

1 If you don't want to see legislative power
2 delegated to the judges, if you don't want to see judicial
3 power delegated to the legislature or to the executive,
4 and so on and so forth, then you have got to support this
5 Committee proposal.

6 THE CHAIRMAN: You have one minute, Delegate
7 Gleason.

8 DELEGATE GLEASON: In brief, we are talking
9 here about preventing what has been attempted in this
10 state in the past, and it has been prevented successfully
11 because this provision has been in the constitution, and
12 I have to say my good friend, Delegate Macdonald, that in
13 talking about the state treasurer, and as you know this has
14 been eliminated by this body up to this point, he is
15 talking about administrative agencies -- those are
16 administrative agencies and this power just does not touch
17 them.

18 If you are saying this should be eliminated
19 because it is an anachronism of government, then I say
20 you should go back and look at the cases because you just
21 haven't done your homework.
