

PROSPECTUS OF THE AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

It is a remarkable fact, that while the community is so generally ignorant of the nature and extent of the phrenological system, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so.

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and moral) on the Medical Treatment of the Insane, on Jurisprudence, on Theology, and on Mental and Moral Philosophy.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the de-

sire or expectation of gain that it is offered to the community, but from moral considerations: from a desire to know and to promulgate truth. Hence should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers.

TERMS. 1. The American Phrenological Journal and Miscellany will be issued monthly, commencing on the 2d of October next.

2. Each number will contain at least 32 octavo pages, making a volume of not less than 384 pages corresponding in point of mechanical execution with the best periodicals of the day.

3. The work will be furnished to subscribers at \$2 per annum for a single copy; \$5 (current copies, or \$10 (current as above) for seven copies sent to one address.

4. Money sent by mail, if enclosed in the presence of the post-master, will be at the risk of the publisher; but postage must, in every case, be paid.

5. Subscriptions, and letters of business, may be addressed to the publisher, ANAS WALTON, 45 Carpenter-street, Philadelphia, and communications for the work to the Editor of the Am. Phren. Jour., care of A. WALTON.

6. To editors who will give this Prospectus one or two insertions, and forward a paper containing it to the publisher, the work will be sent for one year.

7. Postmasters throughout the country will please to act as agents for this Journal.

August 23.

PROSPECTUS. THE undersigned proposes to publish a Weekly Newspaper in the Village of Leonard-Town, St. Mary's County, Maryland, to be entitled THE LEONARD-TOWN HERALD, and Saint Mary's and Charles Counties Advertiser.

In presenting to the public the design of publishing a paper at Leonard-Town, it will only be necessary briefly to explain the plan to be adopted, and the principles to be pursued, in its course of publication; and impressed with the belief it will be approved by the thinking portion of the community, he does not for a moment doubt, they will yield him a patronage commensurate with the utility of the enterprise.

It seems to be a matter of general surprise that the venerable county of Saint-Mary's, and adjoining too, an important part of the State of Maryland, should have remained so long destitute of a paper printed and published within its borders—containing as it decidedly does, so fair a proportion of citizens distinguished for their talents, integrity and patriotism.

The projector of this proposed useful undertaking, confident of a liberal patronage from an enlightened and generous public, has issued this Prospectus, with the chief intention of devoting himself to usefulness—increasing as far as his feeble means will permit, the general stock of information, and enlarging the sphere of useful knowledge.

The Herald will be conducted on a neutral principle in politics, whether of a general or local character—and the publication of articles calculated to create personal excitement or lead feeling in the community will be faithfully and strictly guarded against by the proprietor.

Its columns will be open to literature and the Muse. A faithful account of the current intelligence (whether of a foreign or domestic nature) will be laid before its patrons, and the general principles of Religion and Morality will not be disregarded.

The Herald will be printed on a medium sheet, of fair intelligible type, at the moderate price of Two Dollars and Fifty Cents per annum, if paid in advance—If not paid before the expiration of six months, Three Dollars will be exacted—and Three Dollars and Fifty Cents will be charged if not paid before the expiration of the year. It will be issued as soon as practicable after a sufficient number of subscribers are obtained.

July 25th, 1833. F. M. JARBOE.

IMPORTANT TO FARMERS.

A NEW PATENT IMPROVED PORTABLE HORSE POWER AND THRESHING MACHINE.

THIS Horse Power will propel Threshing Machines, Clover Mills, Small Grist Mills, &c.

The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consists in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse Power and Thresher, the bearings being surrounded with oil cups, which retain oil sufficient for one day, without replenishing, supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect and hazardous to those who superintend them, consequently produced by applying oil during the operation, or from neglect of its mechanical construction. The vertical and horizontal bearings are supplied with oil by friction and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery.

The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain; it also answers the purpose of cleaning clover seed, and with any late improvement is far superior to my former machines. There can be certificates produced where they have hauled at the rate of one bushel of clover seed per hour for nine hours.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase, will call and examine for themselves. The subscriber has constantly on hand the above described machine, at his manufactory, in Brandywine Village, Del. where orders will be received, and the machines sent to any part of the neighbouring States. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Berks, Lancaster, Chester and Delaware, Pa.; New Castle, Kent and Sussex, Del.; Cecil, Kent, Queen-Anne's, Talbot, Dorchester, Anne-Arundel and Harford, Md.; Salem, Cumberland, Gloucester, Burlington, Monmouth, Mercer and Middlesex, in New Jersey.

