S. M. Pettengill & Co.,
37 PARK ROW, NEW YORK,
Are the sole agents for the GAZETTE in that city, and are authorized to contract for inserting advertisements for us at our lowest cash rates. Advertisers in that city are requested to leave their favors with either of the above houses.

GUBERNATORIAL.—A Baltimore correspondent to the Annapolis Gazette, strongly urges the Hon. Richard J. Bowie, of Montgomery county, as the Republican candidate for Governor. In conclusion, the correspondent says:

"As an evidence of the popular esteem for him, when he was at one time the candidate of the old Whig party for Governor of Maryland, notwithstanding the Democratic power was largely dominant in the State, he was defeated by but a few hundred votes.—As a candidate in the 6th Judicial Circuit for Chief Judge, under our present Constitution, he was in advance of his ticket about five hundred votes; another proof of his extreme popularity.

He is even more popular now, and if nominated, will surely be elected. I can bring to mind no more suitable man as the candidate of the Republican party in the coming contest. He will make a gallant fight with every show of success. The dignity and honor of the Commonwealth of Maryland could not be preserved and upheld in a greater degree than would be by her illustrious son, who has already adorned one of the highest positions in the State by his talents and learning, his purity and uprightness, his dignity and polished and refined manners.

Let us, then with acclamation call him from his retirement and induce him to confer his rare gifts upon the service of his State."

After receiving the nomination, it will give us great pleasure to support any good Republican from either section of the State, for the Gubernatorial chair, but if we are not very much mistaken, the Western Shore cannot, with any sort of propriety, lay claim to the next candidate. According to a long established custom the two Shores alternate in the selection of a candidate for Governor and according justice the Eastern Shore is entitled to the selection.

HOW MARKED THE DIFFERENCE!—The Competroller's report for 1867 shows that for the year 1866, when the Republicans were in power in this State, the expenses of the judiciary alone were but $60.643.41. In 1869, however, only three years afterwards, under Democratic rule, the expenses of the judiciary were $89,317.96, making an excess over Republican "extravigance," as Democrats termed it, of $28,000 in this single item. But the desparity between the contingent expenses of the Legislature for the same year is even greater still. Under the Republican dispensation, says the Denton *Union*, the actual expenses of the Legislature, including the *per diem* of members, clerks, printing and incidental expenses, were $70,104.07, while the expenses of the Democratic Legislature of 1869, on *the same account*, were $175.-254.60, showing a difference of upwards of $105,000 in favor of the Republican administration.

Therefore, on these two accounts alone, the people are paying the neat little sum of $183,000 for the exquisit pleasure of being ruled by the party now in power.

☞ MR. H. F. KENNEY, Superintendent of the Philadelphia, Wilmington and Baltimore Railroad, issued a notice that on Monday, May 1st; the following changes would be made in the names of stations on the Delaware Railroad Line:

New Castle Junction changed to Delaware Junction.

Delaware Junction changed to Rodney

St. George's Station changed to Kirkwood.

Willow Grove changed to Woodside.

The Wilmington (Del.) Commercial says that since the practical consolidation of the New Castle and Wilmington and New Castle and Frenchtown and Delaware Railroads into one line, the designation of a point a few miles below New Castle as Delaware Junction has become rather confusing, since there is apparently nothing joined there. The taking away of the name there, and bestowing it on the station where the Delaware Railroad line connects with the Philadelphia, Wilmington and Baltimore is a good change, and one likely to add to the convenience of the travelling public. Again, the station heretofore called St. George's is more than a mile from the old and well-known town of that name, and therefore the name was likely to produce some confusion. Quite a little town has sprung up there, which its inhabitants call Kirkwood, and it has a Postoffice of that name, so that the change is also one that ought to be made. Why Willow Grove is changed to Woodside we do not know, but seeing such good reasons for the other changes, we presume this change was not made without good cause.

Sixty-five tons of silver coin were shipped to Europe recently in a single steamer from New York. Its value was about $2,000,000.

Charlottsville, Va., is manufacturing cigars for Northern markets.

ATROCITIES IN FLORIDA.—Don Piatt, the well-known Washington correspondent of the Cincinnati *Commercial*, will not be accused of the ready credence to Ku-Klux horrors. In a letter of the 19th he details an interview with Hon. Mr. Hamilton, of Florida, as follows:

