

EXECUTIVE ORDER OF JUNE 8, 1981

01.01.1981.03

REVOCATION - GASOLINE CONSERVATION EXECUTIVE ORDER

WHEREAS, On June 19, 1979, pursuant to a state of emergency previously declared to exist within the entire State of Maryland by reason of an acute shortage in usable energy resources, i.e., gasoline, I issued Executive Order 01.01.1979.11 whereby, with the subsequent approval of the Committee on Administrative, Executive and Legislative Review, I imposed "odd-even" and "minimum purchase" programs with respect to the purchase of gasoline from retail suppliers in this State and whereby I authorized and directed that a plan be developed for the staggered opening of retail stations; and

WHEREAS, On September 27, 1979, because the increased availability of gasoline in Maryland had reached a point by which, although demand remained greater than supply and thus required continued conservation, there no longer existed a shortage sufficient to justify the imposition of an "odd-even" program, I issued Executive Order 01.01.1979.22 to amend Executive Order 01.01.1979.11 by repealing the provisions that imposed an "odd-even" program; and

WHEREAS, The national stocks of gasoline recently surpassed the previous record high and I am advised that gasoline supply remained plentiful throughout the State during the past winter and spring and prospects are promising for continued adequate supply;

NOW, THEREFORE, I, HARRY HUGHES, GOVERNOR OF MARYLAND, BY VIRTUE OF THE AUTHORITY VESTED IN ME BY ARTICLE 41, SECTION 15B OF THE ANNOTATED CODE OF MARYLAND, HEREBY RESCIND, EFFECTIVE IMMEDIATELY, EXECUTIVE ORDER 01.01.1979.11 AND THE AMENDMENTS TO THAT EXECUTIVE ORDER, AS PROVIDED UNDER EXECUTIVE ORDER 01.01.1979.22.