P. S. Corn Shellers and Cutting Boxes on a new and improved principle constantly on hand. Also, repairing Horse Power, will be attended to with fidelity and despatch, at his manufactory, north side of the Brandywine, near Wilmington.

JESSE URMAY.

On the Eastern Shore of Maryland—Cecil county, John Kirks; Kent county, G. B. Westcott, (Chester-town); C. W. Spay, (New Market); James S. Dunsbar, (Georgetown); Roads; Queen-Anne's county, John Spenser, (Centerville); Talbot county, Thomas R. Hollyday, E. McDowell, (Easton); Dorchester, James Dixon, (Cambridge); Caroline, James Gangston & Son, (Denton); Western Shore—Anne-Arundel county, John Ridout of H. near Annapolis.

July 4.

ANNE-ARUNDEL COUNTY, Sec. Chief Judge of the Orphans Court of Anne-Arundel County, by petition, in writing of Edward Denver, of Anne-Arundel county, claiming that he is now in actual confinement for debt, and praying for the benefit of the act of the General Assembly of Maryland, entitled, An act for the relief of Maryland insolvent debtors, passed at December session 1805, and the several supplements thereto, on the terms therein mentioned, a schedule of his property, and a list of his creditors, on oath, so far as he can ascertain the same, being annexed to his petition, and the said Edward Denver having satisfied me by competent testimony that he has resided two years within the state of Maryland immediately preceding the time of his application, and the said Edward Denver having taken the oath by the said act prescribed for the delivering up his property, and given sufficient security for his personal appearance at the county court of Anne-Arundel county, to answer such interrogatories and allegations as may be made against him, and having appointed Elijah Wells his trustee; who has given bond as such and received from the said Edward Denver conveyance & possession of all his property, real, personal and mixed—I do hereby order and adjudge, that the said Edward Denver be discharged from imprisonment, and that he give notice to his creditors by causing a copy of this order to be inserted in some newspaper published in Anne-Arundel county, once a week for three consecutive months, before the fourth Monday in October next, to appear before the said county court, at the court house of said county, at ten o'clock in the forenoon of that day, for the purpose of recommending a trustee for their benefit, and to shew cause, if any they have, why the said Edward Denver should not have the benefit of the said act, and supplements, as prayed. Given under my hand this second day of May, in the year of our Lord one thousand eight hundred and thirty nine.

R. WELCH of Ben. Sm.

JOURNAL OF THE AMERICAN SILK SOCIETY AND RURAL ECONOMIST.

A Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, adopted the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion of this Convention that Silk may be grown in all the United States, not only for domestic purposes, but as a valuable article of commercial export—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk culture in the United States.

Under the later resolution, J. S. SAWYER, postmaster of Baltimore, was invited to be the editor of the Journal, and has consented to do so—so far as may be consistent with the strict performance of his public duties.

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the silk culture, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, "Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export."

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspension of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity. The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, as a measure calculated to relieve Government from the contingencies to which its connection with Banks renders it liable—one which will insure stability and uniformity in its fiscal action, and reduce the potent influence of the Executive over a league of deposit Banks, to the mere power of appointing the few officers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal measure, Banking Institutions will not be opposed. On the contrary their interests—with such checks as are calculated to secure the object of their creation, will be supported as essential to the prosperity and advancement of the country.

Such is the outline of the doctrines for the advocacy of which the new paper is to be commenced, and to the defence and vindication of which the Editor pledges his best support. They are the doctrines of the present administration; and as their continuance and efficacy depend much upon the energy and zeal of those who are entrusted with the execution of their policy, the Editor of the Journal will anxiously advocate the reelection of MARTIN VAN BUREN to the Presidency, as one who has proved himself eminently qualified to uphold and defend them and insure their successful execution. It is believed the Post and Transcript will not be found an unworthy coadjutor of the democratic paper already engaged in the cause in this city.

On the subject of State politics the paper will advocate a judicious reform, consonant with the spirit and principles of our republican institutions. Aware of the great caution and deliberation with which this subject should be approached, it will nevertheless fearlessly advocate such changes as our own experience has convinced us to be necessary, or such as the history of other States in the confederacy has taught to be wis and salutary.

The all important subject of Internal Improvement will be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early completion of the great works in which the State is already so deeply interested, will be urged as positively necessary to preserve unimpaired the public faith and to secure the true and permanent prosperity of our City and State.

II. COMMERCE.—The commercial department of the paper will be attended to with the utmost care, and no effort will be spared to render the information relative to foreign, domestic and local markets, and the general state of trade, full and satisfactory.

