

Mental Hygiene, Natural Resources, Agriculture, Licensing and Regulation, Transportation, State Planning, Economic and Community Development, the State Fire Marshal, the Maryland State Police, the State Emergency Management and Civil Defense Agency, the AFL-CIO, the Maryland Chamber of Commerce, The Johns Hopkins University Medical Institutions, the University of Maryland Medical Institutions, and any other private or governmental entity that the Governor deems appropriate.

The Council reports to the Governor and the General Assembly annually (Code Health-Environmental Article, Title 6, Subtitle 1).

ASSISTANT SECRETARY FOR ENVIRONMENTAL PROGRAMS

William M. Eichbaum, *Assistant Secretary*

201 W. Preston Street
Baltimore 21201 Telephone: 383-7328

All major environmental programs in Maryland have been reorganized pursuant to the Governor's Executive Order 01.01.1980.04, approved by the 1980 session of the General Assembly, into the Department of Health and Mental Hygiene under the Assistant Secretariat for Environmental Programs.

The mission of the Assistant Secretariat is to foster and protect the public health and well-being by providing an environment free of the uncontrolled release or disposal of toxic, hazardous, or undesirable substances or emissions, and by affording the consumer safe and wholesome food, drugs, and other consumable products. In order to pursue these goals, the Assistant Secretariat is organized into three support units and four major programs. The support units are Administrative Services, Planning and Analysis, and Science and Health Advisory. The major programs are Air Management Administration, Community Health Program, Water Management Administration, and Waste Management Administration.

AIR MANAGEMENT ADMINISTRATION

George P. Ferreri, *Director*

201 W. Preston Street
Baltimore 21201 Telephone: 383-2779

The Air Management Administration develops air resources management plans and program strategies. It develops and enforces regulations for control of emissions from stationary and other sources. It also maintains a statewide comprehensive air monitoring system to provide current in-

formation on ambient pollutant levels in order to institute regular and emergency procedures for their control.

COMMUNITY HEALTH PROGRAM

David L. Resh, Jr., *Administrator*

201 W. Preston Street
Baltimore 21201 Telephone: 383-2754

The Community Health Program assures safe and wholesome products and protects the public health through regulation of the manufacture, distribution, and sale of milk, food, and other consumer products, and through the regulation of controlled dangerous substances or drugs with an abuse potential. It also regulates the control of dangerous emissions from ionizing and non-ionizing radiation sources and protects the public from dangerous levels of noise pollution through regulation and inspection.

WATER MANAGEMENT ADMINISTRATION

Richard B. Sellars, Jr., *Director*

201 W. Preston Street
Baltimore 21201 Telephone: 383-2737

The Water Management Administration is responsible for the development and implementation of efforts to provide safe and adequate public drinking water supplies and to protect State waters by appropriate planning, compliance, permitting, and monitoring actions. The program issues Municipal Discharge Permits and performs water quality monitoring and technical analysis, including mathematical modelling of water quality problems. It reviews and revises plans for sewerage control, conducts needs surveys, and develops priority listings for the construction of sewerage facilities. It monitors the proper operation and maintenance of community water supplies and publicly owned sewage treatment plants. It also awards federal and State grant funds for construction of treatment facilities, reviews and approves design plans for water and sewerage treatment construction, and conducts initial and final inspection of such construction. In addition, the unit is responsible for the protection of shellfish-growing and recreational waters, and for residential on-site water and sewerage facilities.

WASTE MANAGEMENT ADMINISTRATION

Ronald Nelson, *Director*

201 W. Preston Street
Baltimore 21201 Telephone: 383-3123
