MR. PRINTER,

It is suspected by many, and public...
asserted by no few, that if some of the judg...
of the late election had acted properly, a...
in strict conformity with their oath of qu...
lification, instead of the democrats havi...
it in their power to re-elect the present ex...
cutive, there would have been a respectab...
federal majority in the house of delegates.

In Cecil county alone, it has been state...
that more illegal votes were received, ro...
withstanding objections were made to the...
at the moment they were offered, than th...
democratic majority in that county amoun...
to. It is likewise declared, that similar fo...
play was practised in Prince-George's ...
though not to the same extent.

How far these statements are co...
rect the writer of this will not pretend t...
say, and he notices them at this time wit...
the hope that federalists residing in counti...
where judges stand accused of corruptio...
and especially in the two counties mention...
ed, will make it their business to collect a...
information on the subject which can b...

St. Thomas, Sept. 16.

The French schooner Eugene ar...
...ived at St. Thomas Sept. 13, from ...
Laguira. Laguira and Carracas must soon be in possession of the Patriots. All confidence appears to be destroyed among the traders, and the people generally appear dissatisfied with the situation of things. It was reported at Laguira that Morillo would be soon invested with his former abitrary power, and that martial law would soon be declared in Laguira.

From a respectable gentleman, passenger in the Eugene, from Laguira, we learn that on the 27th ult. the brig Palafox, 27 days from Cadiz, arrived at Laguira, bringing Cadiz and Madrid papers up to the 31st July. The Cortes had met and resolved to send our two Frigates, two Brigs and three Schooners of War, with 6000 muskets, 6000 suits of Cloths, Provisions, &c. but no Troops—orders have also been given to the Governor of Havana and Vera Cruz to furnish the province of Venezuela with 100,000 dollars per month.

A Spanish Flechera, commanded by Guerere, lately fell in with an Independent Gun Boat, commanded by Gutieres, and after a sanguinary engagement of 36 minutes, (in which both commanders were killed;) decided in favour of the Royalists, the Gun Boat being sunk.

The French schr. Eugene which arrived at this port on the 13th inst. was boarded on the morning of the 10th, off this island, by a piratical schr. under Spanish colours, and treated in a disgraceful manner.—The first Lieut. (who is an American named Bell, and to appearance a great ruffian,) came on board the Eugene, and after using the most insolent language to the Captain ordered him to put on board the privateer with a request that he should be put in irons—the Capt. remonstrated against these proceedings, but was sent on board the privateer with the assurance that if he would not be silent he would have his brains blown out. A prizemaster & crew were then sent on board armed with pistols, cutlasses, &c. and the Eugene taken possession of—both schrs. then stood towards St. Croix and remained off there till the next morning, when they bore and stood for Crab Island—at about 12, A. M. the vessels hove to, when a small Pilot Boat schr. came down windward and exchanged signals with the privateer—the three schs. then stood in and came to anchor in a small bay at the West End of Crab Island, where they remained till sun set, while in the mean time boats were passing and repassing between the Privateer and Pilot boat. The prize crew informed that the latter was a tender to the former, and that a part owner of the Privateer was on board, and that they were waiting for orders where to land 272 slaves that they had taken out of a French ship which was bound for Guadaloupe—they further stated that they had taken from the ship her lower sails in order that she might be forced to go to leeward.—Just before dark the Captain of the Eugene was released and sent to his vessel, when the prizemaster and his crew left her—not having found any plunder, the vessel being only in ballast. The privateer then got under weigh and stood towards Porto Rico while the other stood to windward. The privateer is apparently about 200 tons burthen, carries two topsails, and mounts 6 guns, manned with Americans and Englishmen, about 80 in number—the captain is said to be an American, named Shannon—the name of the person sent as prizemaster is Hazel, an American, and who has sailed as mate of an American vessel out of Charleston, S. C.

The prize crew of the Eugene is said to have reported that the privateer was owned by Mr. Northrop of St. Bartholomews, Mr. Slaymaker of Balt. and capt. Shannon, her commander.

One of the British Government vessels on this station has sailed in pursuit of the Privateer, above mentioned.

From the Montgomery Republican, of Oct. 18.

MURDER.

Among the frequent accounts of murder, which meets our eye, we do not recollect of one in which a more black hearted and unprovoked malignity was displayed, than in the following:

On Tuesday morning of last week, just at day break, a young man of apparently about 18 or 20 years of age, presented himself at the house of a Mr. Case, about five miles northeast of this village, in a very retired place, on the pine plains, with a new born infant in his arms, and requested Mrs. Case (her husband being absent) to take care of the child for one week, for which he offered her $5; this she refused,—He then offered five dollars to keep it for that day only. Mrs. Case still refused, but recommended him to a Mr. Lewis's, but a short distance from there. At Mrs. Case's refusal to take the child, he appeared considerably disconcerted, and said he did not like to take it to Mr. Lewis's—that he did not like to go past any more houses, as it was now getting light: adding, "It will not do to be seen with the child by daylight." Mrs. Case then advised him to go to a Mrs. Kimball, who lived about half a mile southwest of there through the plains, and informed him that Mrs. Kimball had mentioned to her, a few days before, that she had more than sufficient milk for her own child.—He then went out, and mounted a horse which he had left near the door, and rode off in the direction of Mrs. Kimball's.

During the day, Mrs. Case becoming anxious respecting the fate of the child, from what the man had said, went to Mr. Lewis's and Mrs. Kimball's but he had not been there. —She immediately informed the neighbours living on the opposite side of the woods, and described the man and the horse he rode,—He was easily recognized to be a person who had been seen coming out of the woods about an hour after sunrise, into a land running into the back part of the farm of Danl. M'Vean. He enquired of a son of Mr. M'Vean for the main road leading to this village. He had no child with him. He said he had been to Kingsborough that night, and got lost in the plains. He came on in the direction of the village, but was traced only a short distance on the way.

We cannot but express our astonishment and regret, that the people in that neighbourhood should appear so indifferent about the investigation of this business. It was not until Wednesday afternoon that information was given to the proper authorities in this village.—Witnesses were immediately sent for, who appeared on Thursday.——On Friday, a respectable number of the citizens of this village, with a coroner, went out to search for the body of the child. After considerable search, it was discovered lying naked on the ground, under the boughs of a fallen tree, about a quarter of a mile southeast from Kimball's. The temples had each received a severe contusion, and its throat was cut! The body was horribly mangled, probably by vermin. One arm, its nose, and ears, were entirely gone, its bowels laid bare, and its chin and the back part of the head, were badly eaten. The child was a female. A coroner's jury was called, who returned a verdict of "Wilful Murder by some person unknown." A small bundle of clothes, the apparel of a grown female, with the exception of a child's shirt, were found concealed under a log, about four rods from where the body of the child was found.

Notwithstanding every possible exertion has been made to detect the mother of the child, as well as the murderer, not the least trace of either has yet been discovered.
