433. Sanitary District. Harford County is declared to be a Sanitary District, and the Department of Public Works, Division of Water and Sewers, shall exercise control of all publicly owned water, sewerage, and waste water facilities in Harford County, and rules and regulations governing the use and conservation thereof may be adopted as provided for in the Charter of Harford County, Maryland; provided:

Whenever it is deemed necessary to take or acquire any land, structure, or buildings, or any stream bed, waterway, water rights, or watershed, either in fee or as in easement, within or without Harford County, for the construction, extension or maintenance of any water main, sewer, or appurtenance thereof, or any sewage treatment plant, reservoir, water treatment plant, storage tank, or pumping station or, for

the execution by the Department of any other power or function vested in it by this subtitle, the County Executive, if he be unable to acquire the property or right by purchase, may, in accordance with the provisions of Section 210(c) of the Code of Public Local Laws of Harford County, (1965 Edition as amended), condemn the property or right by proceedings in the Circuit Court for the County in which the property or right is located, as provided for condemnation of land in the Public General Laws of Maryland and the Rules of Procedure of the Court of Appeals of Maryland, as amended, pertaining to condemnation, now or hereafter in effect; and the County Executive may likewise condemn the interest of any tenant, lessee, or other person having any right or interest in the property or right. (c) Acquisition. Privately owned systems shall be taken under condemnation by the County free and clear of all debts and liens, but the County shall make a party defendant of any person, firm, or corporation having any recorded lien or encumbrance against the same, and the Circuit Court may determine the respective amounts due the defendants; and from and after payment into Court or to the proper parties as hereinabove provided, the County is authorized to take possession of, maintain, and operate the system, which shall be subject to the same regulations and penalties as though the system so acquired had been constructed and put into operation by the County under the provisions of this subtitle; provided, however, that no building or premises actually connected in an adequate manner with the acquired system shall be required to pay any connection charge.

(d) System unsuitable. Whenever there is in existence a privately owned water supply or sewerage system which, in the judgment of the Director, is unsuitable in whole or in part for incorporation into the County's system, the County may disregard the existence of said system or unsuitable part thereof and extend the County system to serve the area tributary to the existing system or unsuitable part thereof, and all the provisions of this subtitle relating to systems constructed by the County apply thereto.

435. Same; purchase or gift.

The County Executive WITH APPROVAL OF THE COUNTY COUNCIL may purchase or acquire by gift any existing water, sewerage, or drainage systems, or parts thereof, including those owned, operated by or serving any municipality or any land, structure, buildings, stream bed, water rights or watershed, either in fee or as an easement, which in his judgment is desirable or necessary for the purpose of providing adequate water, sewerage or drainage service or either for the residents of the County. In any such purchase, before any part of the purchase price is paid other than a nominal sum of money to bind the agreement, it is the duty of the vendor or agent to furnish an affidavit to the County Executive or his designee setting forth all names and addresses of persons having any interest or claims against the property.

(b) Notice. Thereupon it is the duty of the County Executive or his designee to notify personally or by certified or registered mail, return receipt requested, all persons having any interest in the property, and in addition the County Executive or his designee shall give three (3) weeks notice of the County's intention to purchase the property, in a newspaper or newspapers published within the County where the property is located. (c) Use of purchase price. Any municipality whose system or any portion thereof is acquired by the County by purchase shall use the amount paid to it for the system for the purchase or redemption of any bonds or debt which may be outstanding against the same; or the County as part of the purchase price of the system may assume the payment of any such bond or

debt. The County Executive may purchase any existing water mains, sewers or systems, in whole or in part, which are necessary or desirable for the purpose of carrying out the powers vested in him by this subtitle.

436. Contracts; authority of County Executive. The County Executive has full power and authority to enter into any contract for the connection of the County's water supply, sewerage, or drainage systems, with those of any municipality or adjoining County, or any other governmental agency, for the purchase of water and for the disposal of sewage drainage from any sanitary district, and to enter into any other agreement concerning any matter deemed by the County Executive to be necessary, advisable, or expedient for the proper construction, maintenance, and operation of the water supply, sewerage, or drainage systems under the control of the County, or those under the control of any municipality, other county or other governmental agency. The County Executive is further empowered to enter into contracts with any municipality for the joint acquisition, construction, ownership, and operation of any water supply sewerage or drainage system or any portion thereof.

437. Permits and connections.

(a) Construction work. Before any plumbing, water works, or sewer construction is done in any building or upon any private property within the sanitary district, the person, firm, or corporation doing the construction shall first obtain a permit from the County and pay therefor the prescribed fee. The work shall be done under and pursuant to such rules, regulations, and requirements as the County may from time to time formulate, and subject to such inspection as the County may deem necessary; provided that, to avoid duplication of supervision, the County Executive or his designee may waive this provision if the Department of Health AND/OR THE PLUMBING BOARD

(b) Installations. No private or public water ~~supply~~ SYSTEM or sewerage installation intended for use of two (2) or more buildings or premises shall be constructed, nor shall any existing system be extended in the sanitary district unless the person, firm, or corporation doing the work has first obtained a permit from the County and paid the prescribed fee. The County shall have full and complete jurisdiction over all fire hydrants connected with its water system; and no person, firm or corporation may operate, use, make connection with, or withdraw water from the system without the written authority of the County Executive or his designee, except that no restriction shall apply to any bona fide fire department in the discharge of its duties. Outside the bounds of incorporated towns, the County Executive, upon a determination that public safety will be served, may require the installation of fire hydrants to public or private systems existing or to be constructed and may prescribe such rules and regulations for the use and maintenance thereof as it deems necessary. The County Executive is authorized to enter into any agreements with the owners or operators of such systems designed to install fire hydrants or other fire protection equipment as may be deemed in the public interest. No person, firm, or corporation may tamper with, deface, damage, or obstruct any fire hydrant. A violation of any of the provisions of this Section is a misdemeanor, punishable under Section 450 of this subtitle.

(c) Exception. Nothing in this Section is applicable within any municipality or to any sanitary system operated by a municipality.

damage that might be done to the same by reason of the County's operation in constructing or maintaining its systems or works. Any violation of the provisions of this Section is a misdemeanor punishable under Section 450 of this subtitle.

441. Contract for work; bids. Whenever the plans and specifications for water supply, sewerage, or drainage systems or extensions thereof shall have been completed and approved and the County Executive or his ~~desginee~~ DESIGNEE has decided to proceed with construction, he shall proceed with competitive bidding in accordance with Section 219 of the Code of Public Local Laws of Harford County; provided that at any time the Director in his discretion, may expend by day labor for construction an amount not exceeding three thousand dollars ($3,000.00) without advertising and receiving bids. All such contracts shall be protected by such bonds, penalties, and conditions as the County may require, all of which shall be enforceable in any court having jurisdiction. Nothing in this Section shall preclude the Department from performing any work with its own employees and/or equipment.

442. Construction of satellite systems. No sewerage, water, or drainage system, or extension thereof, serving two (2) or more ~~properties~~ SEPARATE BUILDINGS OR BUSINESSES in the sanitary district may be constructed by any private owner without the prior approval of the Director. If upon application for the construction or extension of the County system is inexpedient or impracticable at that time, owing to the remoteness from its general system or other considerations, the applicant may build said system under the following conditions:

(a) THE PROPOSED SYSTEM HAS BEEN AUTHORIZED BY THE COUNTY COUNCIL BY AMENDMENT OF THE COUNTY MASTER WATER AND SEWER PLAN.

~~(a)~~ (b) Said system must be ~~build~~ BUILT in accordance with plans and specifications approved by and under the inspection

of the Department.

~~(b)~~ (c) Upon completion of said system it shall be conveyed and made a part of the sewerage and/or water system of Harford County at no cost to said County.

~~(c)~~ (d) Said system shall comply with all State and County Health Department regulations and all other regulations per taining to the PLANNING, construction, maintenance and operation of such system promulgated by said Health Departments.

~~(d)~~ (e) Users of said system shall pay on a volumetric rate to be determined by the Department and approved by the County Council.

~~(e)~~ (f) The Developer shall pay a sum equal to the area connection charge for each unit using the service in effect at the time said user becomes a part of the system.

~~(f)~~ (g) Each and every property located in the development for which a permit is issued for an individual system, water, sewer or both, shall be required to connect to the system as hereinbefore provided.

~~(g)~~ (h) All payments with the exception of the water and/or sewer use charges shall be paid prior to the issuance of any building permit for the construction of said unit.

~~(h)~~ (i) Said system shall be maintained and operated by the Department.

~~(i)~~ (j) Use charges for maintenance and operation of said systems may vary from other systems and once established may not be increased until after a public hearing by the Director.

~~(j)~~ (k) Any user aggrieved by said rate increase shall have the right to appeal to the County Council.

~~(k)~~ (l) A point of discharge OR AUTHORIZED MEANS OF WASTE WATER DISPOSAL for any and all effluent shall first be ISSUED A NATIONAL POLLUTION DISCHARGE ELIMINATION PERMIT AND BE approved by the State Department of Health and Mental Hygiene before

submission of any application for consideration of any such system.

No application shall be permitted for any individual treatment plant to serve more than one (1) individual homeowner, business or complex occupied by more than two (2) families unless the property to be served shall be able to receive sewerage service from the County within a period of five (5) years or has been declared a hazard to the health, safety, and welfare of the County by the State Department of Health and Mental Hygiene or the County Health Officer.

