Monetary and Commercial Review.

BALTIMORE, October 4, 1861.

There was a fair inquiry for Stocks again to-day, and some sales were made at the Board, but the transactions were entirely in Baltimore and Ohio Railroad shares and bonds. The sales embraced 50 shares at $40, the market for them closing at $39¾ bid, $40¼ asked; $6,100 of the extra dividend bonds at 41@41¼, and $2,750 1875 bonds at from 70¾ down to 70¼, the closing sale being made at the latter figure; 1875's left off however at 70¾ bid, 1880's at 67 bid, 68 asked, and 1885's at 64¾ bid, 65 asked. In Northern Central shares and bonds there was no movement to-day. The shares closed at 42½ bid, an advance of ¾, but the advance which took place yesterday in the bonds was not sustained, 1885's closing at 55 bid, 56¾ asked, these figures being a decline of 1¼ to 2 per cent. on the closing quotations of yesterday. Maryland and Baltimore City 6's were both firmer than on yesterday, the former closing at 81¾ bid for coupons, and 82 for inscribed 1870's; 82 bid for 1890's; and the latter at 82 bid for 1875's; and 80 bid for 1890's. For Bank stocks there was but little inquiry and they closed dull and heavy. The Mining stocks are quite neglected.

There is nothing new to note in the condition of the money market. Money is abundant, and paper of the right stamp is easily negotiated at 6 per cent. for endorsed, and 9@12 per cent. for single name. Call loans can be very readily made at 6 per cent. on first class collaterals. The rates of discount on Virginia and North Carolina are very unsettled. We quote Western Virginia heavy at 10 per cent. discount., Eastern do. at 15, and North Carolina at 15 per cent. discount.

The exports from the port of Baltimore for the week ending on Thursday amount in value to $119,610, against $235,693 last week. Included in the exports were 10,312 bbls. flour, 200 bbls. corn meal, 1,200 bushels corn, 20,063 bushels wheat, 2,407 hhds. tobacco.

In New York to-day stocks were all better. Virginia 6's advanced ¾; Missouri 6's ¾; Tennessees ¾; North Carolinas ¾; Erie $1¼; New York Central ¾; and Reading ¾. Treasury notes sold at 99¾, yesterday's price.

The New York *Herald* of this morning says:

Stocks were more active yesterday, and prices improved all round—the only exception to the rule being Virginias, which declined one per cent, apparently from the general conviction that the efforts are ruining the State. Missouris rose ¾ per cent., with very large transactions. Government stocks were all better; the new sixes advanced, respectively, the coupons ¾ and the registered ¾ per cent. As soon as these sixes sell at 95 it will be an object for Europeans to buy 7 30 Treasury notes, in order to convert them at maturity into 6 per cent. twenty years' bonds. Government fives were firm at yesterday's quotation. Pacific Mail continued to advance to day; it sold at 91¾—an improvement of 1¼ per cent. since yesterday. New York Central and Erie both rose ¾ per cent. It is now understood that the war between the roads has been settled, and that both will proceed to earn as much money as they can out of the large business which offers. The advance in Central was assisted by the general understanding that this stock has been largely oversold by the Beaver street party. The Western shares were all better. Michigan Central rose 1 per cent, Illinois Central ¾, Galena ¾, Toledo ¾, Rock Island ¾. Part of the money for the Galena dividend has, we understand, been deposited in bank here. After the board the market was firmer. At the second board the whole market was firm: Panama advanced 3 per cent., and Rock Island ¾.

There is nothing new to report in the money market. The increase of activity in the stock market has imparted a little more briskness to the inquiry for call loans, but the supply is adequate at 5@6 per cent. Paper of the best class sells at 6@7 per cent., and is scarce.

Foreign exchange has hardly opened for Saturday's steamer. Bankers ask 107¾, and buy at 105¾@¾.

The statements of the banks of the three principal cities of the Union for the last week compare with the previous one and the corresponding time of 1860 as follows:

The Philadelphia *Bulletin* of last evening says:

The Assistant Treasurer informs us that the whole amount taken there is $1,046,431. Add to this to-day's subscriptions and the amount taken at the office of Jay Cooke (about $1,500,000), and we have the subscriptions in Philadelphia thus far about $2,900,000, independent of that taken by the banks.

The Boston *Traveller* says:

The banks in this city have deposited to the credit of the United States their proportion of the second fifty million loan, in conformity to the arrangements entered into between Secretary Chase and the banks of New York, Boston and Philadelphia.

AFFAIRS IN MISSOURI.

Movements of Fremont--His Programme Approved.

JEFFERSON CITY, October 2.—General Fremont continues actively occupied, and the various division commanders have had interviews with him to-day.

