OPERATIONS OF THE SUMTER.

HOW THE MONTMORENCI WAS RANSOMED.

The Captain of the ship Montmorenci, captured by the Sumter on November 26, tells the following story of the manner in which he ransomed his vessel. After describing the chase, he says:

The Sumter, lying within a few yards of us, her guns pointed at us, and about one hundred men on deck, I did not see the least chance for escape. I went on board the Sumter, when I was ordered to the captain's cabin, who said to me that I was his enemy, that my ship was a prize to the Confederate States of America, &c. I told him I had a cargo of coals belonging to the English West India Mail Steamship Company, that my ship was chartered by them, and that he could not take my ship without coming in collision with England. He asked how I could prove these facts. I referred to my charter-party, bills of lading, clearance from Newport, Wales, and showed him the papers.

The Captain then said the ship and freight belonged to him; that he would put a prize-master on board and send her into port. I asked him where he could send her. He then said he would burn her. I again reminded him of neutral cargo. He figured the probable cost of the coals, and said if I had a valuable cargo belonging to English owners, he should let me go after taking what he wanted from the ship, but as the cargo was not worth over $4,000, it was worth his while to pay England, if obliged to do so, $4,000 for the sake of destroying from his enemy what he supposed worth $50,000; that it would be money well laid out. He said there was one of two things he would do; he would take from me a range bond of $20,000, payable to the President of the Confederate States thirty days after the declaration of peace, or he would burn my ship. I told him I did not know such a President. He then called an officer of the deck, and told him to take all the valuables from my ship, and then burn her. While they were in the act of doing so, I concluded to sign the bond and save the ship, thinking the bond worthless, and I believe he took it as a lawyer-like way of getting rid of me.—He then declared me a prisoner of war, and wanted me to sign a parole paper. I demurred, but he had me a prisoner in his cabin, and told me there was no alternative. I had to do it. He then said he wanted all my spare canvas, rope, paint, oil, &c. After ransoming my ship—which I put into my protest as piracy—he took all my fire-arms, powder, &c. I told him I wanted my fire-arms.—He said it was one of the most important things to disarm their enemies, but when I expostulated with him, that I must have them, as I had ransomed my ship, and must protect her against small pirates, he said I was right, and gave them all up to me after I got on board my own ship, sword and all.—He kept our best ensign as a trophy of his prize. He took from us many little things, some rope, and about two hundred pounds of white lead that we had bought to paint ship.

Setting aside the piratical acts of Semmes and his officers, they are very gentlemanly in their appearance. I tried to get a chance to see how well armed the Sumter was. I went on deck. The officer of the deck immediately came to me and told me I would be well treated, but begged me to go down in the ward-room. I told him that it was rather close below, and I wanted to see if they had a big gun. When the officer of the deck failed to get me in below, Semmes came up and asked me if I would oblige him by going back into his cabin.—All I saw was four guns on a side, not heavy; but the Sumter will go fast. Semmes told me he had just got clear of the Iroquois.

EXTRACT FROM GOV. ANDREW'S MESSAGE RELATING TO MARYLAND.—"Maryland—I gladly point you to our oasis, in the midst of all the resentments of the hour. A committee of the House of Delegates of Maryland, acting under instructions from that body, have addressed the Executive of Massachusetts, seeking to learn the condition of the widows and orphans of the patriots who were murdered at Baltimore on the 19th of April, and to be informed of any persons who were dependent on them for support, in order that the State of Maryland may take such action in that connection as befits its sense of justice and honor. Cordially appreciating the honorable and humane sentiments of the House of Delegates of Maryland, the letter of their committee is herewith communicated to the general court, and I have directed the necessary investigation to be made to answer its inquiries."

Two Occupants of One Grave.—Rather a singular incident occurred a few days ago, at one of the burial grounds in this place. A grave had been dug for a deceased person, and the sexton waited for the corpse. Bye-and-bye, a squad of soldiers arrived with a dead comrade, and commenced to inter him in the grave prepared for another. They paid no attention to the remonstrance against their proceedings, but placed their dead man in the grave and covering him up, departed. In a very short time thereafter, the real proprietor of the grave arrived in a hearse. His friends, indignant at the unauthorized appropriation of the ground, opened the grave, dug the soldier up, and placed their man in his narrow home. The sexton subsequently dug a new grave and buried the soldier.—*Alexandria Local News.*

The ship Economist, Captain Thomas, arrived at Milford, England, Dec. 19, with a full cargo from Savannah, Georgia.

The paupers of Paris are greatly increasing in numbers. There were 70,000 in 1859, 91,000 in 1860, and 100,000 in 1861.

G. T. HOPKINS, A. OLOSE, J. CORTLAN, Jr.

Monetary and Commercial Records.