443. Plan; public hearings; subdistricts.

(a) Surveys; operating systems. To provide for the general health and welfare of the residents of Harford County, the County Executive WITH APPROVAL OF THE COUNTY COUNCIL may acquire, construct, operate, and maintain such water, sewer, and drainage systems as he deems to be in the public interest. The County Executive may cause surveys, plans, specifications, and estimates to be made for such systems. Unless all owners of land which will be served by any such proposed improvements consent in writing to such improvements being made, the County shall construct any such system or extension thereof only after a public hearing. At the hearing, plans and specifications for the proposed improvements shall be presented together with the estimated costs thereof and estimated revenues to be derived therefrom. In any case where a public hearing is required, the Director may proceed with the proposed improvements only after the County Council by at least a majority vote following the public hearing, has approved such proposal, AND THE PROPOSED IMPROVEMENTS HAVE BEEN APPROVED BY THE MARYLAND STATE DEPARTMENT OF HEALTH AND MENTAL HYGIENE AND THE PROPOSED IMPROVEMENTS CONFORM TO THE COUNTY MASTER WATER AND SEWER PLAN AS AMENDED. The County Executive, upon recommendation of the Director, may divide the

sanitary district into water, sewerage, and drainage subdistricts in such a way as in his judgment will best serve the needs of the County, and promote convenience and economy of installation and operation, and permit the raising of revenues and apportionment of costs to those served on an equitable basis.

(b) Applicants for service. If the residents of any unincorporated locality in the sanitary district voluntarily make application for a water supply, sewerage, or drainage system, or part thereof, to be constructed in their locality, the County may require the applicants to bear the reasonable costs for any preliminary engineering studies that the County Executive upon recommendation of the Director deems necessary to determine whether it is feasible to construct the improvements. Upon the receipt of such reasonable costs, the Director shall have the studies made and within a reasonable time thereafter advise the applicants of the results thereof, together with the Director's determination with respect to the application.

444. Bonds

(a) Issue. For the purpose of providing funds for the investigations, surveys, studies, design, construction, establishment, purchase, or condemnation of water supply, sewerage, and drainage systems in the sanitary district, the County Council shall authorize the issuance of bonds from time to time upon the full faith and/OR credit of Harford County, Maryland, in such amounts as it deems necessary to carry on the County's work, subject to the County's debt limitation as established by the Charter of Harford County. The County may pay the interest on any bonds it issues out of the proceeds of the sale of the bonds, but not more than one (1) year's interest may be so expended.

(b) Procedure. The form, tenor, manner of selling, and all other matters relating to the issuance of bonds under

this subtitle shall be prescribed in a resolution to be adopted by the County Council at least fifteen (15) days prior to sale of the bonds in accordance with Section 524(a) of the Harford County Charter. If bonds are issued, the provisions of Sections 9, 10, and 11 of Article 31 of the Annotated Code of Maryland, (1957 Edition), and amendments thereto, shall be complied with. The bonds shall be serial bonds issued upon a serial maturing plan. The bonds may be redeemable before maturity at the option of the County at such price and under such terms and conditions as may be fixed by the County prior to the issuance of the bonds, shall bear interest at a rate not exceeding eight percent (8%) per annum, shall mature in not more than thirty (30) years after date of issue, and shall be forever exempt from State, City, and County taxation. They shall be issued under the seal of the County and shall be guaranteed as to payment of principal and interest by the County, which guarantee shall be endorsed on each of said bonds in the following or similar language: "The payment of interest when due and the principal at maturity is guaranteed by Harford County, Maryland." Such endorsement shall be signed on each of the bonds by the County Executive within ten (10) days after the bonds are presented to him for endorsement.

(c) In the event that income derived from area charges and front foot benefit assessments for a specific project or projects in the County system fails to produce the funds necessary to retire the bonds issued to finance the project or projects; a special assessment may be levied, as recommended by the Director and adopted by Ordinance of the County Council, on the ~~users of~~ PROPERTIES BENEFITED BY the water and sewer systems, to obviate the necessity of an ad valorem tax on all property owners, AS FAR AS POSSIBLE. HOWEVER, IN THE EVENT THAT ALL FUNDS AVAILABLE FROM WATER, SEWER, ETC. SOURCES ARE INSUFFICIENT TO PAY

ANY BONDS ISSUED HEREUNDER WITH THE INTEREST DUE THEREON, THE COUNTY EXECUTIVE SHALL RECOMMEND AND THE COUNTY COUNCIL SHALL, IN EACH AND EVERY FISCAL YEAR IN WHICH BONDS ARE OUTSTANDING, LEVY AND COLLECT AD VALOREM TAXES UPON ALL THE ASSESSABLE PROPERTY WITHIN THE CORPORATE LIMITS OF HARFORD COUNTY IN RATES AND AMOUNTS SUFFICIENT TO PROVIDE FOR SUCH PAYMENTS WHEN DUE, TOGETHER WITH ACCRUED INTEREST TO THE DATE OF PAYMENT. IN THE EVENT THE PROCEEDS FROM THE TAXES SO LEVIED IN ANY FISCAL YEAR ARE INADEQUATE FOR THE ABOVE PURPOSES, ADDITIONAL TAXES SHALL BE LEVIED IN THE SUCCEEDING FISCAL YEAR TO MAKE UP ANY DEFICIENCY.

445. Bond retirement assessments.

(a) Authorization. For the purpose of paying the interest and principal due on the bonds issued by the County, as in this subtitle provided for the water supply, sewerage, or drainage systems to be constructed, purchased, or established under this subtitle, the County Executive may recommend to the County Council an annual assessment on all properties, improved or unimproved, binding upon a street, road, lane, alley, or right-of-way in which a water main, sewer, or drain has been built. The assessment shall be adopted by Ordinance of the County Council. The first payment shall be collected during the year in which the construction is completed AND OPERABLE WITHIN THE PROJECT AREA on the water ~~supply~~ SYSTEM, sewerage, or drainage systems, or in which the systems are purchased or acquired. All sums collected by the Treasurer of Harford County for benefits levied against the property for water, sewerage, or drainage construction shall be set aside as a separate fund to be known and designated as the Bond Retirement Assessment Fund.

(b) Method of assessment. The County Executive may recommend to the County Council the assessment on either a front foot basis or an equal benefit basis:

(1) Front foot basis. The Director for the

purpose of assessing benefits on a front foot basis shall divide all properties binding upon a street, road, lane, alley, or right-of-way, in which a water pipe or sanitary sewer is to be laid, into four (4) classes, namely: agricultural, small acreage, industrial or business, and residential, and the Director may subdivide each of these classes in such manner as he deems to be in the public interest. Whenever any water supply or sewerage project in the sanitary district has been completed and declared ready for service, the County Executive shall recommend to the County Council that they fix the assessment annually or semi-annually upon all property in the district abutting upon the water main or sewer, in accordance with the classification or subdivision thereof. The Director may recommend changes in the classification of properties from time to time as the properties change in the uses to which they are put. The benefit assessment shall be levied for water supply, sewerage and drainage construction, and shall be based for each class of property upon the number of front feet abutting upon the street, lane, road, alley, or right-of-way in which the water pipe or sewer is placed; provided that no residential property may be assessed on more than one side unless it abuts upon two (2) parallel streets, that corner lots may be averaged and assessed upon such frontage in a reasonable and fair manner, and that all lots in the residential and industrial or business classification shall be assessed even though a water main or sewer may not extend along the full length of any boundary; and provided further, that no land classified as agricultural shall be assessed a front foot benefit when it has constructed through it or in front of it a sewer of water main until such time as the water or sewer connection is made, and when so made and for every connection such land is liable to a front foot assessment for such reasonable frontage not exceeding three

hundred (300) feet, and shall be immediately assessed at the rate of assessment determined for agricultural land. Any land owned by a religious body upon which there is erected a church or a parsonage and which is used exclusively for customary religious purposes and properties of volunteer county fire companies shall be exempted from front foot benefit assessment for the first one hundred fifty (150) feet of the total frontage of said property.

Front foot benefit assessments for water supply and sewerage and drainage construction shall be as nearly uniform as is practicable for each class or subclass of property throughout each system for any one (1) year, and no benefit charge, once levied, may be increased; provided, however, that whenever the County acquires an existing system other than a municipal system, the construction of which has been added in whole or in part to the purchase price of land or lots abutting upon the system and which contribution the Director has determined to be a factor in the cost to the County of such system, the County Council may levy, after adoption by Ordinance, such lesser assessment as may take into account this factor.

The amount of the assessment per front foot for each class of property for water, sewer and drainage systems may be reduced from time to time by the County, if cost and conditions are deemed to justify the reduction but may be subsequently increased to the amount of original assessment in the event revenues prove to be insufficient, after adoption by Ordinance by the County Council. The benefit assessments shall be paid annually by all properties located as above specified for a period of years co-extensive with the period of maturity of the bonds out of the proceeds of which such construction was done.

(2) Equal benefit basis. In any area where the County Executive determines there is already a high density of

homes and commercial buildings, or where public sewer or water or drainage facilities are needed and can be supplied by the County on a self-supporting basis, the County Executive with the approval of the County Council may prescribe boundary lines to encompass the densely populated areas, and it may refer to the area as a sanitary subdistrict. In that district, in lieu of front foot assessments, the County may impose an equal benefit assessment on each of the properties, or a benefit assessment on each of the properties calculated by a square footage benefit standard, which assessments shall be in whatever amount is required to pay the total cost of providing and installing the public utilities for the sanitary subdistrict. Should any lot owner in that sanitary subdistrict divide his lot, and water or sewer services be provided therefor, the same assessment shall be imposed as on other properties.

(c) Notice. The Director shall notify property owners, by registered mail at their last known address, by personal delivery to an adult living on the property, or by posting a notice on unimproved property, of the date, time, and place of the public hearing at which the County Council will adopt the classification and assessment for the property. Such notice must be provided at least fifteen (15) calendar days prior to the public hearing.

(d) Connections. The Director may at any time permit a connection with a water main or sewer by a property owner whose property does not abut on a water main or sewer and who has not previously paid a benefit charge for the construction of said water main or sewer, provided the Director classifies the property and a front foot assessment is paid by the property owner as though the property abutted upon a water main or sewer; and if the connection is made, the property owner and the property as to all charges, rates and benefits stand in

every respect in the same position as if the property abutted upon a water main or sewer.

