Monetary and Commercial Review.

BALTIMORE, October 25, 1861.

The feeling in the Stock market was firm again to day, but the business at the Board was light. Maryland 6's were inquired for, and sales were made of $3,000 1870's at 86@86¼, these figures being an advance of 1½@1¾ per cent. on the price bid for them yesterday. The market closed firm at 86 bid, 86¾ asked for 1870's. Sales were made of $1,500 Baltimore 1890 6's at 82¾, yesterday's price, and of $4,000 Northern Central Railway 1885 bonds at 59¾. Baltimore 6's closed firm at 85 bid, 81 asked for 1875's; 81¾ bid for 1886's; 82½ bid, 82¾ asked for 1890's; and Northern Central 1885 bonds left off at 59 bid, 59¾ asked. For Baltimore and Ohio extra dividend bonds 44 was bid, and 50 asked, and Northwestern Virginia first mortgage bonds left off at 69¾ bid, 70¾ asked. There is no Baltimore and Ohio Railroad stock, but Northern Central closed firm at $15 bid, $15¼ asked regular way. Bank stocks are quiet, but are steady at previous quotations.

The Commercial and Farmers' Bank has declared a dividend of three and a half per cent. for the last six months, payable on 1st November, both the State and City taxes being paid by the Bank.

There is nothing new to note in the condition of the money market. Money is abundant, and paper of the right stamp is easily negotiated at 6 per cent. for endorsed, and 9@12 per cent. for single name. Call loans can be very readily made at 6 per cent. on first class collaterials.

The value of the foreign exports from Baltimore for the week ending on Thursday was $169,233 against $46,182 last week. Included in the exports were 2,660 bbls. flour, 150 bbls. corn meal, 3,252 bushels corn, 3,174 hhds tobacco, and 320 tons coal.

The New York *Herald* of this morning says:

Stocks were better yesterday, though the amount of business done was small. The operations of the army at Leesburg, however costly or unskillful, were regarded as forward steps, and the news from the Gulf was likewise favorably viewed. Hence we note an advance during the day of one per cent in Central, as much in Erie as much in Michigan Central, ¾ in Illinois, ¼ in Toledo, ¾ in Galena, ¾ in Michigan Southern, and so on throughout the list. There was not much business done in Government or State stocks; the new 6's, however, were well maintained. Bank stocks are rath r more in demand The public generally seem to be waiting to see the result of the movements on the Potomac, and of the naval expedition, before renewing the speculation which was arrested last week. Stocks, however, are growing scarcer daily, and the bears have the utmost difficulty in effecting their deliveries The market was firm at the close. There was rather more ease in money yesterday. Some parties are paying off the loans they made on Tuesday and yesterday at seven per cent, and are refusing to pay over six. The banks and bankers have plenty of money, and in the absence of active speculation it is difficult to employ it. The banks paid up in the last ten per cent. of their $35,000,000 to the Sub-Treasury to-day, only about $.0,000 of the whole amount being in six per cent. Treasury notes

Foreign exchange opens firm for the steamer, with a light offering of bills. Bankers ask 107¾ for bills on London, and 5 33¾ for bills on Paris. Mercantile bills range from 106½ to 107¼, and from 5.35 to 5.38¾. They are scarce. If the supply were better the market would fall.

The statements of the banks of the three principal cities of the Union for the last week compare with the previous one and the corresponding time of 1860, as follows:

	Loans	Deposits	Specie	Circul'n
N. York, Oct. 12	119 828 428	126,437,063	42 292 884	8 788,673

In pursuance of an order of the Supreme Court, the interest on the fourth mortgage bonds of the New York and Erie Railroad, due on the 1st inst., will be paid on presentation at the office of N. Marsh, receiver, in Erie place and Mercer street.

The Boston *Daily Advertiser*, of October 23, says:

Money continues in steady demand at low rates, and the interruption in the loan movement has disappeared in consequence of the increased cash business and renewed action in government securities. The call for business purposes is improving as the season advances, but without any influence on supply or price.

The Philadelphia *Bulletin*, of October 23, says:

The money market remains without essential change. There is very little good paper offering on the street, but there is more doing on call loans at 6@6½ per cent.—Second class paper is difficult to place at 10@15 per cent.

Army Affairs.

Brigadier General Stoneman, Chief of the cavalry forces of the army of the Potomac will probably be promoted to a Major-General. The number of troops under his command requiring an officer of that grade.

Jas. S. Gibbons, of Philadelphia, will on Monday, have in operation a train of fifty wagons, for the carrying of freight between Washington and Baltimore. This has been made necessary owing to the blockade of the Potomac, and the almost exclusive use of the railroad for Government purposes.

