A New

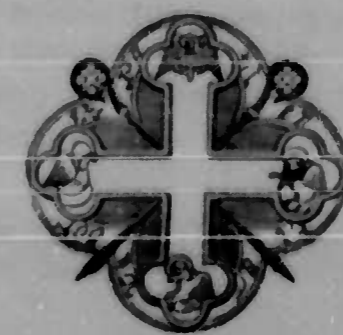

Parish Register

BY THE

REV. CHARLES W. HAYES.

TA' IAIA HIOBATA KAARI KAT' ONOMA.

SEVENTH EDITION, REVISED.

NEW YORK:

GEN. P. E. S. S. UNION AND CHURCH BOOK SOCIETY,
122 BROADWAY.

BUFFALO: M. TAYLOR, NO. 385 MAIN STREET.

MDCCLXIX.

HOW TO USE THIS BOOK.

THE following suggestions and explanations may be of service to clergymen.

I.-FAMILIES.

1. Arrange them in the order in which each family became connected with the parish.
2. Give to each family, less than twelve in number, the space *across the page* between the horizontal red lines; thus keeping each family distinct, and leaving room to note subsequent changes. If the family contains twelve or more names, combine two of the horizontal spaces.
3. Write the ordinal number, I, II, III, IV, &c., under the heading "Number," on the intersection of the double red lines.
4. Insert the maiden name of the wife. Place the names of children immediately after those of parents, and other names always in the second column.
5. The age recorded should correspond to the date in the first column.
6. The heading, *B. C. C.*, indicates the abbreviations used respectively for those *baptized, confirmed or communicants*.
7. Deaths may be indicated by the mark (*) immediately before the names; removals by the mark (†).
8. A list of families thus kept will not need re-writing while the register lasts.

II.-BAPTISMS.

1. *Day and Date.* That is, ecclesiastical and civil date.
2. *Place.* If not in Church, state at what house.
3. In recording *adult* baptisms, write "adult" under the surname.
4. Give the family name of the mother, the residence of the parents, and the residence and relationship to the child of sponsors other than parents.
5. Every baptism should be authenticated, if possible, by the *signature* of the clergyman officiating.
6. *Certifications of Private Baptisms*, which were not performed in the parish, may be noted on the last line of the page; other certifications, under the "Day and Date" and "Place" of the Private Baptism.

III.-CONFIRMED.

1. Give names in *full*. Note the *place*, if other than the Church.
2. *Baptism.* If in the parish, a reference (by number or page) to entries of baptisms is sufficient; if elsewhere, give the name of the parish or religious body in which it was performed.

IV.-COMMUNICANTS.

1. "*Day and Date*"—of reception, or first Communion *in the parish*.
2. "*Number*"—as in all cases refers to the chronological order in which the names and date should be written.
3. Write the *year* distinctly above the names added for that year, leaving a blank line above and below it.
4. The narrow column immediately before the name is intended to show at a glance the deaths (*), removals (†), and suspensions or withdrawals (‡).
5. Write the maiden names of married women in a parenthesis *before* the surname; the surname, added by marriage after becoming a communicant, in a parenthesis *after* the maiden name; e. g. *Mrs. A—(B—)C—*. *Miss A—B—(C—)*. *A* representing the Christian name, *B* the maiden name, *C* the husband's name.
6. *C. A. R.* Denote by *C*, those *admitted* to communion on their confirmation in the parish; *A*, those *admitted*, otherwise, adding *C* if subsequently confirmed; *R*, those *received* from another parish. In the latter case, give the name of the parish "whence received."
7. The name of the communicant returning after removal should, as a general rule, be re-entered at the foot of the list. Except in such cases, no name need be recorded more than once. If the removal is temporary or uncertain, the mark (†) may be in pencil, and thus easily erased.

V.-MARRIAGES.

1. "*Place*"—i. e., in Church; or at what house.
2. The names and *residence* of two or more special witnesses should be recorded.

VI.-BURIALS.

1. After the name of a wife, note that of her husband; after that of a child, those of its parents, &c.

VII.-INDEX.

It may often be found convenient to arrange the INDEX in the form of an *Index Rerum*, by dividing the space given to each initial into five subdivisions, headed each with an initial and vowel, the latter representing the first vowel of the name, as *Aa, Ae, Ai, Aq, Any, &c.* The proportions of the vowels under different initials may be readily found by looking through any alphabetical list—as the Clergy List in the Church Almanac—or, still better, by first preparing a list from the Parish Records, and regulating the spaces accordingly.

BI-CENTENARY OF CHRIST CHURCH.

Commemorative Services Held.

In all the vast cycle of commemorations and anniversaries to which the Centennial of 1870 gave a lively impetus, few can claim a more successful commemoration than the Bi-Centenary of Christ Church, Calvert county, Maryland. The whole country-side is so filled with memories, not merely the vague recollections of tradition materialized by the hand of the historian, but of living links with the past—families who have never moved their habitations since the vessels of Cecilia Calvert, in the charge of his brother, landed on the shores of Southern Maryland; houses which show how completely the colonists were absorbed in their own life, as the fortunes of war, their devotion to the King, or the political complications of the time had left them worldly stores—their Devonshire, Suffolk and Westmoreland houses. Best of all, there remain churches, church-yards and glebes consecrated to sacred service in earliest days by the prayers, the faith, the devotion of the English folk, to whom such surroundings signified not only love to God, but allegiance to country. *Pro patria, pro ecclesia.* Among these no survival is more sturdy than Christ Church Parish, the services of whose two hundredth anniversary have occupied the greater part of the opening week of August. These were begun in St. Peter's Chapel on Solomon's Island on Monday morning and evening, and on Tuesday continued at Middleham Chapel, while on Wednesday at 11 A. M. the initial service of those held at the Mother Church was given in which the rector, Rev. R. H. Murphy, was assisted by the Venerable Archbishop of Annapolis, Rev. Theodor Gambrell, D. D.; the Rev. Thomas Orkney Tongue, of Grace Church, Washington, D. C., and the Rev. J. C. Anderson, rector of St. Paul's Parish, Prince Fredericktown, Calvert county. The noon boat brought a fresh contingent of clergy—the Rev. J. A. Beck, of Rock Creek Parish, Washington; the Rev. John Todd, of William and Mary Parish, Charles county; the Rev. George A. Leakin, D. D., chaplain of public institutions in Baltimore; the Venerable Archbishop of Maryland, Rev. F. C. Moran, and Rev. J. Gibson Gantt, of Deer Creek Parish, Harford county. The president of the Maryland Woman's Auxiliary also accompanied the party, and, by the courtesy of the hospitable parishioners, all were soon welcomed to a substantial repast in the dining room which has stood sentinel over the parish church for nearly a long day. Immediately following the charming social features of this breaking bread with their guests came the gathering of the women of the parish for a few words of greeting from the president of the Auxiliary, and if aught could prove an inspiration, she must have found it in the memories which flocked around the name of Mary Tansy, the wife of Michael Tansy, High Sheriff of Calvert county in 1685, whose loving anxieties for her church and people were so often petition for help across the wide waters and to make a plea which brought response from her King himself. Mrs. Stewart spoke to the ladies present of the blessing coming from organization and concentration. Noble work has been done by women in isolation through all ages; but to-day the Church gathers up all these threads, warp and woof, and weaves them into a fabric in which no thread is lost and none is undervalued. She appealed to them as Daughters of the King to remember how much of the kingdom still lies in heathen darkness and through their prayers and aims to open the way for the light of the Gospel to shine upon the

