U. S. SENATE—EXTRA SESSION.

WASHINGTON, March 10, 1865.

Mr. Johnson presented the credentials of Hon. John A. J. Creswell, elected Senator from Maryland, for the unexpired term of the late Hon. Thomas Holliday Hicks.

Mr. Creswell appeared, was qualified and took his seat.

The Chair laid before the Senate a communication from the Secretary of the Treasury, in reply to a resolution, giving a statement of the foreign commerce of this country from 1857 to 1864 inclusive.

Mr. Sherman submitted a resolution for printing ten thousand copies thereof, which goes to the Committee on Printing.

Mr. Lane, of Kansas, moved to take up his resolution for paying mileage to the three Senatorial claimants from Arkansas, Messrs. Baxter, Fishback and Snow, and to whom Louisiana, which has been reported back from the Committee on Contingent Expenses, with the request to be discharged.

Mr Sumner objected, saying he should consider it his duty at least to call attention to the draught which it would make on the Treasury, and also and especially to the fact that one of the claimants could not take the oath required of every Senator without committing perjury, it having been shown by the record that the person referred to had acted with those who carried his State (Arkansas) into secession.

Mr. Wilson moved that the Senate go into executive session.

Mr. Trumbull hoped this question would first be disposed of. He would move to strike out of the pending resolution all that related to Arkansas, and to pay mileage only to the Louisiana claimants.

The yeas and nays were taken on the motion to go into executive session, and was carried 24 to 12.

The Senate after some time spent the executive session, adjourned.

Mr. Lane, of Arkansas, denied emphatically the charge against Mr. Fishback of his having been a secessionist.

Mr. Trumbull said he had no objection to the resolution being taken up, though not in favor of its passage as it stood.

LEGISLATURE OF MARYLAND.

ANNAPOLIS, March 10, 1865.

SENATE.—Evening Session.—*Bills Passed.* For the relief of G. W. McAtee, a deaf mute. House bill to pay Thomas Donaldson for legal services.

Mr. McMaster offered a message to the House, stating that the Senate has received their message proposing an amendment to the joint resolution on mileage, that the per diem of members be paid in gold, and have non concurred therein. We propose a committee of conference on the disagreeing votes of the Senate and House in relation to the mileage of the members of this General Assembly, and have appointed on the part of the Senate Messrs. McMaster, Obr and Mackall; which was adopted.

An extended debate took place on the motion to concur. Mr. Trail opposed the payment of the mileage in gold per diem, and intimated that the public disapprobation of the measure would be manifested in no mistakeable manner.

Mr McMaster contended that under the Constitution of the United States, the States were prohibited from making any legal tender but gold and silver coin of the United States. The members of the General Assembly had a right to be paid adequately for their services, and its members had full power to direct the comptroller to pay them in gold.

Mr. O'Brien took a same view of the power of the General Assembly to receive their pay in gold, and of the justice and propriety of their being properly compensated.

Mr. Clarke expressed the idea that the constitution authorized the payment of mileage.

HOUSE OF DELEGATES.—[*Evening Session.*]—Leaves were obtained to report bills as follows: Mr. Chew, providing for the appointment of road supervisors in the several counties. By Mr. Bell, to amend the will of colored persons. By Mr. Robinson, to allow county commissioners to regulate the price of labor on the public roads. By Mr. Chew to extend the charter of the Baltimore and Potomac railroad.

Reports of Committees.—Mr. Potter, from the Committee on Claims, to pay Edwin H Webster, Chas. H. Phelps, Alexander Read, Grayson Eichelberger and Dr. Thomas King Carroll, $400 each, for services rendered as Commissioners to reorganize the militia of the State under the appointment of Gov. Bradford. Also, to compensate Wm. P. Eaton, for military services rendered the State.

Mr. Anderson, from the Committee on the Judiciary, reported favorably the following Bills: An act to amend and re enact section 62 of article 66 of the Code of Public General Laws entitled Sheriffs. An act to amend the 10th section of article 5 of the Code of Public General Laws relating to appeals. Also, reports of unfavorably on the petition of Thomas M. Brown, for a law to authorize a defective deed. The report was accepted.

