least expensive, families, consisting of twenty

less than the value of the toll paid for two  
years at watermills, exclusive of the trouble  
of sending to the water or windmill. This  
invention may be used by hand, by horse-  
power, by wind or water, according to the  
purposes for which the mill is to be used. A  
model may be seen at Pinkney and Munroe's

be had, to make and use the same under the