BALTIMORE, January 4, 1862

There was but little business done at the Brokers Board to-day, but stocks generally were steady. Northern Central Railway was ¼ to ½ better. A sale of 50 shares was made at $17¼ regular way, and it closed at $17¼ bid, $18 asked regular way, and $17¼ bid buyer 60-days. Baltimore and Ohio Railroad closed as on yesterday at $49¾ bid, $51 asked regular way. Railroad bonds were rather weaker than on yesterday, Northern Central 1885's closing at 60¾ bid, 62 asked, Northwestern Virginia first mortgage at 75 bid; and Baltimore and Ohio bonds at 81 bid for 1867's; 49 bid, 50 asked for 1562's, the extra-dividend bonds. Maryland 6's closed steady at 93 bid ex-dividend for 1870's and 1890's, and Baltimore City 6's at 86 bid, 86¾ asked for 1870's; 87 bid, 87½ asked for 1875's; and 87¾ bid for 1890's; but Missouri 6's, of which there are some lots offering, were lower again, only 39¾ being bid, and 40 asked for them. There is nothing doing in Bank Stocks, but they are generally firm. There was some inquiry for the Mining Stocks to-day and a sale was made of 100 shares Springfield at $1.65, Springfield closed at $1.65 bid, $1.75 asked; Gardner Hill at 60 cts. bid, 70 cts. asked; and Guilford at 30 cts. bid, 40 cts. asked.

steady. firm.

The New York *Herald* of Saturday says:

The stock market displays a moderate amount of activity, without material variation in prices. Yesterday the tendency was upward; to day it was downward, but the decline was slight. At the first board Central, Erie and the Western shares fell off ¼@¾, the chief decline being in Rock Island and Michigan Central, which fell 1 per cent. Missouris also declined 1¾. After the board the market was dull, and continued so at the second board; but at the close of business there was a smart rally, and about half the decline of the morning was recovered. The market closed steady.

The New York *Evening Post* of Saturday says:

The stock market is extremely quiet to-day, but very firm in price. Early in the day the transactions were exceedingly small, but towards the close there is more doing at an improvement of ¼@¾ per cent. on the quotations of the "first call." New York Central, after opening at 79¾, closes at 80¼@80¾. Erie sold at 31¾ and leaves off 32@32¼. Michigan Central, after the board, rallied to 48. Pacific Mail and Panama were ¼@1 per cent. better than yesterday. The former closes 92¾@93¼, the latter 111@111¼. State stocks are firm, excepting Missouris which continue neglected at 40@40¼. Tennessees, Georgias, North Carolinas and Louisianas are in demand at our quotations. Governments are extremely dull at former quotations. No new movements can be expected in them until the action of Congress on the report of the Committee of Ways and Means has been determined.

The Boston *Courier* of Saturday says:

The market affords few items of special interest. The week which is about closing has been characterised by a more irregular movement in money matters, and the future action of the banks continue to be regarded with special interest in commercial circles. There is, however, a very abundant supply of capital, which is offered at low rates, and the suspension of specie payments by the banks; causes little or no comment in the business community; and specie in small lots commands no premium. Bank specie to day is $8,978,100. Exchange on London is firm, with very little doing, rates 111¾ to 112¾.

BALTIMORE MARKETS

SATURDAY, January 4.

COFFEE.—The market for Coffee continues very firm in tone, and prices are still tending upward. MOLASSES.—There is but little inquiry for Molasses, and we hear of no sales worth noting. We quote as follows, viz: Cuba at 21@26 cts. for sweet clayed, and 28@30 cts for Muscovado; Porto Rico at 34@38 cts; English Island at 25@28 cts; and New Orleans at 50@55 cts.

PROVISIONS.—There has been some little movement in Provisions within the last day or two, in addition to the sale to the Government, but the market generally may still be said to be dull and heavy. Sales were made yesterday of 125 boxes long and short boneless Middles for export at 7¾ cts. for the former, and 8 cts. for the latter, and we have also reported sales of 125 tcs. Western Land at 8¼@8¾ cts., which is a decline of ¾ to ⅞ a ⅞ cent, and 100 bbls old Mess Pork, made from Bulk Sides, at $10. New Mess may, however, be quoted at $12 50@12 75 per bbl. There is no Bulk Meat selling, and we can give no quotations for it, but we quote Bacon at 7¾@8 cts. for Shoulders, 6 cts. for Sides, and 6@8½ cts. for Hams. FOREIGN MARKETS.

RIO DE JANEIRO, 23d November, 1861.—Our last market advices were dated the 6th instant.

