BALTIMORE:
MONDAY, JANUARY 12, 1824.

The memorial of the Auctioneers of this city, we are obliged to lay over till tomorrow, when it shall have a conspicuous place.

We have no papers this morning from New York of Saturday last.

By the ship Henry, Davis, arrived at this port yesterday, in thirty-six days from Dartmouth, Eng. Information is received that General MINA and suite had arrived at Plymouth in a French frigate, Capt. D. read Lloyd's Lists at Dartmouth of the beginning of December, which contained the arrival at Helvet of two vessels from Baltimore, (names not recollect) and one ship in the Downs, the Massachusetts, from Baltimore. Captain D. brought no papers.

ORATION IN AID OF THE GREEKS.—At a late meeting of the gentlemen of the Maryland Law Institute, for the purpose of adopting measures for aiding the Greek cause, it was resolved, that an Oration be delivered this evening, at the Theatre, and the proceeds thereof be applied to the aid of the Greeks. Mr. William G. Read, of the Institute, was selected as the orator. It is not the pecuniary aid thus to be raised to which we attach the most importance; for all that can be collected from individual contribution, will scarcely be felt in the enormous expenditures of a nation engaged in war. But it is the moral influence these contributions have upon the world. It is an expression of approbation of the cause in which the Greeks are engaged, and, consequently, of disapprobation of the Turkish cause. This expression has been loud and clear in several European countries—England and France particularly, and its influence has evidently had a tendency to encourage the Greeks in their struggle, and to dishearten their oppressors, as is demonstrated by their late and unparalleled success over their powerful enemies. We consider, therefore, that five hundred dollars raised in the manner proposed, will give the Greeks more efficient aid than five thousand could do if contributed by a single individual. We do not argue thus to induce a full attendance at the Oration to-night—the known patriotism of the citizens of Baltimore, and the liberal spirit pervading their breasts would pronounce that a work of supererogation;—our object is to express our opinion of the manner in which we can give the most efficient aid.

GREEK BENEFIT.—Mr. James A. Zander, a barber, in Troy, N. Y. gave notice, that he would give the avails of his labor, on Thursday and Friday last, to the committee appointed to receive donations for the benefit of the Greeks.

On Saturday an election was held in the Eleventh Ward for a member of the first branch of the City Council, to fill the vacancy occasioned by the resignation of HENRY BRICK, Esq. The following is the result of the election—

JOSEPH CRISHING,	214 votes
H. P. LOW,	110
GEO. HERB,	101
THOS. A. NORRIS,	10

The \$200,000 New York Canal Loan, was taken by the Albany Banks, at a premium of half per cent. for five per cent stock.

Such has been the mild state of the weather of late, that the William, from New Orleans, the John and Edward, from Havana, and other vessels lately arrived at New York, came all the way with their awnings spread over their decks.

PUBLIC MEETING IN PHILADELPHIA.—On Friday afternoon a meeting was held in Philadelphia, in accordance to previous notice given by a majority of "the democratic general ward committee," to take such measures as the good of the "party" might require. The call was addressed to "the democratic citizens friendly to the old mode of nominating candidates for the offices of President and Vice President." It is presumed that the old mode alluded to was the caucus system, and the citizens to whom the call was addressed, the friends of a caucus nomination. It would appear, however, that both friends and foes of caucuses considered themselves invited, and attended accordingly. The result was, that as soon as the meeting convened, an effervescence took place, similar to that produced by the mixture of an acid and an alkali, except, unlike these substances, their affinity for each other did not produce neutrality.—The Democratic Press contains a preamble and set of resolutions approbatory of a caucus nomination, said to have been adopted in the meeting. The Gazette says:—"A large proportion of the meeting in the Court House consisted of spectators. Our impression was that a majority of those who took part in the proceedings were opposed to the caucus system. From the confusion which prevailed it was, however, impossible to take any question fairly; and the Chairman had it in his power to declare those resolutions adopted which accorded with his own opinion." Besides the Gazette, several other papers declare that the sense of the meeting was opposed to a caucus.