III. AGRICULTURE.—This important subject will receive more attention than has usually been paid to it in similar publications; and besides detailing facts of the importance to the farmer and planter, it is intended to discuss the principles of agricultural economy and to claim for the husbandman that station as a citizen and an important producing agent, to which his independence and labours entitle him.

IV. THE ARTS, both fine and mechanical, will have their appropriate department, and such discussion will be entered into as will tend to evolve the true principles upon which both are founded and to foster the efforts of hitherto genius and skill rather than of foreign ingenuity.

V. LITERATURE AND NEWS.—The Post and Transcript will aim at nourishing a sound and pure literary taste, and at the same time will endeavor to equal the best of its contemporaries in judicious selections and in the promptitude, accuracy and extent of its general intelligence, foreign and domestic.

The first number will be issued in the course of the present month, after which it will be regularly continued. It is desirable that the names of subscribers be returned as speedily as possible to the Publisher.

TERMS.—The Post and Transcript will be of the largest class of newspapers—the DAILY at \$5, and the TRI-WEEKLY at \$5 per annum, payable in advance, unexpired in the city.

All letters must be addressed to S. P. SKINNER, Editor Post and Transcript, Baltimore, Md. Those containing remittances may be forwarded at the expense of the publisher; all others, must be post paid.

PRINTING Neatly executed at this OFFICE.

PROSPECTUS OF THE BALTIMORE POST AND COMMERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

FOLIO.—The Post and Transcript will be the firm and undeviating advocate of the doctrines of association, non-resistance, which constitute the fundamental elements of our social and political system. As this declaration imports, on the great question of National Politics, the paper will be of the "strict constructionist" school, maintaining that the action of Government should be limited to the exercise of those powers which are specifically enumerated in the constitution. It will consequently oppose the measures of those, who by a loose interpretation of its exact terms of our Liberties, seek the establishment of schemes subversive of the principles upon which the fair fabric of our government is reared, and which, unchecked, tend to confusion and anarchy from which no relief can be found but in despotism.

Among these schemes, regarded as of obviously dangerous tendency, is that of a National Bank, which, however harmless or useful it might be in the full strength and unanimity of the republic, would, in a period of danger,—its branches penetrating every part of the country, and in the words of Jefferson, "being by command and in phalanx,"—have power to interfere, serious and alarming obstacles to the operations of government.

The assumption of the right to impose a tariff beyond the duties necessary to supply the constitutional wants of government; the appropriation of the public money upon schemes of internal improvement, and the interference of government with the domestic institutions of the States, particularly with the institution of Slavery, will be equally opposed as encroachments upon the constitution and upon the rights of State.

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspension of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity. The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, as a measure calculated to relieve Government from the contingencies to which its connection with Banks renders it liable—one which will insure stability and uniformity in its fiscal action, and reduce the potent influence of the Executive over a league of deposit Banks, to the mere power of appointing the few officers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal measure, Banking Institutions will not be opposed. On the contrary their interests—with such checks as are calculated to secure the object of their creation, will be supported as essential to the prosperity and advancement of the country.

The Doctor's CAMOMILE PEPERIENT PILLS.

Low spirits is a certain state of the mind, induced by indigestion, when the greatest apprehension upon the slightest grounds, and consequences imagined. Ancient medical writers considered this disease to be confined to those portions of the abdomen technically called by which are situated on the right or left side, whence comes the name hypochondriac.

Symptoms. The common corporeal symptoms consist in the stomach or bowels, acridness, spasmodic pains and efforts, a tendency of the attention upon any subject, or engaging in any thing that detracts from the attention upon any subject, or engaging in any thing that detracts from the attention upon any subject, or engaging in any thing that detracts from the attention upon any subject.

Causes. A sedentary life of any kind, severe study, protracted to a late hour in the day, or a long confinement in bed, or a long confinement in bed.

Treatment. The principal objects of the treatment are to remove indigestion, strengthen the bowels, and equalize the circulation of the blood, and to remove indigestion, strengthen the bowels, and equalize the circulation of the blood, and to remove indigestion, strengthen the bowels, and equalize the circulation of the blood.

Some physicians have recommended mercury, but it should not be resorted to, as it greatly aggravates the symptoms.

Agent, JEREMIAH HUGHES, Annapolis, Md.

THE BARON VON HUTTENHERB PILLS.

These Pills are composed of Herbs, specific action upon the heart, give strength to the arterial system; the blood is equalized, the circulation is improved, the extremities; and as all the secretions are drawn from the blood, there is a decrease of every secretion, and a consequent relief to the system.
