

NOTICE.

The Managers of the *Female Orphan Asylum of Annapolis*, propose holding their ANNUAL FAIR, for the support of the Institution, in January. Ladies wishing to assist in preparing articles to be disposed of, can be supplied with materials by application to Mrs. J. Gassner. The Managers deem it unnecessary to make any appeal to the charitable feelings of the ladies, who will no doubt continue that aid which they have so generously given on former occasions. Can there be a more acceptable deed of mercy than to rescue helpless and destitute Female Orphans from want and vice, and place them in a situation where they will be taught to earn a comfortable support, and become respectable members of society.

NOTICE.

THE President & Directors of the ANNA POLIS TOLLECO INSPECTION COMPANY request the Stockholders thereof to pay to Adam Miller, on the 6th day of December next, an instalment of Five Dollars for each share of stock subscribed, and on the 13th of the same month Three Dollars, the balance due on said stock, on payment of the last sum, the secretary will deliver the certificates of stock.

A. RANDALL, Sec'y.

NOTICE.

READS PATENT.

IN THE ART OF BUILDING CHIMNEYS, and altering those already built, in such manner as to prevent them from smoking. From the time that chimneys were first introduced, the building them has been but a series of experiments. The best workmen have only succeeded, when accidentally approximating the principles, now first systematized and offered to the public. That this subject should have been involved in mystery till the present time, can only be attributed to the imperfect state of Chemical Science until within the last few years. The progress recently made in that science has enabled the subscriber to reduce the art of building chimneys to a system, invariably producing the desired result with respect to smoke, and at the same time making a saving of fuel.

Having secured the exclusive privilege of using and vending said improvement, for fourteen years from the third day of April 1819, the subscriber offers the same for sale on the following terms. The right for a city or county, \$50. When two or more counties are purchased by one person \$40 each. Ten or more counties at one sale \$30 each. For a Town, Township, Borough or Village, \$20. For a single house, \$3. Any person wishing to purchase may transmit per mail the sum required and a deed shall be immediately returned containing all necessary instructions to enable any person to construct chimneys. Every chimney which shall be built under the authority of the subscriber to this patent is hereby warranted and approved. All letters to the patentee must be post paid. The publisher of a paper at the Capital of each state, who shall first publish this advertisement and Certificate, and continue the same for one year, will entitle himself to the right for each capital city or county in which the seat of Government is located. Every publisher of a paper in the United States, who will give this advertisement, in three insertions, and forward one of the papers, shall receive the right for one house.

DICKINSON COLLEGE.

CARLETON, PENNSYLVANIA. A new Faculty having been recently organized in this institution, the public are informed, that the extended course of instruction, and the improved system of teaching, which have been approved and adopted by the Board of Trustees, is now in full operation.

OFFICERS.

Rev. Samuel B. Hoar, A. M. President. Rev. Amos G. Felt, D. D. Professor of Mathematics. Charles Decker Cleveland, A. M. Professor of Latin. Homer J. Rogers, A. M. Professor of Chemistry and Natural Philosophy.

COURSE OF STUDY.

FRESHMAN CLASS.—Sallust, (Anthony's ed.) Ovid, (Gould's ed.) Horace, (Gould's ed.) Xenophon's Anabasis, (Prof. Cleveland's ed.) Mythology, (Montz) Arithmetic, Algebra, Euclid's Elements, (6 books) Ancient and Modern Geography and use of the Globes Latin and Greek translations.

SOPHOMORE CLASS.—Virgil's Georgics & Livy, (Folom's ed.) Greek History, vol. I. Greek and Roman Antiquities; Euclid, (Smith's) Algebra; Geometry, Plane Trigonometry; Menstruation; Logarithms; Zoology; Botany; History and Greek and Latin translations and composition.

JUNIOR CLASS.—Cicero's Majora, vol. 2; Tacitus; Quintilian, Junius, (Levenet's ed.) Logic; Rhetoric; History and Chronology; spherics; Navigation; Conic Sections; Nat. Philosophy; Astronomy; Fluxions; Greek and Latin compositions.

SENIOR CLASS.—Rhetoric; Philosophy; Evidence of Christianity; Cicero de Officiis and de Naturis Deorum; and the Orationes Longinianae; Plotinus's Enchiridion; Aristotle's Metaphysics; Lectures on Philosophy; Astronomy; Sappho's Political Economy; Division Mathematics; Mineralogy; Geology.

Public worship is held in the College chapel at 9 o'clock on Sabbath morning, and a Biblical Recitation, conducted by the President, at 4 o'clock in the afternoon of that day.

There is an examination of all the classes at the present session, when a circular letter is sent to the parent or guardian of each student, stating general character and standing. If a student be found incapable of proceeding in his class with advantage, he may be transferred to the next inferior class; but may be restored to his former rank, if he make satisfactory proficiency in his application.

Candidates for admission into the Freshman class, must be able to pass a critical examination in the Greek and Latin and English languages, in Cicero's Commentaries, Cicero's Orationes against Catiline, Vergil's Aeneid, in Latin; Dialectic's Colloquia Graeca Monro, and the Gospel of John, in Greek; and the fundamental rules of Logic and Mathematics.

EXPENSES.