LATEST FROM ENGLAND.

The ship Susquehanna, Capt. M'Namus, arrived at New York, in 32 days from Waterford, Ireland, bringing papers from that place as late as Dec. 31. By the politeness of Captain M'Namus, and the owner, Mr. Flack, the editors of the New York Daily Advertiser have had the opportunity of examining several of the papers, among which was the latest from Waterford, from which we have made such extracts as our time would admit.

It is stated in the Courier that it is now understood there is to be no Congress for the affairs of the East at St. Petersburg, and another at Paris for the South American colonies. The object of the latter does not distinctly appear. France, it is said, has given the British Government positive assurances of her determination to refrain from assisting Spain in any attempt to reduce these colonies by force. It is supposed that the King of Spain, if he cannot make such an attempt, will not recognize their independence, and that in this he will be countenanced by the Allies. In a speech of the Russian ambassador, Pozzi di Borgo, are expressions which warrant the conclusion that Russia and the other powers do not intend to acknowledge their independence. The editor of the Courier confesses it is difficult to reconcile the assurances of the French government with the sentiments of the late mentioned speaker; but as Great Britain has de facto acknowledged their independence, he thinks that country will cultivate the most friendly intercourse with the Republics, and leave the other European powers to follow their own policy.

Dispatches have been received from Madrid to the 19th, with positive information that Ferdinand's confidential Minister, Saez, had not only retained his own situation, but arranged the whole of the Ministry, and that Ferdinand had "tuned a deaf ear to all importunities of France, Austria, Russia and England, as to their endeavors to persuade him to change his Prime Minister, as well as with regard also to the recognition of the Bonds, which he now says, are not Spanish Bonds, and that he is indifferent whether he succeeds in raising money, or loses it, as he is quite sure he has sufficient resources to carry on the affairs of government, having been relieved from the burdens which were imposed on his country, not for its welfare, but for the private gain of a set of desperate men whom the power of God, and his Allies have punished."

Capt. Parry is to proceed on another voyage of discovery. In his first voyage Capt. P. discovered an opening after entering Lancaster sound, which he did not enter, but proceeded straight forward, betwixt with ice and dangers in a North-Westerly direction. The Board of Admiralty have resolved, that this inlet shall be examined, and Capt. P. is to proceed in his old ship Hecla.

On the 13th of October the first steam boat navigated the Danube. The voyage was commenced from Pest, in Upper Hungary.

Northern Expedition.—It is in contemplation to send out two land expeditions to assist in the discovery of a North West Passage; one is to be commanded by Capt. Franklin, and to proceed by the same route as formerly undertaken by Mackenzie, and the other to ascertain whether there be not a continuity of land between the Wager and Coppermine rivers. Captain Lyon, we understand, has volunteered his services for the latter undertaking, which is not as likely to be interrupted as the former.

A private letter from Madrid states, that the government was collecting new victims with whom to follow up the sacrifice of Riego. The Ultra Royalists do not hesitate to exult in the certainty that not one plaster of the Constitutional loan will ever be paid.

The King of Portugal has issued a decree forbidding all the inhabitants of his dominion to give orders for any journal or pamphlet printed in a foreign country, written in the Portuguese language, unless the author has previously obtained a licence.

Application has been made to the Court of King's Bench, Dublin, for a writ of Prohibition to restrain the Commissioners under the Invention Law, from proceeding in the case of the late John W. Hoffman, who had been taken, and was to proceed under those laws, but the writ was refused with costs.

The Duke d'Angoulême was at Bayonne, 23d November.

The Quotidienne says, the tribunal of the Inquisition will not be re-established. Funds Nov. 29—New, 4 per cent. 104 3/8—Old, 8 1/2 per cent. 104 1/2.

