

ENGLISH SOLDIERS COME TO BLOWS.

Big Battle at Aldershot Between Two Prominent Regiments. MANY DANGEROUSLY WOUNDED.

London (By Cable).—The long-standing feud between the Durham and Worcester regiments of infantry culminated in a serious affray at Aldershot, when the Worcesters, with fixed bayonets and ball cartridges, attacked the quarters of the Durhams.

CAUSE OF MCKINLEY'S DEATH.

His Physicians Report That It May Never Be Discovered. New York (Special).—The physicians and surgeons who attended President McKinley through the closing days of his life presented to the State Medical Society gathered here in semi-annual session a report covering the medical and surgical history of the case of the martyred statesman.

ROSEBERY'S WARNING TO ENGLAND.

He Speaks of the Necessity of Commercial Education—British Complacency. London (By Cable).—Lord Rosebery, speaking at Birmingham on the necessity of Great Britain being better equipped in political and commercial education, dwelt upon the "dangers of British complacency."

Masked Robbers Torture Couple.

Mount Pleasant, Pa. (Special).—Another attempt was made by three masked men to rob Jacob Horner and wife, near here, within the past few days. One week ago robbers entered the residence of the old people and tortured them until they revealed the hiding place of \$700. The robbers failed, however, to secure \$1500 concealed in another place, and after the robbery this money was put in bank.

Bank Safe Blows Up.

Evansville, Ind. (Special).—A loud explosion aroused the village of Howell, a few miles from here, and, turning out, the citizens discovered that four robbers had blown the bank safe and were in the act of plundering it. Instantly the bank was surrounded and the citizens opened fire, which was returned by the robbers as they fled. The fusillade ended, three robbers, badly wounded, were stretched out on the ground. The fourth escaped, Marshall Sumpter was shot in the leg. The wounded robbers are in the hospital. They refuse to talk.

NAVY ESTIMATES SHOW INCREASE.

Secretary Long to Recommend Three New Battleships and Two Cruisers. THE TOTAL AMOUNT IS \$98,910,984.

Secretary Long, in speaking of the estimates, said that they were made with a due regard for the needs of the Navy, and intimated that they had the approval of the Administration.

Washington (Special).—The annual naval estimates, completed for the fiscal year beginning next July, are the heaviest ever submitted at any time in the history of the service, except during the war immediately following the Spanish War.

They amounted to \$98,910,984, or an increase of \$1,148,534 over the amount appropriated last year for the same purposes.

The amount asked for under the head of new items is \$21,631,823. This does not include any cost of an increase of the navy which Congress may authorize.

For continuing the great project for improving the Naval Academy the sum of \$1,500,000 is submitted; for a naval training station at Porto Royal the sum of \$150,750 is asked. The estimates for the Bureau of Ordnance and Equipment are over two million dollars larger than the appropriations for those bureaus last year.

The Bureau of Yards and Docks asks for \$20,781,375 alone, as compared with less than seven millions appropriated for the present fiscal year. This sum is increased to meet the extraordinary expenses entailed in developing outlying naval stations and in the completion of a great many heavy new docks at all important naval stations.

Admiral R. B. Bradford, chief of equipment, asks that \$640,000 be provided for new coal depots and \$500,000 for defending insular naval stations and depots. Every other bureau estimates last year.

The new estimated items for the Gosport Navy Yard at Portsmouth, Va., aggregate \$1,208,500, which includes \$350,000 for the purchase of land. The estimates for the naval station at San Juan, Porto Rico, are \$2,611,000 and include \$1,000,000 for a masonry drydock, \$500,000 for the purchase of land, \$250,000 for dredging and \$300,000 for the extension of coaling facilities.

Secretary Long in speaking of the estimates said that they were made with a due regard for the needs of the Navy, and intimated that they had the approval of the Administration. He spoke of the increased cost of the navy, and said that the building of a battleship costing \$5,000,000 is not the end of its expense; its maintenance is very costly. The estimates, he said, did not cover any recommendations for increase of the Navy over that already planned, but it is more than likely the secretary will recommend three new battleships and two armored cruisers and a number of small gunboats.

Spaniards Riot Again. Madrid (By Cable).—An extraordinary meeting of the Cabinet was held under the presidency of Queen Regent Maria Cristina, to consider outbreaks in Seville and elsewhere. New disturbances are reported at Seville. A mob there was storming the convent of St. Saviour, dispersed by troops, but not until the door of the convent had been burned. Martial law has already been established there. It will probably be extended to other towns where revolutionary disorders are occurring.

Miss Stone Hidden in Cave. The Information Comes Through a Letter Received By Her Parents.

Sofa (By Cable).—Although the time fixed by the brigands who abducted Miss Ellen M. Stone, the American missionary, for the payment of the ransom demanded expired a week ago, no one has appeared at Samakot to claim the money or to announce the fate of the captive. It is now learned that the band has dissolved, but that Miss Stone is kept under surveillance at some distance from the frontier. This is due to snow and cold weather rendering the mountains uninhabitable.

The efforts of the police to arrest Sarafit, formerly president of the Macedonian committee, who is suspected of complicity in the kidnapping, are still unavailing. The failure is due to the sympathy of the inhabitants and local authorities.

The parents of Madam Tsilka, the Bulgarian teacher, who was captured by brigands with Miss Ellen M. Stone, the American missionary, have received another letter from their daughter, urging the step already taken, namely, stopping the military pursuit, because the brigands threaten the prisoners with immediate death in the event of danger to themselves. The writer says that she and Miss Stone are hidden in a subterranean retreat and are treated courteously. She also says the only means of securing their release is to pay the ransom demanded.