regions. She asked them to remember the gathering to take place in Baltimore on October 6, when the women of the Church would be present to join their prayers and praises, as a great assembly, in the triennial meeting of the Woman's Auxiliary. The afternoon service began at 3 o'clock and, after most hearty response to and enjoyment of its beauty, never more keenly felt by those present, the historic monograph of the parish was read by the rector, Rev. R. H. Murphy. While the parish boundaries were not legally defined until 1892, when Sir Lionel Copley issued orders for this purpose, church buildings undoubtedly existed long before that time; indeed in some accounts of vestries called at this date mention is made that the first business attended to was the repairing of the church edifice then in use. We know that Robert Brooke, of de la Brooke, in his princely grant of land which originally contemplated the possession of a whole county, and incident in his patent a permission to erect churches and chapels as early as 1637, and as the average duration of the temporary buildings at that period of construction (often interfered with by perils of war and the raids and forage of hostile Indians) was about thirty years, it seems not too much to think that as early as 1690 there were a greater number of churches than has commonly been supposed. The Rev. Ethan Allen in his invaluable notes on the Maryland Church mentions the Rev. John Turling, who ministered in these parts, and the Rev. Paul Bertrand certainly came out in response to the appeal from one of Calvert's fairest daughters whose broad acres, granted by the proprietary, he not very far away from this spot; while the Rev. John Yeo, whose courageous labors in this very precarious vineyard seems to have filled the post of Diocesan Missioner of those days, lived a part of his life and died at Patuxent. A very interesting allusion is given us by a later rector, Rev. George Mackenheimer, in 1854, who alludes to entries of baptisms as far back as 1672, quoting from then existing records, which it is feared were destroyed in the court-house conflagration, where parish registers were not infrequently stored for safe keeping. It is well to note that the lessons in the service for the day, read by two of the devoted pastors of that church, were read from a Bible lately found in clearing up the church which had been in use since 1674. The first official record is as follows: "At a court held in Wading town, Feb. 7th, 1682, in the fifth year of William and Mary. It was concluded by the Justices, principal and freeholders that Hunting Creek Hundred, Leonard Creek Hundred, Elton head Hundred and the lower hundred on the cliffs be all in one parish, the church for the same being already built, called by the name of Christ Church, standing in one acre of ground gave by Mr. Francis Maldea for the same latest out of his tract of land called by the name of Prevent Danger." Among the names of Justices or commissioners are those of Tasker, Holliday, Hutchins, Green, New, Sturcut, Brown, Parker and Maldea, while the first vestrymen were Richard Smith, Henry Fersaley, John Manning, Capt. John Claggett, Francis Maldea, Samuel Hollingworth. The quaint old bell on Middleham Chapel also testifies to the devotion of the flock, bearing date and legend as it does, "The gift of Joan Hollingworth to Middleham Chapel, Anno Do. 1692." The rectorate of Rev. Henry Hall lasted from 1693 to 1696, and he was followed by Rev. Hugh Jones, a man of literary reputation, who embodied his impressions of Virginia and Maryland in a work published by the Board of Education of England and

and quaint volume and only one copy is known to exist in this country. These clergymen were followed by Rev. Gabriel D'Emillaire, who served from 1705 to 1714, and Rev. Jonathan Cay from 1715 to 1737. His tomb lies at the east end of the church. The list of candidates confirmed by Bishop Claggett in 1704 was read and many of the congregation then present could have answered to the names as to a roll call. The Rev. Dr. Leakin then contributed some interesting facts in regard to religions in the colonial period. The congregation dispersed, the clergy being taken care of by its members with the true Maryland hospitality so dear to every son and daughter of the old State. They enjoyed themselves during the evening shades in reminiscence and that genial interchange of thought, as only persons off on a holiday can do. The service on Thursday began with celebration of the Holy Communion, after which Rev. Dr. Buck and Rev. Dr. Todd gave touching greeting and God-speed to the children and grand-children of those to whom they had ministered fifty years before. It was noted as a circumstance almost unparalleled that three of the clergymen present had ministered at the altars of the Maryland Church for half the century. No one who saw them could fail to recall Goldsmith's exquisite tribute to the Parish Priest: "As some tall cliff that lifts its awful form, Swells from the vale and midway leaves the storm; Though round its breast the rolling clouds are spread, Eternal sunshine settles on its head." A very interesting feature was the representation of the laity by Dr. Briscoe, one of the wardens of Christ Church, who, by request of the rector, read from the chancel steps letters of acknowledgment and congratulation from ex rectors unable to be present. The morning service closed with a greeting to the old church from the only clergyman present in English orders, Rev. Francis Clay Moran, who spoke of his reception of the sacrament in the chapel at Lambeth Palace in which Bishop Claggett had been consecrated and from which, after over two hundred years of deprivation, he had brought the long sought rite of Confirmation and other Episcopal blessings to this parish and diocese that the Archbishop of Canterbury, to whom Mary Tansy had despatched her courageous appeal, had commissioned the Bishop of London for the spiritual oversight of the colonies, that commission holding good as well for to-day. At 3 o'clock the Rev. Thomas Orkney Tongue gave an address to the youth of the parish, urging them to early consecration and bringing the spiritual life before them with great power as they realized that by his birthright baptism and confirmation he was a child of the old parish. His words sank deep into the hearts of his hearers. The keystone to this auspicious commemoration was given in a fervent appeal by Rev. J. Gibson Gantt, who received the blessed heritage of his office through two of the colonial rectors of Christ Church. Surely the old parish must enter upon its third century with increased activities and a more solemn consecration of purpose. As the evening boat moved over the serene waters of the lovely Patuxent, with its historic homes lying in peace in the August moonlight, a holy calm pervaded the atmosphere and many prayers were wafted out on the summer night for the steadfast continuance of blessings both for this world and a better to the friends left behind in good old Calvert county. 1892