The King of France still continues indisposed. LONDON, Nov. 24.
The Secretary of the Ship Owners' Society had, on Saturday, an interview with government, at the instance of several of the merchants and ship owners, engaged in the trade with Spanish America, for the purpose of ascertaining whether there was any real foundation for the rumors which have been circulating in some of the newspapers, of its being the intention of the French government to assist Spain, in attempting the reconquest of her late colonies. The most satisfactory and unequalled assurances were given by government that there was not the slightest pretence for imputing any such design to the French government. It was stated to government, that 14 ships were now loading in London and Liverpool for the Spanish American ports, and that, of course, it would not be prudent for merchants to continue sending their property in that direction. The answer given to this was, that government saw no reason why the commercial intercourse which individuals might think proper to carry on with those countries should be suspended.

It is now said that the Congress to be held at St. Petersburg for the South American Congress of Ministers, and is to meet at Paris. It will then be, no doubt, a matter of consideration, whether the subjugation of America can be attempted with a probability of success—or, if it cannot, in what way its independence may be rendered less alarming to the despots of the old world.

The Congress, which it now becomes the fashion to hold, are more mischievous to the interests of society than any other political invention of modern times. When a set of men have interests opposed to the rest of mankind, which is most to be dreaded is their union and co-operation. The absolute monarchs of the continent have found that the interest which they have in accessions of territory, at the ex-

pendence of one another, is trifling as compared with that of depressing the attempts made upon their authority by the people. This, the leading interests of sovereigns, is kept in view in every Congress, and these meetings insure its being pursued with consistency and effect. As the monarchs of the continent would be more benefactors of governments chosen by the people, or influenced by the people, nothing is more fatal than the union of those who only see their own safety in the degradation and the darkness of the rest of mankind.

Greece, as well as South America, it is said, is to be the subject of a Congress. If so, also the Emperor of Russia has shown herself able to withstand her infidel enemies—she has been able to make her way under the frowns or neglect of the Christian Sovereigns; but if the Holy Allies continue to baffle her after their paternal fashion, even the skill and bravery and perseverance she has shown will hardly avail her.—Globe & Traveller.

There is no truth in the statement that our arms are increased by the addition of 10,000 men. There is to be an addition made to our military force, but nothing like the amount mentioned. The increase will be merely sufficient to replace the troops which are destined for our West India colonies. This measure is rendered necessary, in consequence of the very low scale to which our military establishments have been reduced; so that any exigent demand for troops, though it be only two or three regiments, leaves a positive deficiency in some other branch of the service.—Courier.

Paris papers of Friday publish a despatch from Gen Guilleminot, dated Madrid Nov 13th announcing that Marshal Count Molitor took possession of Carthage on the 5th inst and it was expected the French troops would be there on the 12th.

The ex-minister San Miguel, it is said, has been arrested, and was on his way to Madrid, under a military escort.

Gen. Mina arrived in a French ship at Plymouth on Saturday last. The following is an extract of a letter from that place, dated Nov. 23d 8 P. M. A French man of war brig has just arrived at this port. She has on board Gen. Mina, and also despatches. The arrival of this General in a French ship has excited much surprise here, but no particulars have transpired, nor can I make inquiries, as the mail is just on the start.

The British Monitor of Sunday mentions that there have been no less than three Cabinet Councils since Mr. Caning's return to town on Sunday last, viz. one on Tuesday, one on Thursday, and one on Friday. During the latter, and the one yesterday, Sir George Cockburn was in attendance, and it is supposed that the gallant Admiral is to proceed to take command on the South American station.

General Mina has arrived at Plymouth in a French frigate, which has excited some surprise. Sir Robert Wilson has been deprived of the order of the Red Eagle, by the King of Prussia.

A steam Packet is to run between Cork and Dublin. There are now, only three French vessels of war in the West Indies, and their names and descriptions are as follow: Vesta, 60 guns; Thetis, a frigate; and Concorde, a frigate.—Courier.