Constantinople (By Cable).—The Russian government has repeated its expression of a desire to assist the United States government by all practical means in rescuing Miss Stone. The Russian is the best able to bring the necessary pressure to bear.

Messrs. Baird and Haskell, the missionaries, have not yet succeeded in getting into touch with the brigands or opening negotiations.

Prosecuting Officer Accuses Him in Havana Post-office Fraud Cases.

Havana (Special).—The indictments in the Havana Postoffice fraud cases, sent by the Fiscal to the Audencia, implicate Estes G. Rathbone jointly with C. F. W. Neely and W. H. Reeves in defrauding the Government, his complicity being based on the contention that he permitted—and therefore consented to—and tacitly authorized—the fraudulent transactions.

The whole amount of the alleged embezzlements on all counts in the indictments is estimated at \$50,000. The Fiscal has recommended that each of the accused be fined this amount, and also that Rathbone be sentenced to imprisonment for 25 years, Neely for 25 years and 6 months, and Reeves for 24 years and 6 months. He has also recommended that Moyia and Mascero, stamp clerks, be sentenced to imprisonment for six months and one year, respectively.

Regarding the destruction of surcharged stamps the Fiscal says the amount sent to Havana was \$552,000, and the amount sold \$228,740, leaving \$323,260 as the balance to be destroyed. Neely reported that he had destroyed stamps to the value of \$392,509, leaving a large sum which was used to make up the deficit of actual money stolen from the receipts.

Rich Haul by Cracksmen. Shattered Bank, Goz About \$40,000 and Fought Way to Safety.

Galion, Ohio (Special).—The vault of the Farmers and Citizens' Bank, at Tiro, a small town near this place, was wrecked by six robbers, who secured the contents and escaped.

BANKERS WAR ON ANARCHISTS.

The American Association Would Have More Drastring Laws. Milwaukee, Wis. (Special).—The 27th annual convention of the American Bankers' Association opened here with a large attendance, representing nearly every State in the Union.

The most important action of this influential body was the unanimous adoption, just before the adjournment, of a resolution presented by James A. Willlock, of Pittsburg, relating to the punishment of anarchists. It recites that there exists an imperative necessity for Congress to punish assassins and for the suppression of anarchy by providing:

1. Capital punishment for those convicted of murder or attempted murder of officers in high positions.

2. Adequate punishment by imprisonment of all parties counseling violence to those to prevent anarchists from entering this country.

3. Laws to prevent anarchists from entering this country.

4. That we urge upon Congress and the State Legislatures action that shall keep our land free from the charge of fostering conspiracies against rulers of foreign lands.

The committee on nominations decided upon the following list of officers for the ensuing year:

President, Myron T. Herrick, Cleveland; vice-president, Caldwell Hardy, Norfolk, Va.; chairman of executive council, Frank G. Bigelow, Milwaukee; secretary, James R. Branch, New York city; treasurer, George M. Reynolds, Chicago.

New Members Executive Council—Ralph Van Vechten, of Iowa; J. Sullivan, Ohio; John L. Hamilton, Illinois; James R. McAllister, Pennsylvania; Frank H. Bigelow, Wisconsin; E. E. Sweeney, Missouri; F. H. Fries, North Carolina; J. M. Donald, New York; P. C. Kaufmann, Washington.

Aguinaldo Has Fortitude. He Wants No Release From Prison While Comrades Suffer.

Manila (By Cable).—The Congressional party headed by Senator Bacon, which has been visiting the Philippine Islands, left here for home on the transport Sheridan.

Before leaving the members of the party had an interview with Aguinaldo, who proved reticent. He said the original outbreak of hostilities was a surprise to him, and that his efforts to maintain the truce were unavailing.

Aguinaldo has written to a lawyer who is trying to obtain a writ of habeas corpus in his behalf, objecting to the course taken by the lawyer. He says he prefers to remain a prisoner "while there is some compensation languishing in jail suffering for the Filipino cause and an infinity of Filipinos are deprived of the liberty which they are anxious to obtain."

The civil and military authorities are having Sixto Lopez closely watched at Hongkong, as they consider his arrival there a source of danger.

The Philippine Commission has passed an act prohibiting any suspect from landing unless he takes the oath of allegiance, the penalty for breaking it being two years' imprisonment for perjury.

Milner Riches in Texas. Dennison, Texas (Special).—F. V. Crandall, Texas manager of the Consolidated Oil, Asphaltum and Mining Company, reports that in Montagu county about 25 miles west of Gainesville the long has disclosed the fact that there are vast mineral deposits in that region. There are samples of several different kinds of zinc rock, samples of asphalt and as fine a quality of glass sand as can be found anywhere.

ANOTHER TRIAL FOR ROLAND B. MOLINEUX.

Was Convicted for the Murder of Mrs. Catherine Adams. EVIDENCE ERRONEOUSLY ADMITTED.

Every Member of the Court of Appeals Agrees for the Reversal of the Judgment of Conviction of Molineux, On the Ground That the Trial Court Erred in Receiving in Evidence.

Albany, N. Y. (Special).—The strange course which justice sometimes takes is strikingly illustrated in the case of Roland B. Molineux, who after a trial lasting 55 days, was convicted February 10, of the murder of Mrs. Catherine J. Adams in New York City and sentenced to be put to death by electricity.

The New York State Court of Appeals, after a long delay, granted him a new trial. Thus the whole remarkable case, after a protracted delay, is again open, and if Molineux is to die for the crime the whole costly business will have to be gone over again.

The opinion of the appeal court is written by Justice Werner, of Rochester. The principal ground for it is that the lower court erred in admitting evidence as to another alleged crime, the death of Henry C. Barnett, and thus merged two issues.

