## Monetary and Commercial Review.

BALTIMORE, November 12, 1861.

There was a larger business done at the Stock Board to-day than for some time past, and the market for stocks generally was quite strong. The operations were chiefly in City stock, the sales of which embraced $1,000 6's 1875 at 64¾, an advance of 1 per cent.; $3,500 6's 1890 at 86¾; and $3,000 do. at 86; 1875's closed at 84¾ bid, 85 asked; 1885's at 82 bid; and 1890's at 86 bid, 86¾ asked. For Maryland 1870 6's 90 was bid again to-day, but no sales were made. There was an inquiry for Railroad bonds and sales were made of $500 Baltimore and Ohio 1867's at 82¼, and $4,000 Northern Central 1885's at 59¾. Baltimore and Ohio bonds closed firm at 82¼ bid for 1867's; 72 bid for 1875's; 69 bid for 1885's; 67 bid for 1885's; 50 bid for 1862's, (the extra dividend bonds); Northern Central 1885's left off at 59¾ bid, 60 asked; and Northwestern Virginia first mortgage at 72 bid, an advance of 1 per cent. Railroad shares continue very quiet. A sale was however made to-day of 10 shares Northern Central at 46¾ regular way. For Baltimore and Ohio Railroad $45 was bid, and $50 asked to-day, and Northern Central closed at $46¾ bid, $46¾ asked. There was considerable inquiry at the Board for Bank stocks, but the only sale made was one of 9 shares Bank of Baltimore at $73. Bank of Baltimore closed at $72¾ bid, $75 asked; Merchants' at $53 bid; Union at $50 bid, $53 asked; Farmers and Planters' at $21¾ bid; Farmers and Merchants' at $27¾ bid; Commercial and Farmers', full paid, at $30 bid; and Mechanics' at $13¾ bid, $14¾ asked. For Canton Co. $10 was bid and Baltimore Gas Co. closed at $101 bid, $103 asked regular way. The market closed steady.

In New York to-day stocks were generally better, and the market closed firm at both boards. Missouri 6's advanced ¾; Tennessees ¾; North Carolinas ¾; Canton ¼; Erie ¼; New York Central ¾; and Reading ¾. Virginia 6's closed at the same figures as on yesterday, and Treasury notes sold again at 99¾.

An old copper penny of the date of 1723, and known as the Rosa Americana, was found lately on the David Buffinton farm in Somerset, R. I. In removing a portion of an old stone wall, the coin was found embedded in the earth under the foundation stone, and was perfect, with the exception of being thickly pitted. On one side there is a representation of an American rose, surmounted with the English crown and the words—Rosa Americana—Util's Dulci. On the reverse side a portrait of George the First, with the following inscription around the rim—Georgius D. G. Mag. Bri: Fra. et Hib. Rex.

ARREST.—One of the Police Guard yesterday arrested a little girl, who wore a red and white cape, alledging that the colors of the cape were obnoxious. The mother of the girl accompanied her to the office of the Provost Marshal, where she stated that the article of dress had been made four years since. Capt. Griffith promptly ordered the release of the little lass, and directed the guard to devote his attention in future to weighter matters than the clothing of children.—*Alexandria Local News.*

A FABLE.—Two travellers were passing over a soft piece of ground, when one of them by chance fell into a deep ditch. Instead of lending him a helping hand, the other stood looking on and privately laughing at him, and at last jumped into the ditch himself and began to push the one who had stumbled in, deeper. Which of the two was, in reality, the dirtiest?—*Boston Courier.*

Affairs at Fort Warren are being rapidly improved. The Boston papers say that every thing needed by the sick prisoners at the hospital is being supplied by the people of Boston. The Chief of Police has taken down a large variety of things for the comfort of the prisoners, among which are iron bedsteads, straw, trunks, and hospital stores.

Five slaves escaped from the Port Tobacco, Md., jail last week, by cutting a hole in the wall. They had not been captured at the last accounts.

### FROM WASHINGTON.

**Official Notification from the State Department Relative to Passes.**

WASHINGTON, Nov. 12.—The Secretary of State to-day issued the following order:

Circumstances which have recently occurred, render it necessary to repeat a previous regulation that no person, whether a citizen or a foreigner, will be allowed to pass the lines of the United States army in any direction without a passport signed or countersigned by the Secretary of State; and if any person shall attempt so to pass, he will be liable to arrest and detention by military authority.

(Signed,) WILLIAM H. SEWARD,
Secretary of State.

It has been further ascertained on application at the State Department to-day, that such passes will only be granted to persons upon business for the Government of the United States.

