

1 clear it up because as of right now I am --

2 THE CHAIRMAN: Delegate Morgan.

3 DELEGATE MORGAN: I believe Governor Agnew tes-  
4 tified before our committee that if we provided a lieuten-  
5 ant governor for him he would use a lieutenant governor to  
6 sit in for the governor and act for the governor on various  
7 boards and commissions that the governor was a member of,  
8 but he didn't have time enough to act on. That is one  
9 function that Governor Agnew said he expected to use the  
10 lieutenant governor for.

11 THE CHAIRMAN: Delegate Gleason.

12 DELEGATE GLEASON: This is precisely my point.  
13 That I construe as a duty and not a power as such. We  
14 have heard it on the national scene at every election that  
15 comes around that the presidential candidate says, "I am  
16 not just going to have a Vice President that just presides  
17 over the United States. I am just going to make an active  
18 tool of him." To an increasing extent that is true. He  
19 sits on boards and security council but the power he has  
20 still resides with the President. He sits in ceremonial  
21 things. But the things he does are duties, not powers.