Mrs. Adams died December 29, 1898, after taking what she supposed was a dose of headache remedy, but which was found upon analysis to contain cyanide of mercury. The bottle containing the poison had been sent to Harry S. Corbish, who boarded with Mrs. Adams. It came through the mail, and the sender was unknown. At the trial the evidence tended to show that the poison was sent by Molineux. Evidence was also admitted to show that Barnett, who died suddenly at the Knickerbocker Athletic Club about a month before Mrs. Adams, had been poisoned in the same manner.

An important line of testimony was that of handwriting experts, which served to connect Molineux with the sending of both bottles of poison.

In reference to the admission of the testimony regarding the Barnett case the court's opinion says:

"If the case had been tried upon the theory that the only crime which the defendant had committed was the killing of Mrs. Adams in the attempt to poison Mr. Corbish, the next and final step in the case of the prosecution would have been to prove the defendant's connection with the handwriting of the address upon the poison package. But, as a part of the theory or theories upon which the prosecution sought to connect the defendant with the killing of Mrs. Adams, evidence was offered and received to show that the defendant was responsible for the previous killing of one Henry C. Barnett. The general rule of evidence applicable to criminal trials is that the State cannot prove against a defendant any crime not alleged in the indictment, either as a foundation for a separate punishment or as aiding the proofs that he is guilty of the crime charged."

Czolgosz Awaits Execution. Only Two Weeks More of Life for McKinley's Assassin.

Albany, N. Y. (Special).—Supt. Cornelius V. Collins, of the New York State Department of prisons, will send a request to Secretary Hay to designate an official representative of the United States Government to be present at the electrocution of Leon F. Czolgosz, the murderer of President McKinley, which will take place in Auburn prison some time in the latter part of October.

Only 26 witnesses will be present in the chamber of death when the sentence is executed. Warden Mead, of the prison, has sent to Superintendent Collins the requests he has received for permission to attend the electrocution, over 1000 in all. The law limits the number of witnesses, and the superintendent will decide who they will be.

Statements to the effect that Czolgosz is in a continuous state of collapse and that he breaks down and weeps every time anything is said to him concerning the electrocution are denied. Superintendent Collins had a talk with the condemned man some days ago and at that time Czolgosz said he knew he had to die. He expressed no fear as to the electrocution, but said he would not care to go outside the prison, for he believed the people would kill him.

Since his confinement in Auburn prison several thousand letters have been received for him at the prison, as well as a large number of express packages containing flowers and fruit. The letters, flowers and fruit have not reached the condemned man. The flowers and fruit have been sent by church societies, as have a number of letters consoling him in his last moments. Other letters have come from cranks who have written about the species of torture to which they would put him if they had the execution of justice in his case. It is expected that it would cause surprise if the names of senders of fruit and flowers were made public.

The State prison department has pursued a uniform policy in regard to Czolgosz. An effort has been made to prevent the murderer from gaining any notoriety while awaiting death and to surround him by as perfect an isolation from the world as possible.

Blew Open a Bank Safe. Ramont, Ill. (Special).—The bank of Marysville at Potomac, a village twenty miles east of this city was entered by robbers and between \$700 and \$1500 in currency and silver taken. To get into the safe two charges of nitroglycerin were used. A young man named Moorehouse heard both explosions and started to ascertain the cause. When he reached a point near the bank he was stopped by one of the robbers and was held a prisoner until the men escaped on a handcar.

Thousands Were Drowned. Washington (Special).—The Navy Department has received a report from the gunboat Helena regarding the devastation by flood of the Yangtze Valley above Nanking, China. The water reached the highest point in 50 years. The devastation was widespread, the flooding wiping out whole villages. Extensive crops of rice, corn and beans have been long covered by the water to survive, scarcely any live stock remains, and famine stares the people in the face. Thousands of persons were drowned.

Got Three of the Robbers. Evansville, Ind. (Special).—A loud explosion aroused the village of Howell, a few miles from here, and, turning out, the citizens discovered that four robbers had blown open the bank safe and were plundering it. The bank was promptly surrounded and the citizens opened fire, which was returned by the robbers as they fled. When the fusillade ended, three robbers, badly wounded, were stretched out on the ground. The fourth had escaped, Marshall Sumpter was shot in the leg. The wounded robbers are in the hospital. They refuse to talk.

NATIONAL CAPITAL AFFAIRS.

Over 17,000,000 Students. About 21 per cent. of the total population of the United States attend public schools and 2 per cent. of the rest attend private schools, according to the annual report of the Commissioner of Education.

The grand total in all schools, elementary, secondary and higher, public and private, for the year ended July 1, 1900, was 17,020,710 pupils, an increase of 282,348 over the previous year. Of this number the enrollment in public institutions supported by general and local taxes was 15,443,462. Counting in special institutions, such as evening schools, Indian schools, schools connected with asylums, reform schools, and other institutions more or less educational in their character, increase the total number by half a million pupils.

The statistics, as interpreted by the commissioner, show a uniform concentration of public opinion throughout the country in favor of providing secondary education at public cost. Public high schools have increased from 2526 in 1890 to 6005 in 1900.

Big Army to Remain. In a cablegram sent to the War Department by Major-Gen. Adna R. Chaffee, commanding the army in the Philippines, and communicated to the President, a strong recommendation is made against any reduction in the forces, in view of the possibility of further activity by the Filipinos during the next few months.

President Roosevelt, after consultation with Acting Secretary of War William Carey Sanger, decided to uphold the recommendation of Major-General Chaffee and maintain the present military forces in the Philippines indefinitely. The President is acting on the action determined upon by the other military commanders in the field and best judges of the necessity of maintaining a large army in the islands, and that their recommendations and views should prevail.

