LOCALS.

TRUSTEE'S SALE OF VALUABLE PROPERTY.—We invite the atte tion of our readers to a notice advertised in another column, by Jas. Ll. Martin, Esq., Trustee, for the sale of that valuable property formerly belonging to Saml. Dickinson, deceased, in the Trappe District of Talbot county. It will be offered in front of the Court House, in Easton, on Tuesday, the 10th day of October, and disposed of in four parts—three farms and a large marsh. There are *five hundred and ninety two acres of arable and wood land and sixty five acres of marsh.* Independent of the beautiful water situation, the fertility of the soil of the arable land and all the conveniences of churches schools, &c., the marsh land is not without its value, for the coarse grass our marshes produce, (and that too, without culture or labor, except mowing,) is in good demand in the Northren cities, to be used in the bottoms of street cars and for other purposes, at about $12 per ton. For description of property, &c., see advertisement.

THE MASONIC EXCURSION.—The interest in the Masonic Excursion appears to be increasing every day, and from all we can understand there will be a very large number of persons, including many ladies, who will embrace the opportunity of visiting Baltimore on this occasion. The committee are making every arrangement for the comfort and convenience for passengers, and we think the enterprize will be a grand success. We advise all our citizens who can, to avail themselves of the advantage offered to witness a celebration which most of them will never have an opportunity of seeing again, and at the same time to assist the Masonic Fraternity of Easton in the erection of their Temple. Those wishing State rooms or berths had better apply at once to Mr. Richard Trippe, as the number is limited and will be disposed of by Tuesday next.

☞ JOS. RASIN, Esq., having purchased the dwelling occupied by the late Pere. Groome, he is converting the first floor into a store room, leaving the entrance to the dwelling by a passage as formerly. It will make a fine store room and add much to the business appearance of that side of the street.

GET REGISTERED.—The Registrars of Talbot county will sit on Monday, Tuesday and Wednesday next. Let every Republican get registered. Those who have become of age or will be twenty one before the next election, both white and colored, should attend the place of registration, and have themselves put squarely upon the record.

VERY COMMENDABLE.—The steamboat company have issued hand bills, in reference to the Masonic excursion, in which they request the public to refrain from sending freight on that day, in order that the excursionists may have full use of the boat.

☞ MESSRS. FORD & DAWSON have a magnificent sign just put up, painted by A. W. Fountain, Esq. Their establishment can be identified by the sign of the circular saw.

☞ A. MATTHEWSON will give an excursion over the Md. & Del. Railroad, next Thursday week. This will be a pleasant trip.

☞ MESSRS. NOBLE & BRO'S., store near the market, is nearly complete, and they will occupy it in a short time. It will be as handsome store room as any in town.

☞ MR. JOS. E. GIFFIN is still taking orders for his "Hair, Lime and Gelatine Fertilizer." He may be found at the "Norris House."

☞ We were unable to get in "Ele" reply to "Colon Oom" this week, for want of space. It shall appear next week.

☞ Today, the *unterrified* vote for delegates to nominate a candidate for States Attorney for Talbot county Messrs. Gibson and Townsend leading off in the contest and the race appears to be nip and tug, but if we are not very much mistaken some one will find himself beaten in less than two hours after the polls close.

Peninsular Items.—J. W. Bryant, the present State's Attorney for Caroline county, declines to let his name be used for the same position for another term. Mr. Bryant is an advocate of the "New Departure," which is a bitter pill to the Democracy of Caroline.

The ten thousand dollars appropriated by Congress to clean out Cambridge harbor has been expended and it is yet in an unfinished condition.

Francis J. Henry, of Cambridge, has sold his fine sorrel colt "Abdallon," to Mr. Reardon, for $500.00.

The Democracy of Cambridge have been so absorbed in politics that business has been completely paralized. It is natural to infer from this that all are after office. The *News* says, however, as the convention has settled the question as to who shall be candidates, it hopes to see business of all kinds improve and move more smoothly.

THE RAPE CASE.—Considerable interest and excitement was manifested in the upper part of this county, last week, by a portion of our citizens, in consequence of a report put in circulation, that a man named Gaffield, had committed a rape upon a girl residing near Greensboro.'—Gaffield had gone up the rail road and it was supposed was attempting to evade the officers of the law. Two men at Marydel, expecting to make a raise by his arrest, started in pursuit and captured Gaffield. He declared his innocence and avowed his determination to return with them again to Maryland. He said he had done nothing to violate the law, and the parties making the arrest finding there was more "smoke than fire" in this thing, informed Gaffield that for a small consideration they would give him an opportunity for escape. This he refused stoutly, declaring he was innocent. He was brought before Esquire Orrell, at Greensboro', and there being no evidence to support he charge, or to implicate him even in an attempt at rape, he was discharged.—*American Union.*

