

In order to secure a license for a spayed female, the applicant must present for the inspection at the time of application, a certificate in writing signed by a duly licensed veterinarian describing the dog and stating that to his knowledge it has been spayed and the inspection of this certificate shall be noted on the license certificate and stub for future reference by recording the veterinarian's name and address thereon.

The above license is due and payable as follows:

(1) On or before January 1st and not later than the first day of February in each year, the owner or harbinger of any dog four months or older shall pay the license tax as above prescribed.

(2) If a dog shall become four months of age or an unlicensed dog of license age shall come into the possession of any person between January 1st and November 1st of any year, the full license tax for the current calendar year shall be paid forthwith by said owner.

(3) If a dog shall become four months of age or an unlicensed dog of license age shall come into the possession of any person between October 31st and December 31st of any year, the license tag for the succeeding calendar year shall be paid forthwith by said owner, and owners of any other dogs subject to license may, at their option, on and after November 1st renew such license for the succeeding calendar year and such license shall protect all such dogs from the date of such purchase.

A kennel license is meant to cover a pack or collection of dogs on a single premises or location, however owned, whether maintained for breeding, treatment, boarding, sale, training, hunting or other purposes, and including pet shops where dogs and other animals are on sale and the one license and the one tag securely fastened at a prominent place on the enclosure shall cover all dogs there with the limit of the license issued. Such license warrants, when under close supervision, hunting dogs, or dogs for breeding purposes or sale, to be taken from the kennel in similar manner but does not warrant any dog kept at the kennel otherwise to leave its limits without an individual license tag.

Kennel licenses are due and payable on or before January 1st and not later than the February 1st in each year, or when beginning operations as a kennel and the license fee for kennels owning or keeping not more than twenty dogs shall be fifteen dollars (\$15.00) and for each additional ten dogs or fraction thereof over twenty, the license fee shall be increased five dollars (\$5.00), and the names of all persons and/or corporations owning, operating or interested in the kennel at the time of taking the licenses shall be written on the back of the certificate and the stub; and the name and address of the owner of each dog kept in such kennel and a record giving full data concerning sales or other disposition of dogs from such kennels or shops shall be kept on file thereat and available for inspection by the Warden or other peace officers at all times.

A kennel shall not be operated in such manner as to defraud the Dog License Commission of the license fee applying to dogs which cannot legally be covered thereunder or in any manner to violate other provisions of this sub-title; the primary purpose of a kennel license being to relieve owners of dogs kept at a kennel and never being allowed to run at large from the necessity of taking out individual licenses for such dogs.