To Prevent Explosions. Rear Admiral Charles O'Neil, chief of naval ordnance, in order to prevent further explosions of semi-armor-piercing shells in the 13-inch guns on battle ships, has directed that all semi-armor-piercing shells under manufacture shall be made with thicker walls and with gas check.

Rather than have another premature explosion, he will probably request the department to order that these piercing shells be used, without the powder charges, in target practice.

In regard to the report that one of the forward 13-inch guns of the battleship Alabama had been disabled in the recent gun test off the Virginia capes, Rear Admiral O'Neil said that the injury is not a serious one, that the gun will not have to be taken from the ship and that at present the bureau does not contemplate making any repairs on the gun at all, as its usefulness has not been impaired. Admiral O'Neil says that the shell exploded within the bore of the gun and scared it somewhat, but did no serious injury.

American Foreign Trade. The monthly statement of the import and exports of the United States for September, issued by the Bureau of Statistics, shows as follows:

Merchandise, imports \$67,300,405, of which \$29,489,120 was free of duty. Increase in total as compared with September, 1900, \$7,731,805.

Merchandise, exports \$106,895,274, decrease, \$9,000,000.

Gold imports, \$11,642,070; increase, \$3,756,000.

Gold exports, \$162,912; decrease, \$644,000.

Silver imports, \$2,469,820; decrease, \$1,700,000.

Silver exports, \$4,835,133; decrease, \$900,000.

As to merchandise, the statement shows that in the last 12 months there was an excess of exports over imports of \$640,568,905.

Wants Overdue Money. Gov. J. Hoge Tyler, of Virginia, who at the White House to pay his respects and at the same time ask the President to see that the State is indemnified for money advanced in equipping troops for the Spanish War.

Virginia advanced \$500 for the regiments organized in the State, and of this amount the Government has paid all but \$1000. The Governor asked that the remainder be paid.

Still Another Trust. New York (Special).—A new and gigantic industrial combination, which is to consolidate the armor-plate manufacture of this country, enter into the building of merchant and warships for the world's trade and take over the large and growing export trade of the United States Steel Corporation is about to be organized by J. P. Morgan and his allies. The project will not only consolidate many details of the steel and fuel business of the country now separated, but also serve to bring into closer relationship these interests and the great railroad interests controlled by the Vanderbilts and the Pennsylvania Railroad.

King Is Busy Just Now. Brussels (By Cable).—In regard to King Leopold's proposed visit to the United States, it is understood that he has entertained the idea for some time, though nothing is known in court circles as to when he intends to carry out his purpose. There is no sign of preparations being made for his departure. Members of the royal household consider that, as the chambers have been convoked and as Parliamentary life is in full swing, the present is not the time for a prolonged absence of the King from Belgium.

Got Three of the Robbers. Evansville, Ind. (Special).—A loud explosion aroused the village of Howell, a few miles from here, and, turning out, the citizens discovered that four robbers had blown open the bank safe and were plundering it. The bank was promptly surrounded and the citizens opened fire, which was returned by the robbers as they fled. When the fusillade ended, three robbers, badly wounded, were stretched out on the ground. The fourth had escaped, Marshall Sumpter was shot in the leg. The wounded robbers are in the hospital. MIRO

TRADE MARK.

Science Has Triumphed At Last In Producing A Preparation Called

MIRO.

The Great Hair Invigorator and Straightener.

MIRO LIFE OF HAIR positively straightens and produces a beautiful growth of hair and stops the hair from falling out; cures dandruff and all diseases of the scalp, as it invigorates the scalp and hair, and will produce a heavy growth of mustache. If the hair is harsh, kinky, curly and stubborn, use MIRO LIFE OF HAIR; makes the hair grow luxuriant, long and thick. MIRO LIFE OF HAIR is not a miserable, sickly, greasy, fatty substance like some of the many so-called chemical company's preparations that are on the market at present and which contains an acid which not only dries up the sap of the hair but actually kills the roots of the hair and in a short time causes the hair to fall out, which is the consequence of using such impure and harmful compounds that are put before the public under high sounding names and flaring advertisements to beguile the public by offering to give you \$4.00 or \$5.00 worth of their products for \$1.00 and which is really not worth 10 cents for all of their preparations, as they are made and put up by parties that don't know the least thing of medicine or chemistry, therefore, they produce those harmful and incompatible compounds, which does so much damage to the hair and skin. A pure preparation should be clear, wholesome and harmless. A word to the wise is sufficient.

THE MIRO PREPARATIONS are prepared by experienced Chemists in the employ of one of the largest chemical companies of Baltimore, Md., and known all over the world for its reliability and pure products. The MIRO LIFE OF HAIR preparation for the hair is a clean wholesome antiseptic preparation and will do all that is claimed for it, and the price is 50 Cents per large box, in our patent boxes. No hot irons needed with MIRO. One box does the work the whole family can use it, and when the hair is straight its use can be discontinued, as the hair stays straight forever. Look for name MIRO on box, as a good article is pirated and counterfeited. Why? Use none but the MIRO PREPARATIONS as they are pure and harmless.

MIRO BEAUTIFIER FACE WASH

Will change the skin of a very dark person considerably lighter and produces a clear and healthy complexion. All facial blemishes, freckles, pimples, blackheads, wrinkles, &c., are positively removed by the use of MIRO BEAUTIFIER FACE WASH. Hot Shot for Some Eastern Critics of the Western Land.

