

Ans.—On Tuesday night, about 8 o'clock. I recollect that it was read in our store on Tuesday night.

Ques.—What effect had that upon the public feeling in regard to the election?

Ans.—Some argued that it would have no effect; others thought that it would allow the people to vote.

Ques.—You are acquainted with the Princess Anne District?

Ans.—Yes, sir; I have been living there, doing business between four and five years.

Ques.—How many votes do you suppose Mr. Levin Woolford would have got as Clerk?

Ans.—I should suppose that Mr. Woolford would have got from 150 to 175 votes. I am not a politician, and no judge of these matters, and I am apt to be deceived, either way.

Ques.—What vote do you suppose Mr. Dashiell would have got, under the same circumstances?

Ans.—My view is that they both would have got about the same—although Mr. Long is a very strong man in that district—it is very hard for me to estimate. Still, Mr. Dashiell is not a resident of that district, and Mr. Woolford is. There were three candidates running and it is pretty hard for me to say. I would suppose that J. J. Dashiell would have got from 130 to 140 votes—as I said before, I am no politician, and therefore, do not pay attention to those things; I think Mr. White would have got some votes.

CROSS EXAMINATION.

Ques.—Who did you intend voting for as Register of Wills?

Ans.—I would have voted the Democratic ticket, in opposition to Mr. Long.

Jos. E. Lynch, (for the contestants.)

Ques.—Were you in Tyaskin district at the last election?

Ans.—Yes, sir.

Ques.—Had you any conversation with John W. Davis, on the subject of the election?

Ans.—No particular conversation; I observed to him that we were having a very quiet election.

Ques.—Do you know anything of a paper being drawn up and signed by Mr. Davis?

Ans.—I neither saw the paper nor heard anything about it.