Touching the report, that there was to be an addition of 10,000 to the standing army, it is answered that nothing of the kind is in contemplation. Some recruits will be raised, to supply the place of the regiments under order for the West Indies.

London corn Exchange, Nov. 28.—We scarcely ever remember having seen our market in a more stagnant state. Fine samples of wheat with the greatest difficulty brought last Monday, at 4s 1/2 per bushel.

American Stocks.—Nothing doing in 5 or 6 per cent; 3 per cent 7 1/2; U. S. Bank Shares 22 1/2, with dividend from July 1.

The Funds, Nov. 28.—There has been very little business transacted in the funds; Consols for money opened this morning at 84 1/8—1 1/2; and are now 84 1/4 buyers; and for account 84 3/8 1/2.

MARRIED, Nov. 20.
His majesty issued a decree the 19th to the following effect: There shall be established a council of ministers in which shall be discussed all the affairs of interest. Each minister to make a report on the objects of his special department. The King will decide himself on the decisions.

The King has named his ministers as follows: Don Juan de Salazar, Secretary of State; Don Guirra de la Torre, Minister of Justice; Don San Juan, Minister of War; Don Marie Solara, Minister of Marine; and Don Juan Eyo, Minister of Finance.

From the New York Advocate.
LATE, FROM NASSAU, N. P.
By the schooner Ranger, Capt. Clements, arrived yesterday from Nassau, N. P. we have received a file of the Royal Gazette, to the 28th December. The papers contain accounts from Kingston, (Jamaica,) to the 16th December.

Several British vessels of war have been cruising on the north side of Cuba, and the coast of Cuba is quite tranquil, & free from pirates. Four vessels are cruising between Havana and Cape Mais.

The officers of the customs at Nassau, do not intend, according to the construction of the order in council of the 21st July last, to levy the duties on American vessels coming in ballast, merely for the purpose of taking salt.

The House of Assembly in Jamaica have repealed the Register Act, and refused to alter the Slave Law, thereby asserting their independence in the most marked and effectual manner. What His Majesty's Ministers may be disposed to do with the refractory Jamaica Legislature, it is impossible to determine. Perhaps a conciliatory measure will be adopted.

His Majesty's ship Isis, 50 guns, Capt. Ferris, having on board Vice Admiral Sir L. W. Halstead, C. B. Nav. Governor in Chief of the West Indies, arrived at Port Royal, Dec. 26th. The Isis also had on board James Henderson, Esq. (author of the History of the Brazils) Consul General for Santa Fe de Bogota; and the Tupper, Esq. Consul for Lagaira; Robert Sutherland, Esq. Consul for Caracas; Esq. for Carthage; Commissioners Col. Hamilton, and Col. P. Campbell.

NASSAU, Dec. 20.—The American schooner, master, from Philadelphia, bound to Havana, has been wrecked on the Bahama Banks, near the Berry Islands. On the 10th instant the schooner, together with other vessels has saved part of the cargo, which has arrived here. The master and crew left the wreck on the 12th, and proceeded in their boat for Havana.

A SENEAL AT ALGIERS.
Extract of a letter from an Officer of our Squadron in the Mediterranean, dated Gibraltar, November 27.

Mr. Henry, our Consul, has received a letter from Mr. Shaler, at Algiers, informing him of some disturbances there. It appears that some cause of dissension has arisen between the Algerines and Moors; and the Dey, in consequence, ordered all the latter, in the city, to be put to death. Now each of the Consuls employed two or three of these Moors as servants, and the prime minister was sent with a body of soldiers to take them away. Mr. Shaler resisted, and told the minister he would

protect his with his life. His Moors were sitting down at his feet, and he standing over them with his drawn sword; the minister begged him to desist, as the consequences might be fatal to him, (Mr. S.) and further stated that he would cast his head, if he returned without them; but Mr. S. was inflexible, and the Minister cleared out, went to the English Consul's, broke open the house, ransacked it even to the women's apartments, and took off the Moors with him. By the last accounts from Algiers, Shaler has still retained his Moors.

