Monetary and Commercial Reviews.

BALTIMORE, November 2, 1861

The business at the Stock Board was light again to-day but for most of the securities on the list the market was firm. With the exception of a sale of 6 shares Citizens' Bank at $7¼, the transactions were entirely in Loans, the sales of which embraced $1,000 Maryland 1870 coupon 6's at 86¾, $1,000 Baltimore City 6's 1875 at 81, and $2,000 Northern Central Railway 1885 bonds at 80¾. Maryland 6's closed at 86 bid for coupon 1870's, and 87 bid for inscribed do., and Baltimore City do. at 80¾ bid, 82 asked for 1875's, and 83¾ bid for 1890's. Railroad bonds closed at 59¾ bid, 60 asked for Northern Central 1885's; 70 bid, 71 asked for Northwestern Virginia first mortgage; 82 bid for Baltimore and Ohio 1867's; 71 bid for do. 1875's; 66¾ bid for do. 1885's; and 48 bid for do. 1862's, the extra dividend bonds. Baltimore and Ohio Railroad shares were offered at $50, but only $42 was bid for them, and Northern Central do. closed at $16¾ bid, $17 asked regular way. For Canton Co. $10 was bid today, and Baltimore Gas Co. closed at $100 bid, $101 asked.

The New York *Post* of Saturday evening says:—

Stocks opened weak to-day, with some pressure to sell but as business proceeded a firmer feeling was apparent and most of the railroad shares recovered ¼@¾ per cent. The decline early in the day was due to some extent to a little uneasiness in regard to the naval expedition suggested by the inclement weather. New York Central went down to 78¾, but closes firm at 79, the price of last evening. Hudson River, after the rapid rise of yesterday, receded to 40, at which it is in demand. Illinois Central continues depressed, and sold as low as 61¾, but afterwards rallied to 61¾@⅞. Michigan Central is quiet at 48¾@48¾, yesterday's quotation. Chicago, Burlington and Quincy was among the firmest of the grain roads, and closes at 63¾@64. Buffalo and State Line touched to-day 110, a rise of 10 per cent within a week. Government stocks show no material change. The old Coupon Sixes of 1868 are 96¾ bid. The Coupon Fives of 1871 are better, with none offering under 86. State securities are quiet but generally steady in price. Missouris are dull at 44¾@44¾.

The following table shows the course of the market for the week:

Money is in brisk demand on call at 6@7 per cent. There has been an active shifting of loans the past three days. Exchange on London closed steady at 107¾@ 107¾, with a fair business in first class bills. The banks are paying into the Sub-Treasury to-day the second 10 per cent on the second fifty millions of the 7 30 loan.

We annex a comparative statement of the imports of foreign dry goods at New York for the week ending October 31 and since January 1:

For the Week.	1859.	1860.	1861.
Entered at the port	$402,704	$1,379,209	$621,642
Thrown on market	353,497	1,187,611	789,891
Since January 1.			
Entered at the port	$98,170,150	$90,419,823	$29,125,544
Thrown on market	98,038,294	90,569,199	30,175,779

The total imports of foreign dry goods at the port for the month of October have been less than two million dollars, against about five and a half millions for the same period last year. More than half of this, or $1,080,409, consisted of woollen goods, mostly blankets, kerseys and other fabrics, brought out for army purposes. Only two hundred thousand dollars in cottons were landed here during the month, and less than four hundred thousand dollars in silks.

The business of the Philadelphia Custom House has been as follows:

	1858.	1859.	1860.	1861.

Disasters.

ABANDONED.—Capt. Peeling, of schr Elliott, makes the following report:—Sailed from New York, 27th ult. for Demerara, with a cargo of flour, staves, tar, &c, with a fine breeze from NW; same evening, wind freshened, with heavy sea, the vessel rolling and labouring; at 10 P M, after pumping three quarters of an hour, the pumps not sucking, sounded and found five feet water, hove to under double-reefed foresail, with wind strong from the northwest; at daylight built the pumps and kept all hands pumping until daylight. Monday, Oct 28th, strong wind from NNE, with heavy sea, sounded pumps and found six feet water, and gaining very fast, threw overboard deck load, wore ship, set jib and mainsail and stood in for the land, the water still gaining and the cabin and forecastle overflowed; got provisions and clothes on deck, and set the American ensign union down; at 4 P M, saw a brig, which, as soon as she perceived us, hove to, when we run down to her, proving to be the brig Candace, Capt Bray, from Boston for Baltimore; asked to be taken off, which Capt B kindly consented to do; we then got our boat and put in some provisions and clothes and started for the brig, with the intention of returning to save whatever we might be able. When we left the schr the water was within two feet of the deck forward, and about three to four feet in the cabin; succeeded in getting alongside the brig, and with difficulty kept the boat from being stove; it being dark, with wind and sea increasing, it was deemed unsafe to return, and the brig kept on her course, arriving at this port this morning.

Capt Bray reports that on the 31st we learn that the steamer Lancaster, of Taylor's line, left Havre de Grace on Friday afternoon for this city with 19 canal boats in tow, laden principally with coal and lumber, and that during the severe gale of the same night 15 of them broke adrift, the steamer arriving here with only 4. A steamer was dispatched on Saturday morning to pick up the missing boats

The canal-boats reported broke away from steamer Lancaster on Friday night, have all drifted ashore at North Point, and are safe.

TREGO'S
CEREAL AND PLANT FOOD
AND
RUST PREVENTIVE,
TESTED AND APPROVED BY
DAVID STEWART, M. D.
CHEMIST
MARYLAND STATE AGRICULTURAL SOCIETY.
SOLD BY
P. MALCOM & CO., General Agents,
BALTIMORE.

This Compound contains all the SEVEN ELEMENTS that composes CEREAL and PLANT FOOD. It hastens, by ten to twelve days, the maturity of the Plant and Grain, and specularly adapted to crops requiring an early and vigorous start to bring them to perfection. For late seeding (especially upon corn ground) where the soil plant food has been rapidly removed by the previous crop, it SECURES THE WHEAT FROM RUST and insures a good yield of the best quality of Grain.

We submit the following results of the use of the "Plant Food:"

FORT FANN, Del., Sept. 7, 1861.

Messrs TREGO & SON, Baltimore—The "PLANT FOOD" spread this spring both here and at the experimental farm at St. John's College, Annapolis, doubled, and I think, trebled (as the weights will prove) my product of both grain and straw. There was no doubt about that. No marks nor stakes were required at any period, the dark green color, the *stooling* of the grain, giving the *appearance* of double the number of plants from the same number of seed; the ear ler ripening or maturity of the crop where the PLANT FOOD was applied; the stoutness and height of the plant and the straw, all told the same story, viz: that the PLANTS there had room, of which the soil elsewhere was deficient No other reason could possibly be assigned, as the crop was sown and harrowed in *before* the manure was spread as a top dressing.

Yours respectfully, DAVID STEWART,
Professor of Agricultural Chemistry,
St. John's College.

NORTH EAST, Md., Sept. 5, 1861.

Messrs. WM. TREGO & SON, Baltimore:

I applied the "PLANT FOOD" at the rate of one to two hundred lbs per acre on Oats ground last spring, and the crop was very good, fully up to my expectations. I also applied it to Corn in the hill, putting in a very small quantity in each hill, the Corn started and has kept far ahead of that on the side of it, which was manured with ashes in the hill.

From the little experience I have had with it, I think it preferable to Guano or Bones—and shall so recommend it.

Yours respectfully, RUSSELL THOMAS.

☞ The PLANT FOOD is put up in substantial bags of 150 lbs. each.