Prominent dates in the History of Christ Church Parish.

- 1672 Dating back from Mr Mackenheimer's report to the Bishops in 1858, it is probable there was a Church of some kind in the parish - perhaps near Battle Creek.
- 1692 We know there was a Church called by the name of Christ Ch on the same place where the Church now stands.
- 1732 Order was given for the building of a Brick Church at a cost of 100000 lbs of tobacco, which Church was completed about 1735.
- 1745 Similar order for the building of a Chapel of ease to replace the plain building which had stood as Middleham Chapel before 1699. as is evidenced from the inscription on the bell. This chapel cost 80000 lbs tobacco.
- 1772 Order again given for the erecting of a brick church to take the place of the one built in 1735. This one was to cost 160000 lbs tobacco + the materials of the old church + some cash in hand.
- 1792 This Church, + also the Chapel, having become sadly out of repair, were put in good condition, once more.
- 1842 New church in Prince Frederick which had just been set apart from this Parish as an independent Parish. So our Bi-Centenary is their Semi-Centenary.
- 1839 During each of these three years the Church was again materially repaired.
- 1862 at an expense, respectively, of probably \$1000 \$1200 + \$2000
- 1882 St Peter's Chapel, Solomons, in this parish, was built being consecrated by Bp Post Sept 4th 1890. Cost \$1500 over

R. H. Murphy. While the parish boundaries were not legally defined until 1692, when Sir Lionel Copley issued orders for this purpose, church buildings undoubtedly existed long before that time; indeed in some accounts of vestries called at this date mention is made that the first business attended to was the repairing of the church edifice then in use. We know that Robert Brooke, of de la Hooke, in his princely grant of land which originally contemplated the possession of a whole county, had included in his patent a permission to erect churches and chapels as early as 1657, and as the average duration of the temporary buildings at that period of construction (often interfered with by perils of war and the raids and forage of hostile Indians) was about thirty years, it seems not too much to think that as early as 1690 there were a greater number of churches than has commonly been supposed. The Rev. Ethan Allen in his invaluable notes on the Maryland Church mentions the Rev. John Turling, who ministered in these parts, and the Rev. Paul Bertrand certainly came out in response to the appeal from one of Calvert's fairest daughters whose broad acres, granted by the proprietary, lie not very far away from this spot; while the Rev. John Yeo, whose courageous labors in this very precarious vineyard seem to have filled the post of Diocesan Missioner of those days, lived a part of his life and died at Patuxent. A very interesting glimpse is given us by a later rector, Rev. George Mackenheimer, in 1854, who alludes to entries of baptisms as far back as 1672, quoting from then existing records, which it is feared were destroyed in the court-house conflagration, where parish registers were not infrequently stored for safe keeping. It is well to note that the lessons in the service for the day, read by two of the devoted pastors of that church, were read from a Bible lately found in clearing up the church which had been in use since 1674. The first official record is as follows: "At a court held in Waring town, Feb. 7th, 1692, in the fifth year of William and Mary, it was concluded by the Justices, principal and freeholders that Hunting Creek Hundred, Leonard Creek Hundred, Elton head Hundred and the lower hundred on the cliffs be all in one parish, the church for the same being already built, called by the name of Christ Church, standing in one acre of ground gave by Mr. Francis Malden for the same intent out of his tract of land called by the name of Prevent Danger." Among the names of justices or commissioners are those of Tasker, Holliday, Hutchins, Greenfield, Mitchell, Drimmer, Parker and Malden, while the first vestrymen were Richard Smith, Henry Fernley, John Manning, Capt. John Claggett, Francis Malden, Samuel Hollingsworth. The quaint old bell on Middleham Chapel also testifies to the devotion of the flock, bearing date and legend as it goes, "The gift of John Holdsworth to Middleham Chapel, Anno Da. 1699." The rectorate of Rev. Henry Hall lasted from 1693 to 1699, and he was followed by Rev. Hugh Jones, a man of literary reputation, who embodied his impressions of Virginia and Maryland in a work published by the royal society of London and counted as excellent authority, having been quoted by Ormiston in his history. It is a very rare