Flour.—The receipts have been 7,017 bbls., of which 4,660 bbls. from the United States, and 2,351 bbls. from Europe. Sales reported were 22,835 bbls., divided as follows:

550 bbls. S S.S. F. at 17½ to 18$000, (in bad order;) 1,000 bbls. Fontana at 23; 1,260 bbls. Spanish at 21; 1,747 bbls. Richmond seconds and thirds at 17½ to 18; 11,023 bbls. Baltimore, Ohio, Interior and Virginia Extra and Family at 17 to 17$000; 3,968 bbls. do. do. Super at 14$000 to 14$200; 2,652 bbls. Baltimore, Philadelphia and Chilian, (damaged,) 6400 to 12$670, (in auction;) 920 bbls. Sundries *consumed.*

Leaving a stock in first hands of 16,525 bbls; of which 7,517 bbls. Baltimore, 1,235 bbls. Fontana; 550 bbls. Petersburg; 2,911 bbls. Spanish and Portuguese; 500 bbls. French; 2,782 bbls. Extras, and 1,060 bbls. Chilian.

Receipts having been light, and a speculative demand springing up, prices have advanced 2$ to 3$ per bbl. on all qualities, and a sale has been made of a cargo of Baltimore at 17$000, which is about a greater advance, say 10$ for Extra and 17$ for Super, whilst new Extra now in market is selling at 17$000 from second hands. As the major part of that lately sold has been taken by speculators and held here for resale, we cannot consider the advance as healthy until a part of it shall have gone in consumers' hands.

We quote last sales on the spot:

Richmond fresh, none here; do. seconds and thirds 18$; Font na and S.S.S. F. 23$; Good Extras and Family Extra 17 to 17$000; do Super 14$000 to 15$250.

Coffee.—We still have to report light receipts, with a further advance of 150 to 200 per arr. Shipments have now fallen off materially, both to Europe and the United States, unless we have a decline in prices here or news of a considerable advance in those countries. We can, however, scarcely expect any great decline in this market, as the advices from all parts of the country are gloomy indeed as to the prospects of growing crop, and the crop now gathered has been sent forward from many districts, so that the planters now holding are not anxious to get their stocks to market, expecting much higher prices. We understand that dealers have been paying on the streets for several cargoes for shipment. Sales since our last amount to 91,000 bags; of which 50,000 bags for the United States; 5,000 bags for California; 33,500 bags for Europe, and 2,500 bags for the Cape of Good Hope. We quote:

Lots for the United States, 6|500 to 7$; Lots for the Channel, 6|900 to 7$. Lots for the North of Europe, 6|200 to 6|600; Lots for the Mediterranean, 6|200 to 7$.

Stock at market estimated to be 140,000 bags.

Molasses.—Old 3|500 rs. for heavy; 280@300 rs. for light.

Freights.—United States—We quote North 70|680 cts. per bag; Havana, for orders, 60s. to 65s. per ton for foreign vessels. An American bark accepted 33 cts. per bag for part cargo to New York.

Exchange on England closes firm at 23¾d. to 25¾d., 90 days' sight.

We are, very respectfully,
Your obedient servants,

TREGO'S

CEREAL AND PLANT FOOD

AND

RUST PREVENTIVE,

TESTED AND APPROVED BY

DAVID STEWART, M. D.

CHEMIST

MARYLAND STATE AGRICULTURAL SOCIETY,

SOLD BY

F. MALCOM & CO., General Agents,

BALTIMORE.

This Compound contains all the SEVEN ELEMENTS that compose CEREAL and PLANT FOOD. It hastens, by intertwelve days, the maturity of the Plant and Grain, and specially adapted to crops requiring an early and vigorous start to bring them to perfection. For late seeding (especially upon Corn grounds) where the soil plant food has been rapidly removed by the previous crop, it SECURES THE WHEAT FROM RUST and insures a good yield of the best quality of Grain.

We submit the following results of the use of the "Plant Food."

PORT PENN, Del., Sept. 7, 1861.

Messrs. Trego & Son, Baltimore.—The "PLANT FOOD" spread this spring both here and at the experimental farm at St. John's College, Annapolis, doubled, and I think, trebled (as the weights will prove) my product of both grain and straw. There was no doubt about that. No marks nor stakes were placed at any period, the dark green color, the *tooling* of the grain, giving the appearance of corn, the number of plants from the same number of seed; the earlier ripening or maturity of the crop where the PLANT FOOD was applied; the stiffness and viz: that the PLANTS stood upright, of which the soil elsewhere was deficient No other reason could possibly be assigned, as the crop was sown and harrowed in *before* the manure was spread as a top dressing.

Yours respectfully,
DAVID STEWART,
Professor of Agricultural Chemistry,
St. John's College.

NORTH EAST, Md., Sept. 5, 1861.

Messrs. Wm. Trego & Son, Baltimore:

I applied the "PLANT FOOD" at the rate of one to two hundred lbs per acre on Oats ground last spring, and the crop was very good, fully up to my expectations. I also applied it to Corn in the hill, putting in a very small quantity in each hill. The Corn started and has kept far ahead of that on the side of it, which was manured with ashes in the hill.

From this experience I have had with it, I think it preferable to Guano or Bones—and shall so recommend it.

Yours respectfully, RUSSKEL THOMAS

☞ The PLANT FOOD is put up in substantial bags of 150 lbs each.
