 Office of the Commission, 2128 Madison Ave., Baltimore.

The purpose of this Commission and the Law creating it are to provide professional and other scholarships for Negroes who cannot obtain desired courses at Morgan or Princess Anne Colleges. The Commission shall make a report of its activities to the General Assembly of 1939, and shall include therein a report of any study of higher education for Negroes, and the State's relation thereto, that in its discretion, the Commission may make; and especially shall the Commission consider the desirability and possibility of Morgan College becoming a State-owned College for Negroes, or whether it would be more practicable for said College to remain under its present control with the State continuing to grant substantial aid under an agreement that it would carry on certain educational work for the State. The Commission is authorized to confer with the Board of Trustees of Morgan College in order that it may present in its report recommendations as to the most practicable and desirable way of integrating Morgan College with the State's system of higher education for Negroes.