and quaint volume and only one copy is known to exist in this country. These clergymen were followed by Rev. Gabriel D'Emillaire, who served from 1703 to 1714, and Rev. Jonathan Cay from 1715 to 1737. His tomb lies at the east end of the church. The list of candidates confirmed by Bishop Claggett in 1794 was read and many of the congregation then present could have answered to the names as to a roll call. The Rev. Dr. Leakin then contributed some interesting facts in regard to religions in the colonial period. The congregation dispersed, the clergy being taken care of by its members with the true Maryland hospitality so dear to every son and daughter of the old State. They enjoyed themselves during the evening shades in reminiscence and that genial interchange of thought, as only persons off on a holiday can do. The service on Thursday began with celebration of the Holy Communion, after which Rev. Dr. Buck and Rev. Dr. Todd gave touching greeting and God-speed to the children and grand children of those to whom they had ministered fifty years before. It was noted as a circumstance almost unparalleled that three of the clergy-men present had ministered at the altars of the Maryland Church for half the century. No one who saw them could fail to recall Goldsmith's exquisite tribute to the Parish Priest: "As some tall cliff that lifts its awful form, Swells from the vale and midway leaves the storm; Though round its breast the rolling clouds are spread, Eternal sunshine settles on its head." A very interesting feature was the representation of the lady by Dr. Briscoe, one of the wardens of Christ Church, who, by request of the rector, read from the chancel steps letters of acknowledgement and congratulation from ex-rectors unable to be present. The morning service closed with a greeting to the old church from the only clergyman present in English orders, Rev. Francis Clay Moran, who spoke of his reception of the sacrament in the chapel at Lambeth Palace in which Bishop Claggett had been consecrated and from which, after over two hundred years of deprivation, he had brought the long sought rite of Confirmation and other Episcopal blessings to this parish and diocese that the Archbishop of Canterbury, to whom Mary Taney had despatched her courageous appeal, had commissioned the Bishop of London for the spiritual oversight of the colonies, that commission holding good as well for to-day. At 3 o'clock the Rev. Thomas Orkney Tongue gave an address to the youth of the parish, urging them to early consecration and bringing the spiritual life before them with great power as they realized that by his birthright baptism and confirmation he was a child of the old parish. His words sank deep into the hearts of his hearers. The keystone to this structure of commemoration was given in an eloquent appeal by Rev. J. Gibson Gantt, who received the blessed heritage of his office through two of the colonial rectors of Christ Church. Surely the old parish must enter upon its third century with renewed ardor and a more solemn consecration of purpose. As the evening boat moved over the serene waters of the lovely Patuxent, with its historic homes lying in peace in the August moon-light, a holy calm pervaded the atmosphere and many prayers were wafted out on the summer night for the steadfast continuance of blessings both for this world and a better to the friends left behind in good old Calvert county. History.

Prominent dates in the History of Christ Church Parish.

- 1672 Dating back from Mr Mackenheimer's report to the Bishops in 1858, it is probable there was a Church of some kind in the parish - perhaps near Battle Creek.
- 1692 We know there was a Church called by the name of Christ Ch on the same place where the Church now stands.
- 1732 Order was given for the building of a Brick Church at a cost of 100,000 lbs of tobacco. This Church was completed about 1735.
- 1745 Similar order for the building of a Chapel of ease to replace the plain building which had stood as Middleham Chapel before 1699. As is evidenced from the inscription on the bell. This chapel cost 80,000 lbs tobacco.
- 1772 Order again given for the erecting of a brick church to take the place of the one built in 1735. This one was to cost 160,000 lbs tobacco + the materials of the old church + some cash in hand.
- 1792 This Church, + also the Chapel, having become sadly out of repair, were put in good condition, once more.
- 1842 New church in Prince Georges which had just been set apart from this Parish as an independent Parish. So our BiCentenary is their Semi Centenary.
- 1839 During each of these three years the Church was again materially repaired
- 1862 at an expense, respectively, of probably \$1,000 - \$1,200 + \$2,000
- 1882 St Peter's Chapel, Solomons, in this parish, was built being consecrated by Bp Part Sept 4th 1890. Cost \$1,500

In the Consecration Journal of 1843 is the following record by Bp Whittingham.

"On Monday the 14th of Nov 1842, I consecrated to the worship & service of Almighty God, the Parish Church of Christ Church, Calvert Co, an edifice erected many years ago, long occupied for worship in an unfinished state, but now for the first completed & neatly finished."

(8) In the Journal of 1858 the Rev G. L. Muckenhimer the Rector of Christ Ch Par wrote as follows. "The existing records of this Parish, which are strongly marked by the passage of time, embrace almost two centuries." "The very eight of those ancient documents, which carry the mind back to the early history of the Church in this country, produce an impression of an ordinary character. In these ancient records there are entries of Baptisms as far back as 1572."

In Lib 4 fol 1 Annap. there is the copy of the will of the Rev Ambrose Sanderson of Calvert Co Clerk dated Sep 2, 1682 approved 1 Feb 1683. In his will he directs that his body be buried in the Church of which he was minister. That this was Christ Ch & not All S. History of Christ Church Parish, Calvert County.

A parish which dates its existence back through colonial times must have a very interesting history, could all its facts be committed to paper. We must be content with a very few of these facts: for the dust of years has obliterated very many traces which might prove of interest.

We all know well the date of the settlement of St. Mary's, 1634. It is very probable that not many years elapsed before some of the thousands who came from England to settle in this new El Dorado, were tempted to cross over the beautiful Patuxent to try some of the lands in picturesque Calvert.

It is a mistaken idea of some people that the settlement of St. Mary's was entirely, or even largely, Roman Catholic. An act passed by the House of Assembly, March 27, 1641, seven years after the settlement, shows that the "Protestant Catholics" were people of no little importance. And so, in 1649, we find that a grant of land was made to one Robert Brooke, who, there is reason to believe, was a clergyman of the Church of England, who brought over quite a family and settled on the Patuxent River, at a place which he called "Delabrooke." Mr. Brooke's grant stated particularly that he had liberty to "build and erect chapels in any part of the land allotted to him, and the advowsons, donations, etc., to all such." He is said to have been the first person who "did seat the Patuxent." "Delabrooke" is still known, and is opposite the mouth of Battle Creek, in what is now St. Mary's county, then Calvert, for the Calvert line lay west or south-west a mile or more from the Patuxent River.

Whether Mr. Brooke availed himself of his privilege to build chapels, we know not; or whether he ever officiated in this county, we know not. That ministers of the Church of England were early engaged in this county, as in other regions of Maryland, seems to be a matter of no question. On the 1st of May, 1661, an act was passed by the House of Assembly "concerning the maintenance of ministers, claiming that the amount was 'insufficient and short of the thing aimed at.'"

The first name I can find of a clergyman residing in this region, and probably ministering to the souls on the Patuxent was John Yeo, who, on May 5, 1676, wrote to Archbishop Sheldon from "Patuxent River in Maryland" in regard to the "deplorable estate and condition of the Province of Maryland for want of an established ministry." He deplored the fact that "there are but three Protestant ministers of us in the ten or twelve counties, and among the 20,000 souls." And then went on to add, "one thing cannot be obtained here; viz., the consecration of churches and church yards," and then he added the hope that the Bishop would give "some pious minister a dispensation to do this." This certainly implies that churches were already in existence.