Hamilton is rather a good looking man of about thirty, tall, broadshouldered, with large blue eyes, and an expression of countenance that indicates business.—He told me yesterday that I was mistaken as to the condition of the South.—He says that within the last six months forty-five assassinations of the most horrible character have occurred in his own district. These murders were purely political. Men were shot down in open day, after being warned again and again to leave the country, because of their connection with the Republican party. I asked him of what porportion of negroes, and, of course, loyal men, he had in the population of Florida. He said the populatihn was ninety to one hundred thousand—that is ninety thousand negroes to one hundred thousand whites. I then asked him if it was possible in any other part of the world (I would not say in the United States) for one hundred thousand men to prosecute and abuse to the fearful extent he represented, ninety thousand. Certainly they had the means of defence in their own hands, and killing in open daylight for political offences was as good on one side as the other, and I could not for the life of me understand why these negroes were not capable of defending themselves. He told me that they were under cover, and I suppose they are, and yet, what is proposed to the Government of the United States? That we shall give the President power, at his own will and pleasure to declare the martial law, suspend the writ of *habeas corpus*, and sending his army into any district—say Florida for example—substitute courts-martial for the constitutional tribunals, and thereby undertake to sustain the blacks and intimidate the whites (or rather, we should say subjugate them, for that is what it means). Now, if ninety thousand men cannot protect themselves against one hundred thousand, when will the work cease of having the General Government intervene?

I have no prejudices whatever in this matter. On the contrary, I found myself, as Mr. Hamilton proceeded to detail sickenig case after case of cruelty and oppression, getting as indignant as Ben. Butler pretends to be. One could wish that these poor negroes might be armed and organized, and retaliate upon their oppressors, until they would find it to their interests to restore order and behave themselves. I asked Mr. Hamilton if he did not think a general act of amnesty restoring to these people their lost privileges would be effective in the way of restraining disorders. He said he thought not, because of the great mass of ignorance and vice in the South. It was almost impossible to make the people understand that the war had ceased, and that the Government of the United States was triumphant. They still persist in looking upon the North and the Government together as imbecile and cowardly, and every concession made is only taken as a confession of weakness. I then asked him if the carpet-bag element were taken from the South, if he did not believe it would have a happy effect. He said that he could not say that it would help to restore order, although it might be of use in restraining the corrupt practices that now made the South a by-word and reproach.

FRENCH METHOD OF RAISING TOMATOES.—As soon as a cluster of flowers is visible, the stem is topped down, terminating at the cluster. The effect is the sap is immediately impelled into the buds next below the cluster, which soon push strongly and produce another cluster of flowers each. When these are visible, the branch to which they belong is also turned down to their level, and this is done successively. By this means the plants become stout dwarf bushes, not above eighteen inches high. In order to prevent their falling over, sticks or strings are stretched horizontally along the rows so as to keep the plants erect. In addition to this, all the laterals that have no flowers, and, after the fifth topping all laterals whatsoever, are nipped off. In this way the ripe sap is directed into the fruit, which acquire a beauty, size and excellence unattained by other means.

NEW YORK FOUNDLING STATISTICS.—At a late meeting to reorganize the New York Infant Asylum and Foundling Hospital, resolutions, were adopted to so conduct it as to save the mothers as well as lesson the mortality among deserted infants. During the meeting Dr. Willard Parker gave some startling statistics:—Among 35,000 births annually in that city 2,500, he said, were not in wedlock, and about 3,000 foundlings die annually of neglect. Of 25,167 deaths in 1869, 7,405 were children under one year of age, equal to 27 4-10 per cent. of all the deaths; and in 1870 the number of infants dying amounted to 31 per cent. of the whole death rate. As an illustration of the necessity of a mother's care, he said that an assylum in Montreal, where the bottle was used, out of 4,059 children received in six years 3,767 died, making 93 per cent. At Randal's Island but 10 out of 100 were saved when the bottle was used; where nurses were provided 27½ per cent were saved; and where the mother cared for the child fully 70 per cent were saved.

☞ A case of misplaced confidence has recently come to light at Ruthsburg. A young man of prepossessing appearance engaged in the mercantile business, ingratiated himself into the good graces of a very worthy and respectable young lady residing near the village, only to be the means of her ruin. A few days ago a brother of the outraged lady sought the man who had ruined his sister, and with a pistol in his hand, extracted from him a promise to marry the wronged lady. On Saturday night, however, he left for parts unknown, leaving his outraged paramour and innocent babe to mourn their loss, and his partner somewhat worse off by the transaction.—*Centreville Observer.*

Some time ago Mrs. Pomeroy, wife of the somewhat notorious "Brick" Pomeroy, engaged the services of Gen. Butler as counsel for the purpose of procuring a divorce from her husband. As soon as "Brick" heard that his wife had engaged Gen. Butler he instructed his lawyer to endeavor to make a compromise. Pomeroy's compromise could be effected. After consulting his client, Butler replied that it could, provided Pomeroy would pay his wife twenty thousand dollars, with alimony. Pomeroy at once accepted the terms, and the case is settled, Mrs. Pomeroy resuming her maiden name.

Col. Albert Pike, of Arkansas, has been the editor and proprietor of no less than twenty-five different newspapers, twothirds of which he boasts of killing.

A LITTLE GIRL BURNED TO DEATH.—On Sunday afternoon, the 22d ultimo, as a little daughter of Mr. Thos. Murray at Trappe, Wicomico county, Md., was lifting a kettle from the fire, her dress ignited, and in a few minutes she was comparatively enveloped in flames. The body of the unfortunate child was burned in a horrible manner, causing death in about two and a half hours after the accident.