**Proposals for Army Clothing.**

Quartermaster-General Meigs has invited proposals to be received by the United States Quartermaster at Philadelphia, until noon of the 15th inst., for furnishing cloths for army clothing. Each proposal must be accompanied by samples, light or dark blue cloth will be preferred, and light greys will not be considered. This looks to the re-clothing of an army of from *four to five hundred thousand men*, thus affording encouragement to manufacturers, and necessarily involving an expenditure of a million of dollars.

**Official Advices from Europe.**

The official advices from Europe, just received, show a strengthening of the belief in the restoration of the authority of the Union, and increased confidence that the Government will be able to re-establish its authority; and especially gratifying in this respect, is the news from England.

**Prospect of an Exchange of Prisoners.**

General Wool has been instructed to communicate with the "proper Confederate authorities," under a flag of truce in reference to facilities for supplying the prisoners in their custody, with clothing and other necessaries.

The release of Lieutenant Albert Kantz on his parole for a limited period, has been reciprocated on our part by the release of a Confederate prisoner.

There is still a prospect of a general exchange of prisoners, although there is, as yet, no definite arrangement on the subject.

**The Naval Expedition.**

The indications are that the Administration will act with promptness in maintaining whatever successes the naval expedition may have already achieved in the neighborhood of Beaufort. As at the commencement of the preparations studied silence was observed in official quarters, so now there is apparently no disposition to speak of present or prospective movements in that connection.

**Confidence in the Administration.**

Accounts continue to be received here from government officers and others at the North, of the confidence of manufacturers and capitalists in the administration.

**The Steamer Pensacola.**

The machinery of the new steamer Pensacola was tested to-day and worked satisfactorily.

**Death of an Officer.**

Colonel Jackson, of the 18th New York regiment, died here last night. The regiment escorted the remains to the cars this afternoon for transportation to New York.

**Flag Presentation.**

A handsome flag was yesterday afternoon presented to Company G of Burben's Sharpshooters, by citizens of Albany, N. Y. It was received on behalf of the Company by Lieut. Col. Meares.

**A Reconnaissance in Force Across the Potomac.**

A. M.—Six regiments of infantry, and two batteries of artillery and three companies of cavalry under command of General Heintzleman, made a reconnaissance to-day as far as Occoquan Creek, about 25 miles from Washington or 18 miles from Alexandria. They started at 4 o'clock this morning and returned late this evening

The entire force first went to Pohick Church, and there divided, a portion taking the telegraph road to Burk's Station, on the Orange and Alexandria railroad—the other, the road to a point on the Occ quan Creek, about three miles from the Potomac river. The latter crossed Pohick and Accotink Creeks, and reached Occoquan without meeting with any serious opposition.

Capt. Dodge's company of Lincoln Cavalry, which was with the party that went in the direction of Buck's Station, was sent out to make a reconnoisance in advance of the infantry, and when several miles from the other part of the division, they were suddenly surrounded by a large number of Confederates, who had been concealed in the road.

The only hope of escape, therefore, was by cutting their way through, and a skirmish, accordingly, occurred, the cavalry effecting their purpose but with a loss of three men killed, one wounded, and three taken prisoners, including, it is supposed, a quarter of a mile in advance of his command.

The object of the reconnoisance having been accomplished, Gen. Heintzleman ordered the troops to return to their encampments.

Last night four hundred Confederate cavalry reached Pohick Church, but left before the arrival of Gen. Heintzleman's force to day.

**Generals Halleck and Buel Going West—Military Wedding.**

Generals Halleck and Buel leave to-morrow for the West, to enter upon their respective military Departments.

Colonel Wheaton commanding a volunteer regiment was married to night to the daughter of the late General Mason, at the residence of General Buel.

### LATEST FROM KENTUCKY.

**Great Union Victory—Four Hundred Confederates Killed and One Thousand Made Prisoners.**

PARIS, Ky., November 12—The Confederates under General Williams at Pikesville have been defeated after two days' fighting by General Nelson.

Four hundred Confederates were killed and one thousand made prisoners.

Colonel L. Moore attacked the Confederates in the rear with 3,800 men. Colonel Harris, of the Ohio Second regiment, made an attack in front with 600 men.

Harris fell back, and Colonel Moore pressed forward until the enemy were brought into the midst of General Wilson's brigade, when our forces pressed the enemy on all sides, killing 400 and taking 1,000 prisoners.

The balance were here scattered in all directions. The Federal loss was comparatively small.

LEXINGTON, Ky., Nov. 12.—A courier from Gen. Nelson's brigade with the despatches from General Thomas reports that the fight at Pikesville lasted two days, and that the Confederates lost four hundred killed and one thousand wounded.