The report came out only this morning; possibly there may be nothing in it, but it is probably true, as it came from Mr. Henry."—N. Y. American.

NEW YORK.—The legislature of New York assembled on Tuesday last, Judge GOODELL was almost unanimously elected speaker of the house of representatives, having previously declared that he had no predilection for Mr. Crawford. The Governor sent a message the same day to both houses. He touches upon the subject of altering the mode of electing electors of President in that state, but does it in such an equivocal way as to render it doubtful if it would cast the election to be given to the Dey, or retained by the legislature.

Mr. WHEATON, however, gave notice on the first day of the session, that he would bring in a bill providing for the choice of electors of President and Vice President by the people of New York.

FRANKLIN GAZ.
From the National Intelligencer.
EIGHTEENTH CONGRESS.
FRIDAY, JAN. 9.
HOUSE OF REPRESENTATIVES.

Mr. TOLSON, from the Committee on Manufactures, reported a bill "to amend the several acts for imposing duties on imports," [The Tariff Bill.] The bill was referred to a committee of the whole House on the State of the Union, and 2000 copies ordered to be printed.

Mr. CAMPBELL, from the Committee on Private Land Claims, made unfavorable reports on the petition of Henry R. Teller and Carlos de Villemont; in the first of which the House concurred, and the second was laid on the table.

Mr. EDWARDS, of N. C. from the Committee of Revolutionary Pensions, made unfavorable reports on the petition of Joseph Bowzell, Jonathan Warrall, and Mathew N. Sanborn; which was laid on the table.

Mr. EDWARDS, from the same Committee, made an unfavorable report on the petition of Thomas H. Rogers.

Mr. ROSS, from the committee to whom the subject was referred, reported a bill for the relief of the assignees and legal representatives of John H. Platt; which was twice read, and committed.

Mr. HAMILTON, from the Committee on Military Affairs, made a report on the memorial of the Mayor and Aldermen of the city of New York, in relation to the Clinton, which, after some conversation, as to its reference, between Mr. HAMILTON and Mr. TAYLOR, of New York, was laid on the table.

HOUSE OF DELEGATES.
THURSDAY, JANUARY 8.
Mr. W. G. D. Worthington presented the fol-

lowing "memoria," relative to the Jew bill which was read.

To the Honorable the General Assembly of Maryland, the Memorial of the subscribers, citizens thereof.

RESPECTFULLY REPRESENTS, That a Memorial, of the class of the citizens of Maryland, long subjected to the pressure of political disqualifications, by the operation of a religious test in the Constitution of the State; and they approach your Honorable Body with this their prayer, that an act passed the 29th of January 1823, "to extend to all the citizens of Maryland the same civil rights and religious privileges that are enjoyed by the citizens of the United States," may be confirmed and the present session becoming thereby part of the Constitution.

Your Memorialists, feeling it incumbent on them at this stage of the proceeding, address themselves on the subject, to your honorable body, in the honest confidence, which the American is educated to entertain in his fellow citizens, and in the legislative guardians of his rights. It is not their wish to obtain from your honorable body, a grant of exclusive privilege; because, were such a privilege would be hostile, not only to the principles of our institutions, but to the express provisions of that charter which we have all alike, sworn to support; but it is equal rights which they petition; their voice is not raised in favor, but in opposition to exclusive privilege; they ask an equality of rights with their fellow citizens.