446. Connection charges. For the purpose of carrying out the provisions of this subtitle the County shall make a charge for every drainage, sewer and water connection. The funds derived from such charges shall be used for payment of principal and interest on bonds, accumulating funds for capital improvements, for acquisition and construction of water sewerage and drainage systems and for the purchase of equipment and supplies necessary to the operation of the sanitary district. Connection charges shall be established from time to time by the County Council. Such charges may be based upon such reasonable classifications as the Director may recommend and such classifications may vary within any water, sewer, or drainage system and among any such systems depending on the existence of any special circumstances. The charges herein provided shall not be limited to the costs to the County for making such connections. The ~~Treasurer~~ DIRECTOR OF FINANCE is empowered to determine the manner in which such charges shall be payable.

447. Service charges and upkeep charges. For the purpose of providing funds for maintaining, repairing, and operating its water supply, sewerage, or drainage systems, and for its operation and other expenses, including proper depreciation allowances, and for interest on and the retirements of bonds as specified in this subtitle, the County may make the following charges:

(a) A water and sewer service charge. The rates for water and sewer service may include a minimum or ready-to-serve charge, which shall be based upon the size of the meter on the water connection leading to the property, and a charge for water used, which shall be based upon the amount of water passing through the meter during the period between the last

two (2) readings. The meter shall be required to be placed on each water connection at a one (1) time fee at the time of installation as determined by the Director, and it shall remain the property of the County. The rates shall be uniform throughout each such system operated by the County but the Director may make such classifications as he deems advisable within any such system based upon quantities of water used. If the Department at any time shall not have meters available to install in all the properties in a given locality that are connected to the system, then a flat rate shall be charged on properties in which meters have not yet been installed, which rate shall be uniform in each sanitary system and based upon the ready-to-serve charge and the amount of water used. Bills for water and sewer charges shall be sent quarterly or semi-annually as the ~~Treasurer~~ DIRECTOR OF FINANCE may determine to each property served and shall be payable at the office of the Treasurer or such other place as may be designated. Such charges shall be a lien upon the property served and collectible as elsewhere herein provided. If any bill remains unpaid after thirty (30) days from date of sending, the Department after written notice left upon the premises or mailed to the last known address of the owner, shall turn off the water from the property in question; and the water shall not be turned on again until said bill has been paid, including a turn-on charge of five dollars ($5.00).

(b) A charge shall be made for the construction and upkeep of drainage, water and sewer systems against all properties benefited by such system or having a connection with any water main or sewer under its operation or ownership. The charge for the construction and upkeep of the drainage, water or sewer system, if any, shall be made upon such reasonable basis as the County may determine. It shall be collected annually in the same manner as are front foot benefit assessments, against

all property benefited by such drainage system or having a connection with a water main or sewer under the operation or ownership of the County, and shall be a lien against such property. Such charges shall be based upon such classifications as the Director from time to time may establish and shall be uniform throughout each sanitary system within each such classification; provided, however, that no charge for the upkeep of water and sewer systems shall be made against any property in any year for which such property is currently subject to a front foot benefit assessment as elsewhere in this subtitle provided. Any person aggrieved by the Director's decision may appeal to the County Council.

448. Charges; due dates; collection; interest. All charges, levies and assessments provided in this subtitle shall be liens upon the property served or benefited and, in addition to being enforced by actions at law, may be enforced by a bill in equity against the property so served or benefited. The liens shall be subordinate only to liens for State taxes. Such charges shall be due when made and after sixty (60) days from that date shall bear interest at the ~~rate of one-half percent (1/2%) per month~~ SAME RATE AS THAT CHARGED FOR DELINQUENT COUNTY REAL ESTATE TAXES. Neither the due dates nor the interval between such dates need be uniform throughout the sanitary district. BENEFIT ASSESSMENTS SHALL BE DUE ON THE SAME DATE AS COUNTY REAL ESTATE TAXES AND SHALL BECOME DELINQUENT ON THE FIRST DAY OF OCTOBER.

449. Deferred payment for indigents. The County Council, upon recommendation of the County Executive, may defer payment of area charges and bond retirement assessments in cases where the property owner is indigent and payment would create undue hardship. These charges shall be a first lien upon the property and shall become due and payable upon transfer of the property

in any manner, said lien shall be recorded among the Land Records of Harford County.

450. Penalties. Every act or omission designated as a misdemeanor in this subtitle, unless otherwise provided, shall be punishable in the District Court or Circuit Court for Harford County, and the offender, upon conviction,shall be subject to a fine not exceeding one thousand dollars ($1,000.00) or to confinement in the County jail for not more than six (6) months, or both, in the discretion of the Court. If the act or omission is of a continuing nature and is persisted in, in violation of the provisions of this subtitle or of any rule or regulation formulated thereunder, a conviction for one (1) offense shall not be a bar to the conviction for a continuation of such offense subsequent to the first or any succeeding conviction.

451. Rules and regulations. The Director shall ~~promulgate~~ RECOMMEND rules and regulations for the administration and enforcement of this subtitle,WHICH AFTER ADOPTION BY THE COUNTY COUNCIL,SHALL HAVE THE FULL FORCE AND EFFECT OF LAW. In addition to its own power to adopt appropriate rules and regulations, the County Council may adopt and enforce regulations of the State Department of Health and Mental Hygiene and/or the Harford County Health Officer fixing standards of construction for sanitary facilities or installations. Prior to the adoption of any such rules and regulations, other than those of the State Department of Health and Mental Hygiene or the Harford County Health Officer, the County Council shall give public notice of the rules and regulations which it proposes to adopt by publishing the same in at least two (2) newspapers of general circulation published in Harford County at least twice, the second of which shall be not less than fifteen (15) calendar days prior to the public hearing, the date, time and place of which shall be specified in such notice.

452. Severability. If any provisions of this subtitle or the application thereof to any person or circumstance is held invalid for any reason, the invalidity shall not affect the other provisions or any other application of this subtitle which can be given effect without the invalid provisions or applications, and to this end all of the provisions of this subtitle are declared to be severable.

TAXES AND COUNTY TREASURER

489A. Transfer of Metropolitan Commission Finances.

(a) From and after February 15, 1973, all monies of the Metropolitan Commission and all debts, credits, assessments, levies, charges of every kind and description due to or from the Metropolitan Commission shall become the money, debt, credit, assessment levy charge to or of Harford County, Maryland. All money, assessments, levies or charges so collected or to be collected and all debts paid shall be credited or debited as the case may be to the current interest and joint sinking fund and the Harford County Utility Fund in such banks or trust companies as the County Executive shall designate AND SUCH FUNDS SHALL BE KEPT SEPARATE AND APART FROM ALL OTHER COUNTY FUNDS.

(b) The Metropolitan Commission is authorized and directed to execute and deliver to the County Executive by February 15, 1973, any and all warrants, drafts, receipts, title certificates, deeds or other indicia of ownership as may be necessary to effectuate the provisions of this Section.

Section 2. And be it further enacted, that an emergency exists affecting the health, safety and welfare of the citizens of Harford County in that the functions of the Metropolitan Commission of providing water and sewer services must continue uninterrupted; that this Act is declared to be an Emergency Act; and that this Act shall take effect on the date it becomes law.

(4) On and after the effective date of this law, any person planning to install a private waste disposal system, or make additions to or alterations to an existing system, shall obtain a SANITARY CONSTRUCTION permit before starting work on such system from the approving authority. The length of time a permit is to be effective shall be specified in the permit and shall not exceed one (1) year. Said permit shall become inoperative at the expiration of the period of time prescribed, without notice to that effect having been given by the approving authority.

(5) To obtain such a permit, the owner of the property or his agent must provide information to the approving authority

as to the location of the property, size of the lot, plot plan, nature and size of the building, results of soil percolation tests WHEN NECESSARY and location of existing or planned water supplies or systems on an application form obtainable from the Health Department.

(6) The approving authority shall have the right to refuse any permit for the installation of a private sewage disposal system if the plans, soil percolation test or other such pertinent data are not in accordance with the requirements as herein set forth.

(7) No private waste disposal system shall be constructed on a property accessible to an existing public sanitary sewer~~, . or in a designated immediate priority area.~~ A private waste disposal system found to be malfunctioning where public sanitary sewer is available shall be abandoned, and the building sewer connected to the public sanitary sewer.

(10) All new work and such portions of existing systems as may be affected by new work or any changes or additions shall be performed by a Harford County licensed plumber and/or a bonded drainlayer. A homeowner may be permitted to do his own work according to the requirements of this Ordinance at the private home where he resides or plans to reside, provided that, such work shall be inspected and approved by the approving authority. The approving authority shall refuse to issue permits and conduct inspections for any Harford County licensed plumber, bonded drainlayer or owner who has willfully or knowingly violated the provisions of this Ordinance until the violation has been corrected or resolved.

In cases where waste disposal systems other than septic tank systems are installed, a service policy shall be required by the approving authority and shall be for the life of the system; the requirements shall be set according to the system and/or model to be used.

(16) Private waste disposal systems will not be installed in unsettled filled ground, as determined by the approving authority; ~~areas subject to flooding -areas previously flooded,~~ IN 100 YEAR FLOOD PLAIN AREAS, or on slopes in excess of twenty ~~degree (20°)~~ PERCENT (20%) grade. No portion of a private waste disposal system will be covered by driveways, swimming pools, building additions or any other permanent structures, except that cast iron building sewer may be placed under driveways, (See (d) (1)).

(17) Due to the variability of soil conditions, water tables and individual use experience, approval of a private waste disposal system does not in any manner give or imply a guarantee that the system will operate satisfactorily for any set period of time.

(18) Any duly authorized representative of the Health Department may enter and inspect any property, premise or place, at any reasonable time for the purpose of investigating any alleged violation of any provision of this subtitle. No person

shall refuse entry or access to any authorized representative of the Health Department who requests entry for the aforementione purpose, and who presents appropriate credentials; nor shall any person obstruct, hamper or interfere with any such inspection or investigation.

