HISTORY OF PRINTING.

THIS work, by the senior Mr. Thomas, of Worcester, Massachusetts, is now completed at the press. As no opportunity was given to those gentlemen who wished to be supplied with these volumes to engage them by subscription; and as many, particularly printers & booksellers, in various parts of the continent, have expressed a desire to possess copies, this is to request those who are inclined to become purchasers, to send their names to Frederick and Samuel Green, in Annapolis, by the 30th day of September next ensuing, when a return will be made to the publisher of the work in Boston, and the number of copies which may, by that time be engaged, will be immediately forwarded to said Greens.

Among many curious and interesting articles relative to printing, &c. these volumes contain an account of ancient manuscript books, and the method of bookmaking before the discovery of printing—of illuminations by the scribes—of ancient and modern engraving and paper making—of the practice of printing in China—of the discovery and dispersion of the art in Europe, with a brief account of ancient printers, and a list of the first who practised the art in Europe, Asia, Africa and America—ancient Colophons used by printers—the introduction of printing into the various parts of the United States, and the colonies of foreign nations in America—a biographical sketch of all the printers in the English colonies from the first settlement of each colony to the period of the revolution—memoirs of prosecutions for libels—an account of all the newspapers that were published before the revolution; and a list of all that are now printed in the United States; with a calculation of the number circulated annually—an account of paper mills and the quantity of paper supposed to be manufactured yearly—new invented printing presses, with a description of one called the patent circular press, calculated to carry six or more forms, and to be worked by water or by means of a horse, of which a successful experiment has lately been made from the model of the inventors in Boston. In these volumes are interspersed anecdotes of printers, &c. and many particulars not before published relating to the history of the country, and others which aided in bringing forward the revolution. To which is added an account of all the booksellers in the colonies, now the United States, from the first settlement of the country to the year 1775.

The work is in two volumes 8vo. containing 1060 pages, well printed on vellum paper, and has five plates, one of which is a fac simile of the first article known to be printed in Europe by the discoverer of the Art of Printing; two are fac similes of the printing types first used in England, another represents cylindrical printing presses, accompanied by a description of them; the fifth is an Indian Gazette. The price of the two volumes in boards, is six dollars; or six dollars seventy-five cents, handsomely bound. Calf, gilt, seven dollars fifty cents.

As a small edition only of this work is published, no more copies can be forwarded than may be actually engaged by the time above mentioned.

Treasury Department;

May 23d, 1810.

WHEREAS in conformity with the provisions made by law for the reimbursement of the Exchanged Six Per Cent. Stock, created by the second section of the act, entitled, "An act, supplementary to the act, entitled, an act making provision for the redemption of the whole of the public debt of the United States," passed on the 11th day of February, 1807, it has been determined by the commissioners of the sinking fund, that the residue of the principal of said stock should be reimbursed on the first day of January next; PUBLIC NOTICE is therefore given to the proprietors of the certificates of Exchanged Six Per Cent. Stock, created by the act aforesaid, that the principal of the whole amount of said stock, not heretofore reimbursed, will, on surrender of the certificates, be paid on the first day of January, 1811, to the respective stockholders, or their legal representatives, or attorneys duly constituted, either at the treasury or at the loan office where the stock thus to be reimbursed, may then stand credited to the proprietors thereof.

It is farther made known for the information of the parties concerned, that no transfers of certificates of Exchanged Six Per Cent. Stock from the books of the treasury, or of any commissioner of loans, will be allowed after the first day of December next; and that the interest of the whole amount of said stock will cease and determine on the day preceding the day hereby fixed for the reimbursement thereof.

ALBERT GALLATIN, Secretary of the Treasury. May 23. 1am: 8t.
