CITY INTELLIGENCE.

INSURANCE.—The scarcity of money and stagnation which affects all classes of trade, have affected very seriously the business of Insurance agencies. One year ago, with the exception of a few very large real estate property holders, it was an exception to find a person engaged in any vocation where it was necessary to have stock to any amount who was not insured, and the losses by fire during the year 1860 were scarcely felt, except by the insurance companies, and even to them the loss was comparatively small. At present, however, business men and citizens generally appear to be perfectly unconcerned in regard to insuring property. The merchant has but a small stock of goods on hand, and is not selling sufficient to pay the ordinary expenses of the store, much less to accumulate profits, and the consequence is that he allows his policy to expire, and if it is suggested to him to renew the insurance, his reply is that he has no money. The real estate owner in most instances has tenants for his houses, but so far as receiving rent is concerned they might as well be idle. He too feels the same unconcern in regard to insurance, and the result is that not one half, and perhaps not one-third of the real estate of the city is covered by fire Insurance policies. The merchant who in the fall of 1860, took out a sixty or ninety day policy for $100,000 or $200,000, this season has taken out a policy of from $25,000 to $50,000. Their stock of goods is light and they do not care about insuring. This is altogether wrong, and the sequel will be, that a large fire will take place during the winter, destroying, perhaps, hundreds of thousands of dollars worth of property, in which there will be little or no insurance, and consequently great loss. All classes of people are less able to sustain a loss now than they could have been one year ago, and if this is true, self preservation should suggest the caution of insuring. With but one exception there has not been a large fire in the city since the spring of 1857, and if, as the history of conflagrations seems to prove, large fires are periodical, the city may not be so fortunate this coming winter as it was in the four past. The introduction of the present efficient Fire Department has also affected the insurance business. Its inauguration was the death-blow to fire company rowdyism. There is no longer the inducement of a free fight to incite the incendiary toply the torch for the sake of bringing the "machines" together, and therefore most of the fires which occur are accidental in their origin. The confidence which the community feels in the Department has certainly affected the insurance companies, and the amount of insurance on all classes of property have been reduced some sixteen to thirty-three and one-third per cent. Persons owning property in isolated positions and occupied by careful tenants, have failed to insure, preferring to run the risks of fire, and trusting to the efficiency of the Department, than to paying the insurance. Beyond all doubt, the dangers of loss by fire have been lessened much more than 33⅓ per cent. by the introduction of the new system, and therefore the reduction of the rates of insurance was a matter of economy as well as necessity on the part of the offices and agencies. Our citizens, however, should not have an over-confidence and cease insuring, for fires will take place in the future as they have in the past, of such fury, that no efforts or means will be able to control or subdue. Our Fire Department is the best in the country. The Board of Fire Commissioners and the Chief Engineer have been unremitting in their efforts to make it efficient, and have succeeded. The services of Col. F. H. B. Boyd, Fire Inspector, are of the most important character. To him is mainly due the credit of breaking up the gang of incendiaries, whose dispositions, after the volunteer system was abolished, still prompted them to apply the torch. He has carefully examined into the origin of every fire, and when there was the slightest probability that it was the work of the incendiary, he has been untiring in his efforts to detect the miscreant. He has succeeded in procuring the conviction of a number of them and they are now serving terms in the penitentiary.

ATTEMPT AT SELF-DESTRUCTION.—On Wednesday afternoon last quite a desperate attempt to commit suicide was made at the encampment of the Second Maryland regiment, by William Pentz, belonging to one of the companies of that regiment. It is stated that he had recently, for misconduct, been removed from the position of orderly sergeant and placed in the ranks as a private; and, in consequence, he had determined upon taking his own life. With this view he procured a large dirk-knife, and having partially stripped himself of his clothing, drew the knife several times across his breast and abdomen, inflicting a number of severe wounds. Before, however, he had fully carried out his intention, he was observed and disarmed, and Drs. Morong and Beatty were called to his aid. Upon examination of his wounds, it was ascertained that but one of them was of a serious character, and it is thought that with proper treatment, his life may be saved.