Mr. Hightower, from the Committee on Corporations, reported favorably an act to incorporate the Pocahontas Manufacturing Company.

Mr. Hightower, from a select committee, reported favorably an act prohibiting the sale of spirituous or fermented liquors within one mile of Powhatan factory, Baltimore county.

Reports of Select Committees.—By Mr Mills, to visit the various reformatory and benevolent institutions in Baltimore city, made an extended report thereon. By Mr Ferguson, to regulate the sale of spirituous or fermented liquors without the town of Colton &c. By Mr. Darling, to repeal section 31 to 40 inclusive of article C, relating to corporations.

Bills Passed.—Subscribing for 250 copies of Hayes's Digest of the Decisions construing the statutes of Maryland. To legalize the acts of the corporation of Havre de Grace, &c. Also, appropriating a sum of money to be paid certain claimants mentioned therein. By Mr. Miles, from committee on corporations, to incorporate the Baltimore Railway Company. By Mr. Chaney, from the committee on corporations, to incorporate the Baltimore and Liberty Turnpike Company in Carroll county. By Mr. Anderson, from the committee on the judiciary, Senate bill prescribing an oath of allegiance for attorneys at law. Also, to direct the commissioners of Baltimore county to pay a sum of money to pay the Union Bank for money advanced for school purposes. By Mr. Hoffman, from a select committee, Senate bill to provide for the restoration of parent records of Baltimore county. By Mr. Hynson, to provide compensation to the Mayor of Baltimore city as a member of the police board. By Mr. Williams, to legalize the acts of commissioners of Garrett county in relation to the draft. By Mr. Patton, to authorize the creation of fire-proofs in the western section of the city of Baltimore. Mr Valiant, from the Committee on Judiciary, made a minority report, with a bill to amend the testamentary law relating to registers of wills and Orphans' Courts.

The Bounty Bill.—Mr. Hightower, from the Committee on Ways and Means, reported the House bill to amend the act of the present session to provide bounty for soldiers entering the service of the United States, to fill the quota of Maryland under the call of the President of the United States, of December, 1864, and under future calls, with amendments, reducing the number of bounty commissioners in the counties from three to one, and providing for one in each legislative district in Baltimore city, and increasing the bounds of bounty commissioners from $10,000 to $20,000, and exempting the bounty bonds issued by commissioners of counties from all State, county or city taxation—all of which amendments were adopted and the bill passed unanimously and sent to the Senate.

Compensation of Jurors.—The bill prescribing the per diem and mileage of grand and petit jurors throughout the State was taken up for the purpose of fixing the pay of jurors at two dollars and fifty cents per day, and fifteen cents for each mile over five miles for going to and returning from court once in each term, to be paid by the counties or city respectively in which such courts are held. The bill was then ordered to a third reading.

The House took a recess until 7½ P. M.

BALTIMORE ANNUAL CONFERENCE OF THE M. E. CHURCH.

NINTH DAY'S PROCEEDINGS—FRIDAY.

The Conference was opened with appropriate religious exercises, conducted by the Rev. F. R. Cassidy.

On motion, Rev. Robert N. Baer was granted a supernumerary relation, with an appointment.

Rev. Mr. McCauley submitted the following resolution, which was adopted by a rising vote:

Resolved, That we record our high gratification at the manner in which the Rev. Bishop Clark has conducted the business of our Conference; his ease and urbanity as Chairman have only been equalled by his discrimination and impartiality in the decision of difficult questions, and we therefore assure him of the pleasure with which we shall always hail his visits among us, whether official or otherwise.

Resolutions were also adopted, returning the thanks of the Conference to the trustees of the Eutaw Street Church for the use of their building; to the citizens of Baltimore for their hospitality in entertaining the members; to the reporters of the public press for their faithful daily record of the proceedings, and to the sexton of Eutaw street Church for his faithful attendance on the members.

Bishop Clark called up Rev. Mr. Bull, and read to him the resolutions adopted by the Conference in reference to his case. Mr. Bull declined to retract, and also expressed his unwillingness to receive a public reprimand.