(5) Grease Traps - Grease traps are not necessary for installations at private dwellings, If included in the design of the private waste disposal system it shall be installed on the kitchen line, outside of the building, before entering

the building sewer leading to the treatment device. The trap shall be provided with a removable cover to permit access for removing the accumulated grease. The minimum liquid capacity shall not be less than thirty (30) gallons.

(c) (1) Location - The initial private waste disposal system and replacement system shall be located as specified by the Health Department. (d) Building Sewer

(1) The building sewer which extends from approximately five (5) feet beyond the foundation wall shall be connected to the treatment device by cast iron pipe which shall be a minimum of four (4) inches in diameter.

(2) Slope of the building sewer, ten (10) feet preceding the treatment device shall not exceed one-half (½) inch per foot.

(3) Building sewer is to be cast iron pipe. All joints to be sealed in an approved method as prescribed within Ordinance 28 (Plumbing Code).

(4) The building sewer should have a straight alignment and bends are to be avoided wherever possible. Change in direction, horizontal or vertical, shall be made by use of long radious one-fourth (1/4), one-eighth (1/8) or one-sixteenth (1/16) bends, or Y-branches.

(5) Where the building sewer is greater than seventy-five (75) feet in horizontal drainage, a cleanout shall be required.

(6) Cleanouts shall be installed at each change of direction of the building sewer greater than forty-five degrees (45^{o}).

(7) Cleanouts, when installed on an underground drain, shall be extended to or above the finished grade on either a forty-five degree (45^{o}) or ninety degree (90^{o}) plane.

(8) Cast iron pipe shall be used for a cleanout pipe of the same nominal size in the drainage system. Cleanout plugs shall be of brass.

(9) The building sewer shall in all cases be below the water supply line as required in Section 38.06, Ordinance 28 (Plumbing Code).

(e) Percolation Test

(1) Percolation tests are required to determine the absorptive capacity of the soil. All percolation tests shall be performed under the supervision of the Health Department on all lots where a private waste disposal system is required. Percolation tests will be conducted in the area as designated by the approving authority. Tests shall be made in sufficient number and at such locations to assure a reliable determination of subsurface conditions.

(2) When shallow subsurface irrigation (drainfield) is contemplated, ~~two (2) test holes approximately fifty (50) feet apart shall be prepared as follows:~~ ONE (1) TEST HOLE OR SUCH ADDITIONAL TEST HOLES IN NUMBERS AND LOCATIONS AS MAY BE REQUIRED TO ASSURE RELIABLE DETERMINATION OF SUBSURFACE CONDITIONS SHALL BE PREPARED AS FOLLOWS:

(i) The test holes shall be prepared by digging two (2) foot square holes two (2) feet in depth. At the time of conducting the percolation tests, a hole one (1) foot square by one (1) foot deep shall be prepared within the previously dug two (2) foot square hole. Upon completion of the percolation

test, the soil will be checked to a depth of at least three (3) feet below the proposed system to determine the presence of water tables and the depth of porous soil.

(ii) When a deep subsurface disposal system (deep trench or seepage pits) is contemplated, ~~two (2) test holes approximately fifty (50) feet apart shall be prepared as follows:~~ ONE (1) TEST HOLE OR SUCH ADDITIONAL TEST HOLES IN NUMBERS AND LOCATIONS AS MAY BE REQUIRED TO ASSURE RELIABLE DETERMINATION OF SUBSURFACE CONDITIONS SHALL BE PREPARED AS FOLLOWS:

(iii) The test holes shall be prepared of such a size as to permit a man to enter the pit with a reasonable degree of safety. The depth of the test pit shall be sufficient to reach porous soil. In the bottom of this pit a one (1) foot square hole one (1) foot deep shall be prepared. Upon completion of the test, further excavation shall be required to an approximate depth of four (4) feet below the proposed system to determine the presence of the water table and the depth of porous soil. The bottom of the seepage pit or trench shall be four (4) feet above the established water table. Only the porous absorption area of the test pit shall be considered in calculating the size of the system to be installed.

(3) A soil test consists of a two (2) inch drop of water level. The first inch which is considered the presoaking time shall not exceed twenty (20) minutes.

(4) The time taken for the second one (1) inch drop is the recorded percolation test and is used in calculating the amount of square feet of absorption area that shall be required per one hundred (100) gallons of sewage effluent to be disposed. The second one (1) inch drop shall not exceed thirty (30) minutes.

(5) The satisfactory soil test includes the following consideration: rate of water absorption, usable area, other

nearby failing percolation tests, slope, size of initial system necessary, sufficient area for replacement systems, failing private systems in the area, and other related factors. The approving authority may require that soil tests be conducted during certain periods of the year when moderate to severe conditions are expected according to the Harford County Soil Survey, Maps and Interpretations as prepared by the U. S. Department of Agricultural, Soil Conservation Service.

(6) Percolation tests may be generally considered invalid at any time when the approving authority has knowledge which indicates the test results are no longer accurate or test procedures have been altered sufficiently to render a significant change in the results. Additional percolation tests may be required.

(7) After thorough soil testing of a parcel of ground and on finding the soil unsuitable for a private waste disposal system, the approving authority may consider such a parcel unsuitable for a private waste disposal system and may refuse to conduct additional soil tests.

(8) Effluent Seepage Area Requirements - The total seepage area required shall be governed by the ~~suitability of soil conditions and topography.~~ FUTURE AVAILABILITY OF PUBLIC SEWERAGE. In the absence of public sanitary facilities and with favorable soil conditions, the following minimum effluent seepage areas will be required to be reserved for the use of the initial private waste disposal system and for subsequent expansion of the system should expansion prove necessary.

(a) Definitions

For the purpose of this law, terms hereinafter set forth shall be defined as follows:

(1) A fire lane: is defined as a lane required to be permanently open for the ingress or egress of fire and other emergency vehicles only, in order that fires and other disasters may be prevented or controlled and exitways are kept unobstructed for life safety.

(2) An emergency vehicle: is defined as a vehicle so designated or authorized by the administrator of the State Motor Vehicle Administration.

(3) Safe and expeditious manner: means the use of any safe method by the proper authorities which is calculated to remove the obstruction in the shortest period of time; including, but not limited to, the use by the proper authorities of wrecking equipment, tools, tow trucks and explosives.

(4) FIRE COMPANY: "MEANS ANY VOLUNTEER OR COMPENSATED FIRE COMPANY SERVING HARFORD COUNTY INCLUDING THOSE OPERATED BY THE FEDERAL GOVERNMENT OR FROM OUT OF STATE."

(5) FIRE MARSHALL: "MEANS THE STATE FIRE MARSHALL OR ANY DULY APPOINTED COUNTY FIRE MARSHALL."

(b) Establishment of Fire Lanes.

The Fire Marshall OR THE FIRE CHIEF shall study the access to all buildings, especially those which are in a congested area in the County and are used by the public and shall determine whether such buildings require the designation and marking of

fire lanes. If the fire marshall IN COORDINATION WITH THE FIRE CHIEF OF THE COMPANY SERVING THE AREA INVOLVED shall find any private entrance or exit, sidewalk, FIRE HYDRANT, or vehicular driveway or interior private driveway or sidewalk, existing or proposed, is obstructed or is likely to be obstructed by vehicles, debris, snow, construction material or other matter likely to interfere with the ingress or egress of emergency vehicles ~~he~~ THEY shall order that the obstruction be removed at once and that such areas be kept clear of obstruction at all times. In order to facilitate the keeping of said ingress and egress areas free from obstruction, the Fire Marshall OR FIRE CHIEF shall erect the proper warning signs and shall designate placement thereof in cooperation with the Department of Public Works and he shall designate proper fire lanes which shall be clearly marked with the words "Fire Lane - Do Not Block" and such curb, road, sidewalk, or driveway or other access shall also have painted upon it, in a highly visible color, lines that will delineate the areas to be kept clear of any obstruction. Where such signs or markings must be erected or painted on privately owned property, the cost of the signs or marking or painting shall be borne by the owner or owners of the property.

(c) Authorization for Removal.

(1) Any Law Enforcement Officer, Fire ~~Department~~ COMPANY or other City Agency is hereby authorized wherever necessary to take possession of, remove, tow away, impound or otherwise remove any debris, material, vehicle or other object which interferes with or obstructs previously established and marked fire lanes for the access or operation of any Fire ~~Department~~ COMPANY equipment or other emergency vehicles or equipment.

(2) Manner of Removal; Any Law Enforcement Agency, Fire ~~Department~~ COMPANY or other County Agency which has cause

to remove an obstruction from a fire lane during a fire or other emergency is authorized to do so in any manner that is both safe and expeditious as defined by this law.

(d) Parking Violations.

(1) In all cases involving parking violations in the way of fire lanes established and marked pursuant to this County Ordinance, the Law Enforcement Officer who discovers a vehicle illegally parked shall, if the operator is absent, attach a summons to the vehicle in a conspicuous place, or if the operator is present, deliver such summons to him. A copy of the summons shall be retained by the officer and shall bear certification under penalty of perjury by the officer attesting to the truth of the matter therein set forth. The recipient of such a summons may waive a hearing before the court at least five (5) days prior to the date of hearing set out in the summons. If the person so summoned desires a hearing, he shall notify the clerk of the court of such desire at least five (5) days prior to the date of the hearing as set forth in the summons. At the time that such notice of a desire for a hearing is given, the person summoned shall also notify the clerk of the court that he desires the presence of the officer who issued the summons at the time of the hearing. In the event that the person so summoned does not notify the clerk that he desires the presence of the officer at the time of the hearing as aforesaid, it shall not be necessary that the officer who issued the summons appear, and the copy of the summons bearing the certification by the officer shall be prima facie evidence of the matters therein set forth. The Law Enforcement Agencies shall cause notice of the provisions of this section to be printed clearly and in a conspicuous place in all summons for parking violations used. No summons shall be issued setting a trial date less than fifteen days from the date of offense.

(2) Wherever an unattended motor vehicle may be found in violation of the provisions of this law, a rebuttable presumption shall arise that the registered owner, as disclosed by the records of the State Motor Vehicle Administration is responsible for the violation.

