ST. JOHN'S COLLEGE,
ANNAPOLIS.

Rev. Hector Humphreys, A. M. Principal,
and Professor of Moral Science.

Edward Sparks, M. D.
Professor of Ancient Languages.

Thomas E. Sudler, A. M.
Professor of Mathematicks and Civil Engineering.

Rev. John Decker, A. M.
Professor of Grammar.

Charles T. Flusser,
Professor of Modern Languages.

Present number of Students, 63.

COURSE OF STUDIES, EXPENSES, &c.

The following information, by order of the Board, will show the present state and prospects of the Institution.

The Professor of Grammar, will take charge of the English Department, and will have its classes under his inspection, at the College, during the hours prescribed by the Board. Besides the ordinary course of instruction in this department, Students will be fitted for admission into College, and they may take standing as Freshmen, whenever they shall sustain an examination on the following

PREPARATORY STUDIES, VIZ.

English Grammar; Geography; Arithmetick; Latin Grammar; Corderius; Æsop's Fables; Erasmus; Cæsar's Commentaries, or Sallust; Eclogues, and first six books of the Æneid of Virgil; Mair's Introduction, or Lyon Tutor; Greek Grammar; Greek Delectus; and Jacob's Greek Reader; and Prosody.

Pupils not intending to enter College, will also be received into the English Department, and will pursue such branches of Education, embraced in the course, as may suit their particular views. A course of Lectures on Education in Primary Schools, will be delivered, wherever a class of young men shall have been formed, who may wish to qualify themselves to become Teachers.

The course of studies for the classes in College, have been arranged as follows, viz,

FRESHMAN CLASS.

1st Term. Folsom's Livy; Græca Majora—(Xenophon, Herodotus, Thucydides.); Greek and Roman Antiquities, History, and Mythology.

2d Term. Horace, (Odes.)—Virgil's Georgicks. Græca Majora, (Lysias, Demosthenes, Isocrates.) Algebra, with Arithmetic revised.

3d Term. Horace, (Satires and Epistles.) Græca Majora, (Xenophon's Memorabili, Plato.) Algebra completed. Translations, Themes, and Declamations during the year.

SOPHOMORE CLASS.

1st Term. Juvenal, (Leverett's.) Homer's Iliad, (Robinson's.) Plane Geometry, (Legendre's.)

2d Term. Terence's Comedies, or Quintilian. Græca Majora, (Odyssey & Hesiod.) Solid Geometry, (Legendre's.)

3d Term. Rhetorick and Belles Lettres.—(Blair. Græca Majora.—Tragedians.) Logarithms: Plane and Spherical Trigonometry. Exercises in original Composition, and Elocution, during the year.

JUNIOR CLASS.

1st Term Græca Majora. (Minor Poets.) Applications of Trigonometry to the Mensuration of Heights and Distances, Navigation, Surveying, Levelling, &c. Moral Philosophy.

2d Term. Tacitus—(History.) Conick Sections. Chemistry, with Lectures.

3d Term. Tacitus—(Manners of the Germans and life of Agricola.) Natural Philosophy, with Lectures. Elements of Criticism, with Lectures on the Fine Arts. Debates, Compositions, and Declamations during the year

SENIOR CLASS.

1st Term. Natural Philosophy, finished, with Lectures. Horace' De Arte Poetica, with Lectures on Taste, and a Revision of Latin. Logick, and philosophy of the Mind

2d Term. Astronomy—with Lectures. Political Economy—with Lectures. Evidences of Christianity, & Natural Theology.

3d Term. Laws of Nations; Constitution, and Civil and Political History of the United States. Butler's Analogy. Civil Engineering—(construction, of Machines, Bridges, Roads, Canals, &c.) Mineralogy and Geology. Declamations of Original Pieces, Extemporaneous Debates, and exercises in Criticism, during the year.

The study of the Modern Languages, shall be so arranged, as not materially to interfere with the College course.

The officers of instruction, will endeavour to make the course of study as thorough as possible; and in no case will a Scholar be allowed to pass, to an advanced standing, till he shall have sustained all the previous examinations, to the satisfaction of the Faculty.