Rev. N. J. B Morgan submitted a resolution expelling Rev. Mr. Bull from the Conference, which was adopted.

Rev. Mr. Bull was then allowed to explain, and other various motions had been made the Conference adhered to the original motion of expulsion.

Mr. Bull gave notice of an appeal to the next General Conference.

Rev. B. N. Brown, President of the court of trial in the case of the Rev. John Thrush, on charges brought by Mr. Hansell, of Washington city, presented a report. The principal charges were not sustained, whilst that of "maladministration" was sustained, although the court recommended to him a more careful administration of the discipline. The character of Rev. Mr. Thrush was then passed, and he then gave notice of his intention to appeal to the General Conference.

On motion of Rev. Mr. Blake, Rev. David Thomas was allowed to withdraw his traveling connection with the Baltimore Annual Conference, and from the Methodist Episcopal Church.

On motion, it was ordered that the presiding officer of the next Annual Conference be respectfully requested to deliver before that body a discourse on the duty of ministers.

The Bishop made a few appropriate remarks, and after the reading of the annual appointments, adjourned the Conference *sine die.*

SHORT SERMON ON TEETH.—Did you ever think of what inestimable value is a sound, well formed set of teeth to man, and more especially to woman, what influence they have upon the character, often through life? Independent of their animal uses, the moral effect is greater than most persons suppose. For instance, take two young girls of fifteen; say, the one with beautiful teeth, the other with a very defective set. We will suppose they have equal beauty of person, and are equal in all intellectual endowments. You will find a vast difference in the development of character as they mature into womanhood. The one with splendid teeth will soon know that her teeth are the admiration of all, and we are apt to dwell upon whatever we are most admired for. She will court every opportunity to show her teeth; ready to smile and laugh, and be gay; while the other, unfortunate, will be constantly told of her misfortune:—"What a beautiful girl, but such teeth!" She, unlike the more fortunate one, will try to conceal her teeth, will laugh as seldom as possible, and, when she does laugh, it is a suppressed laugh—a sort of pucker of the lips; and, if she is constrained to laugh outright, she will contrive some means of hiding her teeth, with her hand or her fan. She must prefer grave subjects for conversation, while the other is a rollicking, frolicsome lassie! Both are always thinking of their teeth! I have come to this conclusion: that it parents would devote more time and care to the preservation of the teeth of their young ones, and less time and expense in arraying them in costly gewgaws, it would be a great blessing—the one a lasting blessing, the other, oftener, a lasting injury.—*An Old Artist to An Old Editor.*

☞ The Brunswick Telegraph says for years the people of Pelpsburg have gathered coal upon the beach, and Prof. Bracket, of Bowdoin College, has no doubt that a coal vine extends along the coast from Rhode Island to Nova Scotia, but that the bed of coal is too far out at sea to be worked. The waves cast blocks of it upon the beach, from time to time, and possibly in the remote future the bed may be upheaved and exposed for working.

LOCAL AFFAIRS.

Collision in the Chesapeake—Steamer Louisiana Disabled.—The Bay line steamer "Louisiana" came into port yesterday morning about ten o'clock badly disabled, the result of a collision with a propeller, name unknown, off Point Lookout that it struck on Thursday night. A dense fog was prevailing at the time. The propeller was directed making across the bow of the Louisiana and in time it is thought to have avoided the collision had the effect her officers in charge of the Louisiana been heeded by the propeller. The Louisiana was badly stove in the bow about the water line, and the timbers of the forward part of the vessel considerably sprung. We are informed that at one time she was deemed to be in imminent danger of sinking, and it was contemplated by the Captain to run her ashore, but the pumps were successfully applied and he continues working the vessel up to Baltimore. The propeller was struck amidships and likewise badly stove, but the extent of the damage is limited is not known, as she immediately bore away in the direction of Point Lookout. The Louisiana left Fortress Monroe Thursday evening at six o'clock, and had on board a large number of lady passengers, and officers of the army and navy. The ladies were much alarmed, and the fears of all were excited until it was ascertained the vessel would be able to pursue her course.—No loss of life is reported. The skill and vigilance of the officers running the Bay line boats is proverbial, and passengers with whom we have conversed example them from all blame in the affair. The accident will render it necessary that the Louisiana should withdraw for repairs. Her place was, however, be suitably supplied, and a boat left yesterday afternoon as usual.

