No. 19

(Senate Joint Resolution 25)

Senate Joint Resolution requesting the Governor of Maryland to designate the month of February each year as "American History Month."

The General Assembly of Maryland is requesting the Governor of this State to designate the month of February in each year as "American History Month."

It is imperative for the welfare of the present and of future generations that our people become aware of the significance of their history and heritage.

The security of our entire way of life is strengthened by understanding of the development, not by accident, of our free institutions.

In addition to having knowledge of the past, our people need appreciation of the trials and difficulties encountered by past generations, in order that the progress and advantages of the present may come to have deeper meaning and the lessons of history be applied in better approach to current challenging problems.