Of the 40,000,000 people who live east of a line drawn from north to south through the center of Indiana, 39,000,000 of them believe that 29,000,000 of the 40,000,000 who live west of that line are a coarse, unlettered, uncombed and unwashed people, who feed on hog, hominy and prairie hay, live in clapboard houses and on dirt floors, sleep on straw beds eat in the kitchen with their fingers, have cockle burrs in their hair, go to horse races on Sundays, and shoot each other on sight, says a Kansas paper. They believe all this and much more, because they themselves are untraveled and ignorant; because they are narrow, prejudiced and provincial to the 33d degree, and because they have been taught from the beginning that everything coarse, common and vulgar finds willing worshippers in the brutal uncivilized west.

The eastern lobsters, who are forever reviling the west and who have no more knowledge of this country than has a Digger Indian of a mahogany seat in the New Jerusalem, are as narrow as a clothesline and as stupid as they are ignorant. There is more patriotism, more love of country and of the flag, more real manhood and womanhood, more love of the beautiful and true in any one western state than can be found in an entire string of states along the Atlantic coast.

The west apes nothing, parrots nothing, and accepts no goggle-eyed chimpanzee's declarations as its standard of business or social ethics; nor does it fall on its stomach and sing psalms when its snobocracy passes down the street. The west is a law unto itself; and that is business, social and political ideas are placed upon a more honorable, truthful and manly pedestal than those of any other people goes without saying. The west knows the east from a toizzard—knows all its washed-out, half-baked ideas of what

constitutes polite society, and is charitable enough to forgive it in its constant regard of the brotherhood of man; but it don't forgive the chattering magpies who, while hoisting the black flag, drool their spite rot through all the eastern publications in condemnation of everything and everybody west of the Indiana line.

Would Try Glasgow First. A poor Scotchwoman lay dying and her husband sat by her bedside, says Spare Moments. After a time the wife took her husband's hand and said: "John, we're gowin' to part. I have been a gude wife to you, haven't I?" John thought a moment. "Well, just middling like, Jenny, you know," anxious not to say much. Again the wife spoke. "John," she said faintly, "ye maun promise to bury me in the auld kirkyard at Stra'vau beside my mither. I could no rest in peace among unco' folk in the dirt and smoke o' Glasgow." "Weel, weel, Jenny, my woman," said John, soothingly, "we'll just try ye in Glasgow first, an' gln ye dinna be quiet we'll try ye in Stra'vau."

Frenchman's Mechanical Duck. A mechanical duck that does everything except lay eggs has been invented by a Frenchman. The bird goes waddling in search of food and picks up seeds. These pass into its stomach through a series of triturations, and accomplish a process of digestion. It is said to be impossible to distinguish this duck from a living one. It splashes about in the water, flaps its wings and quacks most realistically.

BALTIMORE, OCT. 19, 1901

The Republican party in this campaign seems to be doing a good deal of saying nothing.

Principal Booker T. Washington is now enjoying the privilege of denying interviews that never took place. This job only belongs to great men.

It is certainly a pleasure to honor such noble men as Bishop Benjamin F. Lee. He is one of nature's noblemen, and men only greatly themselves when they honor him.

President Roosevelt evidently wishes to know just where the colored brother stands. Dr. Booker T. Washington and Bishop Abram Grant have been in consultation with him within the last few days. It is hoped that good may come out of these interviews.

If President Roosevelt will see to it that the colored people of the South get a fair show in the race of life, at least as far as it lies in his power, we are very sure the colored people will be very grateful to him whether they get many offices or not.

It is to be hoped that the Democratic party in this State will not get scared at their own bug-a-boo and take it out of the campaign, for then we might not get away with them so easily. Every body is on it now and in consequence it scares no one. How about trotting out something new?

The Colored Citizen, published at Memphis rises to make a few remarks on "Street Car Etiquette," which will be found in another column. We heartily endorse every word of the article and cheerfully recommend it to some of those who have met in Baltimore.

Bishop Black evidently got a little mixed in his terms in last week's issue of his church organ. The good Bishop starts out by saying: "The harvest truly is white, laborers are ready, but the financial prospects forbid our attempting to launch the life boat." Now just where the connection between life boats and harvests come in we are not prepared to say.

President Roosevelt has appointed ex-Governor Jones of Alabama to be United States District Judge. A great deal of credit for this appointment is being given to Dr. Booker T. Washington. Whether Mr. Washington had anything to do with it or not we have no positive information, but we hope no mistake has been made, whether Mr. Washington had anything to do with the appointment or not. We believe that in all cases the best men should be selected to occupy such positions, and it may be the best in this instance for the colored man, we do not know and therefore can not say, we wait with patience the outcome, hoping it will be after all, for the best.

After losses and crosses men grow humbler and wiser.—R.

CHURCH DEBT.

Generally speaking, a debt is an obligation which one sustains towards another. It is always wise to avoid debt when possible, but oftentimes debt becomes a necessity. This is true with respect to an individual and it is also true of an aggregation of individuals. It is a thing very much to be regretted that people, in many cases, having money to loan, shrink from an investment in the direction of enlightening the colored youth on this intensely practical and most honorable industrial will prove one of the surest and quickest way of helping the State to produce good, strong, sober, manly and industrious men who will adorn their State and contribute their best gifts towards its great and expanding future.

Fraudulent Railroad Tickets.

The State authorities recorded yesterday what is said to be the first conviction for ticket forgery ever obtained in Cook county. Frank L. Rice and Jacob Wolf were the defendants found guilty, the penalty being imprisonment in the penitentiary, under the intermediate law, from one to fourteen years.

