IN THE CIRCUIT COURT OF BALTIMORE CITY.—JAMES S. FORBES vs. MARY C. KEYING—The object of this proceeding is to obtain a decree for the sale of certain property on Gibson street, in the city of Baltimore, for payment of an unpaid balance of purchase money. The bill states that the complainant, on the 11 h day of November, 1857, contracted with the defendant to lease to her a certain lot of ground, fronting 18 feet 9 inches on the south east side of Gibson (formerly called Hickory) street, running 93 feet 9 inches southwest at Hoffman street, and running back to Morris alley, in said city, for a term of 10 years, at a rent payable quarterly in an annual rent of $130, payable semi-annually, and extinguishable at any time for $3,000. That the defendant contracted in consideration of such lease, to pay the complainant $600 and paid to him $100, her in cash, and for the balance executed and delivered her four promissory notes, dated October 1, 1857, for $125 each, payable 1, 2, 3 and 4 years after date, and bearing interest on the interest to accrue thereon, payable semi-annually. And that the complainant executed and delivered to the defendant a bond of conveyance in the usual form, conditioned for the performance of said contract on his part, and put her in possession of the property. That all of said promissory notes are over due and there remain unpaid in the hands of the complainant, three notes for $125 each, payable 2 3 and 4 years from October 1st, 1857, and two interest notes for $22.50 each, payable at 2 and 4 months after said date. And that the defendant has removed out of the State of Maryland, and now resides in parts unknown to the complainant. It is therefore ordered by the subscriber, clerk of said court, that the sale of said lot for the payment of said over due purchase money be ratified. It is therefore ordered this 23d day of December, 1861, by the circuit court, that the publication of this order in some daily newspaper of the city of Baltimore, once a week for four successive weeks before the 1st day of February next, give notice to said absent defendant of the object and substance of this suit, and warn her to appear in this court in person or by solicitor, on or before the 5th day of May, 1862, to answer the same, and show cause, if any she has, why a decree should not pass as prayed.

TREGO'S

CEREAL AND PLANT FOOD

AND

RUST PREVENTIVE,

TESTED AND APPROVED BY

DAVID STEWART, M. D.

CHEMIST

MARYLAND STATE AGRICULTURAL SOCIETY.

SOLD BY

P. MALCOM & CO., General Agents,

BALTIMORE.

This Compound contains all the SEVEN ELEMENTS that composes CEREALS and PLANT FOOD. It hastens, by ten or twelve days, the maturity of the Plant and Grain, and specifically adapted to crops requiring an early and vigorous start to bring them to perfection. For late seeding (especially upon Corn grounds) where the small plant food has been rapidly removed by the previous crop, it SECURES THE WHEAT FROM RUST and insures a good yield of the best quality of Grain.

We submit the following results of the use of the "Plant Food."

FORT PENN, Del., Sept. 7, 1861.

Messrs TREGO & SON, Baltimore.—The "PLANT FOOD" spread this spring both here and at the experimental farm at St. John's College, Annapolis, doubled, and I think, trebled (as the weights will prove) my product of both grain and straw. There was no doubt about that. No marks nor stakes were required at any period, the dark green color, the *stooling* of the grain, giving the *appearance* of double the number of plants from the same number of seed; the earlier ripening or maturity of the crop where the PLANT FOOD was applied; the coarseness and height of the plant and the straw, all told the same story, viz: that the PLANT FOOD there had room, of which the soil elsewhere was deficient. No other reason could possibly be assigned, as the crop was sown and harrowed in *before* the manure was spread as a top dressing.

Yours respectfully, DAVID STEWART, Professor of Agricultural Chemistry, St. John's College.

NORTH EAST, Md., Sept. 5, 1861.

I applied the "PLANT FOOD" at the rate of one to two hundred lbs per acre on oats ground last spring, and the crop was very good, fully up to my expectations. I also applied it to Corn in the hill, putting in a very small quantity to each hill, the plants started and has kept far ahead of that on the side of it, which was manured with ashes in the hill.

From the little experience I have had with it, I think it preferable to Guano or Bone—and shall use it extensively.

Yours respectfully, RUSSELL THOMAS

☞ The PLANT FOOD is put up in substantial bags of 150 lbs each. a10-tf