(3) Any person who shall violate his written promise to appear in court to answer to a charge of a violation of any of the provisions of this subtitle who willfully violates such promise to appear in court shall be guilty of a misdemeanor, regardless of the disposition of the charge upon which he was originally arrested. A written promise to appear in court may be complied with by an appearance by counsel.

(e) Penalties.

(1) Any person violating the provisions of this subtitle shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than ten dollars ($10.00) nor more than five hundred dollars ($500.00), or imprisoned not less than ten (10) days nor more than three (3) months, or both fined and imprisoned.

(2) Each and every day during which a violation of this law continues shall be deemed a separate offense.

~~(3) If as a proximate cause of the violation of any part of this law there is a loss of life, the person violating this law shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined the mandatory sum of one thousand dollars ($1,000.00) and shall be imprisoned for a period of six months for every individual loss of life that occurred. Said imprisonment period shall not run concurrently.~~

(f) Liability. Harford County OR ANY FIRE COMPANY SERVING HARFORD COUNTY is not liable for any damage to property that may result from the removal by a law enforcement officer, FIRE COMPANY or any other County Agency of any obstruction in a clearly

marked fire lane.

(g) Severability. If any provision of this ordinance or the application thereof to any person or circumstance is held invalid for any reason, such invalidity shall not affect the other provisions or any other application of this Ordinance which can be given effect without the invalid provisions or application, and to this end, all the provisions of this Ordinance are hereby declared to be severable.

Section 2. And Be It Further Enacted, that this Act is hereby declared to be an emergency Act and necessary for the immediate preservation of the public peace, health, safety, welfare and property and for the control of fires in the increasingly congested areas of the County and this Act shall take effect from the date it becomes law.

21.9 AMENDMENTS AND WITHDRAWALS. After an application for a zoning reclassification has been filed with the Department o Planning and Zoning, no amendment or modification to such application shall take place without the prior approval of the Department of Planning and Zoning or the body or officer scheduled to hear the case. An application may be allowed to b withdrawn at any time and, in such event, any filing fee paid shall be forfeited.

(2) In addition to the above fees, a minimum publication fee of Ninety Dollars ($90.00) shall be paid at the same time the filing fees are paid. However, the applicant is responsible for the payment of all ADDITIONAL publication fees prior to the scheduled hearing before the Hearing Examiner. If no publication of any kind is made, all publication fees shall be returned to the applicant upon certification of such right by the Hearing Examiner.

21.11 NONCOMPLIANCE WITH THE REQUIREMENTS OF THIS ARTICLE. Notwithstanding any other penalties provided for by law, the failure of the applicant to comply with any of the requirements of this Article may, in the discretion of the County Council or the Hearing Examiner, be sufficient reason to deny the requested

zoning reclassification. When the provision of this Section is used as a basis for denying an application, the officer or body shall state specifically the noncompliance of the applicant.

21.12. APPEALS TO CIRCUIT COURT. Any person aggrieved by any final decision of the County Council on an application for zoning reclassification shall have the right to appeal that decision to the Circuit Court for Harford County and shall have the further right to appeal to the Court of Appeals of Maryland. 21.13. SEVERABILITY. If any provision of this subtitle or the application thereof to any person or circumstance is held invalid for any reason, the invalidity shall not affect the other provisions or any other application of this subtitle which can be given effect without the invalid provisions or applications, and to this end all of the provisions of this subtitle are declared to be severable.

Section 1. Be It Enacted by the County Council of Harford County, Maryland, that new Section 201B, heading, "Employee Labor Relations be, and it is hereby, added to the Code of Public Local Laws of Harford County to read as follows:

201B. Employee Labor Relations.

(a) Statement of Policy and Purpose

In order to promote harmonious and cooperative relationships between the County and its employees and to protect the public by assuring at all times the orderly and uninterrupted operations of the County Government, the Harford County Council declares that it is the public policy of this County, subject to the limitations of the Constitution and the applicable laws of the State of Maryland, that County employees be permitted to participate effectively in the determination of the terms and conditions of their employment. It is also the purpose of this Section to strengthen existing relationships between the County, its employees and their representatives by imposing on each the obligation to enter into negotiations with affirmative willingness to reach agreement in matters of wages, hours, working conditions, and other terms of employment with due regard for, and subject to, the provisions of applicable laws and the Charter provisions governing public employment and fiscal procedures in Harford County.

(b) Definitions. For the purposes of this Act only, the following terms are defined as follows:

(1) "Appropriate Representation Unit" - a grouping of classified positions in the County Service which, by the application of the provisions of this Section, has been deemed appropriate for the purposes of collective negotiations.

(2) "Arbitration" - a procedure whereby parties, unable to agree on a solution to a problem, indicate their willingness to be bound by the decision of a third party.

(3) "Days" - all reference to days within this law are deemed to be calendar days.

(4) "Confidential Employee" - an employee who, has a functional responsibility, assists and acts in a confidential capacity to County officials who formulate, determine and effectuate policies in the field of employee relations.

(5) "County" - Harford County, Maryland

(6) "County Employees" - all persons occupying classified positions as defined in the Charter of Harford County, except confidential employees and attorneys employed to represent the County in any capacity.

(7) "County Officials" - the County Executive, the Director of Administration and all Department and Office Heads appointed in accordance with the Charter of Harford County.

(8) "Employee Organizations" - any lawful association, labor organization, federation, council or brotherhood, the primary purpose of which is to represent County employees concerning terms and conditions of employment, and having a local constitution or by-laws and a roster of officers duly elected in accordance with said constitution or by-laws; such term shall not include any organization which (1) advocates the overthrow of the constitutional forms of government in the United States, or (2) discriminates with regard to the terms or conditions of membership because of race, color, creed, sex, age, national origin or political affiliation.

(9) "Exclusive Representative" - an employee organization which has been certified as the collective bargaining agent for an appropriate representation unit for the purpose of representing County employees within that unit, regardless of employee organization membership.

(11) "Intervenor Employee Organization" - an employee organization which has complied with the provisions of this Section that permits it to be included with the petitioning organization as one of the choices on the ballot in a representation election.

(12) "Lockout" - the temporary withholding of work, by means of shutting down an operation or function of the County, from a group of employees in order to bring pressure on them or on their representatives to accept a change in compensation or rights, privileges, obligations or other terms and conditions of employment.

(14) "Mediation" - the process whereby the parties seek to reconcile their differences through the services of a third party who acts as an intermediary in bringing the parties together and actively seeks to assist the parties in reaching a settlement, by making sugestions, providing background information and noting avenues open to the parties for settlement.

(15) "Professional Employee" - an employee engaged in work which is predominantly intellectual and varied in character as opposed to routine mental, manual, mechanical or physical work; which involves the consistent exercise of discretion and judgment in its performance; which is of such a character that the output produced or the result accomplished cannot be standardized in relation to a given period of time; and which requires knowledge of an advanced type in a field of science or learning customarily acquired by a prolonged course of specialized intellectual instruction and study in an institution of higher learning, as distinguished from a general academic education or from an apprenticeship or from training in the performance of routine mental, manual or physical processes.

(16) "Strike" - by concerted action, the failure to report for duty, the willful absence from one's position, the stoppage or slowdown of work or the abstinence in whole or in part from the full, faithful and proper performance of the duties of employment for the purpose of inducing, influencing, coercing or preventing a change in compensation or rights, privileges, obligations or other terms and conditions of employment.

(c) County Employee Rights

(1) County Employees shall have the right to form, join, assist and particpate in the activities of employee organizations of their own choosing for the purpose of representation of all matters of employee relations, except that management employees shall not have the right to join, assist or participate in the activities of any employee organization, or any of its affiliates, representing or seeking to represent employees under their direction, and confidential employees shall not have the right to join, assist or participate in the activities of any employee organization representing

or seeking to represent non-confidential employees of the County. County employees also shall have the right not to join any employee organizations or participate in their activities, and shall have the right to represent themselves individually or designate their personal representative in their employment relations with the County. No employee shall be interfered with, intimidated, restrained, coerced or discriminated against because of his exercise of these rights.

(2) An employee organization officially certified as the exclusive representative for a representation unit in accordance with this Act is the only employee organization entitled to membership dues deduction privileges after presentation of dues deduction authorization cards signed by individual employees. This privilege ceases upon decertification in accordance with the provisions of this Act; notwithstanding the above no employee organization membership dues shall be deducted on behalf of any employee whose position is not included in an appropriate representation unit nor on behalf of any employee organization unless such organization is the exclusive representative of the representation unit in which the employee is working.

(d) County responsibilities.

Notwithstanding any other provisions contained herein, it is the exclusive right of the County to determine the purposes and objectives of each of its constituent offices and departments; set standards of services to be offered to the public; to determine the methods, means, personnel and other resources by which the County's operations are to be conducted and exercise control and discretion over its organization and operations. It is also the responsibility of the County to direct its

employees to hire, promote, transfer, assign or retain employees and to establish reasonable work rules; also to demote, suspend, discharge or take any other appropriate disciplinary action against its employees for just cause and to relieve its employees from duty because of lack of work or other legitimate reason, in accordance with the County Charter and other applicable laws. The provisions of this Section shall be deemed to be part of every memorandum of agreement executed between the County and an employee organization provided, however, that nothing contained in this subsection shall be deemed to deny the right of any employee to submit a grievance.

(e) Recognition and Certification of Employee Organizations.

(1) An employee organization which seeks formal recognition for purposes of collective bargaining as an exclusive representative of employees in an appropriate representation unit, shall file a petition for certification with the Personnel Officer containing the following information and documentation:

(i) A certified copy of the organization's constitution or by-laws along with a roster of officers duly elected in accordance with such constitution or by-laws, and a delineation of all intra-organizational and inter-organizational affiliations.

(ii) A statement that the employee organization has a primary purpose, the representation of employees in their employment relations with the County.

(iii) A statement that the employee organization has no terms or conditions of membership which discriminate with regard to race, color, creed, sex, age, political affiliation or national origin.