In the Departments of Chemistry and Natural Philosophy, instruction will be given, and Lectures will be delivered, as heretofore, by the Principal, and the other Professors, until those Chairs shall be permanently supplied.—Particular attention will be given to exercises in Rhetorick and Oratory; and one forenoon of each week, will be spent, drilling the Students, in a thorough course of Reading and Speaking. These exercises will be conducted by the Principal; and the Members of the Senior Class, will always be required to declaim pieces of their own composition. The Classification, which takes place at each general Examination, subjects those who are deficient, to the necessity of remaining in a lower grade; while, on the other hand, the hope of reaching a high standing, in a shorter than ordinary period, is held out to all who are ambitious to advance at a more rapid rate, than the usual average of a Class. A permanent record of the relative standing of the Members in each Class, is kept by the Faculty, and serves as a guide, in awarding the honors of the College. The principal test of the Student's proficiency, will be found in the Lecture Room, where he will undergo an Examination of one hour's duration, for each Lesson; and those Members of the higher Classes, who are permitted, under the discretion of the Principal, to have their rooms out of College, will be visited, by the Principal, and the Professors during the hours appointed, for their encouragement and aid in the prosecution of their studies. They must not be absent themselves from their rooms, during the hours of study, especially in the evening, except by permission from one of the Faculty; and a close attention will be paid to the habits of the Students, that good morals may be cultivated and preserved.

PUBLIC WORSHIP.

The Students will be required to attend public worship, in this City, both morning and afternoon; and Monitors for the several Churches, will make returns of all absentees, who will give an account of their absence to the Principal. The Roll will be called, also, before the daily devotions at the College. No Student will, at any time, leave the City, without express leave obtained from the Principal. That the public may rest assured of the prevalence of no particular sectarian influence at this College, the following clause is extracted from the Charter; with the letter and spirit of which, the Officers of instruction, will invariably comply. The second section of the thirty seventh chapter of the laws of Maryland, required, that "the said College shall be founded and maintained forever, upon a most liberal plan, for the benefit of youth of every religious denomination, who shall be freely admitted to equal privileges and advantages of education, and to all the literary honours of the College, according to their merit, without requiring or enforcing any religious or civil test, or urging their attendance upon any particular religious worship or service, other than what they have been educated in, or have the consent and approbation of their parents or guardians to attend."

DISCIPLINE, &c.

A record of all deficiencies at College exercises will be kept, and sent to each parent or guardian, at the close of every term. And, whenever a Student shall be found failing to secure the end for which he will have been placed at the College, he may be sent home privately, except in cases of a misdemeanour, or offence against the laws, when he shall be punished by the ordinary penalties. By the adoption of a kind and parental demeanour, on the part of the Officers, it is hoped that such extreme cases will be avoided; and from the various advantages of location for the College, it is believed, that few places promise this immunity, in a higher degree, than the City of Annapolis. Its population is not large—its situation is central—its healthfulness, is surpassed by that of no place in the Southern States—access to the College, from all parts of the Union, by which parents would wish to hold communication with their sons, is most frequent and easy, and the expenses of living are comparatively small. Annapolis is the Seat of the Government of the State; and the time of the Annual Commencements, which happens during the Session of the Legislature, affords a high incentive to young men, to distinguish themselves, by their literary performances.

ADMISSION.

Candidates for any standing in the College, will be required to bring from their teachers, testimonials of good moral character; and, in no case, will a Student be received from any other College, to the same standing in this, unless he shall bring, from the President, or other authority of such College, a certificate of his honorable dimission

EXPENSES, &c.

It has not been thought advisible to establish any commons. Board, including bedding, washing, and room rent, may be had, however, in private families in the city, for 120 dollars per annum. The charges in the regular College bills, will be, as follows: and are payable quarterly, and in advance—

English Department, - -	$24 per annum
Preparatory Classes, - -	$40 do. do.
Freshman and Sophomore Classes, - -	$40 do. do.
Senior and Junior Classes, -	$50 do. do.

An abatement of the College bills may be made, to necessitous Students; and provision is secured for the gratuitous instruction of ten Students, who may bring the proper testimonals for that purpose.

COMMENCEMENTS.

The Annual Commencements, take place in February, when all Degrees are to be conferred. The Faculty will assign to the Candidates for the Baccalaureate, and for the Master's Degree, the parts to be performed; and if any one should refuse the part assigned, or neglect to attend, his Degree may be withheld.

