

1 I don't know any way to clear this up, except to
2 make it perfectly clear that the intent of the amendment is
3 to prescribe the role of the General Assembly as one in
4 which they may only give the Attorney General jobs which
5 are lawyer jobs and may not make him be something other
6 than a lawyer.

7 THE CHAIRMAN: Delegate Case?

8 DELEGATE CASE: So that if the General Assembly in
9 implementing the consumer protection provision which we have
10 already adopted should say in its enabling act, "It shall
11 be and it is hereby defined to be the responsibilities
12 and duties of the Attorney General to administer the following
13 laws which are enacted to protect the consumer," you would
14 think that that would be an unconstitutional delegation of
15 power to the Attorney General.

16 THE CHAIRMAN: Delegate Bamberger.

17 DELEGATE BAMBERGER: Yes, because of your use
18 of the word "administer." All they could say is that it is
19 his function to advise that Department, it is his
20 function to enforce those laws, but not to administer.

21 THE CHAIRMAN: Your time has expired to answer
questions.
