No. 4

(Senate Joint Resolution No. 10)

A Senate Joint Resolution concerning

Environmental Education Program

FOR the purpose of requesting the State Department of Education to conduct a study over a certain period of time designed to design and implement an environmental education program to continue to make recommendations for the design and implementation of environmental education programs in the Maryland public school system by a certain date; providing for reports a report to the Governor and the General Assembly; establishing goals for the program; providing for the State Department of Education to coordinate the program with certain State agencies; and generally relating to a study---en---environmental---education the design and implementation of an environmental education program in the Maryland public schools.

WHEREAS, The State of Maryland's rapidly increasing population places heavy demands on the environment and resources and places severe pressures on wildlife, land, aquatic resources, and on the quality of the human environment; and

WHEREAS, Many of the State's valuable resources, including the Chesapeake Bay, are dependent on responsible management of the human environment for continued existence; and