Rice is said to be a member of the ticket brokerage firm of Allard & Co., 186 Clark street, and suspicion was directed toward him in a peculiar way. Wolf was employed as an engraver in Detroit, Mich. Rice hired Wolf to make plates of certain Western roads which would be copies of tickets in use. Wolf's Detroit employer discovered that was being done and the Western Passenger Association was informed and investigated the matter, securing the evidence which led to conviction. "About this time forged tickets of several Western roads were being placed on the market. They were traced to Rice, and on July 26 the authorities searched the office of the lawyers at 156 Clark street, and arrested Rice. "Henry J. Allard, alleged partner of Rice and witness in his behalf, was instructed by the court to bring in a record book of the brokerage company. He failed to do so, and yesterday Judge Kavanaugh informed attorneys for the defense that they must have man in court tomorrow morning to show cause why he should not be fined for contempt."—Chicago Tribune, September 29, 1901.

LITERATURE.

A Hollow-eyed Magician. Superstition Trial, a powerful tale of the West, and illustrated by Remington, is the opening story in the Halloween Number (October 26) of The Saturday Evening Post of Philadelphia. Other attractive features are a new episode in The Love Affairs of Patricia and a striking poem by Holomon F. Day, Mr. Day's ballad, The Night of the White Review, tells a weird tale current among Gloucester fishermen. It has all the swing and movement of Mr. Kipling's Dippy Chanteyas, and a strength and originality all its own.

NO NEWS WOULD Col. "Jack" Chinn was standing in the corridor of the Hoffman House says the New York Times, talking to some friends when a stranger was introduced. In the course of the conversation that ensued the newcomer said to Chinn: "That's an odd looking button you wear, colonel," pointing to a Confederate veteran's button in the lapel of the coat. "Yes, you don't see many of them," replied the Kentuckian. "What kind of a button is it?" asked the stranger. "Well, sir, that is a button that no nigger can wear, and that no man who draws a pension ever did wear."

THE COLORED PRESS.

The Negro press shapes and moulds the public sentiment in the Negro's behalf, and every family should consider it as indispensable. Better do without some of the necessities of life than to be without a Negro paper. It is paving the way for the future of the race.

We should support every Negro enterprise in order that the good deeds of our race may be published and that our girls and boys may have first class employments. We believe in the doctrine that "God helps those that help themselves." We believe that so long as the color of a man's skin prevents his getting employments in white printing shops, that leading Negroes should spend their money with Negro shops, which will give Negro men and women of character and ability employment on their merit. We must try to help ourselves as we see the white men doing.—Colored Citizen Memphis, Tenn.

EDUCATIONAL.

Maryland Industrial and Agricultural School. The Maryland Industrial and Agricultural School at Laurel will begin its first session, Wednesday October 30, 1901.

OBJECT: This school will devote itself not only to the literary education of its pupils, but will emphasize especially their industrial and agricultural training under competent instructors.

LOCATION: The prominent one which the school is founded is several hundred feet above the level of the sea, and the conditions conducive to health are perfect. The school is located on the Washington Branch of the Baltimore and Ohio R. R. Train service ample, 32 a day. The site is just a pleasant 10 minutes walk from the depot, and upon notifying the President, all students will be met by the school bus.

TERMS: Board \$7 per month. Tuition \$1 per month. Room rent \$1, per month. Each student will be expected to provide himself with bed covers and a lamp. The institution will furnish bedstead, mattress, chair, table and fuel. Pupils will furnish their own books. OPPORTUNITY: This gives an opportunity to parents whose duties call them from home during the day or night, to place their children where they will receive the attention that a well ordered home would provide. For further information address the President of the Board, RLY. ERNEST LYON, 141 W. Hill Street, Baltimore, Md.

A HOME IN THE SOUTH.

Escape the rigors of another Northern Winter and enjoy the delights of the Southland. Nowhere can be found a more delightful climate than in our own Southland. Its winters are mild and balmy and in the most cases Summer does not bring with it such extremes of heat as are to be found elsewhere. In fact, the South is a land where extremes of climate are avoided, and consequently, is a healthful and altogether desirable location.

The tide of emigration has turned Southward, for it is not alone in climatic advantages that this favored land excels, but its resources, the fertility of its soil and its mineral wealth and abundant water power command it to the thoughtful consideration of any one who seeks a home where Northern thrift and enterprise may carve out success.

The Seaboard Air Line Railway, in order to stimulate investigation and to assist in opening up the fine territory traversed by its lines, announces that it will sell to prospectors and settlers, tickets one way or round trip, at greatly reduced rates, information as to which may be obtained of any agent or representative of the Company.

Highest Patriotism. There is a better and higher patriotism than even to die for our country, and that is to plan for it, live for it and so to serve it as to make it a land of God and morality, universality, brotherhood, justice, mercy, law and order.—Rev. Madison C. Peters, Baptist, Brooklyn.

LEAD ME.

(Blanche Woodyear.) Lead me, gentle hand, Thro' the madding crowd; Harkon to my sighing, Lost 'mid voices loud, Wider now the journey, Loately grows the way; Sombre twilight hovers, Shadows a eat play. Now black midn'ght closes, Grows darkness and complete— Oh! let me, close before me, But see Thy shining feet.

Parents and Children.

If parents would stop a moment to think just how much trouble their children in many instances, give their teachers while in school and even after school is dismissed, on the street, they would do a great deal more than they are doing to help the teacher with the training of their children. In too many instances, when after bearing with them for a long time, they are sent to their parents for correction, the parents fly off to school to give the teacher "a piece of their mind." Now this does not help the child or the teacher. In the first place it gives the child to think that no matter what the teacher may say or do towards their proper correction, their parents will "take up for them." Now, if we are to get the idea that the teacher is not doing all in their power that is possible to be done for the child, and is on y studying her own interest instead of that of the child, then there may be some excuse for parents flying off the handle and giving the teacher a "hauling over the coals." But in most instances as far as they have come under my observation, the teachers are painstaking and are careful in looking after the interest of the child. And therefore, it is most to the interest of the child and the parent as well that the parent give the teacher all the support possible in caring for the interest of the child.

