The Navigation of the Mouth of the Mississippi —The Government Appropriation Therefor—Large Amount of Goods Detained, &c.

I alluded in a recent letter to the failure of the joint resolution respecting the removal of obstructions to navigation at the mouth of the river Mississippi, by reason of its non-approval by the President. It was stated by Mr. Eustis, in support of the measure, on the 3d of March, that seventy ships with cargoes valued at twenty millions of dollars, were then detained by low waters, on the bars.—He also stated that the large sum of $250,000 had been expended by this government, not only without any *quid pro quo*, but to the serious injury of the commerce of New Orleans and the country at large, within the short space of nine months.

The act appropriating $330,000 for the work required, it seems, that it should be executed by contract. The object of the joint resolution was to authorize the Department to use the balance of the appropriation without the formalities of a contract, and the usual delay of advertising for bids. But as this failed, the work will be executed under the original act. The balance of the appropriation will be applied at once to the southwest pass alone. The contract, as I learn, is expected daily, as the bids were to have been opened on the 16th instant, at New Orleans.

This appropriation will, it is believed, afford relief to the navigation for a year certainly, and possibly for a longer time. The plan of the contractors, Craig & Brinton, as the wing dams were resorted to for effecting the opening of the channel over the bar, proved a failure; but a channel of 300 feet wide and 15 feet deep, at mean low water, was opened in the latter part of May last, a fact which is established by the inspection of Col. Long. This was effected by blasting the mud lumps, and by scraping with heavy harrows, constructed for the purpose.

The Mississippi, like other sedimentary streams, will on time, as long as it flows, to make deposits at its mouth; and it is stated that the amount of the same, for a single year, was twelve million cubic yards within the bar limits of the southwest pass, and about a million cubic yards on the base of Pass a l'Outre.

The existence of New Orleans, as the emporium of the southwest, depends upon energetic means for the removal of these obstructions. IOTA.

Government Appointments—Death—Incendiarism —Street Improvements—Alexandria Matters, &c.

It is understood that the President of the United States has appointed R. R. Last night about 10½ o'clock, during a storm of thunder and lightning, some vile incendiary applied the torch to two small frame houses in course of erection in an alley between 4½ and 6th streets, and D and E streets south. The houses were ready for the plasterer, but were burned to the ground. Parties living in the neighborhood, say boys running away from the locality spring fire!"

The crown of the western arch of the bridge nearly opposite the former residence of John Foy, Esq., New Jersey avenue, is giving way, and needs early repair.

Alexandria, Va., Friday Afternoon.—The city councils here met last night for the election of officers. Nearly all the old city officers were re-elected.

The directory of the Orange and Alexandria Railroad are now in session here. As this road advances to its termination at Lynchburg, public interest becomes awakened to its importance as a great national highway. Some 7 miles of this road out from Charlottesville is already laid. The contracts for all the bridges on the line have been let to a very efficient and energetic contractor.

The pulpits of the Methodist Protestant and Methodist Episcopal churches are expected to be filled on next Sabbath by the ministers recently appointed by their conferences held at Lewisburg, Va., and Georgetown, D. C.

Inmates of a Boarding-House Poisoned—Whig Meeting—Indictments—Large Sales of Cotton—A Great Race, &c.

Yesterday the inmates (12 in number) of the boarding-house at the corner of Fourteenth street and Fourth avenue, kept by Mrs. Beetham, were poisoned, as is supposed, from the coffee drank at breakfast. Mrs. Beetham died during the day, but all the others are in a fair way of recovery. It is not known whether the poisoning was intentional, or the result of carelessness.

Ex-Gov. Hunt, by invitation of the whig general committee, delivered an address last evening in Hope Chapel. An audience numbering about 500 was in attendance. Hiram Ketchum, Esq., presided, and Gov. Hunt urged the necessity of burying sectionalism and of uniting the opposition on broad national grounds. Mr. Ketchum also spoke and favored either Mr. Crittenden, Mr. Everett, or Gen. Scott, for the presidency.

Decision in the Maulsby Case.

In the matter of the application of Wm. P. Maulsby, Esq., for a writ of habeas corpus, to Judge Bartol, of the Court of Appeals of Maryland, the Judge, after full deliberation, decided to discharge the applicant from custody. His opinion and reasons for so doing will be filed hereafter and published.

It will be recollected that Col. Maulsby was fined $500, and committed to the custody of the sheriff, by Judge Nelson, in his court at Frederick, for contempt in not producing certain papers which had been committed to him as counsel for a party who was tried for forgery.

THE WAR OF THE CENTS.—The great question of the day with the Baltimoreans seem to be, as we gather from the journals,—shall we have city railroads at "three" or "five" cents fare? The people at large appear to be in favor of three cents, but the jobbers, speculators and politicians belong to the five cent party.—*N. Y. Express.*

Monetary and Commercial.

The present week has been a very monotonous one in the stock market. Prices are almost without the least variation, and the business very light from day to day. At New York there has been some little variation, prices improving somewhat on the receipt of what was deemed more peaceful foreign advices; but the movement has already subsided, and prices are about where they were before. The Western Roads generally are not doing a very encouraging business at this time, though the main Southwest lines, from East to West, are very successfully competing with their Northern rivals for such trade as there is. Both the Baltimore and Ohio and Pennsylvania Central Roads show increased receipts as compared with the same period last year. Some features of policy have been adopted by the Railroad Convention at Columbus, regulating the Southwestern lines in their through business, which are given in the proceedings in another column.