**Still Later—The Victory Complete—The Confederate Commanders taken Prisoners.**

CINCINNATI, Nov. 12.—The battle at Pikesville, Ky., lasted through Friday and Saturday. The victory of the National troops was complete. Gen. Williams and Gen. Stone, the Confederate commanders, are among the prisoners taken.

**The Defeat of the Confederates in Kentucky Confirmed.**

LOUISVILLE, Nov. 12—Midnight.—Accounts received here by mail fully confirms the defeat of the Confederates under Generals Williams and Nelson, at Piketon (not Pikesville) the capital of Pike county Ky.

**More of the Doings of the Union Men of Tennessee—Burning of Another Important Bridge, Cutting Off Confederate Supplies and Reinforcements.**

CINCINNATI, Nov. 12—The bridge across the Cumberland river, on the Louisville and Nashville Railroad, and in the rear of the Confederate General Buckner, has been burned by the Union men of Tennessee, causing great consternation among the Confederates.

### FROM THE UPPER POTOMAC.

DARNESTOWN, Nov 9.—An arrival from Western Virginia brings dates from Manassas to the 16th of October. At that date the central division of the Confederate army was at Centreville, and an immense number of hands were engaged in erecting new entrenchments in anticipation of an attack by General McClellan. Johnston was at Centreville.

Advices from Northwestern Virginia are to November 1st. The chaplain who was taken prisoner at Ball's Bluff on the Sunday previous to that affair, preached a war sermon at Lovettsville, and at the conclusion opened a list and personally called upon all the young men present to enroll their names for the cause of the Confederate States.

Last night a prisoner from the Fifth Connecticut, confined for assaulting his colonel, made his escape from the prison camp, and up to a late hour had eluded the grasp of his pursuers.

On Thursday two sentinels of the Sixteenth Indiana, while on dutr, engaged in the practice of the bayonet drill. They had previously taken the caps from their rifles, but in the frolic the coat of one, named Lewis H. Cliff, of Laurel, Indiana, got caught in the lock of his opponent, whose rifle discharged and shot Cliff's in the left breast, the ball passing through his body, breaking two of his right ribs, and entered the ground. Cliff expired almost instantly.

DARNESTOWN, November 10.—An almost quiet pervades the right wing of the army of the Potomac. Various regiments composing the brigades are seeking the shelter of pine forests or other positions screened from the winter winds and in proximity to never-failing springs and abundant streams.

The prisoner Kavanaugh, of the Fifth Connecticut, referred to above as having made his escape from the prison camp, was re-arrested in the forest last night by the Provost Guard. The general court-martial which has been in session for some time, has concluded its labors, and made up verdicts in several important cases, a list of which will be duly forwarded. It is understood that the finding of a previous court in the case of Lanahan, the murderer of Major Lewis, of the Forty-sixth Pennsylvania, has been returned from the executive authorities at Washington with instructions, and that the finding has been re-affirmed by the court which has just risen. His execution may therefore be looked upon as of speedy occurrence.

To-day twenty-seven teamsters connected with the general supply train—located near the crossing of the Rockville road with Muddy Branch—refused to perform their duty until they were paid the arrearage of their wages. Major Stone, Captain Merrick and Lieutenant Augustine, with a detachment of the Provost Guard, went down and have not yet returned.

WASHINGTON, Nov. 12.—A letter received here to-day from Darnestown, represents all as quiet on the Upper Potomac.

The general court-martial of which Major Atterbury of the New York 9th, is President, and Capt. Collins of the Zouaves D'Afrique, is Judge Advocate, has been made a permanent Court for the Division by order of General McClellan. Several capital cases will be tried immediately, among which are two for murder.

### FROM THE LOWER POTOMAC.

WASHINGTON, Nov. 12.—The steamer Cour De Lion has returned to the Navy Yard from the flotilla, and reports affairs down the Potomac as unchanged. The Confederate steamer George Page still harbors in Quantico creek, and may be seen from Budd's Ferry. Three schooners ran the blockade in open day yesterday. They came above the Confederate batteries about 11 o'clock in the morning, when the Confederates opened their fire upon them. They sailed slowly up the South channel by the Maryland shore, and although forty-three rounds were fired at them they all three escaped untouched. Most of the shell fired were apparently from the rifle guns, and struck on the Maryland shore.

### DEFEAT OF THE FEDERAL TROOPS AT GUYANDOTTE.

**Treachery of the Confederate Citizens—The Federal Soldiers Massacred in Cold Blood.**

CINCINNATI, Nov. 12.—The defeat of the Federal troops at Guyandotte, Va., was accomplished by the trickery of the inhabitants conspiring with a force of Confederates, variously estimated at from five hundred to one thousand men, who concentrated in the country back of the town. Those troops prepared, with the assistance of the Confederate inhabitants of Wyandotte, to annihilate the Federal troops stationed at the town, consisting of two hundred and fifty men, part of a Virginia regiment and a few of Col. Zeigler's Virginia Cavalry.

