

shall be done under the supervision of the Mayor and City Council thereof, and when within the limits of any county shall be done under the supervision consent of the county commissioners thereof; also, over, under and along private roads and private property, a right of way thereover, under or along being had or obtained, so as to furnish electrical current or power to any and all points, and to connect with any buildings, public or private, with any lamp or other structure or object, car or conveyance, and in general to manufacture, sell, furnish, supply and market electricity and electric and magnetic machinery and supplies for any and all purposes that may be desired or required, and to use the necessary means to accomplish all the purposes for which said company is hereby incorporated.

That nothing herein contained shall be construed to grant any right, franchises or easement in or upon any of the public highways or streets of Baltimore City without first having obtained the consent of the mayor and city council of Baltimore City and none of the rights and franchises hereby conferred to this corporation shall be construed to give to the said corporation any rights whatever to use the said conduits without the consent of the Mayor and city council of Baltimore City.

SEC. 2A. *And be it further enacted*, Subject to that nothing in this act contained is intended or shall be taken or construed as relieving the said corporation from the provisions of Chapter 180 of the Acts of the General Assembly of Maryland of 1910 known as the Public Service Commission Law, or any amendment thereto. Provided, however, that nothing in this act contained is intended or shall be taken or construed as relieving the said corporation from the provisions of Chapter 180 of the Acts of the General Assembly of Maryland, 1910, known as the Public Service Commission Law, or any amendment thereto. And provided further that said corporation before commencing work or construction upon any portion of any State road or roads included in the State road system, constructed or adopted as a part of the State road system, shall apply to the State Roads Commission for a permit to construct its line and overhead equipment upon or over any such road, and all work done under such permit upon any such road crossing of said road, shall be done in conformity with the rules and regulations of the State Roads Commission and located as designated by said Commission, and in full compliance with the provisions and terms of any permit granted by said State Roads Commission and to the satisfaction of said commission; and before doing any such work the said corporation shall file with the State Road Commission, if required, a bond in such amount and pen-