VACATIONS.

The regular Vacations, shall be from the last Wednesday in July, till the first Monday in September—from the 23d of December, till the first Monday in January—from Good Friday, till the Monday week following; and the Fourth of July.

The alterations, in the course of studies, which have taken place, on the late appointment of a Principal, seemed to be required, by the general advancement of Education; and it is hoped, that the advantages for a substantial and complete acquaintance with the several branches of knowledge, which the Institution now holds out to the public, will meet the wants and wishes of its numerous friends, and especially of the sons of Maryland.

St. John's College, was founded and endowed, in the year 1784, under the auspices of men venerable for their patriotism and learning, and has the honour of having educated for the State, some of her most distinguished public men. The Board of Visitors and Governors, in their efforts to discharge the duties of the trust devolving upon them, look for the cordial approbation and co-operation of the *alumni* of their *alma mater*, and for such a portion of the public favour, as may seem due to an ancient and cherished Seminary of the State, that her existance and usefulness, may be perpetual.

By order of the Board,
A. C. MAGRUDER, President.

March 3.

DR. HULL'S TRUSS.

FOR the relief and cure of Hernia or Rupture. This Surgical instrument is now so well known to the Medical profession, and so extensively used by unfortunate sufferers labouring under the disease of Hernia, that a particular account of its mechanical construction of its surgical effects is thought unnecessary.—The subjoined remarks from Physicians and Surgeons of high respectability in our country, are the results of much practical experience in the use and application of this truss.

James Thacher, M. D. author of the Modern Practice, in his second edition, under the subject of Hernia, remarks "Dr. Hull is exclusively entitled to the credit of first adapting the true Surgical principle for the radical cure of Hernia. He happily conceived the idea that one end of the Truss should be so constructed as simply to support the muscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may be the degree of pressure applied."

Samuel Ackerly, M. D. in his excellent edition of Hooper's Medical Dictionary,' under the head of 'Truss,' after enumerating the evils resulting from the use of the defective trusses formerly worn, says, 'This evil was not fully remedied until Dr. Amos G. Hull, of New York, turned his attention to the subject, and by his improvement in the construction of trusses, has rendered it certain that all recent ruptures and those of children, may be permanently cured, and those of old people and of long standing, may, in many cases, also be remedied. The pad of Dr. Hull's Truss is concave and not convex; and hence the raised circular margin, by proper adaptation, presses upon the sides of the hernial opening, and tends to close the aperture and cure the hernia.'

M. L. Knapp, M. D. late Physician and Surgeon to the Baltimore General Dispensary, in a communication to Doctor Hull, says: 'I have applied your trusses in several hundred cases during the last three years. A great many upon whom I have applied your trusses, have been radically cured; and some of these were cases of long standing, where all other trusses had failed. I send you a note of thanks from Mr. P. a citizen of great respectability, who was cured of a bad scrotal rupture, of thirty five years standing, by wearing one of your trusses for two years. He had worn other trusses twenty nine years. His son, also, aged 16 years, ruptured from his infancy, was cured under my care in less than two years.—A case of scrotal rupture, of twenty years standing, in a labouring man forty years old, was cured under my notice by one of your trusses in six months. A case of groin rupture, from lifting, in a labouring man, thirty years old, on whom I applied one of your trusses, the day after the injury, was cured in three months.—Experience alone, can make known to the Surgeon the full powers and excellence of these instruments. Your trusses are exclusively preferred by the Professors in both of the Medical Schools in this city, and the Faculty in general.

Baltimore, January, 1830.

Valentine Mott, M. D. Professor of Surgery, says,' The great and signal benefits which are produced by this Truss, result from its strict subservience to, and accordance with Scientific and Surgical principles.

'The operation and effect of this Truss is directly the reverse of all Trusses heretofore in use; which being convex, tended to enlarge the dimensions of the rupture opening.' 'I am of opinion that the union of Surgical design & mechanical structure in this instrument render it what has long been the desideratum of Practical Surgeons in Europe and America.'

Professor Mott also in lecturing upon Hernia, recommends Dr. Hull's Truss to the exclusion of all others.

☞ Apply at the office of Dr. KNAPP, 97, Fayette street, east of Monument-Square, Baltimore.