Since writing the above it has been ascertained that the colliding vessel was the propeller "Cambria," in government employ, laden with commissary stores, and en route to Fort Monroe, Va. She is owned in Philadelphia. It is estimated the cost of her repair will be from $4,000 to $5,000. She is strongly built vessel, and is supplied with water-tight compartments. From the statements of the captain it would seem that the accident was almost unavoidable, the dense fog obscuring the close proximity of the vessels until too late to change the course of either, or effect anything by reversing the engines, which was promptly done. About two hundred bales of commissary stores were thrown overboard from the Cambria. She arrived here yesterday afternoon with the balance of the cargo, reporting upon arrival to Captain A. H. Cumming, of the Quartermaster's Department. An investigation into the circumstances of the collision will doubtless be ordered.

Important Law Suit.—In the Superior Court on Thursday there was commenced a suit instituted by Messrs James H and Geo. Sebley against the Mayor and City Council of Baltimore, J. Peter Dorsch, Henry Veigt, Henry Schneider, Frederick Raedecke, Mrs. Ostley, Edward Moon, Philip Reus, Frank Eckhart, Elias R Newman, George Lind, John P. Dush, Felix McCurdy, Oliver Jones, Jesse Hay, Robert Purviance, Jr., and James F Ross, all owners of various lots of ground within the bounds of Oregon, Carey, Baltimore and Pratt streets, north of Mount Clare Depot, the object being to recover said lots from the present possessors. The value of the property, estimated at over one million of dollars, as well as the eminent legal talent on either side, gives to the case a degree of importance, and crowds attention thereto. The plaintiffs lay claim as heirs at law of James McCannon to the property, which was purchased by the defendants at a trustee's sale in 1819. They allege that their title and rights were notorious prior to the charter proceedings. Thomas S. Alexander and Wm. Schley, Esqs., appear for the plaintiff, while the defence is conducted by Wm. Price, Esq., City Counsellor, I Nevitt Steele, Archibald Stirling, Jr., and J. Prentiss Poe, Esqr. A *nolle prosequi* has been entered, by consent, in the cases of all the defendants except the city and Mr. Dorsch—in the case, it is expected, will occupy several days.

Entertainment.—A number of the officers of the Maryland Brigade, here on leave of absence, gave a fine entertainment to one of their comrades, a returned prisoner of war, Captain Wm. H Davis of the 4th Regiment, who was captured in the Wilderness in May last, among the United Captains Captain Robert Stevenson, of the 21st New York artillery, captured at the same time, and who has been with Captain Davis through nearly all the rebel prisons. Their frequent charges of ill-treatment were owing to the movements of Gen. Sherman. The story of their sufferings and of their feelings at sight of the old flag and our troops were quite affecting.

The supper was served up at Mr. F O'Conner's (late Blamburg's) in excellent style.

Speeches, song and sentiment kept the party till the "we ams hours spent the twal."

Eastern Dispensary.—During the year 1864 there were 2,606 patients treated at the Eastern Dispensary, corner of Baltimore street and Gay street, 2,093 of them were white and 613 colored. Of the total number 2,606 were cured, 75 vaccinated, 70 relieved, 30 not relieved and 25 died. The number of prescriptions compounded were 5,829. This institution, as also other dispensaries, are public charities, deriving from the city the principal part of their support, and are instrumental in relieving much physical suffering among the indigent portions of the community. Appropriations to such institutions are well deserved.

Larceny Case.—James McDonald was arrested yesterday charged with robbing Richard Layne, a soldier, of $153.60, in the public house of J. Heim, No. 87 Calvert street. Justice Spicer committed the accused for trial.

John Heimon was arrested yesterday charged with having on Tuesday last robbed Silas Brown of $200 while he was in the Belair road. The accused was locked up in the Central station house for a hearing.