(iv) A request that the County recognize the employee organization as the exclusive representative of the unit claimed to be appropriate.

(v) A written list containing each job class title to be included in the proposed representation unit.

(vi) A statement that the employee organization has in its possession written proof, dated within six (6) months of the date upon which the petition is filed, to establish that at least thirty (30) percent of the employees in the unit claimed to be appropriate have designated the employee organization to represent them in their employment relations with the County. This percentage (thirty percent 30%) may be verified by an appropriate State agency upon request of the Personnel Officer.

(2) Such a petition may be received by the Personnel Officer only during the time period beginning with the date this ordinance takes effect and December 31st of the same calendar year. In subsequent years, such petitions may be received not more than ninety (90) nor more than sixty (60) days prior to the contract termination or any time after decertification.

(3) Upon receipt of such petition, the Personnel Officer shall give adequate and timely notice of the filing to the employees in the proposed unit and shall, within thirty (30) days of the filing date of the petition determine either that the proposed unit is an appropriate representation unit, or that an alternative unit is the appropriate representation unit, the following factors, among others, shall be considered:

(i) Which unit will assure employees the fullest freedom in the exercise of rights described in this Section.

(ii) The community of interest among employees in the proposed unit, involving such criteria as similarity of job duties, skills, wages, education requirements, supervision and working conditions.

(iii) The history of employee relations within the County.

(iv) The effect on the existing classification structure of dividing a single classification among two or more units.

(v) The effect of the unit on the overfragmentation of the Classified Service to the detriment of mutually beneficial relationships between the County and the employees.

(vi) The effect of the unit on the efficient operation of the public service.

(4) Provided, however, that no unit shall be established solely on the basis of the extent to which employees in the unit have organized, and that professional employees shall not be denied the right to be represented separately from non-professional employees, nor shall management and confidential employees be included in the same unit with non-management or non-confidential employees.

(5) In the event that the Personnel Officer and the petitioning employee organization are in disagreement as to the determination of the appropriate representation unit, the issue shall be submitted to binding arbitration at the request of either party. If the parties are unable otherwise to agree on an arbitrator within five (5) days of the initial request, they shall make their selection from a list of five (5) neutrals submitted by the American Arbitration Association. If the parties are unable to agree upon the selection of one of the arbitrators within three (3) work days after receipt of the list, then the Administration and the Employee Organization shall strike one name from the list alternately until one name remains.

The remaining person shall be the duly selected arbitrator. If, for any reason, the selected arbitrator is unable to serve, then the arbitrator shall be appointed directly by the American Arbitration Association. The arbitrator shall render his decision within thirty (30) calendar days after his appointment unless the parties mutually agree to extend the time limit. The arbitrator's decision shall be final and binding on the parties. The cost of arbitration shall be borne equally by the parties involved.

(6) When an appropriate representation unit has been determined, the Personnel Officer shall give adequate and timely notice of the determination to all employees within the newly established representation unit, and shall arrange for a secret ballot certification election to be conducted by the Maryland State Department of Licensing and Regulation, Division of Labor and Industry, in which the employees in such unit shall be offered a choice between exclusive representation by the petitioning employee organization or of no exclusive representation.

(i) Provided, however, that if an intervenor employee organization certifies that at least thirty percent (30%) of the employees in the unit have designated it to represent them in their employment relations with the County and if such organization complies with the requirements of subsection e (1) (i) through (iv) inclusive, then the ballot shall offer a choice among the petitioning employee organization, any intervenor employee organization, or of no exclusive representation.

(ii) Any employee organization shall be certified as exclusive representative following an election or run-off election if the employee organization has received the vote of a numerical majority of all valid ballots cast by

the employees in the unit in which the election or run-off election is held (i.e. fifty percent (50%) plus one (1) of the votes cast by eligible employees).

(iii) If an election involving three (3) or more choices, where none of the choices receives a majority of the votes cast, a run-off election shall be conducted between the two (2) choices receiving the largest number of votes cast.

(7) No election for a new representative unit shall be conducted when an election has been conducted within the preceding one (1) year.

(8) The Personnel Officer shall report the results of all elections.

(f) Rights and Duties of a Certified Employee Organization are:

(1) When an employee organization has been thus certified, the said employee organization shall have the right and duty, through appropriate officials and representatives to negotiate collectively with the County in matters related to wages, hours, working conditions and other terms of employment of all employees in the representation unit without discrimination and without regard to any employee organization membership.

(2) The term "negotiation" as used herein, shall include the duty to confer in good faith at reasonable times and to reduce to a memorandum of agreement the matters agreed upon as a result of such meetings and conferences when all issues have been resolved, which memorandum shall be signed by the duly authorized County and employee organization representatives. Nothing contained herein shall preclude any employee, regardless of employee organization membership, from bringing matters of personal concern to the attention of appropriate officials, or from choosing his own representative

in a grievance or appellate action.

(3) Labor Organization and County Restrictions. Neither the County nor any Labor Organization shall engage in any unfair labor practice as set forth in any applicable Federal or State Law.

(4) A labor organization which is accorded exclusive recognition shall not deny membership to any employee in the appropriate unit except for failure to meet reasonable occupational standards uniformly required for admission, or for failure to tender initiation fees and dues uniformly required as a condition of acquiring and retaining membership. This paragraph does not preclude a labor organization from enforcing discipline in accordance with its constitution or by-laws which conform to the requirements of this Act.

(g) Decertification of Employee Organizations

(1) A decertification petition alleging that a certified employee organization is no longer the majority representative of employees in an appropriate representation unit may be filed with the Personnel Officer by an employee, a group of employees or their representative, or an employee organization. Such petition calendar must be accompanied by written proof dated within ninety (90) days of the date on which the petition is filed, of employee approval equal to at least thirty (30) percent of the employees within the representation unit.

(2) A decertification petition may be received by the Personnel Officer only during the month of October of each year following the first full year of exclusive representation; and no decertification petition for the same representation unit shall be received more frequently than every two (2) years. The Personnel Officer shall arrange for a secret ballot election to be conducted by the Maryland State Department of Licensing and Regulation, Division of Labor and Industry in which the employees in such representation unit shall be offered a choice between the exclusive representation by the certified employee organization or no exclusive representation. Provided, however, that if an intervenor employee organization or organizations comply fully with the requirements set forth in this Section then the ballot shall offer a choice among the certified employee organization, any intervenor employee organization, or of no exclusive representation.

(3) The determination of election results shall be made in accordance with the criteria provided in this Section. In the absence of decertification, the certification of a recognized employee organization shall continue on a year to year basis.

(4) When a valid memorandum of agreement is in effect on the effective date of decertification of any employee organization which is a party thereto, the County and the newly certified employee organization (if there be any) shall be bound by the provisions of that agreement during the remainder of its term.

(h) Impasse Procedures

(1) If, after a reasonable period of negotiation over the terms of an agreement, a dispute exists between the certified employee organization or organizations with whom it is negotiating, the parties may mutually agree that an impasse has been reached; the dispute shall then be submitted to mediation. If the parties are unable to otherwise agree on the mediator, the Federal Mediation and Conciliation Service shall be requested to provide a mediator.

(2) If the impasse is not resolved at least one hundred thirty (130) days after impasse has been declared, a factfinder shall be selected by mutual agreement between the Administration and the employee organization (or organizations as a group, where more than one employee organization is involved in the dispute). If the County and the employee organization(s) are unable to agree on the selection of a factfinder, they shall make their selection from a panel of neutrals maintained by the American Arbitration Association in accordance with the procedures provided for in subsection 3 (5) hereof.

(3) The factfinder shall meet with the parties and shall make written findings of fact and recommendations for the resolution of the dispute no later than thirty (30) days before the budget submission date. Factfinding as used herein shall include the identification of the major issues in the dispute, review of the position of the parties and the resolution of factual differences.

(4) The factfinder, in making his findings and recommendations, shall take into consideration among other pertinent factors, wages, benefits, hours, and other working conditions of other County employees, both in Harford County and in other similar Maryland political jurisdictions; wages, benefits, hours, and other working conditions of employees of private employers in Harford County, the value of other benefits available to or received by County Employees as compared with private sector employees in Harford County; cost-of-living data; and the availability of funds. Copies of findings and recommendations shall be sent to the County Executive, the employee organization or organizations involved and to the mediator who may thereafter assist the parties to effect a voluntary resolution of the dispute.

(5) In the event that the dispute remains unresolved after thirty (30) days of mediation, the County Executive shall submit the dispute to binding arbitration. The binding arbitration shall be submitted to the American Arbitration Association. The County Executive may also submit a copy of the findings of fact and recommendations of the factfinder along with his own recommendation for settling the dispute. The decision of the arbitration board shall be binding on both parties. The cost of mediation, factfinding and arbitration shall be borne equally by the parties involved in the dispute.

(i) Disputes

(1) Disputes concerning the interpretation or application of this Section shall be submitted in writing directly to the Personnel Officer within fifteen (15) days of the date of occurrence of the action being appealed. If the dispute is not resolved by the Personnel Officer within ten (10) days, or if the dispute is from an action, decision, or determination of the Personnel Officer in the first instance,

and the employee or employee organization desires further consideration by the Personnel Advisory Board, written request shall be submitted to the Personnel Officer within ten (10) days of the date of his action, decision or determination. The dispute shall be placed on the docket of the Personnel Advisory Board for hearing not later than ten (10) days after submission of the dispute. The Personnel Advisory Board shall render its decision on the dispute within fifteen (15) calendar days of the date it was submitted and the Personnel Advisory Board's decision shall be final and binding on all the parties. All hearings before the Personnel Advisory Board shall be in accordance with the provisions of existing law. Any hearing may, at the request of the employee, be public. These procedures apply only to the areas covered by this Act.

(j) Prohibition Against Strikes and Lockouts.