BALTIMORE stock has sold through the week at 59a 59¾, and closes 59¾ bid, cash—same as last week. Nor. Central RR shows a decline of ¼ for the week, selling and closing 16¾ cash. The investment demand for loans keeps them very firm, and 1890's have sold at 90¾ up to 91, and coupon 6's and 1875's at par—for 1886's the bid is 90¾. In Railroad bonds the business is light, but they are steady, with the exception of a decline of ⅛ in Nor. Central 1885's, which close at 87¾. B&O bonds are quite firm, and 1885's have brought 86¾a86¾. Northwestern (Va.) RR bonds generally are steady, with, however, a slight decline in 1st mortgage, which sold down to 9 ½—the 2d mortgage is steady at 70. Nothing doing in Central Ohio bonds. Bank stocks are very firm and in good inquiry, with moderate sales—some few show an advance.

There is no animation whatever in the money market at this time. Plenty offered on good security on call at 5 to 6 per cent, for 60 or 90 days. There is a scarcity of first class single or double named paper on the street, the rates for which are 6 to 7; good to fair endorsed 8 to 10 per cent. The offerings of the latter are free.

The movement of the banks in the four principal cities of the Union in which weekly reports are made, as shown by their last statements, is as follows:

	Loans.	Specie.	Circul'n	Depos's

The Sub-treasurer at New York has advices of a large amount of drafts drawn on him, of which $200,000 are in favor of the St. Louis Sub-treasury, and $300,000 go to Washington. Very few Treasury notes have been sent from the latter city for redemption.

The market at New York for foreign bills for to-day's steamer was steady, but not active. Sterling is 109¾a109¾. Francs 5.15a5.12½.

About $200,000 in specie will probably go by the steamer from New York to-day.

The imports of foreign merchandize into the port of Baltimore, the past week, amounted to $383,606 in value, of which $73,483 were duty-paying, and $315,-113 free goods. The exports of domestic produce for the week amounted to $99,778—included in which exports were 2893 bbls flour; 2300 bbls corn meal; 900 bushs corn; 15 tres and 6 bbls rice; 33 tres hams; 308 bbls pork; 51 bbls beef; 300 kegs butter; 600 pkgs lard; 48 hhds leaf tobacco; 279 tons coal; 2536 kegs powder; and $10,000 American gold.

STOCK PRICES AT PHILADELPHIA MARCH 24.

The stock market was steady and firm, but less active to-day, and prices generally show but little alteration. Pennsylvania bonds 5s sold at 93; City 6s, new, at 105¾; Reading R 6s '36 at 75½; Penna R 2d mort 6s at 94¾; Schuyl Nav 6s '82 at 75; Union Canal 6s at 34; Susq Canal 6s at 34½. Of shares, Reading R brought 24½; Penna R 43¼; Harrisburg R 6½; Lehigh Scrip 20¾.

The N. Y. Post of Thursday evening says:

"Within a few days we have noticed a slight tendency towards an advance in the rates of interest on long paper, and we are advised of transactions today, which, though not establishing an improvement, yet indicate that there is quite a general disposition to turn the cold shoulder on anything that is held at less than 6 per cent. Throughout last week 'gilt-edge' six months' paper went freely at 5½. In thirty and sixty-day acceptances there is no noticeable change, only offering being too meagre to enable lenders to get more than 5 per cent. With respect to the current business in demand loans we see no change worthy of note. The ruling rates on first class securities are 4½a5 per cent, with exceptions at 4 per cent instant call at 4 per cent."

"The stock market is less buoyant to-day. A cooler interpretation of the foreign news at hand yesterday does not, in the minds of many, seem to favor the peaceful interpretation which was at once spurred on the announcement of the buoyancy in Consols and the Continental funds. The reaction in the French Three per Cents, at the last moment, is regarded as an unfavorable feature, and the operators for a rise show a disposition to pause and secure the improvement established yesterday."

At Philadelphia, the Ledger says:

"The bill market is easy, the best paper going at about 6 per cent for short time. The supply of paper of several kinds is large, and the banks, notwithstanding the activity in all departments of trade, and nearly all of the really prime is taken by the banks, leaving little but the inferior grades for street negotiation, the rates for which rule at *from 7a10 per ct.*"

SHADE AND ORNAMENTAL TREES. —I have at my Nursery, in Washington city, a large number of *SHADE and ORNAMENTAL TREES*, suitable for Lawns and Cemeteries, imported from Europe, as Sycamore, Horse-Chestnuts and Catalpies. The Catalpies will bloom this summer. I have also a large number of Silver Leaf Maple—none such are to be found in the northern nurseries. The fact is that persons wishing to purchase, do not get delivered the trees ordered, or double the money for which I can afford to sell them. These trees are of all sizes—some of them from six to eight feet high in the clear—and well finished. I can ship at least 200 trees at present, and there will not be missed. I challenge the North and South to equal them as to quality and size. They will be sold on reasonable terms. Call and see for yourselves on Sixteenth street, near the President's Mansion.