Election of Officers.—At the annual meeting of the Baltimore Target Rifle Association the officers of last year were re-elected, and are as follows—President, Thomas J. Myer; Lt Blumenberg; Shooting Master, Chas. L. Muller; Treasurer, J. J Requard; Secretary, Julius Conrad; Assistant Secretary, Charles Frey. There are quite a number of Americans belonging to this Association, the membership of which is numerous and respectable.

Fatal Affray.—On Wednesday last, John B. Pace and Alfred Jones were killed by Jas. P. and Tightman C. Baker, at Rye Farm, Queen Anne's county. The quarrel originated about a piece of property, and the killing was done in self defence, Pace and Jones having attacked the elder Mr. Baker, when his son shot and instantly killed his assailants. The Bakers surrendered themselves to the county authorities.

The Late Visit to Washington.—At the meeting recently held by the members of the City Council, for the purpose of expressing thanks to the municipal authorities of Washington, W Prescott Smith, and other gentlemen, the committee failed to mention the names of Messrs. Hoover and Dick last—Messrs H and D. were most assiduous in attending to the efforts of their predecessors, and their kindness will not soon be forgotten.

Drunk on Cold Water.—A secure up in the ab reuhjo c will be delivered at the Institute on Monday night next, by Dr. B. Brown Williams. The Doctor proposes to make the gentlemen drunk on cold water, sing, dance, cry, laugh, forget their names, lose their power to speak, see absent friends, collect old debts, and other strange freaks. With such a guarantee we expect to see the Institute crowded.

Fire Test.—At noon yesterday, the Fire Department was called out by the direction of the Chief Engineer. The different companies repaired to Monument Square, where several gentlemen connected with the Fire Department of Chicago witnessed the working of our fire system, and expressed themselves highly pleased with the exhibition.

Another Installment.—There passed through our city, yesterday, upwards of one thousand rebel prisoners, en route to fortress Monroe, for exchange. The John Bricks bore the report that his market basket contained peace, war—that of intellectuality and cleanliness.

Fire.—The alarm of fire last night shortly after seven o'clock, was occasioned by the burning of a cooper shop belonging to Messrs. Brimmel & Shafer, corner of Central and Calvert avenues. Damage about two hundred dollars.

SUFFERING AMONG THE ENGLISH POOR.—Wilmer and Smith's Europe, an Times says there is an increase in the number of distressed spinners, amounting to one thousand six hundred and forty-eight for the first week in February, as compared with similar returns for the first week in January. It is feared that this distress will largely increase should the frost continue. There are now nineteen-eight thousand persons in receipt of relief in the twenty-seven unions which embrace the cotton manufacturing districts. Still, it is satisfactory to know that this return, unfavorable as it is, compares pleasantly with the corresponding week in last year. Measured by that standard, the decrease is upwards of forty-four thousand, for there were then no fewer than one hundred and forty two thousand persons in receipt of relief. The fund which was subscribed to mitigate this temporary evil is gradually melting away. It has now dwindled down to sixty-five thousand pounds.

EXTRAORDINARY PRICE.—We learn that last week Mr. J. Henry Hepp, cattle dealer, of Mr. Jesse Crowl, one raw and two sips for the enormous sum of one hundred and one dollars, and another with six pigs for sixty-two dollars.—*Westminster Sentinel.*

AMUSEMENTS.

Holliday street Theatre—At this place of amusement tonight the admired comedy of the Love Chase will be presented, Mrs. H. Wilkins, the talented actress, sustaining the character of the Widow Green. The farce of the Policeman and the Soldier will be presented this afternoon.

Front Street Theatre—The drama of Cora the Foundling will be offered tonight for the last time. This afternoon public school children will be admitted at ten cents each. A splendid entertainment will be offered to the youngsters.

The Concert Tonight.—The concert of Mlle De Katow and Mr. Wehli, announced to take place at the New Assembly Rooms tonight, promises to be one of the greatest musical events of the season, and will repay all who attend. Mlle De Katow, a lady of grace, beauty and elegance, is one of the most accomplished violinistes of the age, and has received the appreciation of the crowned heads and nobility of Europe. Mr. Wehli is one of the most extraordinary pianists of the present day, combining marvellous facility with a touch which is almost exquisite taste. Miss Laura Harris is a delightful vocalist, piquant and interesting, and Signor Paniscchi, the baritone, is an artist of undoubted merit. Seats can be had at McCaffrey's.