An instance recently came under my notice in a school in this city: several of the larger girls in one of the higher classes were behaving in a very unbecoming manner; the principal of the school gave them a good talking to, and plainly told them they either had to behave themselves or leave the school. Now when a teacher has to threaten girls of the age of fourteen and sixteen years with expulsion because of bad behavior, it shows clearly that there is something wrong at home, and it is in the home where the first lessons of behavior should be learned. Parents will save themselves many hours of sorrow and trouble were they to take a hand in seeing that their children are well behaved in school, and on the street as well as at home.

WHAT TO WEAR.

The leading novelty of the season, which, early as it is, shows well-defined tendencies, give us back an article of neckwear which has been displaced for many, many years. True, the memory of woman runneth back to a period when ruffles were worn at the throat, but it has been long enough to make them appear extremely "new."

Neck ruffling is shown by importers and local dealers in lingerie. The ruffling is welcome change from the baritic folded triangles and embrodered lawn or the stiff and unbending fold of cambric, which was heu-stitched on the edge and looked as if it had been clipped off the edge of a pocket handkerchief. Ruffles do not stop simply when they encircle the throat, but often extend quite a distance down the front breadth of the bodice. The ruff is as are worn very long.

FOR THE TABLE.

Choose turnips of uniform size, peel them, cut off just enough of the small end to make them stand firm, then cut off the stem end and scoop out the inside. Chop fine a Bermuda onion and enough mutton to fill the turnips; add two tablespoonfuls of well-washed rice, and a tablespoonful of mixed parsley and salt and pepper to taste. Mix all together and fill the turnips, replace the tops and put them into a saucepan that will not crowd them; just cover with broth, season with salt and simmer gently until tender; then add two level table spoonfuls of sugar and a third of a cup of malt or good cider vinegar. Heat and serve.

WORTH KNOWING.

Tar soap has been highly recommended for skin irritation. Light being an element of cheerfulness, as much of it as the patient can bear without discomfort should always be admitted to the sick room care being taken to keep reflecting objects, such as crystals and looking-glasses out of the room. To prevent soot from gathering in the chimney and range, make a brine of common salt and pour it over the coals. It is said that will keep all parts beautifully clean. To remove ink stains from paper brush the paper with a paper that has been dipped in a solution of salts of lemon. Two or three applications will cause the stains to disappear. A soothing drink for a sore throat that is recommended is made of a pint of barley water brought to a boil over a hot fire, to which is added, while stirring until dissolved, an ounce of the best gum arabic. Sweeten to taste.

Your success in life may depend as much on your giving as on your gifts. The only way to get nearer to the man who looks on Christ from the opposite point of view is to get nearer to Christ.

There are those who think that if their brand of soap had been known the world would have been cleansed without a flood.

could run to this place. On the wagon were Rev. W. S. Dyett, who is pastor of the A. M. E. Church in St. Joseph, and Miss E. M. Carter, who is representing the A. M. E. Church Review. Rev. Dyett had a few chickens, so I joined with him and helped him to send them into eternity. They were good and after eating I slept until I crossed the bridge into Glasgow.

Glasgow is a town that has never had a light on its streets, and every man who comes there carries a white lantern. It had been raining and a white man was down to the stable with his bus, and wanted me to ride in it, but my pocket book would not permit me to ride, so I walked and had the walk all to myself. I reached the place where Prof. Chinn, lived so I just called for him, and he wanted to know who I was. I replied that I was a white man. Prof. Chinn did not believe it, but he came to the door at any rate and invited me in to his home. I went in too I tell you, and was cordially received. He told me that I could sleep with him during my stay here.

Now I want to tell you that Prof. Chinn is one of the leading men in this part of the country. He is Grand Master of the Masons, and while he is your friend, yet he will not beg you to join his lodge, and more than this he will not recommend you unless he thinks you are worthy. He gave me the freedom of his room and I fully made up my mind that I would get to be a right Mason. I have heard folks say if you put a sleeping man's hand in water he will tell you all you ask him, so I tried this on Prof. Chinn. I wanted until he got asleep and put his hand in water, and asked him about Masonry, but he has never answered me yet. I cut off his hair and put it in the water and he would not talk, so I decided to let him rest.

The next morning bright and early I had him up and began to want to talk Masonry with him. He called me a nigger, and I have sent to New York for a dictionary, and sent to my private secretary to find out the meaning of the word and if it is casting me, there will be trouble in the camp. At any rate he would not talk anything about the order with me, so I made up my mind that he is not so smart after all. He used to be the Grand Secretary, and I sent a whole week with him and offered to pay him \$20.00 to make me a Mason, but he would not do it, and this time I am not able to pay him any money. They tell me that a Grand Master can make a man a Mason at sight, and as Grand Master Chinn looked at me I may be a Mason after all, and don't know it.

Prof. Chinn has been principal of the school for a long time, and he is a fine scholar. I am proud of him and shall never forget him even though he would not make me a Mason. He has been principal of the colored public school here for the past 20 years and this will give you an idea just how he stands. A man who can stay in town twenty years and hold the principal's job is a man more than the ordinary. Will I have slept with a Grand Master at any rate and for a whole week at that.