SPECIAL NOTICES.

Ayer's Cathartic Pills.

For all the purposes of a Laxative Medicine

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it know that it cured them; those who have not, know that it cures their neighbors and friends; and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, they may be taken with safety by anybody. Their sugar-coating preserve them ever fresh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quanity.

Minute directions are given in the wrapper on the box, for the following complaints wich these PILLS rapidly cure:—

For Dyspepsia or indigestion. Listlessness. Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the heart, Pain in the Side, Back and Loins, they should be continuously taken as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the apetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists.—One who feels tolerably well often finds that a dose of these pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Late Collector's Sale.

IN pursuance of the laws of Maryland, for the enforcement of the collection of Taxes, I have seized and taken in execution the following real estate, in the fourth District of Talbot county, assessed to Perry G. Stevens, to satisfy the State Taxes due thereon for the years of 1865, 1866 and 1867,

One Tract of Land;

situate in Chapel District, on the road from Hillsborough to Easton, called "Home Hill," "Rich Range," "Mulberry Grove," or by whatever name it may be called—containing

127 ACRES OF LAND,

more or less—being the same land which James Ll. Martin, Trustee for P. G. Stevens, sold to John P. Jester.
Amount due, $54.99
Interest from Jan. 1st, 1866.
Notice is hereby given that in pursuance of the order of the Commissioners of Talbot county, I will on

Tuesday, 16th day of May, '71,

in front of the Court House Door, in Easton, between the hours of 2 and 5 o'clock P. M., of said day, offer the above specified property at auction, to the highest bidder for cash, or so much thereof as will pay and satisfy the above mentioned taxes, interest and cost due and to become due thereon.

SAML. T. HOPKINS,
ATTORNEY-AT-LAW,
EASTON, MD.

Trustee's Sale
OF
Two Valuable Farms
IN
Island Creek Neck.

BY virtue of a decree of the Circuit Court for Talbot county, sitting in Equity, the undersigned, as Trustee, will offer at public sale, in front of the Court House, in Easton, on

Tuesday, 23d day of May next,

between the hours of 2 and 5 o'clock, P. M., of said day, all that valuable real estate known by the name of

'WAVERLEY,'

situate in Island Creek Neck, Talbot county, in manner following. First:

Farm No. 1,

embracing that portion lying on Island Creek, known as the

'HOME PLACE,'

(saving and excepting a field separated by a cove and ravine on the left in entering,) and embracing also a portion of the farm over the road, exclusive of the buildings on the latter place, and containing

150 ACRES OF LAND,

more or less, of which 29 3-4 Acres is in wood land.

This farm is admirably situated on Island Creek, within a mile and a half of the steamboat landing at Clora's Point, in a delightful neighborhood, with spacious lawn, and an abundance of fish, fowl, crabs, and all the luxuries of the salt water at the door. The oysters are the finest in the State, and are in large quantities within a few yards of the dwelling, several acres of ground being condemned for the purposes of bedding and entirely secure from depredation. This land is adapted to the growth of grass, grain, fruit and vegetables, It is especially noted for its wheat growing properties, and here was first grown in the State of Maryland, that beautiful white wheat known as the "New York Flint," now so celebrated and generally adopted.—There is an abundance of marl on the Shore, and in fact, underlying the surface of the whole farm. This marl is of the very best quality, and was spoken of in the report of the State Geologist, Duchatel, years ago, as with one exception, superior to any other to be found on the Shore. The improvements consist of a comfortable

FRAME
DWELLING,

and the necessary out buildings, including stabling, carriage house, granery, tenement house, &c. By throwing a bridge across Island Creek, the whole neck will be brought into close connection with the Maryland & Delaware Railroad. Persons desiring a first class situation, with all the advantages of health, productiveness and a fine neighborhood, are invited to call and examine this property.

Farm No. 2,

comprising the field separated from the above described tract by the ravine and a line running to the county road, and also the remaining portion of the farm over the road, the line of division running nearly with the line extended from the ravine, containing

94 Acres, 1 Rood & 28 Perches, more or less,

of which 28 3-4 Acres is in woodland. The purchaser to have the privilege of removing the buildings which are near the line of division.

This farm has all the advantages of farm No. 1, including water situation, productiveness, marl and luxuries of the salt water. To one wishing a farm of this size the strongest inducements are offered.

Plots containing an account and description of both farms may be seen at the office of the undersigned in Easton.

Terms of Sale.

The terms prescribed by the decree are, one-third of the purchase money to be paid in cash on the day of sale, and the balance in two equal instalments of one and two years from the day of sale, the credit payments to be secured by the bond of the purchaser, with approved security, bearing interest from the day of sale, Stamps and tolls papers at the expense of the purchaser.