If the legislative body should grant to any labor, were it imposed as the penalty of law, civil delinquencies, for habits of social intemperance, or a disregard of the obligations of religion, they would blush to murmur, but it is, as they humbly apprehend, the retribution for a too honest perseverance in conscientious faith, unmindful of political disqualifications, of social inconvenience, and of individual contumaciousness; and this same penalty, thus constantly which is exerted in the cause of the Country, would entitle them to be honored as patriots, exposes them to proscription, when exercised in the service of the acknowledged God. They firmly flatter themselves, and have at length some reason to believe, that your enlightened Councils will suffer no longer, these strange anomalies to endure—that the period has arrived at last, when a correct relation to the Omnipotent benefactor, will be respected, and persecutions be abandoned to the Inquisitor and the Bigot. Are their doctrines immoral? They are the foundation of the general faith. Are they dangerous? It is no part of them to work conversions. Are they new? Ancient as the revelation of Almighty truth. Your Memorialists, with all humility, and with a confidence that is not to be shaken, as peculiarly exceptional in their tenets, as to have induced a solitary, but persevering departure, from the sublime system of our American political jurisprudence; why even at this moment, when the whole American pulse throbs with indignation, at the civil and religious proscriptions, renewed and asserted in the old world, the good people of Maryland alone, should find it necessary to expiate their sins for a moment, the disqualification of any class of their fellow citizens.

Your Memorialists beg leave to remind your Honorable Body, that the honors of office in our happy Republic, are not assumed, but conferred; not usurped by guilty ambition, but bestowed directly or indirectly, by popular confidence; that to disqualify any class of your citizens, is for the people to disqualify themselves; and that it is necessary, can it be otherwise, that the day, for the people to disqualify themselves on the score of opinion only, from consulting merit in the selection of their public servants?

Your Memorialists do not here propose, a voluminous discussion of the great principles involved in the question, which they desire to bring before you; because it is one, as they apprehend, at this day, almost universally understood, and the same which has agitated, like a tempest, the human mind, from its earliest existence; has armed the hands of men in wide and desolating wars, has stained nations and families with intestine crime; trampled the charities of life, and driven societies from their natural homes, to seek an asylum more hospitable, on the billows of the deep, or amid the recesses of the desert; a question which, as it mainly contributed to populate the American continent, was here first fully understood, and on the liberal and happy results of whose true nature, our own Maryland, though too long misled upon the subject, evinced at the last session of her legislature, and as your Memorialists trust, will again prove to the world on the present occasion, are deeply felt and thoroughly appreciated.

America, instructed in the school of adversity, in oppression, and war, and in the calamities of nations, has attained the haven of political happiness, by the guide of political wisdom. Moderate in her might, she has never sought to find in power, the foundation of new rights, but metes out to the weak the same measure with the strong. It was reserved for her to discover, that true policy consists in Justice, which, whilst it secures the confidence and devotion of her own subjects, and the reciprocity of the first object of America, has been the first to respect opinion and the human mind, that mysterious and sacred relation of sublunary Man to Celestial Wisdom; nor has thought to controul the measureless elasticity of that principle, which created for exclusive allegiance to the Omnipotent alone, is beyond the reach of temporal restraints.—America wisely relinquished it to the interests of the people, and she has made an instrument of religion; she has forever surrendered the spiritual from the temporal concerns of men, and convinced mankind that disqualifications and persecution are equal fruits of disunion and hate—toleration and equality of good will and peace on earth.

Your Memorialists humbly apprehend that a peculiar and most important crisis has occurred in the political world, and in the history of man; and if, in the eastern hemisphere, his struggles for civil and religious liberty, hitherto ineffectual, have been smothered in their birth, it is now particularly important that, successful throughout the west, no speck should endure upon the purity of that code, sublime in its nature, as in its origin, it is confessedly divine.

Citizens of Maryland, as Brethren of the same human family, for the honor of the State, for the great interests of humanity; your Memorialists humbly pray for your hands, that the Bill before you may be confirmed.

SOLOMON ETTING,
JEVI SOLOMON,
J. I. COHEN, Jr.

Dr. Robertson's Celebrated Stomachic Elixir of Health,
Price one dollar and fifty cents.

