The Susquehanna River Basin Commission was created upon enactment of the Susquehanna River Basin Compact by the Commonwealth of Pennsylvania, the states of New York and Maryland, and Congress. Maryland ratified the Compact in 1967 (Chapter 391, Acts of 1967). The Commission superseded the Interstate Advisory Committee on the Susquehanna River Basin.

The Commission formulates plans, policies, and projects for water resources development, conservation, and management of the Basin. The annual report of the Commission is available on request.

The Commission consists of the governor from each signatory state and one member appointed by the President of the United States (Code Natural Resources Article, sec. 8-301).

The National Conference of Commissioners on Uniform State Laws was created by interstate compact in 1892. The Conference promotes uniform legislation designed to solve problems common to all states. Commissioners representing state government and the legal profession draft proposals, then work for their adoption by the states. When uniformity is neither practical nor necessary, the Conference also designs model acts to provide states with a concisely structured legislative framework adaptable to particular needs and problems.

Every four years, the Governor appoints three Commissioners who represent Maryland in the National Conference of Commissioners on Uniform State Laws. The Commissioners serve on committees that draft laws for submission to state legislatures and recommend measures to promote uniform laws.
