we have the money securely packed in a different way, and as soon as we get the returns for this package all right we guarantee to send it forward free of charge and in any event you have a perfect right to receive anything sent free, for there is no proof that you ordered it. We always work on this plan, and it is sure to protect us both, for you have a perfect right to pay for an empty box, and also a right to receive anything sent free under seal. We also in this case do not sell the money. We give the money free and sell the empty box. This is a great secret, and we trust you will mention it to no one, as it gives absolute security to us both.

Fine Beef.—Mr. Wm. B. Townsend, butcher, has had on exhibition for several days, a very excellent beef—weighing 1928 lbs. Mr. Townsend purchased it and two others from M. T. Goldsborough, Esq. The other two are nearly as large and in excellent condition. The one that has been on exhibition, was slaughtered yesterday, and those in want of something nice—something of a quality rarely seen in our market, can be supplied at his stall this morning. This animal has been in a course of preparation for the last ten months, and for the last five months has been fed on meal and fodder. The fact of Mr. Goldsborough's having the management of this beef for some time past, should be sufficient gaurantee of its excellence, as it appears to be characteristic of that family to have none other than first quality stock.

Vendues.—By giving a glance at our advertising columns, it will be seen that two very important sales come off on Wednesday, the 22d inst. One in Easton, by Mr. Wm. Hayward, Administrator of David B. Griffith, deceased, of household and kitchen furniture, a large stock of goods, including a full assortment of first-class groceries, liquors, crockeryware, etc.

The other is at Wright's Mills, the late residence of Gibson W. Wright, deceased, by Messrs. P. W. Stewart and F. G. Wright, Administrators. There will be sold fine stock, household and kitchen furniture, corn and corn blades, the growing crop of wheat, a lot of Good rich Potatoes, &c. For further particulars see advertisements.

☞ Among the Talbot county items given in the Wilmington Tribune of Thursday, are the following:

"The Easton Journal gets its press work done by negro power. It is a "white man's paper."

The editor of the Easton Gazette has been forcibly struck with an idea."

The idea we were struck with, was a system whereby men's families could be made more pleasent, and to keep husbands from keeping late hours at night, It may be that such an idea would be of benefit to the editor of the Tribune, if he could be struck forcibly enough to penetrate his cranium.

The Journal will have to defend itself.

Those who moved out on account of the fire have moved in again.—*Denton Union.*

Will friend Emerson tell us who has moved into the house that was burned?

☞ Henry Corkran, Esq., who removed from Caroline county to Florida, in 1869, has returned.

Runaway and Smash up.—On Monday night last Messrs. Wm Harrison and R. K. Murphy, who were in Bayside, met with a serious mishap—their horses becoming frightened, broke their fastenings and ran away, smashing up things generally, both carriages being put *hors du combat.* Fortunately neither of the gentlemen were injured.

Theft.—On Tuesday night, the clothes line of Chas. A. Smithman of this town was robbed of a pair of skirts. Mr. Smith man says if the party who stole them will return the articles to the line, no action will be taken, if not he will proceed against them, and give the party a chance at the county jail for a term.—Some person is also in the habit of stealing wood from him. He has lost a considerable quantity during the present winter. Mr. S. is not the only one who has lost fuel. Wood has been walking away from more than one residence in St. Michaels.

Robbery.—The store of John W. Wittman, in Bayside was robbed on Monday last. This time the thief obtain only about $15 in Money. The person who stole the money is pretty well known. One negro was searched, but nothing was found to implicate him in the robbery. This is the second time Mr. Wittman's store has been robbed within the past few months. The guilty one should be arrested and sent to the county jail, where he would find no temptation to steal. It is a false policy to allow them to go free.—*Comet.*

HOMES FOR ALL!
IN THE
Land of FLOWERS & Perpetual GROWTH.
FLORIDA;
The Italy of America,

Is not excelled in Climate, by any of the United States, and it may be doubted whether it can be equalled in the world:

Located on the very borders of the Torrid Zone, still her situation between the Gulf of Mexico and the Atlantic Ocean is such that she is swept alternately by the winds of the Eastern and Western Seas, and relieved from the burning heats which prevail in other Southern States; and thus it happens that by the joint influence of lastitude and peculiar location, she is relieved, on the one hand, from the rigors of the Winter climate of the Northern and Middle States, and on the other, from the extreme heat with which not only the Southern States, but in the summer time the Northern States are characterized.

Settlers have not the hardships to undergo that have been the lot of the pioneers who opened up and developed our harsh Northern latitudes. The entire year is a perpetual season of growth, able to produce and send to market all the productions of the Tropical and Temperate Zones weeks and months in advance of any other locality, and at a season when all such productions are luxurious, and command the very highest prices.

The Florida Improvement Company, under the auspices of the State of Florida, propose to furnish lands of uniform good quality, and upon which can be raised Vegetables, Fruits, etc., common to the more Northern climates, and all the Grains, Fruits and Vegetables of the Tropics.

Such *selected* lands, in the Healthiest part of the State, and of the best quality.

The Company have issued a pamphlet of 128 pages, containing full and reliable information concerning Florida, its Climate, Soil and Productions, with a sketch of its History, which the Company will forward, free of postage, on receipt of 25 cts.

Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar-coated, from the fact that sugar-coated Pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. Clear & Harmlessss Water
Nattans' Crystal Discovery for the Hair.

A perfectly clear preparation, in one bottle, easily applied as water for restoring to gray Hair its natural color and youthful appearance; to eradicate and prevent dandruff, to promote the growth of the hair and to stop its falling

It is entirely harmless and perfectly free from any poisonous substenance, and will therefore, take the place of the dirty and unpleasant preparations now in use. Numerous testimonials have been sent up from many of our most prominent citizens, some of which are subjoined; in everything in which the articles now in use are objectionable, *Crystal Discovery* is perfect; it is warranted to contain neither Sugar of Lead, Sulphur or Nitrate of Silver. Clear and clean as water, it does not soil the close or scalp; it is agreeably perfumed, and makes one of the best dressings for the hair in use, it restores the color of the hair *more perfectly and uniformly* than any other preparation, and always does so, in from three to ten days Virtually feeding the roots of the hair with all the refreshing qualities, necessary to its growth and healthy condition, it restores the decay, and induces a new growth of the hair more positively than anything else. The application of this wonderful discovery also produces a pleasant and cooling effect on the scalp, and gives the hair a pleasant and elegant appearance.

Washington, D. C., July 25th, 1870
Mr. Arthur Nattans—*Dear Sir:*—It affords me pleasure to say that I have used your Crystal Discovery with perfect success. Having tried many others, I find yours superior to any I have heretofore used and I cannot too highly recommend it as a rapid promoter of the growth of the hair, and by a few applications restoring it to its origional color. It is perfectly clean and free from any objectionable matter.

Very respectfully, yours.