It was arranged between the Confederate cavalry and Confederate citizens to massacre our troops in cold blood. Accordingly these Confederate citizens assumed a very friendly manner to our troops last Sunday evening, and invited them to their houses on various protexts, and all who were off duty accepted the invitation. While being thus entertained, the Confederate cavalry dashed into the town. RAILROAD ACCIDENTS.—Barney Fennis, a freight conductor on the Northern Central Railway, had his right hand very seriously injured on Monday evening by having it caught between the bumpers of two cars, which he was endeavoring to couple. Dr. Jones attended him.

Thomas Lynch also met with an accident on the Baltimore and Ohio Railroad on Monday evening, near a point called Little Creek. He was not employed by the company, but volunteered to adjust a coupling, and in so doing, fell between two cars and received severe internal injury. He was removed to a house near by, where the services of a physician were availed of.

Another accident occurred at the Camden station of the Baltimore and Ohio Railroad, shortly after six o'clock on Monday evening. Patrick Burke, residing at No. 39 Mosher street, attempted to jump on a train of cars while in motion, but made a misstep, fell on the track, and was run over by one of the cars. He was taken to the Southern district police station, where Dr. Dunbar was called to attend him, but his injuries were of such a serious character, that he died in about an hour after the accident. He was about thirty-five years of age, and leaves a wife and four children.

EAST BALTIMORE SOUP HOUSE.—The East Baltimore Soup House, located at the intersection of Central avenue and Bank street, is now fairly established, and daily dispensing its charity to hundreds of worthy poor. Institutions of this kind commend themselves to the favorable consideration of the community, and should be sustained liberally. The worthy gentlemen who devote their attention to its prosperity are well known in the city, and their character is a guarantee that charity will be carefully protected and generously conducted.—They have appealed to the community for support, and a response should be given which will enable them to sustain themselves in this benevolent undertaking. As the cold weather approaches, the number of applicants will largely increase, and as a consequence, expenditures will be greatly augmented. Already some six hundred persons are daily applicants, and it is anticipated that in a short time not less than fifteen hundred per day will claim its bounty. The community will therefore see the necessity of subscribing generously for the support of the East Baltimore Soup House.

POSTPONEMENT OF THE TREASON CASES.—Chief Justice Taney, sitting with Judge Giles in the United States Circuit Court, yesterday morning passed the following order in relation to the trial of the persons who have recently been indicted for treason by the Grand Jury of the United States District Court:

The Court direct all the indictments for treason now pending to be continued to the next term of this Court—the recognizances of the parties out on bail to be respited accordingly, and process against the parties returned *non est* to be renewed.

In the present unhappy condition of the country, the Court feel it to be their duty to state the principles and reasons upon which they act. And as oral statements are often misunderstood, and consequently reported incorrectly, we shall put in writing as soon as we conveniently can, and file in Court, our reasons for passing this order.

THE FRENCH CREW OF THE PRONEY.—The officers and crew of the French corvette Proney, wrecked on the coast af North Carolina, and who arrived by the Fortress Monroe boat, still remain in the city. The officers are quartered at the Gilmor House, and the crew at the Fulton House. The officers have formed a very unfavorable opinion of the humanity of the Federal naval officers, who passed their vessel when she was in a sinking condition, without an effort to render any assistance. The treatment received from the South has favorably impressed them, and they are warm in their expressions of gratitude for the services rendered them. Yesterday the marines were strolling through the city, objects of much interest. Provision will be made by the French Vice Consul for their transfer to New York within a day or two.

CALL ACCEPTED.—Rev. O. B. Wyatt, formerly ministering in California, but more recently in New York, has accepted a call to the rectorship of Mount Calvary Episcopal Church, corner of Eutaw street and Madison avenue.

## CITY INTELLIGENCE.

PREMIUMS OF THE MARYLAND INSTITUTE.—The following awards of merit for the exhibition of the Maryland Institute, which has just closed, have been made by the committee charged with that subject. In making up this list of premiums, the committee have to regret that the financial affairs of the Institute, consequent upon the condition of the country, have not permitted them to do anything like ample justice to any of the departments of industry represented at the exhibition. Hence the committee have been compelled in very many instances to withhold awards from depositors that have deserved most favorable notice in that connection, and the same reason has operated to make the awards less valuable than they would have been under ordinary circumstances:
