

times a year. The State Archaeologist shall attend all Advisory Committee Meetings.

110-I.

It shall be the duty of the Committee to advise the Maryland Geological Survey on archaeological matters and to formulate rules and regulations regarding archaeological matters for review and promulgation by the Commission.

110J.

The functions and purposes of the Division of Archaeology are as follows:

(1) To sponsor, engage in, and direct fundamental research into the archaeology of this State and to encourage and coordinate archaeological research and investigation undertaken by any scientific or historical institution or society, museum, or institution of higher education in this State.

(2) To cooperate in the excavation of sites of historical or archaeological significance which have or may come into the custody or control of any other agency of this State.

(3) To protect and encourage the preservation of prehistoric or historic sites located on privately owned lands in this State.

(4) To retrieve and preserve objects of an archaeological significance discovered during the course of any public construction in this State.

(5) To cooperate with and assist museums, institutions of higher education and scientific or historical institutions and societies, in the preservation and protection of objects and materials of archaeological nature which are in their custody.

(6) To make available to museums, institutions of higher education and scientific or historical institutions and societies objects and materials suitable for demonstrating the archaeological history of this State.

(7) To make available to public and private schools in this State exhibits and to assist in the instruction of pupils as to the manner of life of the early settlers and natives of the State of Maryland.

(8) To cooperate with similar agencies of other states for the general purpose of preserving archaeological sites and objects and materials of archaeological significance and to prevent the exploitation of such sites, objects and materials within this State by institutions or agencies of other states.

(9) To disseminate archaeological facts and materials through the publication of reports of archaeological research and investigation.

(10) To enforce the laws regulating archaeological sites, objects and materials on State owned or State controlled lands.

110K.

The Maryland Geological Survey Commission from time to time may adopt and promulgate reasonable rules and regulations regard-
