

1933, ch. 526, sec. 3.

3. The Water Resources Commission shall devise and develop a general water resources conservation program for the State. This program shall contemplate the proper conservation, allocation and development of all of the waters, surface and underground, of the State for the best interests of all of the people of Maryland, and shall guide the Commission in the issuance of water, water power, dam, reservoir and other permits, as hereinafter provided. The Commission is hereby authorized and empowered to make, or cause to be made, all such surveys, maps, investigations and studies of the water resources of the State as it may deem necessary to provide it with sufficient information to formulate a program, and to perform its duties under this Article. All other departments, boards, officials and agencies of the State of Maryland are hereby directed to cooperate with and assist the Water Resources Commission in the performance of its duties and the exercise of its powers.

1933, ch. 526, sec. 4.

4. From and after January 1, 1934, it shall be unlawful for the State or any agency thereof, any person or persons, partnership, association, private or public corporation, county, municipality, or other political subdivision of the State, to appropriate or use any waters of the State, surface or underground, without the consent or permit of the Water Resources Commission, in writing, previously obtained, upon written application therefor to the Commission. Nothing in this section shall be construed to apply to the use of water for domestic and farming purposes or to the use of water for an approved water supply of any municipality; nor shall it apply to any particular use in existence on January 1, 1934, provided such use is not thereafter abandoned.

1933, ch. 526, sec. 5.

5. From and after January 1, 1934, it shall be unlawful for the State or any agency thereof, any person or persons, partnership, association, private or public corporation, county, municipality or other political subdivision of the State, to construct, reconstruct or repair any reservoir, dam or water-way obstruction; or to make or construct, or permit to be made or constructed, any change therein or addition thereto; or to make, or permit to be made, any change in, addition to, or repair of, any existing water-way obstruction; or in any manner to change or diminish the course, current, or cross-section of any stream or body of water, wholly or partly within, this State, except the tidal waters, without a permit from the Water Resources Commission, in writing, previously obtained, upon written application therefor to said Commission. Nothing in this section shall be construed to apply to any dam or obstruction which is ten feet or less in height above the elevation of the stream bed or water-way, nor shall it apply to any reservoir with a storage capacity of less than one million gallons.

1933, ch. 526, sec. 6.

6. Each application for a permit required by this Article shall be accompanied by maps, drawings, and specifications of such proposed use or water-way obstruction, or of the said changes, additions, or repairs, proposed to be made, and such other data and information as the Commission may require.