WHICH has proved by thousands, who have experienced its beneficial effects, to be the most valuable medicine ever offered to the public, for the cure of coughs, colds, consumption, the hooping cough, asthma, pain in the breast, cramp, and wind in the stomach, removing costiveness, sickness at the stomach, head-ache, indigestion, &c. &c. For the cure of the Dysentery or Bloody Stool, Malaria, or Biliousness, and other diseases of the bowels, and the Summer Complaint in Children, it has proved a certain remedy, and restored to perfect health from the greatest debility.

Persons afflicted with Pulmonary Complaints, or disorder of the Breast and Lungs, even in the most advanced state, will find immediate relief. Common Coughs and Colds, which are in general occasioned by obstructed perspiration, will be found to yield to its benign influence in a few hours. In Asthmatic or Consumptive Complaints, Hoarseness, Wheezings, Shortness of Breath, and the Hooping Cough, it will give immediate relief.
Dr. Robertson's Vegetable Nervous Cordial,
Or, Nature's Grand Restorative, Price \$1 50 cents.
Is confidently recommended, as the most efficacious medicine for the speedy relief and cure of all nervous complaints, attended with inward weakness, depression of the spirits, head-ache, tremor, faintness, hysterical fits, debility, seminal weakness, claps and various complaints resulting from general impurity of youth and dissipated habits, residence in warm climates, the immoderate use of tea, the unfruitful or excessive use of mercury, so often destructive of the human frame, diseases peculiar to females at a certain period of life, Fluor Albus, barrenness, &c. &c.

Under the denomination of nervous disorders, are included several diseases of the most dangerous kind, and are so various that a volume would hardly suffice to complete a description of them. It pervades, with its baleful influence, the whole nervous system, writhing the heart with inexpressible anguish, and exciting the most dreadful suggestions of horror and despair. To this demon have thousands fallen a sacrifice, in the direct transport of its rage. The most common symptoms will surely counteract the cause which commonly produce the same, Biliousness, Fever, theague and fever, Bilious Cholera, Pleurisy, Dysentery, Yellow and Bilious Vomiting, sick and foul Stomach, loss of appetite, Flatulence, Epileptic Fits, Hæmorrhoids, and Hysterical Complaints, Indigestion, Habitual Costiveness, Colds and Coughs, Asthma, Strangury, Gravel, Rheumatism and Gout. Also, an effectual cure for the scurvy, surfeit, scorbutic blotches, and for carbuncles, and all impurities, in the blood, by their happy effects, whether proceeding from constitutional ailment, or arising from indiscreet interference.

They are an infallible medicine for female complaints generally and especially for removing those obstructions which are the source of their ailments at certain periods: they possess the eminent property of gently counteracting the causes which commonly produce the same, costiveness, debility, or too great excitement. And whenever there is predisposition to receive disease from marsh effluvia, or from a too copious use of ardent spirits, or from a vitiated state of the bile, these pills will assuredly counteract it.

They are highly recommended to travellers by sea or land, and may be made use of with safety, without change of diet, and in situations where no exercise can be used. They will be found particularly valuable for preventing diseases incidental to hot climates; they deterge and cleanse viscid humours, open obstructions, and promote the secretion of good bile, operate as an easy cathartic, as a powerful diuretic, and as a diaphoretic.

DR. DYOTT'S here, under the strong conviction of the power of his pills to relieve the afflicted, when other medicines have failed, recommends the use of them, (at least once a fortnight) during the spring and summer months, in which he feels assured that those who attend to his advice will find the benefit they seek.
A bill of directions accompany each box of pills, small boxes sell 25 cents, large boxes 50 cts. Liberal allowance made to those who purchase to sell again.

It dissipates distressing pain from Gout or Rheumatism in a very short time, and is a safe and certain cure for Rheumatism and flying Rheumatic Pains; if the plaster is constantly applied to the affected part for six or eight months; by the application, the parts affected become invigorated, and a cure seldom fails to be completed; it is also successfully used for the cure of corns.
