

	PAGE
DESCRIPTIONS OF MAGNETIC STATIONS IN MARYLAND.....	498
Stations occupied by the Maryland Geological Survey in 1896.....	498
Stations occupied by the Coast and Geodetic Survey between the years 1845 and 1896 .....	503
Miscellaneous Stations .....	508
ESTABLISHMENT OF SURVEYOR'S MERIDIAN LINES .....	508
Meridian Lines established by the Maryland Geological Survey .....	508
Simple Methods for Determining a true Meridian Line.....	511
I. To determine the true meridian by observations on Polaris at Elongation, with the Engineer's or Surveyor's transit.....	511
II. To determine the true meridian by observation on Polaris at Elongation with plumb-line and peep-sight.....	516
III. To determine the true meridian by observing the transit of Polaris and another star across the same vertical .....	517
IV. Determination of the azimuth of Polaris and true meridian at any hour, the star being visible, and the correct local mean time being known .....	520
The Determination of the Magnetic Declination by the Surveyor .....	529
INDEX .....	531