ACCIDENT.—Last week as Orlando Redden was returning home from Delaware, and when near Andersontown, leading a horse behind the carriage to which himself and a young lady was riding, a dog ran out from the road side and frightened the horse, causing him to run into the carriage. One of the wheels was torn to pieces and the carriage otherwise injured. Mr. Redden received some slight bruises, but the young lady escaped unhurt.—*Ib.*

FATAL ACCIDENT.—Mr. Henry Claridge, a very quiet, industrious gentleman, living about five miles from Cambridge, came to town to vote at the primary meeting, on Saturday last, and as he was riding home in company with Mr. Haddaway Mills, about half way home, the horse became frightened and started to run. Mr. Claridge attempted to jump out of the wagon, but falling out on his head, the shock was so great that it caused his death in thirty minutes. Mr. Mills soon stopped his horses without any other damage being done. Mr. Claridge was in poor circumstances and leaves a wife and several children who were depending upon him for support. We trust generous friends will extend them aid.—*Cambridge News.*

Hair, Lime and Gelatine FERTILIZER.

A MATTER OF INTEREST TO EVERY AGRICULTURIST IN THE STATES.

The Cheapest Article Offered to the People—The Reason Why.

BECAUSE it contains more Ammonia, Potash and Bone Phosphate of Lime combined, for the money, than any other.—These ingredients are necessary to the growth of vegetation, and the intrinsic value of any Fertilizer is in proportion to the amount of these articles which it contains.

The estimated intrinsic value of Absolute Ammonia is	25 cents	per lb
Of Potential Ammonia	15 "	"
Of Potash	8 "	"
Of Bone Phosphate of Lime	5¾ "	"

Taking the above prices as correct, (using the same for calculating the value of all other manure's) it gives a reliable result of the intrinsic and comparative value of this Fertilizer with other; and upon this basis of value for the commercial and essential fertilizing articles, we will estimate the intrinsic worth of this Fertilizer to the agriculturists, from the result of the analysis made by Prof. C. P. WILLIAMS, of Newark, State Chemist of Delaware, to wit:

	Per-centage.
Moisture expelled, at 212° Fah.,	8.47
Organic matter (Yielding Nitrogen, 2.09.)	38.37
Bone Phosphate of Lime,	3.69
Sulphate of Lime,	.91
Lime,	13.03
Sand and Clay	13.52
Chloride of Potassium,	5.80
Carbonic Acid, Magnesia, Oxide of Iron and Loss,,	16 21
	100.00.

Weight,

The above shows 2.09 per cent. of Nitrogen or 2.54 per cent of Ammonia, equals 51.90 lbs. at 15c. $8.53

5.80 per cent. of Chloride of Potassium, equal to 82.53 lbs. of Potash. at 8c., 6.60

5.69 per cent. of Bone Phosphate of Lime, equals 82.69 lbs. at 5¾ 4.75

Making the intrinsic value $19.88

per ton $19.88

This Fertilizer is sold only pure and unadulterated, which I will guarantee, and furthermore, any person desirous of purchasing has the privilege of having it analized by any reliable chemist, and paying for it at its intrinsic worth.

The above fertilizer is the Refuse of Glue factory—one of the largest in the world. Experience has proved that there is no better Manure than the Refuse of a Glue factory. Solon Robinson in his facts for Farmers says: "Of the value of hair for manure, we can say that we have used a good many loads of the refuse of a glue manufactory, composed mostly of hair and found it a most valuable manure. The waste of glue-makers, tanners, and all other trades, where hair or wool forms the bulk of the waste, is worth *ten times as much* as stable manure." Weight—75 to 80 lbs. to the bushel. Sold 33 bushels to ton, measured when delivered. Delivered by water at the following prices, viz:

Ten to 15 tons	$15.00 per ton.
Fifteen to 40 tons	$14.00 " "
Forty to 100 tons	$13.00 " "
100 tons and over	$12.00 " "

A New Era in Washing.

LABOR, TIME, CLOTHES & Fuel Saved

By the use of WARFIELD'S Celebrated

Cold Water Self Washing SOAP.

The First to Introduce It IN THIS MARKET.

JOSEPH RASIN, opposite the Bank, after four months of successful sales with the celebrated Cold Water Soap, has introduced it into the families of hundreds with entire satisfaction. By using it you get rid of the annoyance of hot water in Summer, and of steam in the house, (so productive of colds,) in winter. When used according to directions, one good washerwoman can do more and better washing with it than two can do in the same time with the best machines, using the ordinary soaps in market. This Soap washes the finest as well as coarsest fabrics in cold, hard, soft or salt water, without boiling or machinery, and is guaranteed not to injure clothes in the least.—And it is excellent for the Skin; having a healing effect on skin diseases. To consumers it is the CHEAPEST SOAP manufactured. For sale by
