

1 this state that was organized about 15 years ago or less.
2 In fact, one of our delegates lives in the municipality,
3 Delegate Boileau. This municipality was organized by
4 **who became the** the developer / Mayor, and the members of his corporation
5 were the council. They didn't live in this place. They
6 could have gotten the **insurance** / company to set up the city
7 charter to provide that every stockholder could become a
8 voter.

9 There could have been 10,000 voters in this
10 municipality before it even got off the ground. This
11 could be a real abuse, and my amendment would allow the
12 General Assembly to control it. They could limit the
13 amount of property. This should do the trick.

14 The second part of the amendment, this became
15 a whole new section here of Section 2, the second part of
16 the amendment, it merely reiterates the majority requirements
17 and I feel that they are proper, but there could be
18 allowed a one-year residency requirement. They have
19 spoken of that. They are quite correct in that opinion.

20 Municipal affairs sometimes don't get the
21 publicity that they should get.
