Fincastle county, Virginia, January 27, 1774.  
**N**OTICE is hereby given to the gentlemen officers and soldiers, who claim land under his majesty's proclamation of the 7th of October 1763, having obtained warrants from his excellency, the right honourable the earl of Dunmore, directed to the surveyor of Fincastle county, and intend to locate their land on or near the Ohio, below the mouth of the great Kanhawa or new river. That several assistant surveyors will attend at the mouth of the New River on Thursday the 14th day of April next, to survey for such only as have or may obtain his lordship's warrant for that purpose. I would therefore request that the claimants, or their agents, will be very punctual in meeting at the time and place above mentioned, properly provided with chain carriers and other necessaries, to proceed on the business without delay. As several gentlemen acquainted with that part of the country, are of opinion, that to prevent insults from strolling parties of Indians, there ought to be at least 50 men on the river below the great Kanhawa, to attend the business, as the gentlemen present may judge most proper until it is done, or the season prevent them from surveying any more; should the gentlemen concerned be of the same opinion, they will doubtless furnish that or any less number they may believe necessary. It is hoped the officers, or their agents, who may have land surveyed, particularly such as do not reside in the colony, will be careful to send the surveyors fees, when the certificates are demanded.

WILLIAM PRESTON, surveyor of Fincastle.

**P**ERFORMED in the most safe and approved method, practised in Great-Britain and Ireland, by Dr. Robert Lemmon, lately arrived from the city of Dublin; who after several years practice in physic in general, and inoculation, in particular, in Europe and America; as well as repeated opportunities of consulting the most able practitioners, proposes to inoculate at the house of Mrs. Ford near Leonard-town, Saint Mary's county; where he has now carried a set through the small pox by inoculation, and where suitable attendance is provided, at the trifling expence of two moidores, including board and attendance. Encouraged by his former as well as his present success; he doubts not but his patients in general, as usual, shall pass through so much dreaded a disorder, with little or no more confinement to bed than in health, without any prejudice to the most delicate constitution, or leaving any virulent remains, which too frequently happens in the hand of the injudicious. As the doctor is not determined to remain long in this country, he recommends it to all who desire to pass over the disease with safety, speedily to apply to him at Mrs. Ford's, where they shall be treated with the utmost integrity, by their humble servant.  
ROBERT LEMMON.