Passing over a period of six years we find the name of Ambrose Sanderson, clerk, the copy of whose will is on record in Annapolis (liber 11, folio 1). The will was dated September 21, 1682, and proved February 1, 1683. In this will he directs that his body be buried in the church of which he was minister. That this was

History.

Christ Church, and not All Saints, is made probable, not to say almost certain, by the fact that he designates his "good friend Michael Taney" as one of his executors, and that he gives his "own Bible" to Mary Taney. We know that Michael Taney and Mary Taney, his wife, resided at or near Battle Creek, which was within the region afterwards set apart as Christ Church Parish.

Three years later than this; viz., in 1685, there is a record of a letter written by Mary Taney, no doubt the one mentioned in the will of Ambrose Sanderson, in regard to the sad need of a Clergyman, and soon afterwards (1686) we heard of a Rev. Paul Bertrand, who was sent over by the king himself in response to her appeal, and who, while officiating in this county, wrote to England, heading his letters at Patuxent. It is probable, therefore, that we have here the names of the first three Rectors of what afterward constituted Christ Church Parish.

JOHN YEO, 1676.

AMBROSE SANDERSON, 1682.

PAUL, BERTRAND, 1686.

According to the Rev. Ethan Allen there is strong reason to believe that there was at one time, about 1691, a Clergyman by name John Turling, working in this region, while another, Richard Hull, we know was here in 1695. The evidence, indeed, is light but sure. It is the evidence of a will which is on record in Annapolis [Lib. 7, fol. 3] that of William Marks, the witness to which dated 8th of February, 1694 5, signs himself Richard Hull, Rector of Christ Church, Calvert County. Nothing more seems to be known of him, nor have I been able to learn that even his name is elsewhere mentioned in colonial history or records.

Two other names there are before we enter upon the records of the 18th century, and yet so strange are the records that we can't help doubting whether they are two persons or only one. The record books of the Register of Wills at Annapolis give the will of the Rev. Hugh Jones, rector of Christ Church, Calvert county, which will was dated 3rd of January, 1707, and proved 2nd of February, 1707, [Lib. 11, fol. 151]. Strange tho' it may seem, further search reveals the fact that there is another will [Lib. 11, fol. 231] of a Rev. Hugh Jones, rector of Christ Church, dated 25th of July, 1702, and proved 11 of August, 1702. They could hardly have been the wills of the same man, for a will could hardly be probated before a man's death. Moreover the inventories and other facts differ so far that we are compelled to come to the conclusion that they were different men. The first bequeaths his books to Christ Church Library—makes John Bigger and Rev. Thomas Cockshuth his executors—giving to the former his horse and baggy, and to the latter certain of his wearing apparel. He leaves the bulk of his property to his brother, Rev. Richard Jones, of Lankrath Isle of Anglesey, and in case of his death to his younger brother, Mr. John Jones. The second leaves the bulk of his property to William Parker, making him his residuary legatee and executor.

Neither one of these, of course, was the Hugh Jones, who was once a Professor in

William and Mary College, and who died rector of St. Stephen's Parish, Cecil county.

Very uncertain we see are all the records of the 17th century, and it is hard to determine the date of the beginning of definite church work here. I think we can, however, with perfect safety date from 1672. In the year 1858, the Rev. George L. Mackenheimer wrote in his report to the Bishop. "The existing records of this Parish which are strongly marked by the ravages of time, embrace almost two centuries. In these ancient records there are entries of baptisms as far back as 1672;" and then he adds—"this Church is the third one erected on the spot". It is a sad pity that these early record books of the Parish have been lost. The old volume of Vestry records now in existence begins on page 180 and has the date 1781, while the earliest record of Baptism is 1701. Probably the older records were burned in the court house in 1884, where as some one has suggested, possibly they had been deposited for safe keeping. At that early date, 1672, more than two hundred and twenty-five years ago, we can well imagine a church building, perhaps of logs, where church services were supplied from time to time to those old Church of England people, who carried with them from the mother country much of their love for the Church of their fathers. The old Bible (date 1674) is still read Sunday by Sunday in the services.

We are quite sure that in 1672 the county was quite largely settled. The town of Patuxent was probably at the mouth of Battle Creek, on the north side. The town of St. Leonard's, where the House of Assembly met in 1658, is still known as "Town". Warrington on the Cliffs was known in 1683 as a town of importance and a port of entry. Soon after this Parish was organized in 1692, we know from Bacon's Laws that there were in this Parish no less than 537 taxables—a tax which implies a probable population of some 1600 or 2000.

The county was far ahead of Anne Arundel; for St. Ann's Parish had at that time but 363 taxables. Of course these 1600 or 2000 people, most of them Church people, had a Church building, humble tho' it may have been. When the foundation was laid, and when the capstone, we know not, but we do know that there was a building of some sort in 1692 just where Christ Church now stands. We know there was a Chapel, known as Middleham Chapel, before 1699. The old bell, with its quaint inscription, "the gift of John Holdsworth to Middleham Chappell, Anno Do 1699," is still there, and rings out Sunday by Sunday. This large population in the latter part of the century certainly would lead us to believe that both Church and Chapel date considerably prior to 1691. As showing the importance

of this county, it may not be out of place to remind the reader that the General Assembly of Maryland met twice, at least, here. According to Bacon's Laws it met in 1654 at Patuxent, and in 1658 at St. Leonard's.

At the former of these meetings certain acts were passed, which would indicate the stress laid upon religion. One act known as the "Act of Protestant Toleration" declared that "such as profess faith in Jesus Christ should be protected in the faith and exercise of their religion."

In 1658 the General Assembly met at St. Leonard's, on Richard Smith's land, in "Calverton county." It was at this meeting that the name of this county was changed back from Patuxent to Calvert, the original name from which it had been changed during the Cromwellian usurpation. When the name of the county was changed from Calvert to Patuxent the lines are thus defined, "from Mr. Maishes creek, commonly called oyster creek, (probably Fair Haven) extending down the Bay, including the cliffs, with the north and the south side of the Patuxent River."