(1) It shall be unlawful for an employee or an employee organization to engage in, initiate, sponsor, support or direct a strike. If an employee or employee organization shall violate the provisions of this Section, the County Executive may take any one (1) or all, of the following actions he deems necessary in the public interest:

(2) Imposition of disciplinary action, including removal from County Service, of employees engaged in such illegal conduct;

(3) Termination of any employee organization's dues deduction privilege, if any;

(4) Revocation of exclusive representation certification and disqualification from participation in representation elections for a period up to a maximum of two (2) years.

(5) The County shall not under any circumstance engage in, initiate or direct a lockout of County Employees.

(k) Personnel Officer. Miscellaneous provisions.

(1) Solicitation of membership or dues, and other internal business of a labor organization, shall be conducted during the non-duty hours of the employees concerned.

(2) Employees who represent a recognized labor organization shall not be on official time when negotiating an agreement with agency management, except to the extent that the negotiating agency will either authorize official time for up to forty (40) hours or authorize up to one-half the time spent in negotiations during regular working hours for a reasonable number of employees, which number normally shall not exceed the number of management representatives. Violation by an employee of this subsection shall subject the violator to appropriate disciplinary action.

Section 2. And Be It Further Enacted, that this Act shall take effect sixty (60) days from the date it becomes law.

Effective: March 18, 1974

Each bid must be submitted on the prescribed form accompanying the Official Statement and must be enclosed in a sealed envelope addressed to "Harford County Council, Bel Air, Maryland" and marked on the outside "Proposal for Public Works Bonds of 1974", such bid to be accompanied by a certified check upon, or a cashier's or treasurer's check of a responsible

banking institution, payable to "Harford County, Maryland" for $162,700. The check of the successful bidder will be collected and the proceeds thereof retained by the Council to be applied in part payment for the bonds, and no interest will be allowed upon the amount thereof, but, in the event the successful bidder shall fail to comply with the terms of such bid, the proceeds of such check will be retained as and for full liquidated damages. The checks of the unsuccessful bidders will be returned promptly.

A zero rate cannot be named for any maturity. The interest payable on any bond on any interest payment date shall be represented by a single coupon.

Bids will be opened promptly after 11:00 o'clock A.M., E.S.T. or E.D.T. (whichever time may then be in effect) on ~~June 19~~ JUNE 26, 1974. The award, if made, will be made promptly after the bids are opened to the bidder offering the lowest net interest cost to Harford County, Maryland, such interest cost to be determined by computing the total interest to maturity on all the bonds and deducting therefrom the premium bid, if any; provided, however, that if two or more bidders offer to purchase the bonds at the same lowest net

74-27

interest cost, then such award will be made to the bidder offering the highest premium.

The bonds will be delivered to the successful bidder or bidders as soon as practicable, upon due notice and at the expense of the Council, at The Signature Company in New York, New York, upon payment of the successful bid (including any premium) plus accrued interest to the date of delivery, less the deposit theretofore made. Section 7. Be it further enacted by the County Council of Harford County, Maryland, That, immediately after the sale of the Bonds, the interest rate or rates payable thereon shall be fixed by a resolution of the Harford County Council in accordance with the terms and conditions of the sale of the bonds. The Bonds shall thereupon be suitably printed or engraved and duly executed and delivered to the purchaser in accordance with the conditions of delivery set forth in the foregoing Notice of Sale. The proceeds of the sale of the Bonds, including any premium and accrued interest received therefor, shall be paid to the Treasurer of Harford County who shall deposit the same in a special account of the Harford County Council. There shall be deducted from the gross proceeds received from the sale of the Bonds the cost of issuing the same, including the cost of advertising, printing and professional fees (including legal) and expenses. There shall also be deducted from the total gross proceeds received from the sale of the Bonds the amount received on account of accrued interest on the Bonds, which amount shall be set apart by the Treasurer of Harford County in a special fund and applied to the first maturing interest coupons of the Bonds. The balance of the proceeds of the sale of the Bonds shall be expended only for the purposes of the capital improvements for the water and sewer system as enumerated on pages 2-24 inclusive of the Harford County Capital Budget-Five Year Capital Program submitted by Charles B. Anderson, Jr., County Executive, for the fiscal years 1973-1974. If the funds derived from the sale of the issue of said Bonds shall exceed the amount needed to finance the projects herein contemplated as described above, the excess funds so borrowed and not expended by the County Council shall be applied by the County in payment of the next principal maturity of the

74-27

Bonds so issued.

Section 8. Be it further enacted by the County Council of Harford County, Maryland, That, for the purpose of paying the interest on and principal of the Bonds authorized by this Resolution, the Council shall fix an annual assessment on all properties, improved or unimproved, binding upon a street, road, lane, alley or right-of-way in the Harford County in which a water main or sewer has been built. The said annual assessment shall be made upon the front foot basis, and the first payment shall be collected during the year in which the construction of the aforesaid water supply or sewerage systems is completed or in which the systems are purchased or acquired. The front foot benefit assessments to be levied as provided for in this Resolution shall be imposed in accordance with the terms and conditions of the Harford County Charter.

In addition to the benefit assessments to be levied as provided for herein, the Council shall make a charge for every sewer and water connection. These connection charges shall be made pursuant to the provisions of the Harford County Charter.

In addition to the benefit assessments and connection charges to be levied as provided for herein, the Council shall impose water and sewer service charges and (where the property is not subject to a front foot benefit assessment for the year in which such charge is levied) a charge for the construction and upkeep of water and sewer systems against all properties having a connection with any water main or sewer within Harford County. These service charges and upkeep charges shall be imposed pursuant to the provisions of the Harford County Charter. In the event that the annual front foot benefit assessments, connection charges, service charges and upkeep charges fail to provide sufficient funds at any time while any of the Bonds are outstanding for the purpose

of meeting the principal and interest maturities of the Bonds, the County shall promptly cause to be levied against all assessable property within Harford County annually so long as any of the Bonds are outstanding and not paid an ad valorem tax sufficient in rate and amount to provide for such principal and interest payments when due. Such tax shall be levied in accordance with the Harford County Charter. Harford County, Maryland, by the passage of this Ordinance hereby covenants and agrees properly and promptly to perform all of the respective acts and duties defined in the Act for the levy and collection of the aforesaid ad valorem tax upon all the assessable property within the corporate limits of Harford County, Maryland, as the levy and collection of such a tax becomes necessary in order to meet the debt service requirements of Harford County Public Works Bonds of 1974. By this Act, the Harford County Council hereby solemnly covenants and agrees with each of the holders, from time to time, of any of the Harford County Public Works Bonds of 1974 to do the following: (a) levy and collect the benefit assessments, connection charges, water and sewerage service charges and charges for the upkeep for water and sewerage systems as provided in this Act; (b) apply to the payment of the maturing principal of and interest on the Bonds, in each year in which any of the Bonds are outstanding, all funds received by the County from benefit assessments, connection charges, service and upkeep charges and taxes levied by the County Council of Harford County to pay such principal and interest, to the extent that such funds and taxes are necessary to meet said principal and interest maturities; and (c) to take all action which the Harford County Council may be legally authorized and empowered to take in order to enforce, in any year in which any of the Bonds are outstanding, the guarantee of such Bonds by Harford County.

Section 9. And Be it further enacted by the County Council of Harford County, Maryland, That, this Act is declared to be an emergency measure affecting the public health, safety or welfare requiring additions and improvements to the County's water and sewer system and shall take effect on the date it becomes law.

Equity and fair treatment of all applicants require that the Granting Authority cause each applicant to state its case on specific dates and not to permit tardy applicants to strengthen their applications by filing materials after the due dates.

(c) Amendments to Financial Proposals: Consistent with the long established comparative hearing practices of the FCC, amendments to the financial proposals may be made by an applicant, at any time, during the course of the proceedings.

(d) Procedures in Brief: The procedures for processing all CATV applications, in brief are as follows:

NO APPLICATION SHALL BE CONSIDERED FINAL UNTIL THE BILL BECOMES LAW PURSUANT TO THE CHARTER OF HARFORD COUNTY, MARYLAND.

Section 6.7. Criteria for Evaluation of Applications.

(a) In General: The County Council and the County Executive of Harford County desire to have in the County quality

service-oriented CATV System or Systems. Provision is hereby made for the Granting Authority to evaluate all applications and to accept the most qualified applicant(s) and/or to reject all other applications for the franchise. All applicants shall be advised that Harford County expects the highest quality proposals. The application procedure shall permit the applicants freedom and flexibility to propose a system of outstanding quality. Applicants are required to make use of the Application Form supplied by the County Council and must respond to each of the questions appearing thereon. However, applicants shall be permitted and urged to provide any additional materials, not specifically requested in the Application Form, that the applicants deem pertinent to the Granting Authority's consideration. The criteria for evaluating, grading and acting upon the CATV applications is divided into two areas: Basic Qualifications and Comparative Qualifications.

(b) Basic Qualifications: The Basic Qualifications required of each applicant are that it be legally, technically and financially qualified to construct and operate a high quality CATV System in Harford County. The Granting Authority shall not attempt to compare the applications in these areas; an applicant is either legally, technically and financially qualified, or it is not. If the Granting Authority determines that any applicant does not possess any or all of the basic qualifications, it reserves the right to dismiss the application without consideration of its programming and other attributes. In such event, the assumption is that if an applicant is not legally, technically and financially qualified, it is incapable of providing the programming and services that it proposes.

Definitions of the Basic Qualifications follow:

(1) Legal Qualifications: To be legally qualified, an applicant must be a recognized legal entity. Its members,

partners, stockholders, officers, directors, associates, subsidiaries, parents, may not be felons, citizens of foreign countries, or possess any business interests that are in violation of the Communications Act of 1934, as amended; the FCC Rules and Regulations, the laws of the State of Maryland, the Code of Harford County, and/or all other applicable law.

(2) Technical Qualifications: All applicants must possess sufficient CATV expertise, in the Granting Authority's judgment, to enable the applicant to successfully fulfill its proposal, and all applicants must set forth a technical proposal that, in the Granting Authority's judgment will function effectively.

