

COLLEGE DEPARTMENT

IN addition to the public may comprehend the nature of the instruction and the plan of tuition, as follows:—The faculty, which from the application made to the trustees, do not appear to be fully understood, it has been considered proper to make the following brief statement of the information of parents and guardians, who are young men to educate, and of such as are directing their own studies.

1. The College will commence on Monday, 25th January, which time, or as soon thereafter as possible, it is expected that persons desirous of being entered as students, will have their names registered.

2. The College course occupies four years—24th year is divided into three terms: the first commencing on the 2d Monday of September; the second on the 24th day of January; the third on the Wednesday after Easter day. Students entering after the commencement of a term, are chargeable with the whole term.

3. The course of education embraced in the plan, and for which the most ample provision has been made, in the appointment of professors and tutors, consists of the Latin, Greek, English, French, German, Spanish and Italian Languages, and Literature; Mathematics, Natural Philosophy, Chemistry, Mineralogy and Geology; Botany and other branches of Natural History; Ancient and Modern History; Political Economy, Rhetoric and Belles-Lettres; Moral and Intellectual Philosophy—for each of which departments separate and distinct professors have been appointed.

4. The plan of instruction has been so laid down, that the whole time of the student, during college hours, will be employed in study and attendance upon his classes—a daily record will be kept of his attendance in class, and general conduct throughout the term.

5. Previous to the admission of a student there will be a general examination of the Faculty of all the classes in the college, in the spring of the year. These examinations will be public, so far as to admit not only the trustees of the University, parents and guardians, but all gentlemen of liberal education who may choose to be present.

6. When the student has gone through the whole course of study as laid down by the faculty, and upon examination is found properly qualified for the degree of Bachelor of the University, a diploma, certifying his proficiency will be presented to him.

7. Students who do not intend to offer themselves for the honors of the university, will be permitted to enter any of the classes, with the privilege of attending such parts of the regulations of the class they enter, as may suit their views and inclinations, and so attend the lectures of the different professors—such students however, will be subject to the same fee for instruction, as the other students. To these students a certificate, under the seal of the university, will be given, testifying to the branches of study they have successfully pursued during the session.

8. The professor will commence their courses of instruction as soon as the different classes are formed.

9. The charges of the college for instruction, including attendance upon all the professors, are one hundred dollars per annum.

10. Gentlemen will qualify for teaching the French, Spanish, German and Italian languages, as arranged by the faculty to give instruction in these branches, at the additional annual charge of twenty dollars each.

11. It is on every account desirable that students should enter at the commencement of the session—but they may enter at any time.

Those who desire further information regard to this department of the University, may obtain by reference to any of the trustees of the University, or to the professors composing the college faculty.

Students applying for admission will make application to the Rev'd Dr. Williams, President and Professor of Ancient Languages, or to Mr. Duval, Secretary and Professor of Chemistry.
