

a company licensed to insure boilers or pressure vessels, a mechanical engineer on the faculty of a recognized engineering college within the State, and [a] AN INDIVIDUAL WHO IS licensed AS A professional engineer [having] AND HAS boiler or pressure vessel experience. The chairman of the Board shall be appointed by the Governor, with the advice of the Secretary, to serve in that capacity at the pleasure of the Governor. Each member of the Board shall be appointed for a term of four years to serve until his successor is appointed and qualifies. Of the members first appointed, two shall be appointed for a term of two years, two for a term of three years, and one, the chairman, for a full term of four years. The Commissioner of Labor and Industry shall be a member ex officio of the Board but shall have no vote and shall receive no additional compensation for duties performed in connection therewith. Vacancies shall be filled by appointment for the unexpired term by the Governor, with the advice of the Secretary of Licensing and Regulation, in the same manner as the original appointments. Members of the Board shall not receive an annual salary but shall receive compensation as provided in the budget from time to time for each day or part thereof necessarily spent in the discharge of their official duties and shall, in addition, be reimbursed for their reasonable travel and other expenses in accordance with standard travel regulations. The exercise or performance of all powers, authority, duties and functions vested in the Board by the provisions of this subtitle shall be subject to the power and authority of the Secretary of Licensing and Regulation as set forth in Article 41 of this Code, or elsewhere in the laws of this State.

176.

(b) On and after July 1, 1969, each boiler and pressure vessel used or proposed to be used within this State, except boilers and pressure vessels exempt under § 172 of this subtitle, shall be thoroughly inspected as to their construction, installation and condition, as follows:

(6) The Board may extend the interval between inspections of certain power boilers to two years where (a) the boiler has internal continuous water treatment under the general supervision of [a registered] AN INDIVIDUAL WHO IS LICENSED AS A professional engineer [having] AND HAS experience in the treatment of boiler water and (b) the owner or user of such boiler keeps available for examination by the chief inspector or by any of the deputy or special inspectors accurate records showing (i) the date and actual time such boiler is out of service and the reason or reasons therefor and (ii) such chemical and physical analysis of samples of the boiler water taken at regular intervals of not more than forty-eight hours of operation as will adequately show the condition of such water and any elements or characteristics thereof which are capable of producing corrosion or other deterioration of the boiler or its parts.