(3) Financial Qualifications: All applicants must demonstrate, to the Granting Authority's satisfaction, that they have the capability of acquiring sufficient funds to construct and operate the CATV System on an economically viable basis. While the Granting Authority does not intend to give a comparative preference to the applicant with the most money, the Granting Authority requires that each applicant have sufficient funds to effectuate its proposals.

(c) Comparative Qualifications: Once an applicant has demonstrated that it possesses the requisite legal, technical and financial qualifications, it shall be considered, by the Granting Authority, under its comparative criteria to determine which of the applicants is best suited to receive the CATV franchise. The applicant to be preferred is one that offers the strongest combined showing in the following criteria:

(1) Capacity and Commitment to Meet Local Needs: Each applicant must demonstrate, in detail, its capacity and commitment to meet the changing needs and interests of the residents of Harford County, including assistance for the public utilization of the CATV System's capacity. The CATV System is

expected to make a major contribution to the communications, educational and entertainment needs of County residents, therefore the basic value of any CATV application is the degree to which it demonstrates an ability to meet those needs, for the present and in the future. Each applicant will describe the technical design of the system, including such detail as may permit a proper evaluation of the proposal. The description shall include, but not be limited to, two-way and switching capability, terminal facilities, converters, and present and future channel capacity. Other elements which will be considered are the applicants' proposals for expanding basic services, providing additional services, establishing a two-way and broad band communication network. The applicants shall also state how many channels, what facilities, and what services shall be provided free of charge to the County, the school systems and the public, and which facilities and services shall be at cost. Examples of the types of elements to be considered in this criterion are the applicants' plans and proposals for the construction and operation of adequately equipped station, studio or other suitable place for local program origination, public service programming, staffing, commitments for assistance to educational and community groups, and other similar elements.

Operational Planning: Each applicant must demonstrate its managerial and organizational capacity to implement all of the technical, program, and other proposals that are embodied in its application. Examples of elements to be considered are the proposed numbers and classifications of technical, professional, management, office and maintenance personnel; the technical and professional qualifications of the applicant's management staff; the general corporate plan for decision making personnel, lines of authority, the relationship of proposed staffing to the projected evolution of programming, and System

procedures designed to assure attention and responsiveness to County residents.

(3) Integration of Ownership and Management: Each applicant must reflect the degree to which its owners will participate, daily or otherwise, in the management of the System. The assumption hereunder is that where the operators of the System possess a pecuniary interest in its operation, the likelihood of efficiency, thoroughness, and responsiveness is augmented.

(4) Proposed Local Programming: While this criterion will be considered in other areas as well, the Granting Authority stresses that it will place considerable weight upon the proposals of the applicant to provide local programming by, for and about County residents.

(5) Diversification of Control of Media: The United States Congress, the FCC, and the Department of Justice are concerned with the concentration of mass media in the United States. National trends and policies now support the concept of diversification of control of mass media. CATV systems are an integral part of the mass media. Accordingly, the Granting Authority will place weight upon the degree to which each applicant, if awarded the franchise, would tend to diversify the control of mass media, in the County, in the State, in the mid-Atlantic states and nationally.

(6) Local Ownership: The Granting Authority may award the franchise to an applicant or person that does not reside in the County, the State, or the region. The Granting Authority shall consider local residency, particularly within the boundaries of Harford County, as a substantial plus for the applicant. The performance of local residents may be found by the Granting Authority to be easier to ascertain, to predict and to rely upon. The Granting Authority states that it is not unreasonable to believe that those who have lived within the County or State are likely

to feel a greater public responsibility to County residents. Finally, in the event of malfunction of the System or other deficiency, local-resident owners and operators may be more accessible to the County and the members of the public subscribing to the System's service. For the purposes used herein, the weight given to local residency shall be increased or decreased, as the case may be, by the degree to which the local-resident owners have a proven record to contributing to the well being of the County, its many civic and public service organizations, and the citizenry in general.

(7) Cumulative Weight: The Granting Authority stresses that an applicant may be found to be preferable in one or two of the above criteria and be so deficient in the others that it would not be entitled to receive a franchise. Therefore, it is the combined, cumulative qualifications of the applicant, under all criteria, that shall be preferred.

(d) GRANDFATHERING OF EXISTING OPERATIONS: THE GRANTING AUTHORITY RECOGNIZES THAT THE MULTIVIEW CABLE CORPORATION HAS BEEN AND IS NOW OPERATING A CATV SYSTEM IN CERTAIN AREAS OF HARFORD COUNTY.

(1) THERE IS HEREBY GRANTED UNTO MULTIVIEW CABLE CORPORATION A NON-EXCLUSIVE FRANCHISE ONLY IN THOSE AREAS OF THE COUNTY, AS HEREINAFTER DEFINED, IN WHICH THE SAID MULTIVIEW CABLE CORPORATION HAS CONSTRUCTED OR HAS UNDER CONSTRUCTION AS OF THE DATE THIS ACT BECOMES LAW A CATV CABLE DISTRIBUTION PLANT.

(4) NOTHING IN THIS SECTION SHALL BE CONSTRUED TO PROHIBIT EXPANSION OF THE SAID MULTIVIEW CABLE CORPORATION CATV CABLE DISTRIBUTION PLANT BEYOND THE SPECIFIED AREAS OF THE COUNTY, AS HEREINAFTER SET FORTH IN WHICH THE SAID MULTIVIEW CABLE CORPORATION IS NOW OR HAS BEEN OPERATING A CATV SYSTEM. PRIOR TO ANY SUCH EXPANSION IN THE FUTURE, HOWEVER, THE SAID MULTIVIEW CABLE CORPORATION SHALL COMPLY WITH THE PROVISIONS OF SECTIONS 6.4, 6.5, 6.6 AND 6.7 (a), (b) AND (c) OF THIS ACT, AND IF SAID EXPANSION IS REQUESTED PRIOR TO THE YEAR 1977, THEY SHALL ALSO BE REQUIRED TO COMPLY WITH THE PROVISIONS OF SECTIONS 6.10 (c) 3, 4, 5, 6 AND 7; 6.9 (a); 6.10 (d), (f), (g), (i) OF THIS ACT.

PUBLIC HEARING

Having been posted and Notice of time and place of hearing and Title of Bill having been published according to the Charter, a public hearing was held on February 4, 1975 and concluded on February 4, 1975.

Angela Maskowski, Secretary

Section 1. *Be It Enacted By The County Council Of Harford County, Maryland,* that Section 445(b)(1) of the Code of Public Local Laws of Harford County, (1965 Edition, as amended), title "Department of Public Works - Division of Water and Sewers" subtitle "Bond Retirement Assessments", be, and it is hereby repealed and re-enacted, with amendments, to read as follows:

Section 445. Bond Retirement Assessments.

(b) Method of Assessment. The County Executive may recommend to the County Council the assessment on either a front foot basis or an equal benefit basis:

(1) Front foot basis. The Director for the purpose of assessing benefits on a front foot basis shall divide all properties binding upon a street, road, lane, alley, or right-of-way, in which a water pipe or sanitary sewer is to be laid, into four (4) classes, namely: agricultural, small acreage, industrial or business, and residential, and the Director may subdivide each of these classes in such manner as he deems to be in the public interest. Whenever any water supply or sewerage project in the sanitary district has been completed and declared ready for service, the County Executive shall recommend to the County Council that they fix the assessment annually or semi-annually upon all property in the district abutting upon the water main or sewer, in accordance with the classification or subdivision thereof. The Director may recommend changes in the classification of properties from time to time as the properties change in the uses to which they are put. The benefit assessment shall be levied for water supply, sewerage and drainage construction, and shall be based for each class of property upon the number of front feet abutting upon the street, lane, road, alley, or right-of-way in which the water pipe or sewer is placed; provided that no residential property may be assessed on more than one side unless it abuts

upon two (2) parallel streets, that corner lots may be averaged and assessed upon such frontage in a reasonable and fair manner, and that all lots in the residential and industrial or business classification shall be assessed even though a water main or sewer may not extend along the full length of any boundary; and provided further, that no land classified as agricultural shall be assessed a front foot benefit when it has constructed through it or in front of it a sewer or water main until such time as the water or sewer connection is made, and when so made and for every connection such land is liable to a front foot assessment for such reasonable frontage not exceeding three hundred (300) feet, and shall be immediately assessed at the rate of assessment determined for agricultural land. Any land owned by a religious body upon which there is erected a church or a parsonage and which is used exclusively for customary religious purposes shall be exempted from front foot benefit assessment for the first one hundred fifty (150) feet of the total frontage of said property. The properties of volunteer fire companies shall be exempted from all front foot benefit assessments.

Front foot benefit assessments for water supply and sewerage and drainage construction shall be as nearly uniform as is practicable for each class or subclass of property throughout each system for any one (1) year, and no benefit charge, once levied, may be increased; provided, however, that whenever the County acquires an existing system other than a municipal system, the construction of which has been added in whole or in part to the purchase price of land or lots abutting upon the system and which contribution the Director has determined to be a factor in the cost to the County of such system, the County Council may levy, after adoption by Ordinance, such lesser assessment as may take into account this factor.

LIBER 1 PAGE 640

The amount of the assessment per front foot for each class of property for water, sewer and drainage systems may be reduced from time to time by the County, if cost and conditions are deemed to justify the reduction but may be subsequently increased to the amount of original assessment in the event revenues prove to be insufficient, after adoption by Ordinance by the County Council. The benefit assessments shall be paid annually by all properties located as above specified for a period of years co-extensive with the period of maturity of the bonds out of the proceeds of which such construction was done.

Section 2. *And Be It Further Enacted,* that the provisions of this Act shall be retroactive to July 1, 1973.

Section 3. *And Be It Further Enacted,* that this Act is declared to be an Emergency Act because an emergency affecting the fair and equitable assessment of certain property exists, and that it is necessary to establish a proper assessment practice before taxes on the properties in question are due for the current year, and shall take effect on the date it becomes law.