EXPLOSION OF A LOCOMOTIVE—*Two Men Killed.*—About eleven o'clock on Wednesday night a locomotive exploded on the Baltimore and Ohio railroad, near Jackson's Bridge, by which two men were killed and a third so badly injured that his life is despaired of. One of the killed is James L. Ambrose, the engineer, who leaves a wife and two children, residing in the western section of the city. The other was a soldier of the 69th New York regiment, engaged in guarding the line of the road between this city and the Relay House. The injured man was the fireman, who is very badly scalded. No regular investigation of the matter has yet been made, but it is believed that the accident was the result of negligence on the part of the engineer. The damage is estimated at $3,000. As there is a double track at that point, the regular passage of trains will not be interfered with.

ACCIDENTS.—Yesterday morning a negress, named Jane Thorp, who lives on Bethel street, near Gough street, while in the act of carrying a large tub down a flight of stairs, made a misstep and was precipitated to the bottom, a distance of twelve feet; she broke her right collar bone and sustained several severe bruises. Dr. Dwinelle rendered medical attendance. On Wednesday evening a boy about twelve years of age, son of Mr. Wm. Howell, while engaged at work at the copper mills at Canton, had his right leg broken by a piece of metal falling on him. He was taken to his father's house, where Dr. Evans set the limb.

RAILROAD ACCIDENT.—Yesterday afternoon, about four o'clock, a negro boy named Bennett attempted to get off a city passenger railroad car on Baltimore street, near Central avenue, when he fell, and his left foot was caught under the car wheel and badly crushed. He was taken to the Eastern Dispensary, where Dr. Muller dressed his wound, and he was then conveyed to his home on Eutaw street, near Eager.

DETENTION OF A TRAIN.—The Buffalo express train, due at the Calvert Station of the Northern Central Railway, yesterday morning at 8 20, was detained until a late hour of the day, in consequence of a train of coal cars bound South, having run off the track at a point within twenty-one miles of York. The only damage reported was the destruction of three or four of the cars.

ACCIDENTALLY KILLED.—John E. Howard, familiarly known as "Bull Alley," a private of the Second Maryland regiment, was accidentally shot on Wednesday evening, from the effects of which he died yesterday morning. It appears that Howard was passing through the camp, when a loaded musket, which had been left standing against a tree, fell to the ground and was discharged, the contents passing entirely through his body.

FOUND DEAD.—Captain Henry Mine, of Philadelphia, was yesterday morning found dead in the cabin of his schooner, Dr. Greentree, coroner, was notified and held an inquest, the jury rendering a verdict of "death from natural causes." His family were informed of his death by telegraph; and Dr. Greentree had the body placed in a coffin to await their order.

SALE OF A VESSEL.—The schooner Mary C. Cranmer, lying at Stewart's wharf, was yesterday sold at public auction, by the United States Marshal, under an order passed by Judge Giles, of the U. S. District Court. Mr. F. C. Meyer was the purchaser at $790.

FUNERAL.—The funeral of Lieut. Wilson, of the Second Maryland regiment, took place yesterday morning from his late residence on Lexington street, near Warner. The escort consisted of company A, Lieut. Spangler in command.

SAILED.—The steamship Baltimore, Captain Dero, sailed yesterday afternoon for Havana. She has recently been repaired and thoroughly refitted.

Amusements.

HOLLIDAY STREET THEATRE.—*Miss Western's Benefit.*—The audience of Miss Lucille Western will to-night have an opportunity of evincing in a substantial manner their appreciation of Pauline, in the *Lady of Lyons*—a *role* admirably suited to the display of her versatile talent. Mr. Tilton appears as Claude. In the *College Boy*, Miss Western represents, Fanny and Tom.