THE CITY COUNCIL.

FIRST BRANCH, March 10 h, 1865.—James Young, Esq., President, and a quorum of members.

The Chair submitted the report of the Southern Dispensary; referred.

Mr. Tappert submitted a resolution expressing the accounts of the Trustees of the Almshouse; laid on the table.

Mr Wyson submitted resolutions expressing any change in the present Public School system; adopted.

The Chair submitted an ordinance regulating the licensing of bill posting. The ordinance makes it obligatory upon all persons engaged in bill posting to pay a yearly license of $20; laid on the table.

Mr. Cox submitted an ordinance granting extra compensation to the keeper of Hollins street market. Adjourned.

COURT PROCEEDINGS.

City Circuit Court.—Judge Alexander—The following business was transacted in this Court yesterday:

Anne J. Hitchins vs. Henry W. Hitchins. Decree passed divorcing the parties a vinculo matrimonii.

Cases assigned to day—Lazarus vs. Wilson; Pendergast, guardian, vs. David Wilson, &c., executors.

Assignment for Monday, Nos 321, 522, and from 766 to 799.

Court of Common Pleas.—Before Judge King. The following business was transacted in this court on yesterday:

Benjn G. Harrell vs. the Philadelphia, Wilmington and Baltimore Railroad Company; on trial.

United States District Court.—Before the Hon. Judge Giles. The following business occupied the attention of this Court yesterday:

The United States vs. George W Sanders. Judgment by default stricken out by order of Court, on motion of H. Stockbridge, Esq., who appears for defendant.

Same vs. schooner Francis Hatch. Further proceedings in the case of Mr. McKee, of New York. Petition dismissed.

Adjourned until to-day.

ENGLAND AND THE UNITED STATES.

[From the Toronto (Canada) Evg'g Journal.]

Lord Derby and Sir J. Walsh have been ventilating their views on the American question, in the British Houses of Parliament. Lord Derby sees war, or rather, would like see to war. His fancies that the abrogation of the reciprocity treaty, and the notice to place gunboats on the lakes, given by President Lincoln, are merely preparatory steps to the event. We should be sorry to think the same way. We can only see in the abrogation of the reciprocity treaty, an attempt on the part of the American nation to get equality. They have clearly shown that we have had the best of the bargain; and our own statesmen do not deny this fact. We cannot expect that they will willingly engage in a bargain with us, the benefits of which are all on one side. That is not the meaning of reciprocity; the advantages should be nearly equal to make both satisfied.

War "has spread her wide desolation" sufficiently over the land to satisfy the national glory of any people, and the North have shown that they were equal to the emergency, and able to manage their own affairs, in their own way, without the intermeddling of any power, who would still enjoin a strict neutrality to be observed between Canada and the North, and that everything should be done by us which will remove the stain which has been placed upon us, viz: that of giving aid and comfort to their enemies. By doing anything which would make a breach between the Lincoln administration and ourselves, we will only be doing that which would injure ourselves.

The Press of this country has a great deal to answer for, as many of them have done all in their power to cause a disturbance, and to lead the loyal people of the United States to believe that we were all Southern sympathizers, while the fact is just the reverse. The right thinking people of Canada will support law and justice, and this portion of the community do not wish for anything but that the American people should be united as they were before the breaking out of the rebellion. The people of England wish the same, all except a few who believe in Lord Derby, and his followers.

Hanging of Women.

By a lady who has arrived at Chattanooga, from Rome, Georgia, we learn that the country around that city is infested by gangs of guerillas who are roaming over it and sparing none, young or old, male or female, Union or rebel. About the 1st of January a party of guerillas burg the wife and daughter of Dr. Joshua King, of Rome, on the charge of loyalty to the Federal Government. Mrs. King and her daughter were taking a ride in the country in a carriage, when they were met by the guerillas, taken out of the carriage and hung upon the nearest limb. The Doctor himself is a rebel, and went South when Rome was evacuated by the rebels last Spring.—*Chattanooga Gazette.*