His programme is said by those in his confidence to be excellent in every particular, and to have met the approval of all the military authorities to whom he has disclosed it. Since his arrival here confidence in the Federal cause has greatly increased, and it is now believed that before the end of the month Missouri will be purged of her foes.

The steamer Emma left for Lexington this evening to convey our wounded to the hospitals in St. Louis.

Col. Philip St. George Cook, of the 2d United States dragoons, arrived here this evening, and had a lengthy private interview with General Fremont.

His force of regulars from Utah will no doubt be ordered to this vicinity for service. It is said that a Brigadier Generalship will be conferred upon him.

The following is a special despatch to the St. Louis *Democrat*:

JEFFERSON CITY, Oct. 2.—Two Government steamers have gone up to Glasgow to bring down Col. Worthington's 5th Iowa regiment to Booneville.

Lieut. Col. Totten is actively engaged in his position of Chief of Artillery. Both Totten's and Dubois' batteries, which did such good service in the battle at Springfield, are among the artillery here.

Gen. Price's Intentions as to Fremont.

JEFFERSON CITY, October 3 —[Special to the St. Louis *Democrat*]—Dr. White, of Col. Mulligan's brigade, arrived here on the Sedalia train, at an early hour this morning, and brings information from Lexington up to Monday night.

General Price had left Lexington with the main body of his force, and is moving southward, for the purpose of effecting a junction with Ben McCulloch, after which he will give General Fremont battle.

Dr. White represents that Price has decided upon this point, having been elated and intoxicated with his victory at Lexington. He says that Price anticipates an easy victory over Fremont at this point, and will then move on to St. Louis. There were no less than 24,000 secessionists ready to rise and welcome him with arms in their hands.

Dr. White thinks that the Confederates will endeavor to get between us and the force at Georgetown, surround and cut off Generals Davis and Siegel, and then meet Fremont near this place.

The Confederate army has nineteen field-pieces, and are expecting rifled cannon from the South.—General Price told the Doctor that the Southern Confederacy had loaned the State of Missouri one million dollars for the purpose of carrying on the war against the Federal Government. His troops are confident of victory, and are clamoring to be led against Fremont.

Dr. White gives a sorry statement in regard to the conduct of the Confederates toward the wounded at Lexington. They took away from him all his hospital stores—not leaving him even a sponge. A portion of Price's forces had moved towards Independence. There were but 300 in Warrensburg when the Doctor passed through there. He thinks Price's forces number fully 40,000.

JEFFERSON CITY, October 3.—[Special to the St. Louis *Republican*]—Dr. White says that he heard, on his way here, that eighteen thousand Confederates had parted from the main body of Price's army and marched toward Georgetown, with the intention of taking that place before reinforcements could arrive from Jefferson City.

A miller, who left Georgetown yesterday morning, says he was turned back by the enemy's pickets when twelve miles from that town. The Doctor believed that the Confederates have no idea of quitting the State, but intend to make a demonstration in vast numbers upon Georgetown, Jefferson City and St. Louis, and that they are perfectly confident of their ability to take them.

No immediate attack is feared on Georgetown, and our forces are prepared to receive the foe.

An officer who was informed of Mulligan's Irish Brigade, and who left the vicinity of Lexington on Monday evening, places no confidence in the report of the above. This officer says that at the time he left not more than 10,000 troops had quitted Lexington, and that nothing reliable was known of their intentions or course, or of any report that Price had concluded to pursue.

Booneville and Glasgow were quiet at the latest advices, but our forces are all there at a fight. [illegible] Kansas [illegible] Price will strike a blow in some quarter where he is least expected, and the prospects of a battle are now increased rather than diminished.

FROM WASHINGTON.

From the Upper Potomac.

WASHINGTON, Oct. 4.—An arrival from the lower Potomac reports all quiet.

During the fog of Wednesday morning, the Resolute ran quite close to the batteries at Aquia Creek, and was fired upon with shells, but no one was injured. The sound of drum and fife was heard continually on shore during Wednesday night, but the cause of it was not known.

Letter from Secretary Seward in Regard to a State Prisoner.

Secretary Seward to-day addressed to the Governor of Maine the following letter:

DEPARTMENT OF STATE,
WASHINGTON, Oct. 4, 1861.

Governor: Application has been made to the President for the release of Robert Elliot, a political prisoner held in custody at Fort Lafayette.

The evidence taken in his case shows that he had not only conceived the purpose of treasonable cooperation in the State of Maine, with the insurrectionary citizens arrayed in arms in other States for the overthrow of the Government and the Union, but that he had gone to the extreme length of getting up an unlawful force to operate in Maine against the lawful action of the State and of the Federal Government.