BALTIMORE MUSEUM.—A new programme will be submitted to the patrons of Kunkel's troupe this evening, which includes many laughable features, among which are "The Power of Oratory," "Musladingdah Brothers," "Scenes at Toomey's," and "The Sons of Malta." The entertainment is decidedly select and full of humor. On Saturday afternoon there will be a day performance at three o'clock for ladies and children, when a number of costly presents will be distributed among the audience. The Christmas week will be inaugurated with a new budget of fun.

The evidence in this case was to the effect that the accused robbed Miller of a bo tle of sweet oil, and Miller, in company with a corporal, again took it from him, at the same time calling him a thief, whereupon the accused shot Miller for the insult, and said he was sorry he had not killed him. Banking and Commercial Intelligence.

BALTIMORE, December 12, 1861.

The only transac ion at the Stock Board to-day was a sale of 4 shares Citizens' Bank at 18¾, but we heard of a sale after the Board of 50 shares Baltimore and Ohio Railroad at 247, which is an advance of ⅞ on the price bid for it yesterday. Maryland and Baltimore 6's were both firm, the former closing at 91¾ bid for coupon 1870's dividend on, and 90 bid ex dividend for inscribed 1870's, and the latter at 84 bid for 1875's, and 85½ bid for 1890's for the opening. Northern Central Railway closed today at 47 bid, 47¾ asked, and the bonds left off at 6 bid, 61 asked, for 1885's. Baltimore and Ohio bonds left off at 46 bid, 48 asked for 1862's (the extra dividend bonds), 71 bid for 1880's, 68¾ bid, 70 asked for 1885's, and the shares closed at the Board at 46 bid, 48 asked regular way. Bank stocks are wanted, but there are very few offering, and they are generally firm, Canton left off at 49¾ bid, Baltimore Coal at 47 bid, 50 asked, and Springfield Mining at $1.75 bid, $1 85 asked regular way, but nothing was done in any of these stocks.

The demand for foreign Exchange continues limited but rates are pretty firm. We quote sterling to-day at 109@109¼ for bankers', and 108¾@109¼ for commercial bills, and francs at 5 13¾ for short sight, and 5.18¾@5.20 for 60-day bills. Bremen bills are quoted at 79@79¼; Amsterdam at 40¼@40¾; Cologne at 72¼; Hamburg at 36¾; and Frankfort-on-the-Main at 41¾.

The Boston *Post* of Wednesday thus notices money matters in that city:

"In money and business there is no apparent change. Money can be readily obtained at 5 per cent on call by strong parties, and, indeed, we hear of transactions at 4 per cent. There is little demand for the banks or anywhere else. Business is better than it usually is at this time of year, and one way and another, we suspect that 1861 will not be an unprofitable year for Boston. In the early part of it many merchants were struck down, and throughout its course some branches of trade have been dull."

The New York *Herald* of yesterday says:

Stocks are inactive, and prices generally lower than yesterday. New York Central and Erie both declined ½ per cent at the morning board, and as much more in the afternoon; the Western shares were likewise ½ per cent lower. Nothing of any importance was done in government or State stocks, and prices were unchanged. In the second board the market was inactive and dull and steady. There is nothing doing in foreign exchange. The leading bankers ask but 109¼, and it is confidently predicted that 109¼ will be the rate for Saturday's packet. Nothing in the condition of our foreign trade justifies this advance.

The Philadelphia *Inquirer* of yesterday says:

Stocks have been dull again today and rather weak, although prices show no material variations. The sales today sum up 5,000 loans and 1,300 shares. Pennsylvania 5's closed 78¾@79; City 6's, new, 89@89¼; old 88@88¼, but no sales of either were reported. Pennsylvania coupon 6's, war loan, sold at 99, and North Pennsylvania's at 56¼, no change; and Pennsylvania Railroad, second mortgage, at 84¼, an advance of ¼.