Names prominent in those days, 1659-63, in the House of Burgesses, from this portion of Calvert, were Mr. Richard Preston, Capt. Thos. Manning, Richard Smith, Thos. Trueman, Michael Brooks, William Parker, Sampson Waring and Thos. Brooke. This county was at that time probably the leading one of Maryland. This I conclude from the fact that in 1662 (see Archives of Maryland, page 407) a levy was made for men to help the Susquehanna Indians against their enemies, the numbers being as follows: St. Mary's 11, Kent 5, Charles 7, Anne Arundel 11, Calvert 15. Again, in 1667, an expedition was made against certain Indians, and order was given for the raising of troops as follows: Calvert 89, St. Mary's 69, Anne Arundel 62, Talbot 62, Charles 52, Baltimore 36, Somerset 25, Kent 14.

To return to Christ Church. There was certainly a Church building, perhaps framed or possibly log, both here and probably where Middleham Chapel now stands, sometime before 1692. It was in that year, on the 10th of May, that the General Assembly took steps toward the setting apart of the Parishes. In obedience to this act, this Parish was set apart. The first official record in regard to the Parish as an organization is as follows:

"At a court held at Waring Town, February 7, 1692, in the fifth year of William and Mary, it was concluded by

the Justices and principal freeholders east of the Patuxent River, in Calvert county, that Hunting Creek Hundred, Leonard Creek Hundred, Elton Head Hundred, and the lower Hundred of the cliffs be all in one Parish, the Church for the same Parish being already built, called by the name of Christ Church, standing on one acre of land gave by Mr. Francis Malden for the same intent, out of his tract of land, called by the name of Prevent Danger." The names of the commissioners follow, Thomas Tasker, Thomas Holliday, Francis Hutchins, Capt. Henry Mitchell, Thomas Greenfield, John Bigger, William Parker, Francis Freeman and John Sollers. The names of the Vestrymen chosen are, Richard Smith, Henry Fernley, John Manning, Capt. Thomas Claggett, Francis Malden and Samuel Hollingsworth.

We have already alluded to Waring Town, or Warrington on the Cliffs, as a place of some importance. In looking over the records of the House of Burgesses (see Maryland Archives) we find as early as 1654 the name of Sampson Waring. He was a few years later in the House of Burgesses. It is probable that after him this town was named, and it was probably situated not far from Middleham Chapel, on the Bay shore near the cliffs, where stands the old Wilson residence. There is a tradition that near here was a port of entry and a tobacco warehouse, and there are those living who have a dim recollection of the "old Windmill" which once supplied the people of the neighborhood with meal and flour.

Let us refresh our memory by giving again the names of the probable early ministers or rectors.

1. REV. JOHN YEO, 1676.
2. " AMBROSE SANDERSON, 1682.
3. " PAUL BERTRAND, 1685.
4. " JOHN TURLING, 1691.
5. " RICHARD HULL, 1694.
6. " HUGH JONES, 1st, 1701.
7. " " " 2nd, 1702.

The new century gives us the names of two rectors, both of whom did long and faithful work, both dying probably in the Parish. 8—Rev. Gabriel D'Emilaine who served this Parish, so far as I can learn, probably combining it with All Saints Parish, from 1703 to 1714. 9—Rev. Jonathan Cav. from 1714 to 1737. His tomb is at the east end of the Church. It was during his Rectorship that the log or frame Church gave place to a large brick Church, portions of which are, no doubt, incorporated in the present brick building. In 1732

(Bacon's Laws, Lib. B. L. C. page 46) it is recorded that 100,000 pounds of tobacco (representing probably \$4000 or \$5000) was assessed for the "building of a new Church and a Vestry room in Christ Church Parish, Calvert county, and for purchasing two acres of land." One acre had already been given by Francis Malden, and now the Vestry was authorized to purchase two more. On this very ground, where stood a Church before 1692, was a Church built of brick in 1732, completed about 1735, and a Vestry room (in those days generally under separate roof) for Vestry meetings and Parish meetings generally. This probably stood at the north-east corner of the Church, where are distinctly to be seen the marks of an old foundation. This building we may fancy was comfortably heated in cold weather, and here the people were wont to congregate on Sunday mornings, and warm themselves, ere they assembled in the Church. When the hand bell was rung, the vestry house was closed and locked, and the people flocked into the Church, where their religious zeal was supposed to be sufficient to keep up the supply of caloric needed.

This sum, 100,000 pounds of tobacco, ought to have erected a substantial Church with walls calculated to withstand the storms of centuries; but in spite of the amount expended, it must have been poorly built, for in 1769 (34 years later) we find it recorded in Hanson's Laws that an act was passed by the House of Assembly for the building of a Parish Church in Christ Church Parish, Calvert. Here is the order. "Any three justices may meet at Prince Fredericktown between the 20th of December and the 20th of January next, and assess on the said Parish one third part of 160,000 pounds of tobacco, the other two thirds shall be assessed in 1770 and 1771, and the whole is to be laid out by the Vestry and Wardens in building a new Church on the ground where the old Church stands. The money already in the hands of these persons, and the material of the old Church are to be applied to the same purpose." A supplementary act of 1771 shows that only a portion of the assessment was needed, and the Church was probably completed by January, 1772. In a number of the Maryland Gazette, February 1st, 1770, is an advertisement calling for bids for the contract to build a Church. The notice was signed by John Turner, Register.

History.

The date on the west end of Middleham Chapel agrees with the Act of Assembly as recorded in Bacon's Laws. Assessment was laid in 1746 for the raising of 80,000 pounds of tobacco "to build a Chapel of Ease" in Christ Church Parish. There can be no doubt but this is the chapel some twelve miles south of Christ Church, and which has on it the date 1748. Still we must bear in mind that this took the place of a former Chapel of wood which stood on the same ground in 1699, and, no doubt, some years before. This Chapel forty four years afterwards needed repairs—but it certainly seems strange that Christ Church which had been completed only twenty years before, should, at the same time, need repairs. In the Vestry proceedings of 1792 we find it recorded that both Church and Chapel are in so "deplorable a condition that, without speedy repairs, they must inevitably go to ruins." And so steps were taken to this end, a subscription being made—111 names on the list, the whole aggregating some \$1,000 or \$1,200, headed by the Rector with six pounds sterling, and so the present Church was completed, and we suppose the Chapel was repaired at the same time. These repairs at the Parish Church were no doubt the work which was so nobly and well carried out by Col. Alex. Somerwell, and which is commemorated on a mural tablet on the south side of Christ Church.

Let us recapitulate these dates.

