C. E. WAYS, General Agent.

We would again remind our readers of the popular, safe and reliable excursion to Greenwood on Thursday next, as there has been no disturbance on the W. M. R. R. and all being quiet now in Baltimore, those who had been fearful, can rest easy and make up their minds to go and spend the day pleasantly and profitably.

WILLIE BLAISDELL IN HIS CHARACTER SONGS TO-NIGHT.

Prof. Kusenke's Singing Class which meets in the Y. M. C. A. room, and has attracted such crowds to the square for the last two weeks, is now preparing for a grand concert, to be given in Lyceum Hall on next Monday evening, July 30, and from the programme we judge that a rich treat awaits the music loving citizens of our community.

The preposterous claims made for very many remedies have always disappointed multitudes of people: but we are pleased to recommend an article which can at all times be thoroughly relied upon. The condition of constant readiness for use, with uniformity of composition, renders Keller's Vegetable Life Drops the safest and best remedy for Dyspepsia, Constipation, Liver Disease, Loss of Appetite, Headache and all diseases originating from impure blood.

MISS JULIA PRAYER IS A CHARMING HARP PLAYER.

Sub-Committee will be appointed and other details arranged, of which due notice will be given by the press of the Valley. Exchanges please apply.

Another Proclamation by the President.

OUTRAGES AT READING.

Seventy-five Old Men Burned.

PHILADELPHIA, July 23.—There is great excitement all through the city. A mob of 3,000 strong at West Philadelphia have already burned 75 old men and several buildings.

PHILADELPHIA, Pa., July 23.—At the Pennsylvania Railroad depot at West Philadelphia a great crowd has been congregated since last night. An objective point was made in a rail train standing on the track near 84th street. The mob attempted to get possession of this for the purpose of burning it, the information being lodged with the police by a man who was called out and were ordered to make a raid on the crowd, which they did. The fight took place on a hillside, near Callowhill street bridge, and was very brisk for a while. The police were victorious, and succeeded in driving back the mob of some 3,000 men and women, who were very violent, and who clubbed the officers, wounding several of them. Without much difficulty the police obtained entire possession of the yard reaching from Market street to the connecting, or depot, bridge, and the burning of the depot was accomplished about 12 o'clock this a. m., by Mr. Lockwood and General Agent Pratt. After consulting it was deemed essential to remove the old train. An engineer of efficient daring was secured, and mounted the engine, and putting on full head of steam, he started out of the yard, and succeeded in placing the train outside of the built up portion of the city. All the infamous material is out of the yard.

SPECIAL POLICE TO BE SWORN IN.

The Mayor has made arrangements to swear in one thousand special police to be sworn in this morning. During the row, early this morning, a switchman was shot by a stray bullet from the rioters. Twelve are believed to be seriously injured.

ALARM IN PITTSBURGH.

PITTSBURGH, July 23.—Throughout the entire night this city was in a state of intense excitement in consequence of the terrible scenes which had been enacted during the day. Although no attempts were made to fire any additional property, the citizens were intensely alarmed. The force organized to patrol the city remained on duty all night.

The arrival of the Duquesne Grays, city troops, had also an effect, but not sufficient to quiet the alarm. This morning rumors of a renewal of hostilities were set afloat, and reports that men have been injured, demanding an advance of wages under threats of violence if refused, served to renew the excitement of yesterday, and every tongue was set on fire with a feverish anxiety. About 10 o'clock the Mayor received a dispatch from the Burgesses of Elizabeth borough stating that

SEVEN HUNDRED ARMED MINERS had left the place with avowed intention of joining the rioters and were on their way to the city.

They were met by a large force of citizens who were organized, and marched to the wharf, headed by the Mayor, to meet the boat on which they were coming. When the boat arrived it was anchored out in the middle of the river, and the Mayor and Gen. Negley boarded the boat and were greeted by the men. They were found not to be armed and stated that they had no intention whatever of joining the rioters, but had come to offer their services to protect the citizens and private property. Up to noon no further acts of violence have been committed, but the work of the day for defense is progressing vigorously. It is hoped that the worst is now over.

ORDERS RESPECTING MAIL TRAINS.

WASHINGTON, July 23.—The orders of the Postmaster General last night that no mails should leave for the Baltimore and Ohio road for the West were countermanded this morning. Two postal cars left this morning for the West over the Baltimore and Ohio. At the request of the postal local agent at Pittsburgh, no mails are sent over the Pennsylvania Central beyond Altoona. All through-mail a hitherto cut over the Pennsylvania road being left open to the West.

York Central. A telegram from the postal agent at Schenectady, just received, says all mail trains are now moving over the Baltimore and Ohio. General Schofield who arrived this a. m., and called on the President, has been requested to proceed to Philadelphia to confer with Gen. Hancock.