The A. M. E. Conference met in this town. It was the North Missouri Conference in which is the Rev. J. Frank McDonald, editor of the Western Recorder. But now he is going too far I want to say that I have had the pleasure of being in company with Rev. J. H. Wilson, pastor of the A. M. E. Church where Bishop Shaffer is holding his conference. Rev. Mr. Wilson is one of the young preachers of the A. M. E. Church that is forging his way to the front. He spent two years in Glasgow, as pastor of the church, and has made a good record, saving souls, adding to the church, and lifting up his people. He has been secretary of the conference for a long time and makes a good secretary. I am so proud of the fact that he is a preacher who has been able to make it to the front. Rev. Mr. Wilson has worked his way up in life, worked through school, educated himself, and now as I have told you he is in the front rank. More than this he is in possession of one of the brightest women of the race. She worked through college, and now I wish you could see her working among the women and lifting up the girls. You see when a man with the love of God in his heart, and a wife

with the same, I am here to tell you that it is a good team. What has he accomplished? He has purchased a fine parsonage for the church, and the Bishop left him to spend another year and pay for it. I think that he will pay for it.

The A. M. E. Church is blessed with some able men, and I would like to here mention the name of Rev. J. R. Ransom, who is one of the presiding elders of the Kansas-Nebraska Conference. He visited the Missouri Conference in Kansas City and then came along to the North Missouri Conference and I tell you I keep my blue eyes on him watching every step, and I have reached the conclusion that he is a great man. While he is from the land of grasshoppers and June-bugs, yet he discovered this world in the land where you must see, for it was in Tennessee. He went to that great institution known as the Central Tennessee College and now he is a leader of men. For the last fourteen years he has been laboring in the land of grasshoppers, pastoring some of the best churches, and then took charge of a district as presiding elder. He ranks as one of the foremost men of his race and this is not saying anything too much for him.

Rev. Ransom carried me to a visit to the public school, and the children made speeches, and while this was going on one of us slept, but I am not going to say which one it was, but there was sleeping done and you will have to guess which one it was. We had been up for three weeks in Conferences and five weeks before one of us went to conference we could not sleep over 2 hours any night. But then the sleeping was done and the children laughed. All the week big speeches were made, a young man who delivered the welcome address said that when the East-bound train stopped he said he saw a bird fly over the "Concave of Heaven" and flip his wings and say to the people "You are welcome." He made many other big flights before he got through. I heard many speeches in my life, but none to equal to the one made by E. J. Weeks.

Now I think I have said enough for this time and must bring my letter to a close, by telling you that Bishop Shaffer's district raised \$908.55 more than it did last year. He is happy and proud and the church made no mistake in electing him Bishop. He is making his way to the front. Dr. R. H. W. Look was on hand and made a big speech as usual. I have met Dr. Parks, Dr. Taylor and others, but time will not permit me to mention them this week, but may do so later. God bless you all this week.

My private secretary is well and sends love to all the readers she met this summer.

WOMEN'S BOARD OF TRADE.

Organization at Santa Fe in Existence Since 1893.

A novelty in the way of women's clubs is the Woman's Board of Trade at Santa Fe, N. M. It was first organized in 1893 for the purpose of enabling its members to visit the world's fair at Chicago. It took to itself the name "Board of Trade" to denote its practical objects. After the exposition it turned its attention to city improvement. Santa Fe, like all cities both in old and New Mexico, has a plaza in the center of the town. The plaza at Santa Fe is a place of great historic interest, many of the salient events of the history of the territory having occurred there. On one side it is bounded by the governor's palace, a long abode building which has been the seat of authority ever since New Mexico was a crown colony of Spain. With this interesting old building on one side and the best shops and hotels of the city on the other three, the plaza should have been an ornament to the town. Instead it was sunken and irregular in surface, covered with a rank growth of alfalfa and surrounded by an old wooden fence. The Woman's Board of Trade took vigorous possession of the plaza. They transformed the surface into a fine level lawn, replaced the old fence with an elegant stone coping and erected a handsome drinking fountain. This was not only an achievement in itself, but gave an impetus to like improvements throughout the city. The board has also established a free library and reading-room, which now contains several thousand good volumes. It has a visiting and relief committee, which looks after strangers and gives them a welcome, a boon in a city to which so many sick and unfortunate victims of tuberculosis bend their steps. It also has a committee on prevention of cruelty to animals. The board is recognized by taxpayers and city government as an active factor in successful municipal government. Notwithstanding its splendid achievements it has no command of public funds, but such is its standing in the community that it has never had any trouble in raising sufficient money for its work.

THE SABBATH SCHOOL. International Lesson Comments For October 20. Subject: Joseph Exalted, Gen. xli, 33-50. Golden Text, I. Sam. ii, 39—Memory Verses, 39-41—Commentary on the Day's Lesson.

"Unto his servants." The kings of ancient Egypt were assisted in the management of their affairs by the advice of the most distinguished members of the present order; and, accordingly, before admitting Joseph to the new and extraordinary office that was to be created, those ministers were consulted as to the expediency and propriety of the appointment.

COMMERCIAL REVIEW. General Trade Conditions. R. G. Dun & Co.'s "Weekly Review of Trade" says: "Failure of a few over-capitalized industrial corporations to pay interest on their stock is no criterion of conditions in manufacturing, although an influence of some weight in the stock market. Reports from all sections of the country agree that there has seldom, if ever, been such vigorous prosecution of constructive work. Widely divergent lines exhibit similar symptoms."

"I am Pharaoh." This was the name as though he had said I am king; for "Pharaoh" is the common title of the sovereigns of Egypt. "Without thee," Joseph's authority was to be absolute and universal. Thus did God put honor upon this youth. Joseph had been tested and had stood the test. His integrity, courage, patience, faithfulness and faith in God had been thoroughly tried.

Godlike Gifts. God so loved that He gave. That is the expression, as it is the test of love. Giving—not receiving, not withholding, not condemning. We sinners can receive and withhold and condemn. Can we love? That is to be Godlike. God is love and whosoever loveth is born of God and knoweth God. God loved, and just because He loved He gave. Can we measure the love of God? Only by His love. Both are measureless.—Northwestern Christian Advocate.