- 1672. Probably a log or framed church.
 - 1692. Certainly a church of some kind.
 - 1735. Brick church costing 100,000 lbs. tobacco.
 - 1772. Brick church costing 160,000 lbs. tobacco, with the materials of the old church.
 - 1792. Very materially repaired.
 - 1839. Considerable repairs.
 - 1862. \$1,200 spent.
 - 1882. More than \$2,000 spent.
- The dates for Middleham Chapel are:
- 1699. Certainly a building of some kind.
 - 1748. A brick church costing 80,000 lbs. tobacco.
 - 1792. Materially repaired.
 - 1893-4. Materially repaired, cost of \$650.

Let us now return to the record of names of Rectors of the Parish:

The 9th Rector was the Rev. Jonathan Cay, who ministered in this Parish (for twenty-two years, dying in 1737.) His tomb is at the east end of Christ Church.

- 10. Rev. Richard Chase, 1738-41.
 - 11. Rev. J. Vaughan, '43-44.
 - 12. Rev. Charles Lake, '44-47.
- This gentleman went from here to St. James', Anne Arundel county, where he remained as Rector for fifteen years. Following him came (13th) Rev. Samuel Claggett (son of Richard, of Croome), 1748-9 and probably nephew of Capt. Thos. Claggett, one of the first Vestrymen of this Parish.

14. Rev. Geo. Cooke, 1750-63. In Middleham Chapel there is a mural tablet which commemorates a son of this Rector, and the name Cooke is still perpetuated as a Christian name in the Parish, among his descendants. He was probably interred by his son John at Middleham. He left a son, William, and a daughter, Mary Ann, (married Manning) and a daughter, Isabel, (married Addison).

15. Rev. Francis Lander, 1764-81, who in length of Rectorship (seventeen years) comes next to Mr. Cay in the whole history of the Parish.

16. Rev. Benjamin Sebastian, 1782-84.

17. Rev. Edward Gantt, '86-96.

It was under his Rectorship that the deplorable condition of both Church and Chapel is spoken of and steps taken to repair both.

From the Vestry records we learn that Mr. Gantt's salary was 13,000 pounds of tobacco. Some of his descendants are still residents of this county.

During Mr. Gantt's Rectorship (May 4, 1794) a class was confirmed by Bishop Claggett, and as we look over the list of names, more than 100 years back, how familiar do they sound:

Betty H. Frazier, Elizabeth Skinner, Mary Skinner Belt, Mary Howe Roberts, Anne Hellen, Anne Sedwick, John Williams, Elizabeth Wilson, William Harris, Anne Brooke, Mary Wilson, Israel Freeman, Elizabeth Harris, Elizabeth Hutchings, George Bourne, Joseph Harris, John Sedwick, Mary Hellen, Anne Roberts, Mary Duke, Elizabeth Sedwick, Isabel Sedwick, Mary Somevell, Annie Wilson, Sarah Wilson.

It is interesting to dwell upon these names, and so of the class of 1818 (Rev. J. P. Bausman, Rector):

Thos. W. Harris, Anne Dare, Ann Laville, Caroline Sedwick, Eliza J. Sedwick, Mary Ann Magruder, Sarah Turner, Sarah Howe, Mary Frazier, Elizabeth M. Frazier, James Duke.

Again in 1825: Uriah Laville, Elizabeth Dorsey, Mary Ann Duke, Sarah Bond, Drusilla Ireland, Dorcas Gray Bond, Mary Parker.

It makes us eager to know who they were and how connected with those of the same name today. But further back even than this (fully 200 years ago) we read the names Parker, Hellen, Dawkins, Gray, James Duke, John Brown, John Turner, Jno. Parran, John Mackall, Thos. Holdsworth, Richard Freeman, Alexander Parran, Hance, Somerveill, Taylor, Bond and

more—so familiar that we seem to be calling the roll of today, and are disappointed that they do not respond "present."

18. The eighteenth Rector perhaps did no duty as minister. I learn from the manuscript letters of Bishop Claggett that the Rev. Mr. Kiernan was called to take charge of the Parish in 1796. He entered upon duty but died within a few days. The Bishop came down from St. James, Anne Arundel county, to bury him, and then suggested to the Vestry the name of the Rev. William Duke, to whom they wrote, offering the rather indefinite salary of 150 or 180 pounds. We suppose he declined, as we find (nineteenth) the Rev. Francis Walker in charge in 1797. He was followed by (twentieth) the Rev. Edward Gantt, Jr., the son, probably, of the one of the same name, who was Rector for ten years. This man remained Rector for five years, and was succeeded by the Rev. Nicholas W. Lane (twenty-first). He was

the first Rector of American orders and took charge in April, 1806, remaining for four years. He afterward taught school in the Parish. Upon his resignation the Rev. Edward Gaunt, Jr., (twenty-second) again took charge, remaining probably about two years, though there seems reason to believe that he was a resident of the Parish and only did occasional duty as seemed needful.

23. Next to him came the Rev. G. D. C. Handy, 1812-15.

And now we begin to reach familiar ground.

24. The Rev. J. P. Bausman became Rector in 1816 and remained till 1825. There are those probably who, like myself, remember the long snowy locks and bent form of this old gentleman, for in later years ('46-7) he was again Rector here for a short time, having married into one of the leading families and probably visiting here from time to time after he ceased to be Rector. Even as late as '62 he did missionary work in Baltimore, dying in '69.

25. Rev. Mervin Allen, '28-32.

26. Rev. Matthias Harris, '32-37.

27. Rev. Olcott Bulkley, Oct. '37 Nov.

39. 28. Rev. Jas. A. Buck first as assistant to Mr. Bulkley and then as Rector Nov. '39 to Nov. '42.

Mr. Buck's are the oldest records we have in anything like system and order—of baptisms, marriages, etc. No doubt some are still living who remember this gentleman.

29. Rev. John M. Todd who still survives though quite advanced in age. We must hasten on and will only stop to give the names of the later Rectors:

30. Rev. Joshua Sweet, '45-6.

31. Rev. J. P. Bausman, '46-7.

32. Rev. Meyer Levin, '48-9.

33. Rev. Erastus F. Dashiell, '49-56.

34. Rev. Geo. L. Mackenheimer, '57-

59.