THE GARDEN MEETING.

The Cabinet adjourned at 12 o'clock. It was agreed that a proclamation should be issued commanding the rioters to disperse by 12 o'clock today. The proclamation, which will be issued immediately, will be similar to those issued last week in cases of West Virginia and Maryland. Gen. Hancock has been ordered to assume the general command of the troops in Pennsylvania, and General Schofield, commander of the military academy, has been ordered to Pennsylvania to report to Gen. Hancock.

GENERAL SHERIDAN.

PITTSBURGH, July 23.—It is reported that General Sheridan, who was on his way to Pittsburgh, has been arrested at Carson.

Severely Outraged Reading—Burning of the Lebanon Valley Railroad.

READING, Pa., July 23.—The existing railroad troubles, which have created intense excitement in this city, culminated in a most serious outbreak to-night shortly after one o'clock upon the arrival of the last passenger train from Philadelphia. About a thousand men followed after the train from Seventh to Penn streets to the new passenger depot.

The night trains were prevented from leaving the depot and several hundred persons commenced obstructing the tracks of the Lebanon Valley Railroad, leading to Harrisburg. Two coaches were set on fire, and an alarm of fire having been struck the fire department was called out. The firemen were prevented, however, by the crowd from extinguishing the flames. Attention having been directed by the burning cars the work of destruction was continued at other points along the road, tearing up tracks, turning and blocking switches and burning of freight cars.

A train of freight cars on the main track on the Second street crossing was set on fire, and five cars were totally consumed. The Lebanon Valley railroad bridge a magnificent structure across the Schuylkill, costing over \$150,000, was first set on fire at the western extremity, and in a few minutes it was destroyed. At 1:35 a. m. all the spans had fallen into the river. The object in destroying the bridge is believed to have been to prevent the passage of troops through the city to Harrisburg and points on the Pennsylvania national.

THE RIOTERS AT READING.

READING, July 23.—A large crowd assembled at the outer depot, in this city last night, who greeted the passengers arriving in the trains which arrived after ten o'clock, with loud calls. A large crowd started for the Lebanon Valley Railroad track and an advance point broke open a tool-house and commenced.

TRAINING UP THE TRACKS.

Meanwhile two engines were out loose from their respective trains and ran toward the obstructions. The engines were ordered back, and were greeted with a volley of stones. The lead light of one locomotive was knocked to pieces, the other also damaged.

KNOWLEDGE.

RIOIERS RAPIDLY CONCENTRATING.

KANSAS CITY, July 22.—The feverish state of feeling here all day concerning railroad strikers, being a terminal point and headquarters of many trunk lines, and there being a large number of railroad employees concentrated here, resulted in an extraordinary excitement among men, nothing definite was done except at a meeting this P. M. they agreed to be governed by the action of railroad employees at St. Louis and Chicago. It is reported that Atchison, Topeka and Santa Fe road notified their employees to-day that they were recently released would be restored to former figures on August 1.

CREWS DESERTED THE TRAINS.

It is understood all other roads have abandoned their freight trains for the present, at least. Several hundred strikers are in yards and at different crossings of roads, but all are back to work by calling on strikers. It is said that the Toledo & Wabash men have no special grudge against the company, but they struck out of fellowship for employees of other roads.

EXCITEMENT AT STANFORD.

STANFORD, Ind., July 23.—Considerable excitement is caused here by the railroad strikers, but no trouble is

anticipated. Railroad officials on the Evansville and Terre Haute, Evansville and Nashville, the St. Louis and Southeastern were interviewed yesterday and state that the strike will not affect their roads by running into this city.

Resignation of Assistant Secretary McCormick.

WASHINGTON, July 23.—Assistant Secretary McCormick, after a long consultation with Secretary Sherman, has concluded to tender his resignation as Secretary of the National Republican Executive Committee, and will do so within an hour. Secretary Sherman urged Mr. McCormick to this course, saying that the government would not possibly spare his services at this time. Ex-Governor Noyes, United States Minister to France, has tendered his resignation as a member of both National and Executive Committees.

LETTERS FROM THE KRIC.

NEW YORK, 23.—The following despatches are printed here.

BYTALLO, June 23.—The Niagara division of the Erie road struck this morning.

THE LAKE SHORE ROAD.

TOLDO, July 23.—No trains are running on the Lake Shore road east of here.

As we go to press midnight everything was quiet.

TO THE LOVERS OF THE WHEB—I would call the attention of all these who wish a good 5 cent cigar, to my new brand of cigars.

Having much experience in the business I propose to sell as fine a cigar as can possibly be made for that amount of money, as it is warranted to be a pure Yara Filler. All I ask is a trial of this cigar. Respectfully, W. S. WILKINSON.

[We tried this cigar and find it to be all that is claimed for it.—Eds. NEWS.]