His associates in that treasonable enterprise, since his arrest have taken an oath of allegiance to the United States. This proceeding is very proper in itself, but the representation they make that they and he were loyal to the Union at the time when they were combining in arms against it cannot be accepted, at least in his behalf. It appears that he is too intelligent to misunderstand the legitimate tendency of his criminal acts. He cannot be released. On the contrary your vigilance in ferreting out the conspiracy, and in arresting it by denouncing it to the Government and the country, is deemed worthy of especial commendation.

If any of the other offenders are still persisting in their treasonable course, you will, I am sure, not fail to give information to this Department.

I have the honor to be, very respectfully,
Your obedient servant,
(Signed) WILLIAM H. SEWARD,
Secretary of State.

To his Excellency Israel Washburne,
Augusta, Maine.

Army Order.

An army order has just been issued announcing that all depredations upon private property will be severely punished. That no remission of the death penalty for such outrages will be exercised, etc., and that the commanders of guards over such property will be held responsible as principals.

Washington Items--The Case of Gen. Freemont--Sympathy for Secession.

The following is the result of inquiries to-day in official quarters:

The charges preferred by Col. Blair against Gen. Fremont on the 26th ult. had not reached Washington. According to the revised army regulations, charges are required to be transmitted through the superior officer in the case. Fremont himself. A copy of them, however, had been received, to be filed in the court that he shall [illegible] to transmit the original to the War Department.

In response to a request of Gen. Fremont for a Quartermaster for the Western Department, Brig. Gen. McKinstry having taken the field, Major Robert Allen has been appointed to that position. He has the reputation of being one of the best officers of that kind in the employment of the Government.

It is further ascertained that Brig. Gen. Sherman will be promoted to a Maj. Generalship, and will take command of the department of Kentucky, the delicate state of Gen. Anderson's health alone rendering this arrangement necessary.

There seems to be no doubt that Gen. Fremont will be superseded, but no official information has been sent to him of this fact.

General Wool, it is thought by those well informed in military affairs, will proceed to the West under specific instructions, and it may be he will supersede General Fremont. No positive information, however, is derivable on this subject.

E. R. Pennington, son of Governor Pennington, has been appointed Captain of the Twelfth Infantry.

J. H. Grove, of Pa., and Wm. Chambers, of Ill., have been appointed Brigade Surgeons.

The balloon used for observatory purposes broke from its fastenings this afternoon and took an Easterly direction. Its loss will at once be replaced by another.

Albert L. McJilton, Lieutenant-Colonel of the 2d Pennsylvania regiment, was to-day elected Colonel of the 4th Pennsylvania Reserve regiment.

Major Morely, Superintendent of Military Railroads, has caused to be constructed a sideling or turn-off to the Loudoun and Hamshire Railroad, near Falls Church, by which transportation of supplies to troops in that vicinity is greatly facilitated.

FROM FORTRESS MONROE.

FORTRESS MONROE, October 3.—Gen. Wool leaves by the Baltimore boat to-night for Washington, and will be relieved, for the present at least, by Gen. Mansfield, who arrived from Washington this morning for that purpose.

There has been daily, with one exception, a flag of truce between Old Point and Norfolk for the last two weeks. The steamer William Selden came down to-day. She was seized, it will be remembered, by the Confederates last spring, and her presence at Old Point has excited considerable feeling. She brought some fifty refugees—men, women and children—from Norfolk, who were sent back, not having been supplied with the requisite papers.

Henry Magraw, of Pennsylvania, who went to Manassas for the body of Colonel Cameron, returned by the flag of truce, and will proceed to Washington to-night.

FROM GEN. BANKS' DIVISION.

DARNESTOWN, October 2.—At noon to-day all is reported quiet on the river line from the Point of Rocks to the Great Falls. The enemy have not made their appearance in any force since leaving their encampment opposite Muddy Branch yesterday morning.

There has been considerable movements among the Union troops in this vicinity to-day, but nothing to indicate any immediate advance or hostilities.

Private Myers, of the New York Nineteenth, who was sentenced to be shot for desertion, has had his sentence commuted into a suspension of pay for one year. It is understood that the evidence before the court-martial was attended with many extenuating circumstances, which made him an object of Executive clemency.

No orders in the case of Lanahan have been received from Washington. He is still in charge of the Provost Martial, Capt. Stone, and awaits his impending fate with true christian resignation and fortitude. His spiritual adviser, Father Dougherty, visits him almost daily.

The enemy's recent movement towards Leesburg or the Point of Rocks is construed into a strategetic movement only, and one not requiring the strengthening of any particular point along this line. Besides the present high stage of water in the Potomac, which for some days will prevent the passage of the river, our positions have been selected with such care that no experienced officer would recommend a crossing even if practicable. The fact that they unnecessarily exposed their strength or weakness at the Great Falls is a sufficient guarantee that no attack in force was premeditated.

If private intelligence is