35. Rev. Edmund Christian, '60-69.

36. Rev. Lewis H. Jackson, '69-71.

37. Rev. Ogle Marbury, '72-4.

38. Rev. William Brittain, '75-6.

39. Rev. Geo. W. E. Fisse, '76-9.

40. Rev. John Atkinson, '79-80.

41. Rev. Ju'ius M. Dashiell, '81-86.

42. Rev. R. H. M.

As name by name, these are called over, Sweet, Bausman, etc., most of them of "blessed memory" with the departed, no doubt many will recall them and say, by him I was baptized, by him my mother was married, by him was I presented for confirmation, by him was my dear departed father consigned to his last resting place in this church-yard.

Christ Church Cabnet County - has just added another land mark in its long history - by the two end or gable walls which have for years run out of plumb and badly cracked have been taken down completely and replaced. The side walls also and the windows and from the front wall to the first windows have also been taken down and replaced. All the new brick work has been ~~done~~ ^{done} in ^{the} best Portland Cement and all old work covered with a rough coating of Cement. At each of the four former ^{two} abutments have been built up with the wall to the same level stepping for two ft. in at the base to a point at the east line. On all four sides of the church a cement basement vent gutter has been constructed with a deep concrete foundation running out from the foundation of Church about 3 ft. Christ Church Cabot County - has just added another land mark in its long history - by the two end or gable walls which have for years been out of plumb and badly cracked have been taken down completely and replaced the side walls alone and then the windows and from the front wall to the first windows have also been taken down and replaced. All the new brick work has been done in the best Portland Cement and all the work covered with a rough coating of Cement. At each of the four former abutments have been built up with the wall to the same level stopping for two ft. in at the base to a point at the east line. On all four sides of the church a cement basement with gutter has been constructed with a deep concrete foundation running out from the foundation of Church about 3 ft. It is thought by the contractor and others that

On replacing the gable walls the work was started from a concrete footing 60 inches wide and ~~the~~ ^{the} wall on 18 in wall to the front end then went 13 in wide to the back.

That this was done ^{was} & plainly evident when the walls were being torn down for there were but very few whole bricks in the two walls. They were almost entirely constructed of broken bricks. Twenty thousand new bricks being used on the work.

An ~~interesting~~ ^{interesting} thing about the old wall was the joining of the ends by small bricks ^{set} by four inches ^{long} especially for this purpose. Many of these little bricks have two ^{by the public} ^{for} ^{restoration} ^{of} ^{the} ^{church} ^{and} ^{are} ^{now} ^{so} ^{by} that the spirit of sobered Churchmanship is still strong enough in the people to make them give so liberally the money which has made it possible. Surely God's Blessing has been and will be upon a people who amid the many ^{change} in creeds and beliefs ^{have} ^{worshipped} God in the same place, with the same ritual and the same creed for nearly 250 years. B. B. L.

this last addition will keep
all the water from the roof
from reaching any part of the
foundation which in the opinion
of the inspector who so kindly
came from Bath to look at
the building has been the cause
of the trouble. This

This work has cost the Parish
about \$2300.00 all of which has
been ~~raised~~ ^{raised} by the people of
the parish and ~~there~~ ^{there} a few who
came from town and have moved
away. We have not had to
ask for a cent of money from
any person not in some way
bound to the Parish ~~or town~~
~~to contribute~~ and ~~for~~. The
people realizing the need have
given liberally - ~~heartily~~ ^{heartily} gladly
and promptly.

The Pious Aid Society has in
hand in addition the sum of \$500.00
which will be used to put a
new roof on the Church and
when that is finished the
interior will be entirely renovated
and painted.

Considering the thorough manner
in which the work has been
done it may confidently be

hoped that Christ Church will
not need any further repairs
for many years to come
and altho in many respects
it is a new Church still
much of the old material was
used and none of the dis-
tinction lines were changed
and "Old Christ Church" stands
fresh again for many years
of service.

For a summary of dates and
events in a short history of the
Parish written by the Rev. R. W. W.
Murray, Rector for thirteen
years and published in one
of the early numbers of the
Hampden Chronicle is
the following.

It is recorded that in the early
history of Amherst it was proposed
that the worshippers of the old
Church 1735 use the wood
in the new Church of 1771

Dear Dors - Will you please do me a favor by sending this letter to Christ Church or to Mrs Buscoe which is a member Christ Church. She lives in Calvert Co. He was almost six ft ^{high}, stout with red mustache and short stubby whiskers and looked like an Irish man. Had on blue clothies and a new pair of rubber boots. There was nothing in him by which to identify him, I committed his body to the ground according to the Comminial in the Book of Common Prayer and paid two other papers over

 But we are not sure
 that will reach her all
 right. What I want to
 ask her is where she can
 tell me if a John Montgomery
 and Janet Cook were
 married at Christ Church
 on Sept 10, 1759. And also
 if she can tell me any
 thing about a Dr John
 Montgomery. And if

 she could tell me when
 this John Montgomery

 when he died. And if
 there any charge for

 father. The reason I
 am asking her this
 or Christ Church this
 told by a friend that
 Rev. Dr. George Cook
 was minister of Christ
 Church from 1750 to
 1763. And so you see
 Janet Cook was a daughter
 of Rev. Dr. George Cook.
 And also the marriage
 took place in Sept 10, 1759

And so I think possible
 they were married at
 Christ Church. Will
 you please do this

A Word of Warning Against Certain Baking Powders.

The question of the purity and healthfulness of the baking powder used is one that should interest everyone. A pure and healthful baking powder assists in preserving the health. An impure powder may cause serious illness, especially if used continuously. The effect may not be noticed immediately because of the small quantity used, but in course of time the total quantity consumed is sufficient to warrant attention. The ill-effects of a long-continued series of small doses of certain drugs become apparent after the lapse of time, and then it is difficult to always determine the real cause of the illness.

There is one class of baking powders, the use of which has been strongly condemned by many physicians and chemists whose opinions are entitled to consideration, viz: those that contain alum. The only reason for the use of alum in baking powder appears to be its cheapness, but the reasons why it should not be used are many and more important than the cost, and would, if generally known, prevent their sale. Alum is a powerful drug in itself, and for medicinal purposes is used in certain diseases, but is totally unfit for food and should not be used for
