This Department was created by Chapter 64 of the Acts of the General Assembly, 1939 Session, and combines the functions of budget making and purchasing. Under the law, the Director of the Department prepares a tentative State Budget for the Governor's consideration. Included in the law also are important provisions relating to fiscal control by the Board of Public Works. These controls are concerned with power to reduce budget items if the same are found to be in excess of needs; also approval of lump sum appropriations to State Agencies which must be budgeted in detail. The Board of Public
