LOCALS.

☞ It has been quite lively in Easton the past week. To start with, there was a horse educator, by the name of Pratt, who took classes to give instructions in the art, and another by the name of Parks, who professed to expose the various bogus means and humbuggery in managing horses. He also had a patent horse shoe, which is spoken of very highly as a means to cure horses from lameness when caused from diseased feet. He also had a book for sale giving the mode of managing horses, and curing diseases. He took an untrained colt belonging to F. G. Wright, Esq., and caused it to walk up the town Hall steps, without any trouble and then upon the stage, where it remained perfectly quiet until after a lengthy lecture was delivered. The colt was then brought down, about 11 o'clock at night, with perfect ease. It is said that Parks dealt Pratt some heavy blows during his lecture—charging him with everything that is low and mean.—He first made himself popular by telling his audience that same old story of being a "Rebel," and some very *funny* things about Gen. Grant, Ben. Butler, Henry Ward Beecher, Bonner, &c., and asserted that there was more corruption in the New England States than could be found any where else in the country.—That there were more religions, more rascality and more prostitutes there than could be found any where else. It is said that Mr. Parks speaks very intelligently of the horse and all his ailments, but we cannot see for the life of us what Ben. Butler, Gen. Grant, Bonner or the people of New England has to do with a lecture delivered in Easton. However, every man has a right to his taste.

On Wednesday, Thursday and Friday nights, Mr. C. Garwood, exhibited at the Town Hall, his panorama, of a number of the most noted buildings, cities, bridges, &c., in the United States. Also Niagara Falls and other wonders. Astronimical views, Palistine and many others views of interest. Each night he has had a crowded house and it is well worth the price.

DOVER BRIDGE.—Within the last few days it has been necessary to take the draw off at Dover Bridge. It might save persons who have to pass over the bridge trouble, if the commissioners having it in charge, would give notice through the papers, whenever it may be necessary to interrupt travel. We know the commissioners are thorough going men and will do all in their power for the convenience of the public, hence we make the suggestion, as we have heard of some inconvenience on account of the public not being aware of the repairs until driving down to the bridge.

DELICACIES OF THE SEASON.—The new host, Mr. C. W. Bennett, of the Brick Hotel, appears to know now to cater to the wants of the people of Talbot as well as Dorchester. On Thursday morning last a waiter made his appearance in our sanctum, having a neat little white dish, nicely napkined, which contained a Soft Crab—cooked in the best order.—It is the first we have seen this season and we return thanks to "mine host" for the delicacy.

ERRATA.—Last week in noticing the election of the new Secretary and Treasurer of the Md. and Del. Railroad Company, by some singular freak of the type, the name of Thos. W. Scott was published, when it should have been Jno. W. Scott. Mr. Scott has been Auditor of the Company for some time past.—He now performs the arduous duties of Secretary, Treasurer and Auditor.

☞ We are requested by the ladies of the Masonic Fair and Festival to say that their doors will be open on Tuesday morning next, the 16th inst., to which every one favorable to the enterprise of erecting in our town a beautiful Temple, is respectfully invited, and indeed earnestly solicited to be present. We are also requested further to state that they will be glad to receive donations of any kind, especially of Ice Cream, and should any one having cream to spare, but no facilities for freezing it, they will please send it to the Hall where it will be served.

☞ A Short time ago, J. L. Caldwell, Esq., had erected, at the end of rail road avenue, next to the depot, a head-light—at a cost of about $50—to light up the avenue for passengers by the half-past ten train. One night this week the light was neglected to be put out and the lamp exploded—destroying the whole structure.

☞ There can be no question or doubt any longer that Easton is far ahead of any country town on the Peninsula—it is the only town that can boast of a strictly wholesale and retail Dry Goods store. We notice that Thompson & Kersey have just returned from the city again and have opened the largest stock and most beautiful styles of Ladies Dress goods now offered in this market, which they say they are selling remarkably cheap. They claim to be the cheapest sellers in Easton.

FROST.—On Tuesday and Wednesday nights there was considerable frost in this vicinity—but we have not heard of its doing any very serious damage.

☞ THE ladies connected with the Fair and Festival Association are preparing wreaths and ever-greens to decorate the Town Hall, during the fair—Court week.

☞ THE numerous friends of Wm. B. Wheeler, Esq., will be pleased to learn that he has recovered from his late affliction. He may be found in his office ready to attend to all kinds of Magistrate's business.

☞ THE Circuit Court for Talbot county, assembles in Easton, on Monday next.

Trustee's Sale
OF
Two Valuable Farms
IN
Island Creek Neck.

BY virtue of a decree of the Circuit Court for Talbot county, sitting in Equity, the undersigned, as Trustee, will offer at public sale, in front of the Court House, in Easton, on

Tuesday, 23d day of May next,

between the hours of 2 and 5 o'clock, P M., of said day, all that valuable real estate known by the name of

'WAVERLEY,'

situate in Island Creek Neck, Talbot county, in manner following. First:

Farm No. 1,

embracing that portion lying on Island Creek, known as the

'HOME PLACE,'

(saving and excepting a field separated by a cove and ravine on the left in entering,) and embracing also a portion of the farm over the road, exclusive of the buildings on the latter place, and containing

150 ACRES OF LAND,

more or less, of which 29 3-4 Acres is in wood land.

This farm is admirably situated on Island Creek, within a mile and a half of the steamboat landing at Clara's Point, in a delightful neighborhood, with spacious lawn, and an abundance of fish, fowl, crabs, and all the luxuries of the salt water at the door. The oysters are the finest in the State, and are in large quantities within a few yards of the dwelling. several acres of ground being condemned for the purposes of bedding and entirely secure from depredation. This land is adapted to the growth of grass, grain, fruit and vegetables. It is especially noted for its wheat growing properties, and here was first grown in the State of Maryland, that beautiful white wheat known as the "New York Flint," now so celebrated and generally adopted.—There is an abundance of marl on the Shore, and in fact, underlying the surface of the whole farm. This marl is of the very best quality, and was spoken of in the report of the State Geologist, Duchatel, years ago, as with one exception, superior to any other to be found on the Shore. The improvements consist of a comfortable

FRAME DWELLING,

and the necessary out buildings, including stabling, carriage house, granery, tenement house, &c. By throwing a bridge across Island Creek, the whole neck will be brought into close connection with the Maryland & Delaware Railroad. Persons desiring a first class situation, with all the advantages o health, productiveness and a fine neighborhood, are invited to call and examine this property.

Farm No. 2,

comprising the field separated from the above described tract by the ravine and a line running to the county road, and also the remaining portion of the farm over the road, the line of division running nearly with the line extended from the ravine, containing

94 Acres, 1 Rood & 28 Perches, more or less,

of which 28 3 4 Acres is in woodland. The purchaser to have the privilege of removing the buildings which are near the line of division.

This farm has all the advantages of farm No. 1, including water situation, productiveness, marl and luxuries of the salt water. To one wishing a farm of this size the strongest inducements are offered.

Plots containing an account and description of both farms may be seen at the office of the undersigned in Easton.

Terms of Sale.

The terms prescribed by the decree are, one third of the purchase money to be paid in cash on the day of sale, and the balance in two equal instalments of one and two years from the day of sale, the credit payments to be secured by the bond of the purchaser, with approved security, bearing interest from the day of sale, Stamps and title papers at the expense of the purchaser.