The Secretary of War to-day directed the promotion of twenty Sergeants, on account of meritorious services, to the positions of Second Lieutenants. Among them was William Griffin, a Sergeant, who served for many years under the heroic General Lyon, having shared with him the dangers of every battle in Missouri, and earned the deserved admiration of his officers for his courage and soldierly efficiency. The only favor the lamented Lyon ever asked from the Government was the promotion of Sergeant Griffin.

By direction of the President, a committee has been appointed, consisting of Hon. David Davis, of Illinois; Hon. Joseph Hill, of Kentucky, and Hugh Campbell, Esq., of St. Louis, to examine and report upon all unsettled claims against the Military Department of the West, which may have originated prior to the 14th of this month, at which time the order was issued that all monies must be disbursed by the regularly appointed agents of the Government.

The Commission are to meet at St. Louis and enter upon their duties as soon as practicable. Samuel J. Glover, Esq., of St. Louis, is to act as counsel for the Government.

From Across the Potomac.

General Hancock has remained nearly the whole day at Vienna with a large force who reconnoitered the country in different directions for miles without encountering any forces of the enemy.

Information received to-night represent everything quiet along the whole line.

Death of a Soldier.

FROM THE UPPER POTOMAC.

WASHINGTON, October 25.—Private accounts from the Upper Potomac this morning represent that soldiers reported as missing are from time to time coming into camp, whilst others carried down by the current of the river are known to be now under shelter in tenements on its banks.

Movements of the Confederates near Leesburg.

EDWARDS' FERRY, Oct. 24, P. M.—The Confederates during this afternoon were busily engaged in and around their fort between Leesburg and the river fronting Edwards' Ferry. They had previously removed their ordnance, but from the movements observed it was judged they were engaged in replacing them.

The fort is located in the crest of the first range of hills from the river, several hundred yards to the left of a piece of wood, with a breastwork, constructing it with, and extending it in the rear of, the woods. To the rear of this elevation is Leesburg. Parties of horsemen have at different times during the day come up to the fortifications and viewed our batteries ranged along the hills close to the ferry.

Between the fort hill and Leesburg evidently rests a large Confederate force. The smoke from their camp fires has been discernable all day. It is believed, however, that their main body lies near to, and directly opposite the Ferry. They have not exposed themselves in any force, but their pickets and small reconnoitering parties have several times been seen. During this afternoon a train consisting of about one hundred wagons appeared on a more distant hill to the right of Leesburg and encamped there under the lee of a piece of woods.

Towards dusk a considerable body of cavalry were seen approaching a farm house near the river a mile above the ferry, where during the afternoon several bodies of officers had paid visits. It is thought that this house has been occupied as a headquarters of some brigade or division.

The regiments located in this region, are endeavoring to make themselves as comfortable as the limited facilities of the country will admit.

Still Later.

EDWARDS' FERRY, Oct. 25.—Last night our scouts went over the river and picketed the shore for half a mile back, north of Goose Creek. Not a sign of man or horse was heard except the splash of the oars of a boat some distance up the river.

This forenoon the Confederate pickets are seen at various points on and near the river or below the Ferry. Some are mounted, while others are on foot. No large bodies have been perceived, but it is known that they are concealed by the wooded range of hills half a mile back from the river. They still occupy the fort, but apparently not in any great force, although a very heavy body lies directly in their rear.

At midnight there was continued firing at the mouth of the Monocacy. It resulted from the shelling of a confederate camp by our batteries. The enemy did not reply to our shots with any large guns. At headquarters the affair is not spoken of as of any great significance. The result of our firing has not yet been fully ascertained, beyond the fact that the enemy retreated from their position. Their number is represented to have been small.

Privates Tuttle, Clemans, Molher and Raymond, of the 3d regiment Wisconsin volunteers were killed, and Private Ross, Company C, 3d Wisconsin, Corporal Pratt, Company A, 28th Pennsylvania regiment were taken prisoners by the Confederates.

Price Still Retreating.

ST. LOUIS, Oct. 25.—At the latest accounts Gen. Price was retreating towards Greenfield in Dodge county. Gen. Siegel's advance guard was near Bolivar on Tuesday evening, and his main body at Quincey.

General Lane's forces were at Osceola, and General Sturgis' entire command was but one day's march behind.

Gen. Siegel was as far South as General Price's Confederate army, but some twenty-five miles East of him, and evidently aiming by Springfield to cut off his retreat South, while General Lane was only two days North of him.

Fremont is at Pommedette river, *en route* for via Sedalia.

The tressle-work bridge erecting at Warsaw was completed, and the general belief was that General Price would be compelled to fight or surrender.
