

The total net earnings of the Tobacco Warehouses last year, exclusive of salaries paid to the Inspectors, were \$10,585.12. The Inspectors' salaries are \$9,000.00. This is an improvement over the year before, in which the salaries of the Inspectors exceeded the net earnings. As far as the State's revenue is concerned, it makes but little difference what becomes of the State inspection of tobacco. It affords cheap warehousing to the tobacco-grower. The tobacco warehouses and wharves are properties of considerable value, built it is claimed by revenues derived by the State from the tobacco-growers. If the State inspection system is continued, the Inspectors should look to the revenues for their salaries, as well as the other expenses. If the system is abolished, legislation will be needed in regard to the tobacco properties.

The net earnings to the Treasury from the the Live Stock Scales were \$4,893.73, and \$8,542.44 less than the previous year; and from the Hay Scales, \$1,825.62, about the same as the year previous.