Boarding, 42 weeks at \$1.25, \$52.50 College dues, including tuition, room rent, use of library, wood &c. \$5.00 Washing and lights, 10.00

The price of board varies from \$1 to \$2 per week, according to the student whether to board with the college steward, or at a private house. With a common, \$125 will cover the necessary expenses of a student for the year, exclusive of books and clothes.

When a student is admitted into the college, he is charged five dollars as an entrance fee. The college bills for each session must be paid within four weeks after its commencement.

Students whose parents or guardians do not live in Annapolis, and who are not permitted to live in private houses in the town, such students, however, as will do those in the college building, are subject to the daily regulation of the Trustees and Tutor.

The government of the college is entrusted to the principal. The anxious endeavours of the Faculty will be directed to excite in the students a high emulation for intellectual and moral excellence, by exacting rigid accuracy in their studies, enforcing habits of industry and civility to their studies, and by exercising a vigilant care to prevent every practice that may be injurious to the nature or demoralizing in its tendency.

The situation of the college is in a most beautiful and healthy country, fertile and pleasant. A new building is now to be erected, capable of accommodating a hundred students.

There are every year a number of weeks each. The first begins upon the day of commencement, which is on the fourth Wednesday of September; the nine upon the first Wednesday of April; consequently the winter term ends on the first Wednesday of the month of February five weeks after the fourth Wednesday of October; the summer term five weeks after the first Wednesday of April.

Anne-Arundel county, Md.

ON application, by petition in writing, of Charles S. Ridgely, in the name of Anne-Arundel county county, to me, the subscriber, Chief Judge of the third judicial district of the State of Maryland, praying the relief of the act of assenting to the petition of the relief of sundry insolvent debtors, passed at November session 1825, and the several supplements thereto, in relation to the property, and a list of his creditors, (on which, so far as he could ascertain them,) being annexed to his said petition, and being satisfied that the said Charles S. Ridgely had resided in the State of Maryland for two years next preceding the date of his said petition, and being also satisfied that the said Charles S. Ridgely is in actual confinement for debt, and I having appointed George Cooke trustee for the benefit of the creditors of the said Charles S. Ridgely, who has been given bond in due form for the faithful performance of his trust, and that he give notice to his creditors, by causing a copy of this order to be inserted in one of the newspapers printed in the city of Annapolis, once a week for the term of three months, an act for the relief of Anne-Arundel county court, to be held in the city of Annapolis, on the third Monday of April next, to show cause, if any they have, why the said Charles S. Ridgely should not have the benefit of the said act and supplements, as prayed.

DR. HULL'S TRUSS.

FOR the relief and cure of Hernia or Rupture. This Surgical Instrument is now so well known to the Medical profession, and so extensively used by unfortunate sufferers labouring under the disease of Hernia, that a particular account of its mechanical construction, of its surgical effects is thought unnecessary. The subjoined remarks from Physicians and Surgeons of high respectability, in our country, state the use and application of this Truss.

James Thatcher, M. D. author of the Medical Practice, in his second edition, under the subject of Hernia, remarks "Dr. Hull's exclusively entitled to the credit of first applying the true Surgical principle for the radical cure of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the muscular fibres around the ring of aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may be the degree of pressure applied."

Samuel Ackerly, M. D. in his excellent edition of "Homer's Medical Dictionary," under the head of "Truss," after enumerating the evils resulting from the use of the defective trusses formerly worn, says, "This evil was not fully remedied until Dr. Amos G. Hull, of New York, turned his attention to the subject, and has rendered it certain that all recent ruptures and those of children, may be permanently cured, and those of old people and of long standing, may, in many cases, also be remedied. The pad of Dr. Hull's Truss is concave and not convex; and hence the raised circular margin, by proper adaptation, presses upon the sides of the hernial opening, and tends to close the aperture and cure the hernia."

M. L. Knapp, M. D. Physician and Surgeon to the Baltimore General Dispensary, in a communication to Doctor Hull, says: "I have applied your trusses in several hundred cases during the last three years. A great many upon whom I have applied your trusses, have been radically cured; and some of these were cases of long standing, where all other trusses had failed. I send you a note of thanks from Mrs. P., a citizen of great respectability, who was cured of a bad scrotal rupture, of thirty-five years standing, by wearing one of your trusses for two years. He had worn other trusses twenty nine years. His son, also, aged 10 years, ruptured from his infancy, was cured under my care in less than two years. A case of scrotal rupture, of twenty years standing, in a labouring man forty years old, was cured under my notice by one of your trusses in six months. A case of groin rupture, from lifting, in a labouring man of thirty years old, on whom I applied one of your trusses, the day after the injury, was cured in three months. Experience alone, can make known to the Surgeon the full powers and excellence of these instruments. Your trusses are exclusively preferred by the Professors in both of the Medical Schools in this city, and the Faculty in general.

Baltimore, January, 1830.

Valentine Mott, M. D. Professor of Surgery, says: "The great and signal benefits which are produced by this Truss, result from its strict subservience to, and accordance with Scientific and Surgical principles."

"The operation and effect of this Truss is directly the reverse of all Trusses heretofore in use; which being convex, tended to enlarge the dimensions of the rupture opening." "I am of opinion that the union of Surgical design & mechanical structure in this Instrument render it what has long been the desideratum of Practical Surgeons in Europe and America."

Professor Mott also in lecturing upon Hernia, recommends Dr. Hull's Truss to the exclusion of all others.
